

## BlackRock Capital Investment Corporation Reports Financial Results for the Quarter and Year Ended December 31, 2018, Declares Quarterly Distribution of \$0.18 per Share

March 6, 2019

- GAAP Net Investment Income (NII) of \$0.17 per share providing fourth quarter distribution coverage of approximately 94%
- Net Asset Value (NAV) per share declined 7.7% or \$0.59 per share to \$7.07 per share on a quarter-over-quarter basis primarily due to net unrealized depreciation on certain legacy assets
- Net leverage of 0.36x was down reflecting a net reduction in investments. Total liquidity for portfolio company investments, including cash, was approximately \$252 million, subject to leverage and borrowing base restrictions
- Waiver of incentive management fees based on income extended until June 30, 2019
- Under our existing share repurchase program, we repurchased 1,986,014 shares of common stock for \$11.2 million at an average price of \$5.62, including brokerage commissions, via open market purchases in the fourth quarter.

NEW YORK--(BUSINESS WIRE)--Mar. 6, 2019-- BlackRock Capital Investment Corporation (NASDAQ:BKCC) ("BCIC" or the "Company," "we," "us" or "our") announced today that its Board of Directors declared a quarterly distribution of \$0.18 per share, payable on April 8, 2019 to stockholders of record at the close of business on March 18, 2019.

"We continued to execute upon our disciplined deployment strategy in the fourth quarter. Our net unrealized and realized losses of \$46 million (or \$0.66 per share) were largely concentrated in certain equity or equity-like legacy investments. Our investment in US Well alone resulted in \$20 million of unrealized loss. In connection with the November 2018 merger of US Well with a publicly traded entity (Nasdaq: USWS), our legacy equity in US Well was converted into publicly traded shares of USWS. The quarter-end valuation reflected the December 31, 2018 USWS closing price of \$6.50, subject to additional discounts for lock-up periods. The stock price of USWS has increased during Q1 2019 to-date and we anticipate that the valuation of our investment will continue to shift in-line with the quarter-end closing prices of the USWS stock. As the broad equity markets declined towards the end of the fourth quarter, the comparable multiples used in valuing some of the other investments also declined, contributing significantly to reduced valuations. We continue to work towards monetizing and exiting certain non-income producing legacy assets in our portfolio. We are seeking to create sales or natural exits of these assets in a manner that we believe to be in the best interest of our stockholders. We believe that exiting these positions will be accretive to our Net Investment Income and reduce the volatility in our portfolio valuation" commented James E. Keenan, Chairman and Interim CEO of BlackRock Capital Investment Corporation.

"The Company has now started to benefit from increased deal flow and added industry-specific expertise following the acquisition last year of Tennenbaum Capital Partners, or TCP, by the Company's adviser, BlackRock Capital Investment Advisors, LLC. The investment teams and investment processes for the Company and TCP affiliated funds have been integrated, and we believe that this will help add value for the Company's stockholders. As part of this integration, we are pleased to announce that Howard Levkowitz and Raj Vig, former managing partners of TCP, have joined the investment committee that supports the Company. As voting members, they bring vast experience and expertise in direct lending. Subsequent to the quarter-ended December 31, 2018, we have begun to co-invest with TCP affiliated funds, and we expect the frequency of co-investments to increase going forward. Additionally, we believe that a benefit of our ability to co-invest with TCP affiliated funds is to mitigate portfolio risk by increasing issuer and sector diversity.

"Under BlackRock's management of BCIC, from March 6, 2015 to December 31, 2018, we have deployed approximately \$962 million of capital, of which \$362 million has been exited with a realized IRR of 14.0%. Under our existing share repurchase program, during the fourth quarter, we invested approximately \$11.2 million in share repurchases at an average price of \$5.62 per share. With liquidity at \$252 million and no debt maturities until 2022, we have significant operating flexibility and deployment capacity."

## Business Updates

- Under our existing share repurchase program, during the fourth quarter of 2018, 1,986,014 shares were repurchased for \$11.2 million at an average price of \$5.62 per share, including brokerage commissions. The cumulative repurchases since BlackRock entered into the investment management agreement with the Company in early 2015 totaled approximately 7.2 million shares for \$49.9 million, representing 80.3% of total share repurchase activity, on a dollar basis, since inception. Since the inception of our share repurchase program through December 31, 2018, we have purchased 8.9 million shares at an average price of \$6.96 per share, including brokerage commissions, for a total of \$62.2 million. In April 2018, our Board of Directors authorized an additional 2.5 million shares for repurchase, effective July 1, 2018 until the earlier of June 30, 2019 or until such time that all of the authorized shares have been repurchased. Furthermore, in October 2018, an additional 3 million shares were authorized for repurchases, effective November 5, 2018 until the earlier of October 28, 2019 or until such time that all of the authorized shares have been repurchased.
- The non-core legacy asset book comprised 33% of our total portfolio by fair market value as of December 31, 2018. This is further broken down into income-producing investments, non-earning equities and non-accrual investments at 25%, 7% and 1% of the total portfolio, respectively by fair market value. Our investments in Vertellus Holdings, AGY Holding, Sur La Table, US Well Services and related issuers comprise 73% of the non-core book by fair market value.
- Waiver of our incentive management fee based on income, which previously ran through December 31, 2018, has been extended to June 30, 2019.

- We deployed \$32.0 million during the quarter while exits of investments totaled \$94.7 million, resulting in a \$62.7 million net decrease in our portfolio due to investment activity.
  - Our deployments were primarily concentrated in one new portfolio company investment and two investments into existing portfolio companies.
    - \$15.0 million funded L+7.50% second lien term loan to Outcomes Group Holdings, which is a specialized care management provider in the workers' compensation industry;
    - \$11.9 million of incremental L + 11.0% unsecured debt as well as \$0.4 million of preferred stock at 13.5% to Gordon Brothers Finance Company ("GBFC") to fund portfolio growth; and
    - \$2.5 million of incremental L + 6.00% first lien delayed draw term loan to United PF Holdings, LLC.
  - Our repayments were primarily concentrated in two portfolio company exits, two position exits, and one partial repayment:
    - \$19.0 million and \$8.2 million repayments of Pathway Partners Vet Management Company, LLC second lien term loan and second lien delayed draw term loan, respectively;
    - \$12.9 million repayment of K2 Pure Solutions Nocal, LP first lien term loan;
    - \$31.2 million and \$7.9 million cash repayments of U.S. Well Services, LLC first lien term loan and revolver, respectively; and
    - \$15.0 million partial repayment of unsecured debt to GBFC.
- Our \$96.3 million equity investment in Senior Loan Partners is generating a yield of approximately 11%. During the fourth quarter, Senior Loan Partners made investments into four new portfolio companies and four existing portfolio companies totaling \$57.5 million of new capital deployments during the quarter. Total committed capital and outstanding investments, at par, amounted to \$363.5 million and \$343.6 million, respectively, to 27 borrowers. The four new investments at par were (i) a \$12.0 million first lien term loan to Achilles Acquisition, LLC, a national employee benefits agency specializing in insurance for small-to-medium sized businesses, (ii) a \$10.0 million first lien term loan to NGS US Finco, LLC, an operation and maintenance provider of natural gas transmission networks in the US, (iii) an \$8.9 million first lien term loan to F.M.I. Intermediate Holdings, LLC, a vertically integrated provider of flight critical, complex structural assemblies and related manufacturing services for global commercial, military and business aircraft, and (iv) a \$8.0 million first lien term loan and a \$2.0 million unfunded delayed draw term loan to TLE Holdings, LLC, a developer of care and early education programs throughout the US. Incremental investments to existing portfolio companies primarily included (i) an additional \$8.5 million investment Crown Paper Group Inc., and (ii) an additional \$8.6 million investment in Digital Room, LLC.
- As of December 31, 2018, there were three non-accrual investment positions, representing approximately 1.6% and 7.1% of total debt and preferred stock investments, at fair value and cost, respectively, as compared to non-accrual investment positions of approximately 3.6% and 14.3% of total debt and preferred stock investments at fair value and cost, respectively, at December 31, 2017. Our average internal investment rating at fair market value at December 31, 2018 was 1.44 as compared to 1.31 as of the prior quarter end.
- During the quarter ended December 31, 2018, net realized and unrealized losses before tax were \$(46.4) million, primarily due to depreciation in portfolio valuations during the quarter. For the three months ended December 31, 2018, unrealized gains in a consolidated taxable subsidiary resulted in a decrease to our deferred tax liability of \$2.2 million.

#### Fourth Quarter Financial Updates

- GAAP net investment income ("NII") was \$11.8 million, or \$0.17 per share, and \$47.4 million, or \$0.66 per share, respectively, for the three months and year ended December 31, 2018. Relative to distributions declared of \$0.18 per

share, our NII distribution coverage was 94% for the quarter. For the full year 2018, relative to distributions declared of \$0.72 per share, our NII distribution coverage was 93%.

- As previously disclosed, our base management fee rate was reduced from an annual rate of 2.00% of total assets to 1.75% effective March 7, 2017. For the year ended December 31, 2018, \$8.5 million of incentive management fees based on income were earned by our investment adviser; however, as previously disclosed, any such fees earned until December 31, 2018 were waived by our investment adviser. This waiver has now been extended to June 30, 2019. Pursuant to the waiver, \$16.5 million of incentive management fees have been waived on a cumulative basis. During the year, there was no accrual for incentive management fees based on gains.
- The Company holds certain portfolio investments through taxable subsidiaries as pass through entities. Income earned and gains realized on the investment held by the taxable subsidiary are taxable to such subsidiary. For the three months ended December 31, 2018, a reversal of a deferred tax liability of \$2.2 million was included in net realized and unrealized gain (loss), primarily due to a depreciation in valuations on the portfolio investments held in a taxable subsidiary. For the year ended December 31, 2018, deferred tax had no impact to the Consolidated Statement of Operations.
- Tax characteristics of all 2018 distributions were reported to stockholders on Form 1099 after the end of the calendar year. Our 2018 distributions of \$0.72 per share were comprised of \$0.70 per share from various sources of income and \$0.02 per share of return of capital. Our return of capital distributions totaled \$1.98 per share from inception to December 31, 2018. At our discretion, we may carry forward taxable income in excess of calendar year distributions and pay a 4% excise tax on this income. We will accrue excise tax on estimated undistributed taxable income as required. There was no undistributed taxable income carried forward from 2018.

#### Liquidity and Capital Resources

- At December 31, 2018, we had \$13.5 million in cash and cash equivalents and \$238.6 million of availability under our credit facility, subject to leverage restrictions, resulting in approximately \$252.1 million of availability for portfolio company investments.
- Net leverage, adjusted for available cash, receivables for investments sold, payables for investments purchased and unamortized debt issuance costs, stood at 0.36x at quarter-end, and our 354% asset coverage ratio provided the Company with available debt capacity under its asset coverage requirements of \$293.4 million. Further, as of quarter-end, approximately 78% of our portfolio was invested in qualifying assets, exceeding the 70% regulatory requirement of a business development company.

#### Supplemental Information

The Company reports its financial results on a GAAP basis; however, management believes that evaluating the Company's ongoing operating results may be enhanced if investors have additional non-GAAP basis financial measures. Management reviews non-GAAP financial measures to assess ongoing operations and, for the reasons described below, considers them to be effective indicators, for both management and investors, of the Company's financial performance over time. The Company's management does not advocate that investors consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP.

Until March 6, 2017, the Company recorded its liability for incentive management fees based on income as it became legally obligated to pay them, based on a hypothetical liquidation at the end of each reporting period. The Company's obligation to pay incentive management fees with respect to any fiscal quarter until March 6, 2017 was based on a formula that reflects the Company's results over a trailing four-fiscal quarter period ending with the pro-rated period until March 6, 2017. The Company is legally obligated to pay the amount resulting from the formula less any cash payments of incentive management fees during the prior three quarters. The formula's requirement to reduce the incentive management fee by amounts paid with respect to such fees in the prior three quarters caused the Company's incentive management fee expense to become concentrated in the fourth quarter of each year. Management believes that reflecting incentive management fees throughout the year, as the related investment income is earned, is an effective measure of the Company's profitability and financial performance that facilitates comparison of current results with historical results and with those of the Company's peers. The Company's "as adjusted" results reflect incentive management fees based on the formula the Company utilizes for each trailing four-fiscal quarter period until March 6, 2017, with the formula applied to each quarter's incremental earnings and without any reduction for incentive management fees paid during the prior three quarters. The resulting amount represents an upper limit of each quarter's incremental incentive management fees that the Company may become legally obligated to pay at the end of the year. Prior year amounts are estimated in the same manner. These estimates represent upper limits because, in any calendar year, subsequent quarters' investment underperformance could reduce the incentive management fees payable by the Company with respect to prior quarters' operating results. After March 6, 2017, incentive management fees based on income have been calculated for each calendar quarter and are paid on a quarterly basis if certain thresholds are met. The Company records its liability for incentive management fees based on capital gains by performing a hypothetical liquidation at the end of each reporting period. The accrual of this hypothetical capital gains incentive management fee is required by GAAP, but it should be noted that a fee so calculated and accrued is not due and payable until the end of the measurement period, or every June 30. The incremental incentive management fees disclosed for a given period are not necessarily indicative of actual full year results. Changes in the economic environment, financial markets and other parameters used in determining such estimates could cause actual results to differ and such differences could be material. In addition, on March 7, 2017, BlackRock Advisors, in consultation with the Company's Board of Directors, agreed to waive incentive fees based on

income after March 6, 2017 to December 31, 2018, which has subsequently been extended to June 30, 2019. BCIA has agreed to honor such waiver. For a more detailed description of the Company's incentive management fee, please refer to the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2018, on file with the Securities and Exchange Commission ("SEC").

Computations for the periods below are derived from the Company's financial statements as follows:

Net Investment Income per share	0.17	0.20	0.66	0.75

Note: The NetInvestment Income amounts for the three and twelve months ended December 31, 2018 are net of incentive management fees based on income and a corresponding incentive management fee waiver in the amounts of \$2,356,899 and \$8,510,866, respectively. For the periods shown, there is no difference between the GAAP and as adjusted figures; however, there may be a difference in future periods.

- 1 Pre-Incentive Fee:** Amounts are adjusted to remove all incentive management fees. Such fees are calculated but not necessarily due and payable at this time.
- 2 As Adjusted:** Amounts are adjusted to remove the incentive management fee expense based on gains, as required by GAAP, and to include only the incremental incentive management fee expense based on Income. Until March 6, 2017, the incremental incentive management fee was calculated based on the current quarter's incremental earnings, and without any reduction for incentive management fees paid during the prior calendar quarters. After March 6, 2017, incentive management fee expense based on income has been calculated for each calendar quarter and may be paid on a quarterly basis if certain thresholds are met. Amounts reflect the Company's ongoing operating results and reflect the Company's financial performance over time.
