Record Date December 16, 2021

Pay Date January 6, 2022

Distribution Amount per share \$ 0.100000

A regular quarterly dividend of \$0.100000 per share declared by the Board of Directors of BlackRock Capital Investment Corporation (the "Company") on November 2, 2021 was paid on January 6, 2022 or reinvested pursuant to the Company's Automatic Dividend Reinvestment Plan. The following table sets forth the estimated amounts of the current distribution and the cumulative distributions paid this fiscal year to date from the following sources: net investment income, net realized short-term capital gains, net realized long-term capital gains and return of capital. All amounts are expressed per common share.

	Current Distribution	% Breakdown of the Current Distribution	Total Cumulative Distributions for the Fiscal Year to Date	% Breakdown of the Total Cumulative Distributions for the Fiscal Year to Date
Net Investment Income	\$ 0.079900	80%	\$ 0.267756	67%
Net Realized Short-Term Capital Gains	\$ -	0%	\$ -	0%
Net Realized Long-Term Capital Gains	\$ -	0%	\$ -	0%
Return of Capital	\$ 0.020100	20%	\$ 0.132244	33%
Total (per common share)	\$ 0.100000	100%	\$ 0.400000	100%

The Company estimates that it has distributed more than its income and net realized capital gains; therefore, a portion of your distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Company is paid back to you. A return of capital does not necessarily reflect the Company's investment performance and should not be confused with "yield" or "income". When distributions exceed total return performance, the difference will reduce the Company's net asset value per share.

This notice is not for tax reporting purposes and is being provided only for informational purposes in order to comply with the requirements of Section 19 of the Investment Company Act of 1940. Section 19 requires an investment company to accompany dividend payments with a notice if any part of that payment is from a source other than accumulated net investment income, not including profits or losses from the sale of securities or other properties. Each shareholder will receive a Form 1099-DIV following the end of the 2021 calendar year, which will reflect the actual amounts of income, capital gain and return of capital paid by the Company. Such amounts are taxable in calendar year 2021 and reportable on your 2021 federal and other income tax returns.
