APPROXIMATE DATE OF PROPOSED PUBLIC OFFERING:

From time to time after the effective date of this Registration Statement.

If any securities being registered on this form will be offered on a delayed or continuous basis in reliance on Rule 415 under the Securities Act of 1933, other than securities offered in connection with a dividend reinvestment plan, check the following box.

It is proposed that this filing will become effective (check appropriate box):

- when declared effective pursuant to section 8(c).

If appropriate, check the following box:

- This post-effective amendment designates a new effective date for a previously filed [post-effective amendment] [registration statement].
 This form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act and the Securities Act registration statement number of the earlier effective registration statement for the same offering is

CALCULATION OF REGISTRATION FEE UNDER THE SECURITIES ACT OF 1933

Title of Securities Being Registered	Amount Being Registered	Proposed Maximum Offering Price Per Unit	Proposed Maximum Aggregate Offering Price(1)	Amount of Registration Fee(2)
Common Stock, \$0.001 par value(3)(4)	\$	\$	\$	
Preferred Stock, \$0.001 par value(3)				
Warrants(5)				
Subscription Rights(3)				
Debt Securities(6)				
Units(7)				
Total			\$1,500,000,000(8)	\$174,150

- (1) Estimated pursuant to Rule 457 solely for the purposes of determining the registration fee. The proposed maximum offering price per security will be determined, from time to time, by the Registrant in connection with the sale by the Registrant of the securities registered under this registration statement.
- (2) Previously paid.
- (3) Subject to Note 8 below, there is being registered hereunder an indeterminate number of shares of common stock, preferred stock or subscription rights to purchase shares of common stock as may be sold, from time to time separately or as units in combination with other securities registered hereunder.
- (4) Includes such indeterminate number of shares of common stock as may, from time to time, be issued upon conversion or exchange of other securities registered hereunder, to the extent any such securities are, by their terms, convertible or exchangeable for common stock.
- (5) Subject to Note 8 below, there is being registered hereunder an indeterminate number of warrants as may be sold, from time to time separately or as units in combination with other securities registered hereunder, representing rights to purchase common stock, preferred stock or debt securities.
- (6) Subject to Note 8 below, there is being registered hereunder an indeterminate principal amount of debt securities as may be sold, from time to time separately or as units in combination with other securities registered hereunder.
- (7) Subject to Note 8 below, there is being registered hereunder an indeterminate number of units. Each unit may consist of a combination of any one or more of the securities being registered hereunder.
- (8) In no event will the aggregate offering price of all securities issued from time to time pursuant to this registration statement exceed \$1,500,000,000.

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer and sale is not permitted.

BLACKROCK KELSO CAPITAL CORPORATION

Common Stock

Preferred Stock

Warrants

Subscription Rights

Debt Securities

Units

We are an externally-managed, non-diversified closed-end management investment company. We have elected to be regulated as a business development company under the Investment Company Act of 1940.

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in middle-market companies in the form of senior and junior secured, unsecured and subordinated debt securities and loans, each of which may include an equity component, and by making direct preferred, common and other equity investments in such companies. We fund a portion of our investments with borrowed money, a practice commonly known as leverage. We can offer no assurances that we will continue to achieve our objective.

We are managed by BlackRock Kelso Capital Advisors LLC. BlackRock Financial Management, Inc. serves as our administrator.

We may offer, from time to time, in one or more offerings or series, together or separately, up to \$1,500,000,000 of our common stock, preferred stock, debt securities, warrants representing rights to purchase shares of our common stock, preferred stock or debt securities and subscription rights, or units comprised of any combination of the foregoing, which we refer to, collectively, as the “securities”. The preferred stock, warrants, subscription rights and debt securities (including as part of a unit) offered hereby may be convertible or exchangeable into shares of our common stock. The securities may be offered at prices and on terms to be described in one or more supplements to this prospectus. In the event we offer common stock, the offering price per share of our common stock less any underwriting commissions or discounts will not be less than the net asset value per share of our common stock at the time we make the offering except (1) in connection with a rights offering to our existing stockholders, (2) with the consent of the majority of our common stockholders and approval of our independent directors, or (3) under such circumstances as the Securities and Exchange Commission, or the SEC, may permit. Our stockholders approved at our 2011 Annual Meeting of Stockholders a proposal that authorizes us, with approval of our Board of Directors, to sell or otherwise issue shares of our common stock at a price below our then current net asset value per share in one or more offerings, subject to certain limitations, and we have included a similar proposal in the Proxy Statement for our 2012 Annual Meeting of Stockholders (the “Proxy Statement”), filed with the SEC on March 16, 2012. Sales of common stock below net asset value per share dilute the interests of existing stockholders, have the effect of reducing the net asset value per share and may reduce the market price per share of our common stock. See “Risks” beginning on page 11 and “Sales of Common Stock Below Net Asset Value” beginning on page 50.

Our common stock is traded on The NASDAQ Global Select Market under the symbol “BKCC”. The last reported closing price for our common stock on March 14, 2012 was \$10.22 per share. The net asset value per share of our common stock at December 31, 2011 (the last date prior to the date of this prospectus on which we determined net asset value) was \$9.58.

This prospectus, and the accompanying prospectus supplement, if any, sets forth the important information you should know before investing in our securities. Please read it before you invest and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission. This information is available free of charge by contacting us at 40 East 52nd Street, New York, NY 10022 or by telephone at (212) 810-5800 or on our website at www.blackrockkelso.com/InvestorRelations. The SEC also maintains a website at www.sec.gov that contains such information free of charge.

Investing in our securities involves a high degree of risk, including the risk of the use of leverage. Before investing in our securities, you should read the discussion of the material risks of investing in the Company in “[Risks](#)” beginning on page 11 of this prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

This prospectus may not be used to consummate sales of securities unless accompanied by a prospectus supplement.

Prospectus dated _____, 2012

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we have filed with the SEC using the “shelf” registration process. Under the shelf registration process, we may offer, from time to time, up to \$1,500,000,000 of our common stock, preferred stock, debt securities, warrants representing rights to purchase shares of our common stock, preferred stock or debt securities and subscription rights, or units comprised of any combination of the foregoing, on the terms to be determined at the time of the offering. The securities may be offered at prices and on terms described in one or more supplements to this prospectus. This prospectus provides you with a general description of the securities that we may offer. Each time we use this prospectus to offer securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. Please carefully read this prospectus and any prospectus supplement together with any exhibits and the additional information described under the headings “Additional Information” and “Risks” before you make an investment decision.

PROSPECTUS SUMMARY

This summary highlights some of the information in this prospectus. It is not complete and may not contain all of the information that you may want to consider. You should read the entire prospectus and the accompanying prospectus supplement, if any, carefully, including “Risks.” Throughout this prospectus, we refer to BlackRock Kelso Capital Corporation as the “Company,” “BlackRock Kelso,” “we,” “us” or “our.”

The Company

We provide middle-market companies with flexible financing solutions, including senior and junior secured, unsecured and subordinated debt securities and loans, and equity securities. Our strategy is to provide capital to meet our clients’ current and future needs across this spectrum, creating long-term partnerships with growing middle-market companies.

We are organized as an externally-managed, non-diversified closed-end management investment company. We have elected to be regulated as a business development company, or BDC, under the Investment Company Act of 1940, which we refer to as the 1940 Act. In addition, for tax purposes we intend to continue to qualify as a regulated investment company, or RIC, under the Internal Revenue Code of 1986, which we refer to as the Code.

Our investment objective is to generate both current income and capital appreciation through our debt and equity investments. We invest primarily in middle-market companies and target investments throughout the capital structure that we believe provide an attractive risk-adjusted return. The term “middle-market” refers to companies with annual revenues typically between \$50 million and \$1 billion. Our targeted investment typically ranges between \$10 million and \$50 million, although the investment sizes may be more or less than the targeted range and the size of our investments may grow with our capital availability. We generally seek to invest in companies that operate in a broad variety of industries and that generate positive cash flows.

Although most of our investments are in senior and junior secured, unsecured and subordinated loans to U.S. private and certain public middle-market companies, we invest throughout the capital structure, which may include common and preferred equity, options and warrants, credit derivatives, high-yield bonds, distressed debt and other structured securities. We may from time-to-time invest up to 30% of our assets opportunistically in other types of investments, including securities of other public companies and foreign securities.

The senior and junior secured loans in which we invest generally have stated terms of three to ten years and the subordinated debt investments we make generally have stated terms of up to ten years, but the expected average life of such senior and junior secured loans and subordinated debt is generally between three and seven years. However, we may invest in securities of any maturity or duration. The debt that we invest in typically is not initially rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade (rated lower than “Baa3” by Moody’s Investors Service, lower than “BBB-” by Fitch Ratings or lower than “BBB-” by Standard & Poor’s). We may invest without limit in debt of any rating, as well as debt that has not been rated by any nationally recognized statistical rating organization.

We were incorporated on April 13, 2005, commenced operations with private funding on July 25, 2005, and completed our initial public offering on July 2, 2007. Since the commencement of our operations, the team of investment professionals of BlackRock Kelso Capital Advisors LLC (the “Advisor” or “BlackRock Kelso Capital Advisors”), including our senior management, has evaluated more than 2,100 investment opportunities and completed 128 investments, aggregating approximately \$2.5 billion in capital provided to middle-market companies through December 31, 2011.

During the year ended December 31, 2011, we invested approximately \$401.5 million across twelve new and several existing portfolio companies. This compares to \$406.0 million across eight new and several existing

portfolio companies for the year ended December 31, 2010. Sales, repayments and other exits of investment principal totaled \$249.1 million during the year ended December 31, 2011, versus \$395.3 million during the year ended December 31, 2010.

At December 31, 2011, our net portfolio consisted of 54 portfolio companies and was invested 62% in senior secured loans, 16% in unsecured or subordinated debt securities, 11% in equity investments, 11% in senior secured notes and less than 1% in cash and cash equivalents. This compares to our portfolio of 50 portfolio companies which was invested 50% in senior secured loans, 26% in unsecured or subordinated debt securities, 14% in equity investments, 10% in senior secured notes and less than 1% in cash and cash equivalents at December 31, 2010. Our average portfolio company investment at amortized cost was approximately \$20.3 million at December 31, 2011, versus \$19.7 million at December 31, 2010.

The weighted average yield of the debt and income producing equity securities in our portfolio at fair value was 12.7% at December 31, 2011 and 12.4% at December 31, 2010. The weighted average yields on our senior secured loans and other debt securities at fair value were 12.2% and 13.5%, respectively, at December 31, 2011, versus 11.3% and 14.3% at December 31, 2010. The weighted average yield of the debt and income producing equity securities in our portfolio at their current cost basis was 11.9% at December 31, 2011 and 10.9% at December 31, 2010. The weighted average yields on our senior secured loans and other debt securities at their current cost basis were 12.0% and 11.4%, respectively, at December 31, 2011, versus 10.1% and 12.1% at December 31, 2010.

BlackRock Kelso Capital Advisors

Our investment activities are managed by the Advisor. The Advisor is responsible for sourcing potential investments, conducting research on prospective investments, analyzing investment opportunities, structuring our investments, and monitoring our investments and portfolio companies on an ongoing basis. The Advisor is led by James R. Maher, Chairman and Chief Executive Officer of the Company and the Advisor, and Michael B. Lazar, Chief Operating Officer of the Company and the Advisor. They are supported by the Advisor's team of employees, including 16 investment professionals who have extensive experience in commercial lending, investment banking, accounting, corporate law and private equity investing.

The Advisor has an investment committee comprised of 11 members, including Messrs. Maher and Lazar and several executives of BlackRock, Inc. ("BlackRock") and several of the principals of Kelso & Company, L.P. (the "Kelso Principals"). We benefit from the extensive and varied relevant experience of the BlackRock executives and the Kelso Principals serving on the Advisor's investment committee.

BlackRock is a leader in investment management, risk management and advisory services for institutional and retail clients worldwide. At December 31, 2011, BlackRock's assets under management were \$3.513 trillion.

The Kelso Principals have an average tenure of at least twenty years at Kelso & Company, L.P. ("Kelso"). Kelso is a leading private equity firm and since 1980 has raised over \$10 billion of committed private equity capital, investing primarily in middle-market companies across a broad range of industries and through different economic and interest rate environments. Through our relationship with the Kelso Principals, we have access to these management teams who can provide unique insight into the industries in which they operate. Although the Kelso Principals who serve on the investment committee bring the benefit of the expertise they have gained at Kelso and elsewhere, Kelso as an organization does not participate in the activities of the Advisor or advise us.

Our executive officers and directors and the employees of the Advisor and members of its investment committee serve or may serve as investment advisors, officers, directors or principals of entities or investment funds that operate in the same or a related line of business as we do and/or investment funds managed by our

affiliates. We note that any affiliated investment vehicle currently formed or formed in the future and managed by the Advisor or its affiliates may have overlapping investment objectives with our own and, accordingly, may invest in asset classes similar to those targeted by us. As a result, the Advisor and/or its affiliates may face conflicts in allocating investment opportunities between us and such other entities. Accordingly, we may not be given the opportunity to participate in certain investments made by investment funds managed by advisors affiliated with the Advisor. However, the Advisor and its affiliates will endeavor to allocate investment opportunities in a fair and equitable manner and consistent with applicable allocation procedures. In any such case, if the Advisor forms other affiliates in the future, we may co-invest on a concurrent basis with such other affiliates, subject to compliance with applicable regulations and regulatory guidance, as well as applicable allocation procedures. In certain circumstances, negotiated co-investments may be made only if we receive an order from the SEC permitting us to do so.

Administration

BlackRock, through its subsidiary, BlackRock Financial Management, Inc. (the “Administrator”), serves as our administrator and provides us with office space, equipment and office services. The Administrator processes our financial records, assists in the preparation of reports to our stockholders and reports filed with the SEC, and generally monitors the payment of our expenses.

Market opportunity

We believe there are abundant opportunities for investments in middle-market companies with attractive risk-adjusted returns for several reasons, including:

The current market environment may mean more favorable terms for investments in middle-market companies. We believe the tight supply of credit due to deleveraging by banks, hedge funds and structured investment vehicles, such as collateralized loan obligation (CLO) funds, will continue and that this situation provides a promising environment in which to originate investments in middle-market companies. We believe we are able to structure investments with lower leverage multiples, higher current returns, greater opportunity for equity appreciation, better prepayment protection, and more meaningful financial covenants than were typical in the past.

Middle-market companies have faced increasing difficulty in accessing the capital markets. While many middle-market companies were able to raise funds by raising debt in the capital markets in the past, we believe this approach to financing has become more difficult, as transactions have increased in size to address investors’ demands for greater liquidity in securities such as high yield bonds. In addition, we believe that many senior lenders have, in recent years, de-emphasized their service and product offerings to middle-market businesses in favor of lending to large corporate clients and managing large, liquid capital markets transactions.

There is a large pool of uninvested private equity capital likely to seek additional capital to support private investments. We believe there is a large pool of uninvested private equity capital available to middle-market companies. We expect that private equity firms will be active investors in middle-market companies and that these private equity firms will seek to supplement their equity investments with senior secured and junior loans and equity co-investments from other sources, such as us.

Middle-market companies are increasingly seeking private sources for debt and equity capital. We believe that many middle-market companies prefer to execute transactions with private capital providers such as us, rather than execute high-yield bond or equity transactions in the public markets, which may necessitate increased financial and regulatory compliance and reporting obligations.

Consolidation among commercial banks has reduced the focus on middle-market business. We believe that many senior lenders have de-emphasized their service and product offerings to middle-market companies in favor of lending to large corporate clients, managing capital markets transactions and providing other non-credit services to their customers.

Competitive advantages

We believe we possess the following competitive advantages over many other capital providers to middle-market companies:

Demonstrated ability to deploy capital consistent with our investment policies. Since our inception, the Advisor has invested in excess of \$2.5 billion across 128 portfolio companies with over 80 financial sponsors through December 31, 2011. We have a portfolio yield at fair value of approximately 12.7% at December 31, 2011. During 2011, we invested approximately \$401.5 million of gross assets across twelve new and several existing portfolio companies.

Proven transaction sourcing strategy. Since the Advisor's inception of operations, it has sourced and reviewed more than 2,100 potential investments and has a proven process through which it has invested in excess of \$2.5 billion through December 31, 2011. The Advisor identifies potential investments through its dynamic transaction origination efforts. The origination efforts include calling on financial institutions such as investment banks, commercial banks, specialty finance companies and private equity firms; as well as on advisory firms, trade associations and the owners and managers of middle-market companies with whom its investment professionals and investment committee members have relationships. In addition to its investment professionals, senior members of the Advisor's investment committee have relationships with a large and diverse group of financial intermediaries. We expect that our ability to leverage these relationships will continue to result in the referral of investment opportunities to us and provide us with a competitive advantage.

Highly experienced investment team. Our investment activities are carried out by BlackRock Kelso Capital Advisors and led by James R. Maher and Michael B. Lazar with guidance from the Advisor's investment committee. The investment committee is comprised of members of BlackRock and the Kelso Principals. Members of the investment committee and the Advisor's investment professionals have significant experience investing across market cycles and possess a broad range of transaction, financial, managerial and investment skills.

Access to BlackRock and Kelso Principals' broad investing capabilities. Our Advisor's relationship with BlackRock and the Kelso Principals provides access to extensive expertise across asset classes. The Advisor's investment committee and its team of dedicated investment professionals have had extensive experience in fixed-income, public equity and private equity investing.

Disciplined investment process with focus on preservation of capital. In making investment decisions, the Advisor employs a disciplined and selective review process that focuses on, among other things, a thorough analysis of the underlying issuer's business and the performance drivers of that business, as well as an assessment of the legal and economic features of each particular investment.

Cost-effective and high quality infrastructure. We benefit from the existing infrastructure and administrative capabilities of BlackRock. BlackRock serves as our administrator and provides us with office space, equipment and office services. Our relationship with BlackRock grants us access to BlackRock's fund administration platform, which we believe provides higher quality service and lower cost than traditionally available in the industry.

Leverage

We maintain a multi-currency \$375 million senior secured credit facility, which we refer to as our Credit Facility, with a group of lenders, under which we had approximately \$168 million of indebtedness outstanding at December 31, 2011. Availability under the Credit Facility consists of \$275 million in revolving loan commitments and \$100 million in term loan commitments. The term loan commitments have been fully drawn and may not be reborrowed once repaid. The Credit Facility has an “accordion” feature that allows the Company, under certain circumstances, to increase the size of the Credit Facility by up to an additional \$275 million of revolving loan commitments and \$250 million of term loan commitments. The Credit Facility has a stated maturity date of December 6, 2013 and the interest rate applicable to borrowings thereunder is generally LIBOR plus an applicable spread of either 3.00% or 3.25% for revolving loans, based on a pricing grid depending on the Company’s credit rating, and LIBOR plus 3.00% for term loans.

On January 18, 2011, we closed a private placement issuance of \$158 million in aggregate principal amount of five-year, senior secured notes with a fixed interest rate of 6.50% and a maturity date of January 18, 2016 and \$17 million in aggregate principal amount of seven-year senior secured notes with a fixed interest rate of 6.60% and a maturity date of January 18, 2018, which we refer to collectively as our Senior Secured Notes. Interest on the Senior Secured Notes is due semi-annually on January 18 and July 18. The proceeds from the issuance of the Senior Secured Notes were used to fund new portfolio investments, reduce outstanding borrowings under the Credit Facility and for general corporate purposes.

Risks

Investment in our securities involves a number of significant risks relating to our business and our investment objective that you should consider before investing in our securities.

A large number of entities and individuals compete for the same kind of investment opportunities as we do. Increased competition would make it more difficult for us to purchase or originate investments at attractive prices. As a result of this competition, sometimes we may be precluded from making otherwise attractive investments.

We borrow funds to make investments. As a result, we are exposed to the risks of borrowing, also known as leverage, which may be considered a speculative investment technique. Leverage magnifies the potential for gain and loss on amounts invested and therefore increases the risks associated with investing in our securities. Under the 1940 Act, we may not borrow money unless we maintain asset coverage for indebtedness and preferred stock of at least 200%, which may affect returns to stockholders.

Our Advisor and its affiliates, officers and employees may have certain conflicts of interest. The Advisor, its officers and employees and its investment committee serve or may serve as officers, directors or principals of entities that operate in the same or a related line of business or of investment funds managed by affiliates of the Advisor. Accordingly, these individuals may have obligations to investors in those entities or funds, the fulfillment of which might not be in our best interests or the best interests of our stockholders.

The potential for the Advisor to earn an incentive fee from time to time under the investment management agreement may create an incentive for the Advisor to make investments that are riskier or more speculative than would otherwise be the case. Substantially all of our portfolio of investments is illiquid. Our portfolio includes securities primarily issued by private companies. These investments may involve a high degree of business and financial risk; they are illiquid, and may not produce current returns or capital gains. If we were forced to immediately liquidate some or all of the investments in the portfolio, the proceeds of such liquidation could be significantly less than the current value of such investments. We may be required to liquidate some or all of our portfolio investments to meet our debt service obligations.

[Table of Contents](#)

The capital markets have experienced a period of disruption and instability. This may affect the ability of a portfolio company to repay its borrowings or to engage in a liquidity event, which is a transaction that involves the sale or recapitalization of all or part of a portfolio company. These conditions could lead to loss of investment returns and/or financial losses in our portfolio and a decrease in our revenues, net income and assets. Numerous other factors may affect a borrower's ability to repay its loan, including the failure to meet its business plan, a downturn in its industry or negative economic conditions.

To maintain our status as a BDC, we must not acquire any assets other than "qualifying assets" unless, at the time of and after giving effect to such acquisition, at least 70% of our total assets are qualifying assets.

We may not be able to pay dividends and failure to qualify as a RIC for tax purposes could have a material adverse effect on the income available for debt service and distributions to our stockholders, which may have a material adverse effect on our total return to common stockholders, if any.

Also, we are subject to certain risks associated with valuing our portfolio, changing interest rates, accessing additional capital, fluctuating financial results, and operating in a regulated environment.

The market value of our securities may be volatile due to market factors that may be beyond our control.

Company information

Our administrative and executive offices are located at 40 East 52nd Street, New York, NY 10022, and our telephone number is (212) 810-5800.

FEES AND EXPENSES

The following table will assist you in understanding the various costs and expenses that an investor in shares of our common stock will bear directly or indirectly. However, we caution you that some of the percentages indicated in the table below are estimates and may vary. The following table should not be considered a representation of our future expenses. Actual expenses may be greater or less than shown. Except where the context suggests otherwise, whenever this prospectus contains a reference to fees or expenses paid by “you” or “us” or that “we” will pay fees or expenses, stockholders will indirectly bear such fees or expenses as investors in the Company.

Stockholder Transaction Expenses	
Sales Load (as a percentage of offering price)	%(1)
Offering Expenses (as a percentage of offering price)	%(2)
Total Common Stockholder Expenses (as a percentage of offering price)	%(3)
Estimated Annual Expenses (as a Percentage of Net Assets Attributable to Common Shares)(4)	
Management Fees	3.09%(5)
Incentive Fees Payable Under the Investment Management Agreement	1.69%(6)
Interest Payments on Borrowed Funds	2.72%(7)
Other Expenses	1.11%(8)
Total Annual Expenses	<u>8.61%(9)</u>

- (1) In the event that the securities to which this prospectus relates are sold to or through underwriters, a corresponding prospectus supplement will disclose the applicable sales load.
- (2) The related prospectus supplement will disclose the estimated amount of offering expenses, the offering price and the offering expenses borne by us as a percentage of the offering price.
- (3) The expenses of our dividend reinvestment plan are included in “Other Expenses.”
- (4) “Net Assets Attributable to Common Shares” equals our net assets at December 31, 2011.
- (5) Our management fee is 2.0% of our total assets, payable quarterly in arrears based on our total assets at the beginning of the quarter. “Management Fees” reflected in the table above is based on our total assets at December 31, 2011. See “The Advisor.”
- (6) These Incentive Fees are based on actual amounts incurred during the year ended December 31, 2011, as our Incentive Fees are currently expected to be concentrated in the fourth quarter of each year. However, the Incentive Fee is based on our performance, will vary from year to year and will not be paid unless our performance exceeds certain thresholds. As we cannot predict whether we will meet these thresholds, the Incentive Fees paid in future years, if any, may be substantially different than the fee incurred during the year ended December 31, 2011. For more detailed information about the Incentive Fee, please see the section of this prospectus captioned “The Advisor” and Note 3 to our financial statements included elsewhere in this prospectus.
- (7) “Interest Payments on Borrowed Funds” represents interest and credit facility fees incurred and amortization of debt issuance costs during the twelve months ended December 31, 2011. Our average outstanding debt balance during the twelve months ended December 31, 2011 was approximately \$291.4 million. The Credit Facility allows us to increase commitments thereunder up to an additional \$525 million. In addition, on January 18, 2011 we issued \$158 million of Senior Secured Notes with an interest rate of 6.50% and a maturity date of January 18, 2016 and \$17 million of Senior Secured Notes with an interest rate of 6.60% and a maturity date of January 18, 2018. As a result, our interest payments on borrowed funds as a percentage of net assets attributable to common shares may increase.
- (8) “Other Expenses” includes our overhead expenses, including expenses of the Advisor reimbursable under the investment management agreement and of the Administrator reimbursable under the administration agreement. Such expenses are based on actual other expenses for the twelve months ended December 31, 2011.

- (9) “Total Annual Expenses” as a percentage of net assets attributable to common shares are higher than the total annual expenses percentage would be for a company that is not leveraged. We borrow money to leverage our net assets and increase our total assets. The SEC requires that the “Total Annual Expenses” percentage be calculated as a percentage of net assets (defined as total assets less indebtedness), rather than the total assets, including assets that have been funded with borrowed monies. If the “Total Annual Expenses” percentage were calculated instead as a percentage of total assets, our “Total Annual Expenses” would be 5.55% of total assets. For a presentation and calculation of total annual expenses based on total assets, see page 39 of this prospectus.

Example

The following example illustrates the projected dollar amount of total cumulative expenses that you would pay on a \$1,000 hypothetical investment in common shares, assuming (1) a 4.50% sales load (underwriting discounts and commissions) and offering expenses totaling 0.20%, (2) total net annual expenses of 6.92% of net assets attributable to common shares as set forth in the table above (other than Incentive Fees), and (3) a 5% annual return:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Total Expenses Incurred	\$ 112	\$ 239	\$ 361	\$ 647

This example and the expenses in the table above should not be considered a representation of our future expenses. Actual expenses may be greater or less than those assumed. The foregoing table is to assist you in understanding the various costs and expenses that an investor in our common stock will bear directly or indirectly. While the example assumes, as required by the SEC, a 5% annual return, our performance will vary and may result in a return greater or less than 5%. Assuming a 5% annual return, the Incentive Fee under the investment management agreement would not be earned or payable and is not included in the example. If we achieve sufficient returns on our investments, including through the realization of capital gains, to trigger an Incentive Fee of a material amount, our expenses, and returns to our investors, would be higher. In addition, while the example assumes reinvestment of all dividends and distributions at net asset value, participants in our dividend reinvestment plan will receive a number of shares of our common stock, determined by dividing the total dollar amount of the dividend payable to a participant by 95% of the market price per share of our common stock at the close of trading on the valuation date for the dividend. See “Dividend Reinvestment Plan” for additional information regarding our dividend reinvestment plan.

SELECTED FINANCIAL DATA

The Statement of Operations Data, Per Share Data and Balance Sheet Data for each of the five years in the period ended December 31, 2011 are derived from our financial statements which have been audited by Deloitte & Touche LLP, our independent registered public accounting firm. This selected financial data should be read in conjunction with our financial statements and related notes thereto and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Senior Securities” included elsewhere in this prospectus.

	Year ended December 31,				
	2011	2010	2009	2008	2007
(Dollars in thousands, except per share data)					
Statement of Operations Data:					
Total Investment Income	\$ 131,503	\$ 105,871	\$ 124,884	\$ 143,196	\$ 127,776
Net Expenses (including excise taxes):					
Before Base Management Fee Waiver	58,624	46,020	48,831	48,093	53,987
After Base Management Fee Waiver(1)	58,624	46,020	48,831	48,093	51,930
Net Investment Income	72,879	59,851	76,053	95,103	75,846
Net Realized and Unrealized Gain (Loss)	4,042	11,699	(8,813)	(245,610)	(59,626)

Value of Investments at Period End	\$1,048,952	\$880,086	\$846,742	\$ 926,845	\$1,098,261
Yield on Investments at Period End(4)	11.9%	10.9%	11.2%	11.0%	12.4%

(1) The base management fee waiver terminated on June 30, 2007.

(2) Our common stock commenced trading on The NASDAQ Global Select Market on June 27, 2007. There was no established public trading market for the stock prior to that date.

(3) For the years ended December 31, 2011, 2010, 2009 and 2008, total return is based on the change in market price during the respective periods. For the year ended December 31, 2007, total return is based on the change in net asset value per common share. The total return for the period June 26, 2007 through December 31, 2007 based on the change in market price per common share during such period was 1.2%. Total return calculations take into account dividends and distributions, if any, reinvested in accordance with our dividend reinvestment plan and do not reflect brokerage commissions. Total return is not annualized.

- (4) Yield on investments at period end represents the weighted average yield on the debt and income producing equity securities in our portfolio at their current cost basis. Yields are computed using interest rates and dividend yields as of the balance sheet date and include amortization of loan origination and commitment fees, original issue discount and market premium or discount based on the expected cash flows of the respective portfolio investment. Yields exclude common equity investments, preferred equity investments with no stated dividend rate, short-term investments, cash and cash equivalents.

RISKS

Before you invest in our securities, you should be aware of various risks, including those described below. You should carefully consider these risk factors, together with all of the other information included in this prospectus and the accompanying prospectus supplement, if any, before you decide whether to make an investment in our securities. The risks set out below are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results. If any of the following events occur, our business, financial condition and results of operations could be materially adversely affected. In such case, the net asset value and the market price per share of our common stock could decline or the value of our preferred stock, debt securities, warrants, subscription rights or units comprised of any combination of the foregoing may decline, and you may lose all or part of your investment.

Risks Related to Our Business

We may be unable to achieve our investment objective if we are unable to manage our investments effectively.

Our ability to achieve our investment objective depends on our ability to manage our business, which depends, in turn, on the ability of the Advisor to identify, invest in and monitor companies that meet our investment criteria. Accomplishing this result is largely a function of the Advisor's investment process and, in conjunction with the Administrator, its ability to provide competent, attentive and efficient services to us. Our executive officers and many of the members of the Advisor's investment committee have substantial responsibilities to other clients in addition to their activities and responsibilities on our behalf. The investment professionals dedicated to us may also be required to provide managerial assistance to our portfolio companies. These demands on their time may distract them or slow our rate of investment. Any failure to manage our business effectively could have a material adverse effect on our business, financial condition and results of operations.

We operate in a highly competitive market for investment opportunities.

A number of entities compete with us to make the types of investments that we make. We compete with other BDCs, public and private funds, commercial and investment banks, CLO funds, commercial financing companies, insurance companies, high yield investors, hedge funds and, to the extent they provide an alternative form of financing, private equity funds. Many of our competitors are substantially larger and have considerably greater financial, technical and marketing resources than we do. Some competitors may have a lower cost of funds and access to funding sources that are not available to us. In addition, some of our competitors may have higher risk tolerances or different risk assessments, which could allow them to consider a wider variety of investments and establish more relationships than us. Furthermore, many of our competitors are not subject to the regulatory restrictions that the 1940 Act imposes on us as a BDC and that the Code imposes on us as a RIC. We cannot assure you that the competitive pressures we face will not have a material adverse effect on our business, financial condition and results of operations. Also, as a result of this competition, we may not be able to pursue attractive investment opportunities from time to time.

We are dependent upon senior management personnel of our investment advisor for our future success, and if our investment advisor is unable to hire and retain qualified personnel or if our investment advisor loses any member of its senior management team, our ability to achieve our investment objective could be significantly harmed.

We depend on the members of senior management of the Advisor, particularly its Chairman and Chief Executive Officer, James R. Maher, and its Chief Operating Officer, Michael B. Lazar, as well as other key personnel for the identification, final selection, structuring, closing and monitoring of our investments. These employees of the Advisor have critical industry experience and relationships that we rely on to implement our

[Table of Contents](#)

business plan. Our future success depends on the continued service of our Advisor's senior management team. The departure of any of the members of our Advisor's senior management or a significant number of the members of its investment team could have a material adverse effect on our ability to achieve our investment objective. As a result, we may not be able to operate our business as we expect, and our ability to compete could be harmed, which could cause our operating results to suffer. In addition, we can offer no assurance that BlackRock Kelso Capital Advisors LLC will remain our investment advisor, that BlackRock Financial Management, Inc. will remain our administrator or that we will continue to have access to BlackRock's investment professionals or the Kelso Principals.

Our investment adviser has the right to resign on 60 days' notice, and we may not be able to find a suitable replacement within that time, resulting in a disruption in our operations that could adversely affect our business, financial condition and results of operations.

Our investment adviser has the right, under our investment management agreement, to resign at any time upon not less than 60 days' written notice, whether we have found a replacement or not. If our investment adviser resigns, we may not be able to find a new investment adviser or hire internal management with similar expertise and ability to provide the same or equivalent services on acceptable terms within 60 days, or at all. If we are unable to do so quickly, our operations are likely to experience a disruption, our business, financial condition and results of operations as well as our ability to pay distributions are likely to be adversely affected and the market price of our shares may decline. In addition, the coordination of our internal management and investment activities is likely to suffer if we are unable to identify and reach an agreement with a single institution or group of executives having the expertise possessed by our investment adviser and its affiliates. Even if we are able to retain comparable management, whether internal or external, the integration of such management and their lack of familiarity with our investment objective may result in additional costs and time delays that may adversely affect our business, financial condition and results of operations.

Capital markets have experienced a period of disruption and instability. These market conditions have materially and adversely affected debt and equity capital markets in the United States and abroad, which had, and may in the future have, a negative impact on our business and operations.

The global capital markets have experienced a period of disruption as evidenced by a lack of liquidity in the debt capital markets, write-offs in the financial services sector, the re-pricing of credit risk and the failure of certain major financial institutions. Despite actions of the United States federal government and foreign governments, these events contributed to worsening general economic conditions that have materially and adversely impacted the broader financial and credit markets and reduced the availability of debt and equity capital for the market as a whole and financial services firms in particular. While the adverse effects of these conditions have abated to a degree, global financial markets have experienced significant volatility following the downgrade by Standard & Poor's on August 5, 2011 of the long-term credit rating of U.S. Treasury debt from AAA to AA+. During such market disruptions, we may have difficulty raising debt or equity capital especially as a result of regulatory constraints.

Market conditions may in the future make it difficult to extend the maturity of or refinance our existing indebtedness and any failure to do so could have a material adverse effect on our business. The illiquidity of our investments may make it difficult for us to sell such investments if required. As a result, we may realize significantly less than the value at which we have recorded our investments. In addition, significant changes in the capital markets, including the disruption and volatility, have had, and may in the future have, a negative effect on the valuations of our investments and on the potential for liquidity events involving our investments. An inability to raise capital, and any required sale of our investments for liquidity purposes, could have a material adverse impact on our business, financial condition and results of operations.

[Table of Contents](#)

Price declines and illiquidity in the corporate debt markets have adversely affected, and may in the future adversely affect, the fair value of our portfolio investments, reducing our net asset value through increased net unrealized depreciation.

As a BDC, we are required to carry our investments at market value or, if no market value is ascertainable, at fair value as determined in good faith by or under the direction of our Board of Directors. Decreases in the market values or fair values of our investments are recorded as unrealized depreciation, which reduces our net asset value. Depending on market conditions, we could incur substantial realized losses and may suffer additional unrealized losses in future periods, which could have a material adverse impact on our business, financial condition and results of operations.

The recent downgrade of the U.S. credit rating and uncertainty about the financial stability of several countries in the European Union (EU) could have a significant adverse effect on our business, results of operations and financial condition.

Due to the current federal budget deficit concerns, S&P downgraded the federal government's credit rating from AAA to AA+ for the first time in history on August 5, 2011. This downgrade could lead to subsequent downgrades by S&P, as well as to downgrades by the other two major credit rating agencies, Moody's and Fitch Ratings. These developments, and the government's credit concerns in general, could cause interest rates and borrowing costs to rise, which may negatively impact both the perception of credit risk associated with our debt portfolio and our ability to access the debt markets on favorable terms. In addition, a decreased credit rating could create broader financial turmoil and uncertainty, which may weigh heavily on our stock price and our financial performance.

In 2010, a financial crisis emerged in Europe, triggered by high budget deficits and rising direct and contingent sovereign debt in Greece, Ireland, Italy, Portugal and Spain, which created concerns about the ability of these EU "peripheral nations" to continue to service their sovereign debt obligations. Despite assistance packages to Greece, Ireland and Portugal, the creation of a joint EU-IMF European Financial Stability Facility in May 2010, and a recently announced plan to expand financial assistance to Greece, uncertainty over the outcome of the EU governments' financial support programs and worries about sovereign finances persist. Risks and ongoing concerns about the debt crisis in Europe could have a detrimental impact on the global economic recovery, sovereign and non-sovereign debt in these countries and the financial condition of European financial institutions. Market and economic disruptions have affected, and may continue to affect, consumer confidence levels and spending, personal bankruptcy rates, levels of incurrence and default on consumer debt and home prices, among other factors. There can be no assurance that the market disruptions in Europe, including the increased cost of funding for certain governments and financial institutions, will not spread, nor can there be any assurance that future assistance packages will be available or, even if provided, will be sufficient to stabilize the affected countries and markets in Europe or elsewhere. To the extent uncertainty regarding the economic recovery continues to negatively impact consumer confidence and consumer credit factors, our business and results of operations could be significantly and adversely affected.

In addition to regulatory restrictions that restrict our ability to raise capital, our debt arrangements contain various covenants which, if not complied with, could accelerate repayment of our debt, thereby materially and adversely affecting our liquidity, financial condition and results of operations.

The agreements governing our Credit Facility and Senior Secured Notes require us to comply with certain financial and operational covenants. These covenants include:

- restrictions on the level of indebtedness that we are permitted to incur in relation to the value of our assets;
- restrictions on our ability to incur liens; and
- maintenance of a minimum level of stockholders' equity.

[Table of Contents](#)

As of December 31, 2011, we were in compliance with all applicable covenants for our outstanding borrowings. However, our continued compliance with these covenants depends on many factors, some of which are beyond our control. Accordingly, there are no assurances that we will continue to comply with the covenants in our debt arrangements. Failure to comply with these covenants would result in a default under these arrangements which, if we were unable to obtain a waiver from the lenders thereunder, could result in an acceleration of repayments on our debt and thereby have a material adverse impact on our business, financial condition and results of operations.

The disposition of our investments may result in contingent liabilities.

Most of our investments will involve private securities. In connection with the disposition of an investment in private securities, we may be required to make representations about the business and financial affairs of the portfolio company typical of those made in connection with the sale of a business. We may also be required to indemnify the purchasers of such investment to the extent that any such representations turn out to be inaccurate or with respect to certain potential liabilities. These arrangements may result in contingent liabilities that ultimately yield funding obligations that must be satisfied through our return of certain distributions previously made to us. There are no such contingent liabilities in place at December 31, 2011.

Substantially all of our assets are subject to security interests under our borrowings and if we default on our obligations, we may suffer adverse consequences, including the lenders foreclosing on our assets.

As of December 31, 2011, substantially all of our assets were pledged as collateral under our Credit Facility. If we default on our obligations, the lenders may have the right to foreclose upon and sell, or otherwise transfer, the collateral subject to their security interests. In such event, we may be forced to sell our investments to raise funds to repay our outstanding borrowings in order to avoid foreclosure and these forced sales may be at times and at prices we would not consider advantageous. Moreover, such deleveraging of our company could significantly impair our ability to effectively operate our business in the manner in which we have historically operated. As a result, we could be forced to curtail or cease new investment activities and lower or eliminate the dividends that we pay to our stockholders.

In addition, if the lenders exercise their right to sell the assets pledged under our borrowings, such sales may be completed at distressed sale prices, thereby diminishing or potentially eliminating the amount of cash available to us after repayment of the amounts outstanding.

Our Credit Facility matures in December 2013 and any inability to renew, extend or replace our Credit Facility could adversely impact our liquidity and ability to find new investments or maintain distributions to our stockholders.

We maintain a multi-currency \$375 million senior secured credit facility with a group of lenders, under which we had approximately \$168 million of indebtedness outstanding at December 31, 2011. Availability under our Credit Facility consists of \$275 million in revolving loan commitments and \$100 million in term loan commitments. The Credit Facility has a stated maturity date of December 6, 2013. There can be no assurance that we will be able to renew, extend or replace the Credit Facility upon its maturity on terms that are favorable to us, if at all. Our ability to renew, extend or replace the Credit Facility will be constrained by then-current economic conditions affecting the credit markets. In the event that we are not able to renew, extend or replace the Credit Facility at the time of its maturity, this could have a material adverse effect on our liquidity and ability to fund new investments, our ability to make distributions to our stockholders and our ability to qualify as a RIC.

Our five-year Senior Secured Notes mature in January 2016 and our seven-year Senior Secured Notes mature in January 2018, and any inability to replace or repay our Senior Secured Notes could adversely impact our liquidity and ability to fund new investments or maintain distributions to our stockholders.

In January 2011, we closed a private placement issuance of \$158 million in aggregate principal amount of five-year, senior secured notes with a fixed interest rate of 6.50% and a maturity date of January 18, 2016 and

[Table of Contents](#)

\$17 million in aggregate principal amount of seven-year senior secured notes with a fixed interest rate of 6.60% and a maturity date of January 18, 2018. There can be no assurance that we will be able to replace the Senior Secured Notes upon their maturity on terms that are favorable to us, if at all. Our ability to replace the Senior Secured Notes will be constrained by then-current economic conditions affecting the credit markets. In the event that we are not able to replace or repay the Senior Secured Notes at the time of their maturity, this could have a material adverse effect on our liquidity and ability to fund new investments, our ability to make distributions to our stockholders and our ability to qualify as a RIC.

If we incur additional debt, it could increase the risk of investing in our common stock.

We have indebtedness outstanding pursuant to our Credit Facility and expect, in the future, to borrow additional amounts under our Credit Facility and may increase the size of our Credit Facility. In January 2011, we closed a private placement of \$175 million of our Senior Secured Notes. Lenders under our Credit Facility and Senior Secured Notes have fixed dollar claims on our assets that are superior to the claims of our common stockholders or any preferred stockholders, and we have granted a security interest in our assets in connection with our borrowings. In the case of a liquidation event, those lenders would receive proceeds before our stockholders. In addition, borrowings, also known as leverage, magnify the potential for gain or loss on amounts invested and, therefore, increase the risks associated with investing in our common stock. Leverage is generally considered a speculative investment technique. If the value of our assets increases, then leveraging would cause the net asset value attributable to our common stock to increase more than it otherwise would have had we not leveraged. Conversely, if the value of our assets decreases, leveraging would cause the net asset value attributable to our common stock to decline more than it otherwise would have had we not leveraged. Similarly, any increase in our revenue in excess of interest expense on our borrowed funds would cause our net income to increase more than it would without the leverage. Any decrease in our revenue would cause our net income to decline more than it would have had we not borrowed funds and could negatively affect our ability to make distributions on our common stock. Our ability to service any debt that we incur depends largely on our financial performance and is subject to prevailing economic conditions and competitive pressures.

As a BDC, we generally are required to meet a coverage ratio of total assets to total borrowings and other senior securities, which include all of our borrowings and any preferred stock we may issue in the future, of at least 200%. If this ratio declines below 200%, we may not be able to incur additional debt and may need to sell a portion of our investments to repay some debt when it is disadvantageous to do so, and we may not be able to make distributions.

Illustration. The following table illustrates the effect of leverage on returns from an investment in our common stock assuming various annual returns, net of expenses. The calculations in the table below are hypothetical and actual returns may be higher or lower than those appearing below. The calculation is based on our level of borrowing at December 31, 2011, which represented borrowings equal to 31% of our total assets. On such date, we also had \$1,091 million in total assets; an average cost of funds of 5.06%; \$343 million in debt outstanding; and \$701 million of total net assets. In order to compute the “Corresponding Return to Common Stockholders,” the “Assumed Return on Portfolio (Net of Expenses Other than Interest)” is multiplied by the total value of our assets at December 31, 2011 to obtain an assumed return to us. From this amount, the interest expense calculated by multiplying the interest rate of 5.06% by the \$343 million debt is subtracted to determine the return available to stockholders. The return available to stockholders is then divided by the total value of our net assets at December 31, 2011 to determine the “Corresponding Return to Common Stockholders.” Actual interest payments may be different.

<u>Assumed Return on Portfolio (Net of Expenses Other than Interest)(1)</u>	<u>-10%</u>	<u>-5%</u>	<u>0%</u>	<u>5%</u>	<u>10%</u>
Corresponding Return to Common Stockholders	-18.0%	-10.3%	-2.5%	5.3%	13.1%

(1) The assumed portfolio return in the table is based on SEC regulations and is not a prediction of, and does not represent, our projected or actual performance. The table also assumes that we will maintain a constant level of leverage. The amount of leverage that we use will vary from time to time.

Our use of borrowed funds to make investments exposes us to risks typically associated with leverage.

We borrow money and may issue additional debt securities or preferred stock to leverage our capital structure. As a result:

- shares of our common stock are exposed to incremental risk of loss; therefore, a decrease in the value of our investments would have a greater negative impact on the value of our common shares than if we did not use leverage;
- adverse changes in interest rates could reduce or eliminate the incremental income we make with the proceeds of any leverage;
- our ability to pay dividends on our common stock will be restricted if our asset coverage ratio is not at least 200% and any amounts used to service indebtedness or preferred stock may not be available for such dividends;
- such securities are governed by an indenture or other instrument containing covenants restricting our operating flexibility;
- we, and indirectly our stockholders, bear the cost of issuing and paying interest or dividends on such securities; and
- any convertible or exchangeable securities that we issue may have rights, preferences and privileges more favorable than those of our common stock.

There is a risk that we may not make distributions and consequently will be subject to corporate-level income tax.

We intend to make distributions on a quarterly basis to our stockholders out of assets legally available for distribution. We may not be able to achieve operating results that will allow us to make distributions at a specific level or to increase the amount of these distributions from time to time. In addition, due to the asset coverage test applicable to us as a BDC, we may be limited in our ability to make distributions. Also, restrictions and provisions in our existing and any future debt arrangements may limit our ability to make distributions. If we do not distribute a certain percentage of our income annually, we could fail to qualify for tax treatment as a RIC, and we would be subject to corporate-level federal income tax. See “Material U.S. Federal Tax Matters.” We cannot assure you that you will receive distributions at a particular level or at all.

We may have difficulty paying our required distributions if we recognize income before or without receiving cash representing such income.

In accordance with U.S. generally accepted accounting principles, or GAAP, and tax regulations, we include in income certain amounts that we have not yet received in cash, such as payment-in-kind, or PIK, interest, which represents contractual interest added to the loan balance and due at the end of the loan term. The increases in loan balances as a result of contracted payment-in-kind arrangements are included in income for the period in which such PIK interest was received, which is often in advance of receiving cash payment. We also may be required to include in income certain other amounts that we will not receive in cash. Any warrants that we receive in connection with our debt investments are generally valued as part of the negotiation process with the particular portfolio company. As a result, a portion of the aggregate purchase price for the debt investments and warrants are allocated to the warrants that we receive. This will generally result in “original issue discount” for tax purposes, which we must recognize as ordinary income, increasing the amounts we are required to distribute to qualify for the federal income tax benefits applicable to RICs. Because such original issue discount income would not be accompanied by cash, we would need to obtain cash from other sources to satisfy such distribution requirements. If we are unable to obtain cash from other sources to satisfy such distribution requirements, we may fail to qualify for favorable tax treatment as a RIC and, thus, could become subject to a corporate-level income tax on all of our income. Other features of the debt instruments that we hold may also cause such instruments to generate original issue discount, resulting in a dividend distribution requirement in excess of

[Table of Contents](#)

current cash received. Since in certain cases we may recognize income before or without receiving cash representing such income, we may have difficulty meeting the requirement to distribute at least 90% of our net ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any. If we are unable to meet these distribution requirements, we will not qualify for favorable tax treatment as a RIC or, even if such distribution requirements are satisfied, we may be subject to tax on the amount that is undistributed. Accordingly, we may have to sell some of our assets, raise additional debt or equity capital or reduce new investment originations to meet these distribution requirements and avoid tax. See “Material U.S. Federal Tax Matters.”

Because we are required to distribute substantially all of our net investment income and net realized capital gains to our stockholders, we will continue to need additional capital to finance our growth.

We have elected to be treated for federal income tax purposes as a RIC under Subchapter M of the Code. If we can meet certain requirements, including source of income, asset diversification and distribution requirements, and if we continue to qualify as a BDC, we will continue to qualify to be a RIC under the Code and will not have to pay corporate-level taxes on income we distribute to our stockholders as dividends, allowing us to substantially reduce or eliminate our corporate-level tax liability. As a BDC, we are generally required to meet a coverage ratio of total assets to total senior securities, which includes all of our borrowings and any preferred stock we may issue in the future, of at least 200%. This requirement limits the amount that we may borrow. Because we will continue to need capital to grow our investment portfolio, this limitation may prevent us from incurring debt and require us to raise additional equity at a time when it may be disadvantageous to do so. We cannot assure you that debt and equity financing will be available to us on favorable terms, if at all, and debt financings may be restricted by the terms of any of our outstanding borrowings. In addition, as a BDC, we are generally not permitted to issue equity securities priced below net asset value without stockholder approval. If additional funds are not available to us, we could be forced to curtail or cease new lending and investment activities, and our net asset value and profitability could decline.

Any unrealized losses we experience on our investment portfolio may be an indication of future realized losses, which could reduce our income available for distribution.

Decreases in the market values or fair values of our investments will be recorded as unrealized depreciation. Any unrealized losses in our investment portfolio could be an indication of a portfolio company’s inability to meet its repayment obligations to us with respect to the affected investments. This could result in realized losses in the future and ultimately in reductions of our income available for distribution in future periods.

Our investment advisor and its affiliates, officers and employees have certain conflicts of interest.

The Advisor, its officers and employees and members of its investment committee serve or may serve as investment advisors, officers, directors or principals of entities or investment funds that operate in the same or a related line of business as us and/or of investment funds managed by our affiliates. Accordingly, these individuals may have obligations to investors in those entities or funds, the fulfillment of which might not be in our best interests or the best interests of our stockholders. In addition, we note that any affiliated investment vehicle currently formed or formed in the future and managed by the Advisor or its affiliates may have overlapping investment objectives with our own and, accordingly, may invest in asset classes similar to those targeted by us. As a result, the Advisor and/or its affiliates may face conflicts in allocating investment opportunities between us and such other entities. Although the Advisor and its affiliates will endeavor to allocate investment opportunities in a fair and equitable manner and consistent with applicable allocation procedures, it is possible that, in the future, we may not be given the opportunity to participate in investments made by investment funds managed by the Advisor or its affiliates. In any such case, if the Advisor forms other affiliates in the future, we may co-invest on a concurrent basis with such other affiliates, subject to compliance with applicable regulations and regulatory guidance, as well as applicable allocation procedures. In certain circumstances, negotiated co-investments may be made only if we receive an order from the SEC permitting us to do so. There can be no assurance when any such order would be obtained or that one will be obtained at all.

Our base management fee may induce our investment advisor to incur leverage.

Our base management fee is calculated on the basis of our total assets, including assets acquired with the proceeds of leverage. This may encourage the Advisor to use leverage to increase the aggregate amount of and the return on our investments, even when it may not be appropriate to do so, and to refrain from deleveraging when it would otherwise be appropriate to do so. Under certain circumstances, the use of increased leverage may increase the likelihood of default, which would impair the value of our common stock. Given the subjective nature of the investment decisions made by our investment adviser on our behalf, we will not be able to monitor this conflict of interest.

Our incentive fee structure and the formula for calculating the incentive fee may incentivize our investment advisor to pursue speculative investments.

The incentive fee payable by us to the Advisor may create an incentive for the Advisor to pursue investments on our behalf that are riskier or more speculative than would otherwise be the case in the absence of such compensation arrangement. The incentive fee payable to the Advisor is calculated based on a percentage of distributions on our common stock. The incentive fee payable by us to the Advisor also may induce the Advisor to invest on our behalf in instruments that have a deferred interest feature, even if such deferred payments would not provide cash necessary to enable us to pay current distributions to our stockholders. Under these investments, we would accrue interest over the life of the investment but would not receive the cash income from the investment until the end of the term, if at all. Our net investment income used to calculate the income portion of our incentive fee, however, will include accrued interest. Thus, a portion of this incentive fee would be based on income that we have not yet received in cash and may never receive in cash if the portfolio company is unable to satisfy such interest payment obligation to us. The foregoing risks could be increased because the Advisor is not obligated to reimburse us for any incentive fee received even if we subsequently incur losses or never receive in cash income that was previously accrued.

We may not replicate the success of BlackRock or Kelso.

We are not managed by either BlackRock or Kelso. Our investment strategies differ from those of BlackRock, the Kelso Principals or their respective affiliates. We can provide no assurance that we will replicate the historical or future performance of BlackRock's or Kelso's investments and our investment returns may be substantially lower than the returns achieved by those firms. As a BDC, we are subject to certain investment restrictions that do not apply to BlackRock or Kelso. In addition, recent market conditions and the current stage of the economic cycle present significant challenges to us that have not been present in the past. Accordingly, we can offer no assurance that the Advisor will be able to continue to implement our investment objective with the same degree of success as it has in the past or that shares of our common stock will trade at or above the current level.

Substantially all of our portfolio investments are recorded at fair value as determined in good faith by or under the direction of our Board of Directors and, as a result, there is uncertainty regarding the value of our portfolio investments.

There is not a readily available market value for substantially all of the investments in our portfolio. We value these investments quarterly at fair value as determined in good faith under the direction of our Board of Directors using a consistently applied valuation process in accordance with a documented valuation policy that has been reviewed and approved by our Board of Directors. Our Board of Directors utilizes the services of one or more independent valuation firms to aid in determining the fair value of these investments. Due to the inherent uncertainty and subjectivity of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a readily available market value existed for such investments and may differ materially from the amounts we realize on any dispositions of such investments. In addition, the impact of changes in the market environment and other events on the fair values of our investments that have no readily available market values

[Table of Contents](#)

may differ from the impact of such changes on the readily available market values for our other investments. Our net asset value could be adversely affected if our determinations regarding the fair value of our investments were materially higher than the values that we ultimately realize upon the disposal of such investments.

We may in the future determine to fund a portion of our investments by issuing preferred stock, which would magnify the potential gains or losses and the risks of investing in us in the same manner as our borrowings.

Preferred stock, which is another form of leverage, has the same risks to our common stockholders as borrowings because the dividends on any preferred stock we issue must be cumulative. Payment of such dividends and repayment of the liquidation preference of such preferred stock must take preference over any dividends or other payments to our common stockholders, and preferred stockholders are not subject to any of our expenses or losses, and are not entitled to participate in any income or appreciation in excess of their stated preference.

Our Board of Directors may change our investment objective, operating policies and strategies without prior notice or stockholder approval.

Our Board of Directors has the authority to modify or waive certain of our operating policies and strategies without prior notice and without stockholder approval (except as required by the 1940 Act). However, absent stockholder approval, we may not change the nature of our business so as to cease to be, or withdraw our election as, a BDC. We cannot predict the effect any changes to our current operating policies and strategies would have on our business, operating results or value of our common stock. Nevertheless, the effects could adversely affect our business and impact our ability to make distributions.

We may experience fluctuations in our periodic results.

We could experience fluctuations in our periodic results due to a number of factors, some of which are beyond our control, including our ability to make investments in companies that meet our investment criteria, the interest rates payable on the debt investments we make, the default rate on such investments, the level of our expenses (including the interest rates payable on our borrowings and the dividend rates on any preferred stock we may issue), variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which we encounter competition in our markets and general economic conditions. As a result of these factors, results for any period should not be relied upon as being indicative of performance in future periods.

Changes in interest rates may affect our cost of capital and net investment income.

General interest rate fluctuations may have a substantial negative impact on our investments, the value of our common stock and our rate of return on invested capital. A reduction in the interest rates on new investments relative to interest rates on current investments could also have an adverse impact on our net investment income. An increase in interest rates could decrease the value of any investments we hold which earn fixed interest rates, including subordinated loans, senior and junior secured and unsecured debt securities and loans and high-yield bonds, and also could increase our interest expense, thereby decreasing our net investment income. Also, an increase in interest rates available to investors could make investment in our common stock less attractive if we are not able to increase our dividend rate, which could reduce the value of our common stock.

The effect of global climate change may impact the operations of our portfolio companies.

There may be evidence of global climate change. Climate change creates physical and financial risk and some of our portfolio companies may be adversely affected by climate change. For example, the needs of customers of energy companies vary with weather conditions, primarily temperature and humidity. To the extent

[Table of Contents](#)

weather conditions are affected by climate change, energy use could increase or decrease depending on the duration and magnitude of any changes. Increases in the cost of energy could adversely affect the cost of operations of our portfolio companies if the use of energy products or services is material to their business. A decrease in energy use due to weather changes may affect some of our portfolio companies' financial condition, through decreased revenues. Extreme weather conditions in general require more system backup, adding to costs, and can contribute to increased system stresses, including service interruptions.

Risks Related to Our Investments

Our investments are risky and highly speculative, and we could lose all or part of our investment.

Investing in private middle-market companies involves a high degree of risk and our financial results may be affected adversely if one or more of our significant portfolio investments defaults on its loans or fails to perform as we expect. We invest primarily in middle-market companies in the form of senior and junior secured and unsecured debt securities and loans, each of which may include an equity component, and by making direct preferred, common and other equity investments in such companies.

Investing in private middle-market companies involves a number of significant risks, including:

- these companies may have limited financial resources and may be unable to meet their obligations under their debt securities that we hold, which may be accompanied by a deterioration in the value of any collateral and a reduction in the likelihood of us realizing any guarantees we may have obtained in connection with our investment;
- these companies typically have shorter operating histories, narrower product lines and smaller market shares than larger businesses, which tend to render them more vulnerable to competitors' actions and market conditions, as well as general economic downturns;
- these companies are more likely to depend on the management talents and efforts of a small group of persons; therefore, the death, disability, resignation or termination of one or more of these persons could have a material adverse impact on our portfolio company and, in turn, on us;
- these companies generally have less predictable operating results, may from time to time be parties to litigation, may be engaged in rapidly changing businesses with products subject to a substantial risk of obsolescence, and may require substantial additional capital to support their operations, finance expansion or maintain their competitive position; and
- these companies may have difficulty accessing the capital markets to meet future capital needs, which may limit their ability to grow or to repay their outstanding indebtedness upon maturity.

In addition, in the course of providing significant managerial assistance to certain of our portfolio companies, certain of our officers and directors may serve as directors on the boards of such companies. To the extent that litigation arises out of our investments in these companies, our officers and directors may be named as defendants in such litigation, which could result in an expenditure of funds (through our indemnification of such officers and directors) and the diversion of management time and resources.

An investment strategy focused primarily on privately held companies presents certain challenges, including the lack of available information about these companies.

We invest primarily in privately held companies. Generally, little public information exists about these companies. We must therefore rely on the ability of our investment adviser to obtain adequate information to evaluate the potential risks of investing in these companies. These companies and their financial information generally are not subject to the Sarbanes-Oxley Act of 2002 and other rules that govern public companies. If we

[Table of Contents](#)

are unable to uncover all material information about these companies, we may not make a fully informed investment decision, and we may lose money on our investments. These factors could affect our investment returns.

Our investments in lower credit quality obligations are risky and highly speculative, and we could lose all or part of our investment.

Most of our debt investments are likely to be in lower grade obligations. The lower grade investments in which we invest may be rated below investment grade by one or more nationally-recognized statistical rating agencies at the time of investment or may be unrated but determined by the Advisor to be of comparable quality. Debt securities rated below investment grade are commonly referred to as “junk bonds” and are considered speculative with respect to the issuer’s capacity to pay interest and repay principal. The debt that we invest in typically is not initially rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade (rated lower than “Baa3” by Moody’s Investors Service, lower than “BBB-” by Fitch Ratings or lower than “BBB-” by Standard & Poor’s). We may invest without limit in debt of any rating, as well as debt that has not been rated by any nationally recognized statistical rating organization.

Investment in lower grade investments involves a substantial risk of loss. Lower grade securities or comparable unrated securities are considered predominantly speculative with respect to the issuer’s ability to pay interest and principal and are susceptible to default or decline in market value due to adverse economic and business developments. The market values for lower grade debt tend to be very volatile and are less liquid than investment grade securities. For these reasons, your investment in our company is subject to the following specific risks: increased price sensitivity to a deteriorating economic environment; greater risk of loss due to default or declining credit quality; adverse company specific events are more likely to render the issuer unable to make interest and/or principal payments; and if a negative perception of the lower grade debt market develops, the price and liquidity of lower grade securities may be depressed. This negative perception could last for a significant period of time.

Any investments in distressed debt obligations may not produce income and may require us to bear large expenses in order to protect and recover our investment.

At times, distressed debt obligations may not produce income and may require us to bear certain extraordinary expenses (including legal, accounting, valuation and transaction expenses) in order to protect and recover our investment. Therefore, to the extent we invest in distressed debt, our ability to achieve current income for our stockholders may be diminished. We also will be subject to significant uncertainty as to when and in what manner and for what value the distressed debt we invest in will eventually be satisfied (e.g., through liquidation of the obligor’s assets, an exchange offer or plan of reorganization involving the distressed debt securities or a payment of some amount in satisfaction of the obligation). In addition, even if an exchange offer is made or plan of reorganization is adopted with respect to distressed debt we hold, there can be no assurance that the securities or other assets received by us in connection with such exchange offer or plan of reorganization will not have a lower value or income potential than may have been anticipated when the investment was made. Moreover, any securities received by us upon completion of an exchange offer or plan of reorganization may be restricted as to resale. As a result of our participation in negotiations with respect to any exchange offer or plan of reorganization with respect to an issuer of distressed debt, we may be restricted from disposing of such securities.

If we invest in preferred stock, we may incur additional risks.

To the extent we invest in preferred securities, we may incur particular risks, including:

- Preferred securities may include provisions that permit the issuer, at its discretion, to defer distributions for a stated period without any adverse consequences to the issuer. If we own a preferred security that is deferring its distributions, we may be required to report income for tax purposes before we receive

such distributions. Preferred securities are subordinated to bonds and other debt instruments in a company's capital structure in terms of priority to corporate income and liquidation payments, and therefore will be subject to greater credit risk than more senior debt instruments; and

- Generally, preferred security holders have no voting rights with respect to the issuing company unless preferred dividends have been in arrears for a specified number of periods, at which time the preferred security holders may elect a number of directors to the issuer's board. Generally, once all the arrearages have been paid, the preferred security holders no longer have voting rights.

Our equity investments may decline in value.

The equity securities in which we invest may not appreciate or may decline in value. We may thus not be able to realize gains from our equity securities, and any gains that we do realize on the disposition of any equity securities may not be sufficient to offset any other losses we experience. As a result, the equity securities in which we invest may decline in value, which may negatively impact our ability to pay distributions and cause you to lose all or part of your investment.

We may expose ourselves to risks if we engage in hedging transactions.

We may enter into hedging transactions, which could expose us to risks associated with such transactions. We may utilize instruments such as forward contracts and interest rate swaps, caps, collars and floors to seek to hedge against fluctuations in the relative values of our portfolio positions and amounts due under our debt arrangements from changes in market interest rates. Use of these hedging instruments may include counterparty credit risk. Utilizing such hedging instruments does not eliminate the possibility of fluctuations in the values of such positions and amounts due under our debt arrangements or prevent losses if the values of such positions decline. However, such hedging can establish other positions designed to gain from those same developments, thereby offsetting the decline in the value of such portfolio positions. Such hedging transactions may also limit the opportunity for gain if the values of the underlying portfolio positions should increase. Moreover, it may not be possible to hedge against an interest rate fluctuation that is so generally anticipated that we are not able to enter into a hedging transaction at an acceptable price.

The success of our hedging transactions will depend on our ability to correctly predict movements and interest rates. Therefore, while we may enter into such transactions to seek to reduce interest rate risks, unanticipated changes in interest rates may result in poorer overall investment performance than if we had not engaged in any such hedging transactions. In addition, the degree of correlation between price movements of the instruments used in a hedging strategy and price movements in the portfolio positions being hedged may vary. Moreover, for a variety of reasons, we may not seek to establish a perfect correlation between such hedging instruments and the portfolio holdings or debt arrangements being hedged. Any such imperfect correlation may prevent us from achieving the intended hedge and expose us to risk of loss. See also "Changes in interest rates may affect our cost of capital and net investment income."

Economic recessions or downturns could impair our portfolio companies and harm our operating results.

Many of our portfolio companies may be susceptible to economic slowdowns or recessions and may be unable to repay our loans during these periods. Therefore, our non-performing assets may increase and the value of our portfolio may decrease during these periods as we are required to record the values of our investments. Adverse economic conditions also may decrease the value of collateral securing some of our loans and the value of our equity investments. Economic slowdowns or recessions could lead to financial losses in our portfolio and a decrease in revenues, net income and assets. Unfavorable economic conditions also could increase our funding costs, limit our access to the capital markets or result in a decision by lenders not to extend credit to us. These events could prevent us from increasing investments and harm our operating results.

Our portfolio companies may incur debt that ranks equally with, or senior to, our investments in such companies.

Our portfolio companies usually will have, or may be permitted to incur, other debt that ranks equally with, or senior to, debt securities in which we invest. By their terms, such debt instruments may provide that the holders are entitled to receive payment of interest or principal on or before the dates on which we are entitled to receive payments. Also, in the event of insolvency, liquidation, dissolution, reorganization or bankruptcy of a portfolio company, holders of debt instruments ranking senior to our investment in that portfolio company would typically be entitled to receive payment in full before we receive any distribution in respect of our investment. After repaying such senior creditors, the portfolio company may not have any remaining assets to use for repaying its obligations to us. In the case of debt ranking equally with debt securities in which we invest, we would have to share on an equal basis any distributions with other creditors holding such debt in the event of an insolvency, liquidation, dissolution, reorganization or bankruptcy of the relevant portfolio company. In addition, we may not be in a position to control any portfolio company by investing in its debt securities. As a result, we are subject to the risk that a portfolio company in which we invest may make business decisions with which we disagree, and the management of such company, as representatives of the holders of its common equity, may take risks or otherwise act in ways that do not serve our interests as debt investors.

Because we generally do not hold controlling equity interests in our portfolio companies, we may not be in a position to exercise control over our portfolio companies or to prevent decisions by management of our portfolio companies that could decrease the value of our investments.

We generally do not hold controlling equity positions in our portfolio companies. As a result, we are subject to the risk that a portfolio company may make business decisions with which we disagree, and that the management and/or stockholders of a portfolio company may take risks or otherwise act in ways that are adverse to our interests. Due to the lack of liquidity of the debt and equity investments that we typically hold in our portfolio companies, we may not be able to dispose of our investments in the event we disagree with the actions of a portfolio company and may therefore suffer a decrease in the value of our investments.

Concentration of our assets in an issuer, industry or sector may present more risks than if we were more broadly diversified over numerous issuers, industries and sectors of the economy.

We are classified as a non-diversified investment company within the meaning of the 1940 Act, which means that we are not limited by the 1940 Act with respect to the proportion of our assets that we may invest in securities of a single issuer. To the extent that we assume large positions in the securities of a small number of issuers, our net asset value may fluctuate to a greater extent than that of a diversified investment company as a result of changes in the financial condition or the market's assessment of the issuer. We may also be more susceptible to any single economic or regulatory occurrence than a diversified investment company.

In addition, we may, from time to time, invest a substantial portion of our assets in the securities of issuers in any single industry or sector of the economy or in only a few issuers. We cannot predict the industries or sectors in which our investment strategy may cause us to concentrate and cannot predict the level of our diversification among issuers to ensure that we satisfy diversification requirements for qualification as a RIC for U.S. federal income tax purposes. A downturn in an industry or sector in which we are concentrated would have a larger impact on us than on a company that does not concentrate in that particular industry or sector. Furthermore, the Advisor has not made and does not intend to make any determination as to the allocation of assets among different classes of securities. At any point in time we may be highly concentrated in a single type of asset, such as junior unsecured loans or distressed debt. Consequently, events which affect a particular asset class disproportionately could have an equally disproportionate effect on us.

Our failure to make follow-on investments in our portfolio companies could impair the value of our portfolio.

Following an initial investment in a portfolio company, we may make additional investments in that portfolio company as “follow-on” investments in order to: (i) increase or maintain in whole or in part our equity ownership percentage; (ii) exercise warrants, options or convertible securities that were acquired in the original or any subsequent financing; or (iii) attempt to preserve or enhance the value of our investments. We may elect not to make follow-on investments or otherwise lack sufficient funds to make those investments. We will have the discretion to make any follow-on investments, subject to the availability of capital resources. The failure to make follow-on investments may, in some circumstances, jeopardize the continued viability of a portfolio company and our initial investment, or may result in a missed opportunity for us to maintain or increase our participation in a successful operation. Even if we have sufficient capital to make a desired follow-on investment, we may elect not to make a follow-on investment because we may not want to increase our concentration of risk, either because we prefer other opportunities or because we are subject to BDC requirements that would prevent such follow-on investments or the desire to maintain our RIC status.

Our investments in foreign securities may involve significant risks in addition to the risks inherent in U.S. investments.

Our investment strategy contemplates that a portion of our investments may be in securities of foreign companies. Investing in foreign companies may expose us to additional risks not typically associated with investing in U.S. companies. These risks include changes in exchange control regulations, political and social instability, expropriation, imposition of foreign taxes (potentially at confiscatory levels), less liquid markets and less available information than is generally the case in the U.S., higher transaction costs, less government supervision of exchanges, brokers and issuers, less developed bankruptcy laws, difficulty in enforcing contractual obligations, lack of uniform accounting and auditing standards and greater price volatility.

Although most of our investments are denominated in U.S. dollars, our investments that are denominated in a foreign currency are subject to the risk that the value of a particular currency may change in relation to one or more other currencies. Among the factors that may affect currency values are trade balances, the level of short-term interest rates, differences in relative values of similar assets in different currencies, long-term opportunities for investment and capital appreciation, and political developments. We may employ hedging techniques to minimize these risks, but we can offer no assurance that we will, in fact, hedge currency risk or, that if we do, such strategies will be effective.

Our investments in the healthcare sector face considerable uncertainties including substantial regulatory challenges.

Our investments in the healthcare sector are subject to substantial risks. The laws and rules governing the business of healthcare companies and interpretations of those laws and rules are subject to frequent change. Broad latitude is given to the agencies administering those regulations. Existing or future laws and rules could force our portfolio companies engaged in healthcare to change how they do business, restrict revenue, increase costs, change reserve levels, change business practices and increase liability in federal and state courts. Healthcare companies often must obtain and maintain regulatory approvals to market many of their products, change prices for certain regulated products and to consummate some of their acquisitions and divestitures. Delays in obtaining or failure to obtain or maintain these approvals could reduce revenue or increase costs. Policy changes on the local, state and federal level, such as the expansion of the government’s role in the health care arena and alternative assessments and tax increases specific to the healthcare industry or healthcare products as part of federal health care reform initiatives, could fundamentally change the dynamics of the healthcare industry.

Risks Related to Our Operations as a BDC

Our ability to enter into transactions with our affiliates is restricted.

We are prohibited under the 1940 Act from knowingly participating in certain transactions with certain of our affiliates without the prior approval of our independent directors and, in some cases, of the SEC. Any person that owns, directly or indirectly, 5% or more of our outstanding voting securities will be our affiliate for purposes of the 1940 Act and we are generally prohibited from buying or selling any security (other than our securities) from or to such affiliate, absent the prior approval of our independent directors. The 1940 Act also prohibits certain “joint” transactions with certain of our affiliates, which could include investments in the same portfolio company (whether at the same or different times), without prior approval of our independent directors and, in some cases, of the SEC. We are prohibited from buying or selling any security from or to any person who owns more than 25% of our voting securities or certain of that person’s affiliates, or entering into prohibited joint transactions with such persons, absent the prior approval of the SEC through an exemptive order (other than in certain limited situations pursuant to current regulatory guidance). The analysis of whether a particular transaction constitutes a joint transaction requires a review of the relevant facts and circumstances then existing. Similar restrictions limit our ability to transact business with our officers or directors or their affiliates.

We have applied for an exemptive order from the SEC that would permit us and certain of our affiliates, including investment funds managed by our affiliates, to co-invest. Any such order will be subject to certain terms and conditions and there can be no assurance that such order will be granted by the SEC. Accordingly, we cannot assure you that we or our affiliates, including investment funds managed by our affiliates, will be permitted to co-invest, other than in the limited circumstances currently permitted by regulatory guidance or in the absence of a joint transaction.

Regulations governing our operation as a BDC affect our ability to, and the way in which we, raise additional capital.

Our business requires a substantial amount of capital. We may acquire additional capital from the issuance of senior securities or other indebtedness, the issuance of additional shares of our common stock or from securitization transactions. However, we may not be able to raise additional capital in the future on favorable terms or at all. We may issue debt securities or preferred securities, which we refer to collectively as “senior securities,” and we may borrow money from banks or other financial institutions, up to the maximum amount permitted by the 1940 Act. The 1940 Act permits us to issue senior securities or incur indebtedness only in amounts such that our asset coverage, as defined in the 1940 Act, equals at least 200% after such issuance or incurrence. Our ability to pay dividends or issue additional senior securities would be restricted if our asset coverage ratio were not at least 200%. If the value of our assets declines, we may be unable to satisfy this test. If that happens, we may be required to liquidate a portion of our investments and repay a portion of our indebtedness at a time when such sales may be disadvantageous.

- ***Senior Securities.*** As a result of issuing senior securities, we would also be exposed to typical risks associated with leverage, including an increased risk of loss. If we issue preferred securities they would rank “senior” to common stock in our capital structure, preferred stockholders would have separate voting rights and may have rights, preferences or privileges more favorable than those of our common stockholders. Furthermore, the issuance of preferred securities could have the effect of delaying, deferring or preventing a transaction or a change of control that might involve a premium price for our common stockholders or otherwise be in the best interests of our common stockholders.
- ***Additional Common Stock.*** Our Board of Directors may decide to issue common stock to finance our operations rather than issuing debt or other senior securities. As a BDC, we are generally not able to issue our common stock at a price below net asset value, or issue securities convertible into common stock, without first obtaining the required approvals from our stockholders and our independent directors. We may also make rights offerings to our stockholders. If we raise additional capital by

[Table of Contents](#)

issuing more common stock or senior securities convertible into, or exchangeable for, our common stock, the percentage ownership of our common stockholders at that time would decrease, and our common stockholders may experience dilution.

- **Securitization.** In addition to issuing securities to raise capital as described above, we anticipate that in the future we may securitize our loans to generate cash for funding new investments. To securitize loans, we may create a wholly-owned subsidiary, contribute a pool of loans to the subsidiary and have the subsidiary issue primarily investment grade debt securities to purchasers who we would expect would be willing to accept a substantially lower interest rate than the loans earn. We would retain all or a portion of the equity in the securitized pool of loans. Our retained equity would be exposed to any losses on the portfolio of loans before any of the debt securities would be exposed to such losses. An inability to successfully securitize our loan portfolio could limit our ability to grow our business and fully execute our business strategy and adversely affect our earnings, if any. Moreover, the successful securitization of our loan portfolio might expose us to losses as the residual loans in which we do not sell interests will tend to be those that are riskier and more apt to generate losses.

Stockholders will likely incur dilution if we sell or otherwise issue shares of our common stock or securities to subscribe for or convertible into shares of our common stock at prices below the then current net asset value per share of our common stock.

We obtained approval at our 2011 Annual Meeting of Stockholders to allow us the flexibility, with the approval of our Board of Directors, to sell or otherwise issue shares of our common stock at a price below its then current net asset value per share during the twelve month period following stockholders approval at the 2011 Annual Meeting, subject to the policy of our Board of Directors that the Company shall not sell or otherwise issue more than 25% of the Company's then outstanding shares of common stock (immediately prior to such sale or issuance) at a price below its then current net asset value per share. Since we obtained this approval from stockholders, we may issue shares of our common stock at a price below its then current net asset value per share, subject to the foregoing conditions and the determination by our Board of Directors that such issuance and sale is in our and our stockholders' best interests.

In addition, we may also issue shares in certain limited circumstances under our dividend reinvestment plan and under interpretive advice issued by the Internal Revenue Service. Any sale or other issuance of shares of our common stock at a price below net asset value per share would result in an immediate dilution to the net asset value per share. This dilution would occur as a result of a proportionately greater decrease in a stockholder's interest in our earnings and assets and voting interest in us than the increase in our assets resulting from such issuance. Because the number of shares of common stock that could be so issued and the timing of any issuance is not currently known, the actual dilutive effect cannot be predicted. We caution you that such effects may be material, and we undertake to describe material risks and dilutive effects of any offering that we make at a price below our then current net asset value in the future in a prospectus supplement issued in connection with any such offering. We cannot predict whether shares of our common stock will trade above, at or below our net asset value.

Changes in the laws or regulations governing our business or the businesses of our portfolio companies and any failure by us or our portfolio companies to comply with these laws or regulations, could negatively affect the profitability of our operations or of our portfolio companies.

We are subject to changing rules and regulations of federal and state governments, as well as the stock exchange on which our common stock is listed. These entities, including the Public Company Accounting Oversight Board, the SEC and The NASDAQ Global Select Market, have issued a significant number of new and increasingly complex requirements and regulations over the course of the last several years and continue to develop additional regulations. In particular, changes in the laws or regulations or the interpretations of the laws and regulations that govern BDCs, RICs or non-depository commercial lenders could significantly affect our operations and our cost of doing business. We are subject to federal, state and local laws and regulations and are

[Table of Contents](#)

subject to judicial and administrative decisions that affect our operations, including our loan originations, maximum interest rates, fees and other charges, disclosures to portfolio companies, the terms of secured transactions, collection and foreclosure procedures and other trade practices. If these laws, regulations or decisions change, or if we expand our business into jurisdictions that have adopted more stringent requirements than those in which we currently conduct business, we may have to incur significant expenses in order to comply, or we might have to restrict our operations. In addition, if we do not comply with applicable laws, regulations and decisions, we may lose licenses needed for the conduct of our business and be subject to civil fines and criminal penalties, any of which could have a material adverse effect upon our business, financial condition and results of operations.

The impact of recent financial reform legislation on us is uncertain.

In light of current conditions in the U.S. and global financial markets and the U.S. and global economy, legislators, the presidential administration and regulators have increased their focus on the regulation of the financial services industry. The Dodd-Frank Wall Street Reform and Consumer Protection Act became effective on July 21, 2010; although many provisions of the Dodd-Frank Reform Act have delayed effectiveness or will not become effective until the relevant federal agencies issue new rules to implement the Dodd-Frank Reform Act. Nevertheless, the Dodd-Frank Reform Act may have a material adverse impact on the financial services industry as a whole and on our business, financial condition and results of operations. Accordingly, we cannot predict the effect the Dodd-Frank Reform Act or its implementing regulations will have on our business, financial condition and results of operations.

Any failure on our part to maintain our status as a BDC would reduce our operating flexibility.

The 1940 Act imposes numerous constraints on the operations of BDCs. Any failure to comply with the requirements imposed on BDCs by the 1940 Act could cause the SEC to bring an enforcement action against us and/or expose us to claims of private litigants. In addition, upon approval of a majority of our stockholders, we may elect to withdraw our status as a BDC. If we decide to withdraw our election, or if we otherwise fail to qualify, or maintain our qualification, as a BDC, we may be subject to the substantially greater regulation under the 1940 Act as a closed-end investment company. Compliance with such regulations would significantly decrease our operating flexibility, and could significantly increase our costs of doing business.

If we do not invest a sufficient portion of our assets in qualifying assets, we could fail to qualify as a BDC or be precluded from investing according to our current business strategy.

As a BDC, we may not acquire any assets other than “qualifying assets” unless, at the time of and after giving effect to such acquisition, at least 70% of our total assets are qualifying assets. We believe that most of the investments that we may acquire in the future will constitute qualifying assets. However, we may be precluded from investing in what we believe are attractive investments if such investments are not qualifying assets for purposes of the 1940 Act. If we do not invest a sufficient portion of our assets in qualifying assets, we could be found to be in violation of the 1940 Act provisions applicable to BDCs, which would have a material adverse effect on our business, financial condition and results of operations. Similarly, these rules could prevent us from making follow-on investments in existing portfolio companies (which could result in the dilution of our position) or could require us to dispose of investments at inappropriate times in order to come into compliance with the 1940 Act. Because most of our investments will be in private companies, and therefore will be relatively illiquid, any such dispositions could be made at disadvantageous prices and could result in substantial losses.

Loss of status as a RIC would reduce our net asset value and distributable income.

We currently qualify as a RIC under the Code and intend to continue to qualify each year as a RIC. As a RIC we do not have to pay federal income taxes on our income (including realized gains) that is distributed to our stockholders, provided that we satisfy certain distribution requirements. Accordingly, we are not permitted

[Table of Contents](#)

under accounting rules to establish reserves for taxes on our unrealized capital gains. If we fail to qualify for RIC status in any year, to the extent that we had unrealized gains, we would have to establish reserves for taxes, which would reduce our net asset value. In addition, if we, as a RIC, were to decide to make a deemed distribution of net realized capital gains and retain the net realized capital gains, we would have to establish appropriate reserves for taxes that we would have to pay on behalf of stockholders. It is possible that establishing reserves for taxes could have a material adverse effect on the value of our common stock. See “Material U.S. Federal Tax Matters.”

We will be subject to corporate-level income tax if we are unable to maintain our qualification as a RIC under Subchapter M of the Code or do not satisfy the annual distribution requirement.

To maintain RIC status and be relieved of federal taxes on income and gains distributed to our stockholders, we must meet the following annual distribution, income source and asset diversification requirements.

- The annual distribution requirement for a RIC will be satisfied if we distribute to our stockholders on an annual basis at least 90% of our net ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any. Because we may use debt financing, we are subject to an asset coverage ratio requirement under the 1940 Act and we may be subject to certain financial covenants under our debt arrangements that could, under certain circumstances, restrict us from making distributions necessary to satisfy the distribution requirement. If we are unable to obtain cash from other sources, we could fail to qualify for RIC tax treatment and thus become subject to corporate-level income tax.
- The income source requirement will be satisfied if we obtain at least 90% of our income for each year from dividends, interest, gains from the sale of stock or securities or similar sources.
- The asset diversification requirement will be satisfied if we meet certain asset diversification requirements at the end of each quarter of our taxable year. To satisfy this requirement, at least 50% of the value of our assets must consist of cash, cash equivalents, U.S. government securities, securities of other RICs, and other acceptable securities; and no more than 25% of the value of our assets can be invested in the securities, other than U.S. government securities or securities of other RICs, of one issuer, of two or more issuers that are controlled, as determined under applicable Code rules, by us and that are engaged in the same or similar or related trades or businesses or of certain “qualified publicly traded partnerships.” Failure to meet these requirements may result in our having to dispose of certain investments quickly in order to prevent the loss of RIC status. Because most of our investments will be in private companies, and therefore will be relatively illiquid, any such dispositions could be made at disadvantageous prices and could result in substantial losses.

If we fail to qualify for or maintain RIC status for any reason and are subject to corporate-level income tax, the resulting corporate-level taxes could substantially reduce our net assets, the amount of income available for distribution and the amount of our distributions. Such a failure would have a material adverse effect on us and our stockholders. The recently enacted “Regulated Investment Company Modernization Act of 2010” provides some relief from RIC disqualification due to certain failures of the income source and asset diversification requirements, although there may be additional taxes due in such cases. We cannot assure you that we would qualify for any such relief should we fail the income source or asset diversification requirements.

We may have difficulty paying our required distributions under applicable tax rules if we recognize income before or without receiving cash representing such income.

For U.S. federal income tax purposes, we include in income certain amounts that we have not yet received in cash, such as original issue discount, which may arise if we receive warrants in connection with the making of a loan or possibly in other circumstances, or PIK interest, which represents contractual interest added to the loan balance and due at the end of the loan term. Such original issue discount or increases in loan balances are included in income before we receive any corresponding cash payments. We also may be required to include in

[Table of Contents](#)

income certain other amounts that we will not receive in cash, including, for example, deferred payment securities or foreign currency transactions. Since, in certain cases, we may recognize income before or without receiving cash representing such income, we may have difficulty meeting the U.S. federal income tax requirement to distribute generally an amount equal to at least 90% of our investment company taxable income to maintain our status as a RIC. Accordingly, we may have to sell some of our investments at times we would not consider advantageous, raise additional debt or equity capital or reduce new investment originations to meet these distribution requirements. If we are not able to obtain cash from other sources, we may fail to qualify as a RIC and thus be subject to additional corporate-level taxes.

Risks Relating to an Investment in Our Common Stock

Our shares of common stock have traded at a discount from net asset value and may do so again in the future, which could limit our ability to raise additional equity capital.

Shares of closed-end investment companies, including business development companies, may trade at a market discount from net asset value. This characteristic of closed-end investment companies and business development companies is separate and distinct from the risk that our net asset value per share may decline. In the past, the stocks of BDCs as an industry, including shares of our common stock, have traded below net asset value and at historic lows as a result of concerns over liquidity, leverage restrictions and distribution requirements. When our common stock is trading below its net asset value per share, we will generally not be able to issue additional shares of our common stock at its market price without first obtaining approval for such issuance from our stockholders and our independent directors. At our 2011 Annual Meeting of Stockholders, subject to certain conditions and Board of Directors determinations, our stockholders approved our ability to sell or otherwise issue shares of our common stock at a price below its then current net asset value per share for a twelve month period expiring on the anniversary of the date of stockholder approval.

Investing in our common stock may involve an above average degree of risk.

The investments we make in accordance with our investment objective may result in a higher amount of risk than alternative investment options and a higher risk of volatility or loss of principal. Our investments in portfolio companies involve higher levels of risk, and therefore, an investment in our shares may not be suitable for someone with lower risk tolerance.

The price of our common stock may fluctuate significantly.

As with any company, the price of our common stock will fluctuate with market conditions and other factors. The market price and liquidity of the market for our common stock may from time to time be affected by a number of factors, which include, but are not limited to, the following:

- volatility in the market price and trading volume of common stocks of BDCs or other financial services companies, which are not necessarily related to the operating performance of these companies;
- investors' general perception of our company, the economy and general market conditions;
- our quarterly results of operations;
- our origination activity, including the pace of, and competition for, new investment opportunities;
- the financial performance of the specific industries in which we invest on a recurring basis, including without limitation, our investments in the business services and healthcare industries;
- announcements of strategic developments, acquisitions and other material events by us or our competitors;
- changes in regulatory policies or tax guidelines, particularly with respect to RICs or BDCs;
- loss of RIC status;

[Table of Contents](#)

- changes in earnings or variations in operating results;
- changes in the value of our portfolio of investments;
- any shortfall in revenue or net income or any increase in losses from levels expected by investors or securities analysts;
- departure of key personnel from the Advisor;
- operating performance of companies comparable to us;
- general economic trends and other external factors, including price and volume fluctuations in the overall stock market; and
- loss of a major funding source.

Our shares may trade at discounts from net asset value or at premiums that are unsustainable over the long term.

Shares of BDCs may trade at a market price that is less than the net asset value that is attributable to those shares. Our shares have traded above and below our net asset value. The possibility that our shares of common stock will trade at a discount from net asset value or at a premium that is unsustainable over the long term is separate and distinct from the risk that our net asset value will decrease. It is not possible to predict whether our shares will trade at, above or below net asset value in the future.

Our principal stockholders have substantial ownership in us, and this concentration of ownership could limit your ability to influence the outcome of key transactions, including a change of control.

As a result of their substantial ownership in us, our principal stockholders may be able to exert influence over our management and policies. This concentration of ownership may have the effect of delaying, preventing or deterring a change of control of our company, depriving our stockholders of an opportunity to receive a premium for their common stock as part of a sale of our company, and ultimately affecting the market price of our common stock.

Sales of substantial amounts of our common stock in the public market may have an adverse effect on the market price of our common stock.

The shares of our common stock beneficially owned by our principal stockholders are generally available for resale, subject to the provisions of Rule 144 promulgated under the Securities Act. Sales of substantial amounts of our common stock, or the availability of such common stock for sale, could adversely affect the prevailing market prices for our common stock. If this occurs and continues, it could impair our ability to raise additional capital through the sale of securities should we desire to do so.

Our capital-raising activities may have an adverse effect on the market price of our common stock.

When we issue securities or incur debt, we generally obtain cash or cash equivalents. Any increase in our holdings of cash or cash equivalents could adversely affect the prevailing market prices for our common stock, especially if we are unable to timely deploy the capital in suitable investments. The adverse impact on the prevailing market prices for our common stock could be greater if we issue debt securities or other securities requiring the payment of interest and are unable to timely deploy the capital in suitable investments.

There is a risk that investors in our equity securities may not receive dividends or that our dividends may not grow over time.

We intend to make distributions on a quarterly basis to our stockholders out of assets legally available for distribution. There can be no assurance that we will achieve investment results that will allow us to make a

[Table of Contents](#)

specified level of cash distributions or year-to-year increases in cash distributions. If we declare a dividend and if more stockholders opt to receive cash distributions rather than participate in our dividend reinvestment plan, we may be forced to sell some of our investments in order to make cash dividend payments. In addition, due to the asset coverage test applicable to us as a BDC, we may be limited in our ability to make distributions. Further, if we invest a greater amount of assets in equity securities that do not pay current dividends, it could reduce the amount available for distribution.

We may in the future choose to pay dividends in our own stock, in which case our stockholders may be required to pay tax in excess of the cash they receive, and which may adversely affect the market price of our common stock.

We may distribute taxable dividends that are payable in part in our stock, including cash/stock dividends that are subject to a limitation on the aggregate amount of cash to be distributed to all stockholders (e.g., 20% of the total distribution). The IRS has issued certain private letter rulings on cash/stock dividends paid by regulated investment companies and real estate investment trusts using a 20% cash standard if certain requirements are satisfied. Taxable stockholders receiving such dividends will be required to include the full amount of the dividend as ordinary income (or as long-term capital gain to the extent such distribution is properly designated as a capital gain dividend) to the extent of our current and accumulated earnings and profits for United States federal income tax purposes. As a result, a U.S. stockholder may be required to pay tax with respect to such dividends in excess of any cash received. If a U.S. stockholder sells the stock it receives as a dividend in order to pay this tax, the sales proceeds may be less than the amount included in income with respect to the dividend, depending on the market price of our stock at the time of the sale. Furthermore, with respect to non-U.S. stockholders, we may be required to withhold U.S. tax with respect to such dividends, including in respect of all or a portion of such dividend that is payable in stock. In addition, if a significant number of our stockholders determine to sell shares of our stock in order to pay taxes owed on dividends, it may put downward pressure on the trading price of our stock. It is unclear whether and to what extent we will be able to pay taxable dividends of the type described in this paragraph.

If we issue preferred stock, the net asset value and market value of our common stock may become more volatile.

We cannot assure you that the issuance of preferred stock would result in a higher yield or return to the holders of our common stock. The issuance of preferred stock would likely cause the net asset value and market value of our common stock to become more volatile. If the dividend rate on the preferred stock were to approach the net rate of return on our investment portfolio, the benefit of leverage to the holders of our common stock would be reduced. If the dividend rate on the preferred stock were to exceed the net rate of return on our portfolio, the leverage would result in a lower rate of return to the holders of our common stock than if we had not issued preferred stock. Any decline in the net asset value of our investment would be borne entirely by the holders of our common stock. Therefore, if the market value of our portfolio were to decline, the leverage would result in a greater decrease in net asset value to the holders of our common stock than if we were not leveraged through the issuance of preferred stock. This greater net asset value decrease would also tend to cause a greater decline in the market price of our common stock. We might be in danger of failing to maintain the required asset coverage of the preferred stock or of losing our ratings on the preferred stock or, in an extreme case, our current investment income might not be sufficient to meet the dividend requirements on the preferred stock. In order to counteract such an event, we might need to liquidate investments in order to fund a redemption of some or all of the preferred stock. In addition, we would pay (and the holders of our common stock would bear) all costs and expenses relating to the issuance and ongoing maintenance of the preferred stock, including higher incentive fees if our total return exceeds the dividend rate on the preferred stock. Holders of preferred stock may have different interests than holders of common stock and may at times have disproportionate influence over our affairs.

Holders of any preferred stock we might issue would have the right to elect members of our Board of Directors and class voting rights on certain matters.

Holders of any preferred stock we might issue, voting separately as a single class, would have the right to elect two members of our Board of Directors at all times and in the event dividends become two full years in arrears would have the right to elect a majority of the directors until such arrearage is completely eliminated. In addition, preferred stockholders have class voting rights on certain matters, including changes in fundamental investment restrictions and conversion to open-end status, and accordingly can veto any changes. Restrictions imposed on the declarations and payment of dividends or other distributions to the holders of our common stock and preferred stock, both by the 1940 Act and by requirements imposed by rating agencies, might impair our ability to maintain our qualification as a RIC for federal income tax purposes. While we would intend to redeem our preferred stock to the extent necessary to enable us to distribute our income as required to maintain our qualification as a RIC, there can be no assurance that such actions could be effected in time to meet the tax requirements.

Certain provisions of the Delaware General Corporation Law and our certificate of incorporation and bylaws could deter takeover attempts and have an adverse impact on the price of our common stock.

The Delaware General Corporation Law, our amended certificate of incorporation and our amended and restated bylaws contain provisions that may have the effect of discouraging a third party from making an acquisition proposal for us. These anti-takeover provisions may inhibit a change in control in circumstances that could give the holders of our common stock the opportunity to realize a premium over the market price of our common stock. We have also adopted measures that may make it difficult for a third party to obtain control of us, including provisions of our amended certificate of incorporation and amended and restated bylaws dividing our board of directors in three classes serving staggered three-year terms, requiring the affirmative vote of the holders of 75% of the then outstanding shares of our capital stock entitled to vote to remove a director for cause, and, subject to the rights of any holders of preferred stock, filling any vacancy on our Board of Directors only by a vote of a majority of the directors then in office. The classification of our Board of Directors and the limitations on removal of directors and filling of vacancies could have the effect of making it more difficult for a third party to acquire us, or of discouraging a third party from acquiring us. Our certificate of incorporation and bylaws also provide that special meetings of the stockholders may only be called by our Board of Directors, Chairman, Chief Executive Officer or Secretary. These provisions, as well as other provisions of our amended certificate of incorporation and our amended and restated bylaws, may delay, defer or prevent a transaction or a change in control that might otherwise be in the best interests of our stockholders.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus, and other statements that we may make, may contain forward-looking statements with respect to future financial or business performance, strategies or expectations. Forward-looking statements are typically identified by words or phrases such as “trend,” “opportunity,” “pipeline,” “believe,” “comfortable,” “expect,” “anticipate,” “current,” “intention,” “estimate,” “position,” “assume,” “potential,” “outlook,” “continue,” “remain,” “maintain,” “sustain,” “seek,” “achieve” and similar expressions, or future or conditional verbs such as “will,” “would,” “should,” “could,” “may” or similar expressions.

Forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made, and we assume no duty to and do not undertake to update forward-looking statements. Actual results could differ materially from those anticipated in forward-looking statements and future results could differ materially from historical performance.

In addition to factors previously identified elsewhere in this prospectus, including the “Risks” section of this prospectus, the following factors, among others, could cause actual results to differ materially from forward-looking statements or historical performance:

- our future operating results;
- our business prospects and the prospects of our portfolio companies;
- the impact of investments that we expect to make;
- our contractual arrangements and relationships with third parties;
- the dependence of our future success on the general economy and its impact on the industries in which we invest;
- the ability of our portfolio companies to achieve their objectives;
- our expected financings and investments;
- the adequacy of our cash resources and working capital, including our ability to obtain continued financing on favorable terms;
- the timing of cash flows, if any, from the operations of our portfolio companies;
- the impact of increased competition;
- the ability of the Advisor to locate suitable investments for us and to monitor and administer our investments;
- potential conflicts of interest in the allocation of opportunities between us and other investment funds managed by the Advisor or its affiliates;
- the ability of the Advisor to attract and retain highly talented professionals;
- fluctuations in foreign currency exchange rates;
- regulatory changes and other changes in law; and
- the impact of changes to tax legislation and, generally, our tax position.

The forward-looking statements in this prospectus are excluded from the safe harbor protection provided by Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934.

USE OF PROCEEDS

We intend to use the net proceeds from selling securities pursuant to this prospectus for general corporate purposes, which include investing in portfolio companies in accordance with our investment objective and strategies and, pending such investments, investing the net proceeds of an offering in cash equivalents, U.S. government securities and other high-quality debt investments that mature in one year or less from the date of investment and repaying indebtedness. The supplement to this prospectus relating to an offering will more fully identify the use of the proceeds from such offering.

We anticipate that substantially all of the net proceeds of an offering of securities pursuant to this prospectus will be used for the above purposes within two years, depending on the availability of appropriate investment opportunities consistent with our investment objective and market conditions. Our portfolio currently consists primarily of senior loans, subordinated loans and equity securities. Pending our investments in new or existing portfolio companies, we plan to invest a portion of the net proceeds in cash equivalents, U.S. government securities and other high-quality debt investments that mature in one year or less from the date of investment and may use such funds for other general corporate purposes. The management fee payable by us will not be reduced while our assets are invested in such securities. See “Regulation—Temporary investments” for additional information about temporary investments we may make while waiting to make longer-term investments in pursuit of our investment objective.

DISTRIBUTIONS

We have paid and intend to continue to make distributions on a quarterly basis to our stockholders. The amount of our quarterly distributions, if any, will be determined by our Board of Directors. We intend to distribute to our stockholders substantially all of our income. We may elect to make deemed distributions to our stockholders of certain net capital gains. If this happens, you will be treated as if you received an actual distribution of the capital gains we retain and reinvested the net after-tax proceeds in us. You also may be eligible to claim a tax credit (or, in certain circumstances, a tax refund) equal to your allocable share of the tax we paid on the capital gains deemed distributed to you. See “Material U.S. Federal Tax Matters.”

The following table summarizes our dividends declared since our inception of operations (July 25, 2005):

<u>Dividend Amount Per Share Outstanding</u>	<u>Record Date</u>	<u>Payment Date</u>
\$0.20	December 31, 2005	January 31, 2006
\$0.20	March 15, 2006	March 31, 2006
\$0.23	June 15, 2006	June 30, 2006
\$0.30	September 15, 2006	September 29, 2006
\$0.42	December 31, 2006	January 31, 2007
\$0.42	March 15, 2007	March 30, 2007
\$0.42	May 15, 2007	May 31, 2007
\$0.42	September 14, 2007	September 28, 2007
\$0.43	December 14, 2007	December 31, 2007
\$0.43	March 17, 2008	March 31, 2008
\$0.43	June 16, 2008	June 30, 2008
\$0.43	September 15, 2008	September 30, 2008
\$0.43	December 15, 2008	December 31, 2008
\$0.16	March 20, 2009	April 3, 2009
\$0.16	June 19, 2009	July 2, 2009

\$0.32	March 18, 2011	April 1, 2011
\$0.26	June 17, 2011	July 1, 2011
\$0.26	September 19, 2011	October 3, 2011
\$0.26	December 21, 2011	January 4, 2012
\$0.26	March 20, 2012	April 3, 2012

Tax characteristics of all dividends are reported to stockholders on Form 1099 after the end of the calendar year.

We may not be able to achieve operating results that will allow us to make dividends and distributions at a specific level or to increase the amount of these dividends and distributions from time to time. Also, we may be limited in our ability to make dividends and distributions due to the asset coverage test applicable to us as a BDC under the 1940 Act and due to provisions in our existing and future debt arrangements. See “Regulation.” If we do not distribute a certain percentage of our income annually, we will suffer adverse tax consequences, including possible loss of favorable RIC tax treatment. In addition, in accordance with U.S. generally accepted accounting principles and tax regulations, we include in income certain amounts that we have not yet received in cash, such as payment-in-kind interest, which represents contractual interest added to the loan balance that becomes due at

[Table of Contents](#)

the end of the loan term, or the accrual of original issue or market discount. Since we may recognize income before or without receiving cash representing such income, we may have difficulty meeting the requirement to distribute at least 90% of our investment company taxable income to obtain tax benefits as a RIC. We cannot assure stockholders that they will receive any distributions or distributions at a particular level.

We maintain an “opt out” dividend reinvestment plan for our common stockholders, which we refer to as the Plan. As a result, if we declare a dividend, then stockholders’ cash dividends will be automatically reinvested in additional shares of our common stock, unless they specifically “opt out” of the Plan so as to receive cash dividends.

Under the terms of an amendment to our Plan adopted on March 4, 2009, dividends may be paid in newly issued or treasury shares of our common stock at a price equal to 95% of the market price on the dividend payment date. This feature of the Plan means that, under certain circumstances, we may issue shares of our common stock at a price below net asset value per share, which could cause our stockholders to experience dilution. See “Dividend Reinvestment Plan.”

With respect to the dividends paid to stockholders, income we receive from origination, structuring, closing, commitment and other upfront fees associated with investments in portfolio companies is treated as taxable income when received and accordingly distributed to stockholders. Such fees may cause our taxable income to exceed our GAAP income, although the differences are expected to be temporary in nature.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information contained in this section should be read in conjunction with the selected financial data and our financial statements and notes thereto appearing elsewhere in this prospectus.

Overview

We were incorporated in Delaware on April 13, 2005 and were initially funded on July 25, 2005. Our investment objective is to provide a combination of current income and capital appreciation. We intend to invest primarily in debt and equity securities of private and certain public U.S. middle-market companies.

We are externally managed and have elected to be regulated as a BDC under the 1940 Act. As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in "qualifying assets," including securities of private or thinly traded public U.S. companies, cash, cash equivalents, U.S. Government securities and high-quality debt investments that mature in one year or less.

Investments

Our level of investment activity can and does vary substantially from period to period depending on many factors, including the amount of debt and equity capital available to middle-market companies, the level of merger and acquisition activity, the general economic environment and the competitive environment for the types of investments we make.

As a BDC, we must not acquire any assets other than "qualifying assets" specified in the 1940 Act unless, at the time the acquisition is made, at least 70% of our total assets are qualifying assets (with certain limited exceptions). Qualifying assets include investments in "eligible portfolio companies." Under the relevant SEC rules, the term "eligible portfolio company" includes all private companies, companies whose securities are not listed on a national securities exchange, and certain public companies that have listed their securities on a national securities exchange and have a market capitalization of less than \$250 million. These rules also permit us to include as qualifying assets certain follow-on investments in companies that were eligible portfolio companies at the time of initial investment but that no longer meet the definition.

Revenues

We generate revenues primarily in the form of interest on the debt we hold, dividends on our equity interests and capital gains on the sale of warrants and other debt or equity interests that we acquire in portfolio companies. Our investments in fixed income instruments generally have an expected maturity of three to ten years, although we have no lower or upper constraint on maturity, and typically bear interest at a fixed or floating rate. Interest on our debt securities is generally payable quarterly or semi-annually. Payments of principal of our debt investments may be amortized over the stated term of the investment, deferred for several years or due entirely at maturity. In some cases, our debt instruments and preferred stock investments may defer payments of cash interest or dividends or pay interest or dividends in-kind. Any outstanding principal amount of our debt securities and any accrued but unpaid interest will generally become due at the maturity date. In addition, we may generate revenue in the form of prepayment fees, commitment, origination, structuring or due diligence fees, fees for providing significant managerial assistance and consulting fees.

Expenses

Our primary operating expenses include the payment of a base management fee and, depending on our operating results, an incentive management fee, expenses reimbursable under the management agreement, administration fees and the allocable portion of overhead under the administration agreement. The base

Table of Contents

management fee and incentive management fee compensate the Advisor for work in identifying, evaluating, negotiating, closing and monitoring our investments. Our management agreement with the Advisor provides that we will reimburse the Advisor for costs and expenses incurred by the Advisor for office space rental, office equipment and utilities allocable to the Advisor under the management agreement, as well as any costs and expenses incurred by the Advisor relating to any non-investment advisory, administrative or operating services provided by the Advisor to us. We bear all other costs and expenses of our operations and transactions, including those relating to:

- our organization;
- calculating our net asset value (including the cost and expenses of any independent valuation firms);
- expenses incurred by the Advisor payable to third parties in monitoring our investments and performing due diligence on prospective portfolio companies;
- interest payable on debt, if any, incurred to finance our investments;
- the costs of future offerings of common shares and other securities, if any;
- the base management fee and any incentive management fee;
- dividends and distributions on our preferred shares, if any, and common shares;
- administration fees payable under the administration agreement;
- fees payable to third parties relating to, or associated with, making investments;
- transfer agent and custodial fees;
- registration fees;
- listing fees;
- taxes;
- independent director fees and expenses;
- costs of preparing and filing reports or other documents with the SEC;
- the costs of any reports, proxy statements or other notices to our stockholders, including printing costs;
- our fidelity bond;
- directors and officers/errors and omissions liability insurance, and any other insurance premiums;
- indemnification payments;
- direct costs and expenses of administration, including audit and legal costs; and
- all other expenses reasonably incurred by us or the Administrator in connection with administering our business, such as the allocable portion of overhead under the administration agreement, including rent and other allocable portions of the cost of certain of our officers and their respective staffs.

Additionally, the management agreement provides that the Advisor or its affiliates may be entitled to the Incentive Fee under certain circumstances. The determination of the Incentive Fee will result in the Advisor or its affiliates receiving no Incentive Fee payments if returns to our stockholders do not meet an 8.0% annualized rate of return and will result in the Advisor or its affiliates receiving less than the full amount of the Incentive Fee percentage until returns to stockholders exceed an approximate 13.3% annualized rate of return. Annualized rate of return in this context is computed by reference to our net asset value and does not take into account changes in the market price of our common stock. The determination of the Incentive Fee is subject to any applicable limitations under the 1940 Act and the Advisers Act.

Table of Contents

We expect our general and administrative operating expenses related to our ongoing operations to remain relatively stable or decline slightly as a percentage of our assets in future periods. Incentive fees, interest expense and costs relating to future offerings of securities would be additive.

The SEC requires that “Total annual expenses” be calculated as a percentage of net assets in the chart on page 7 rather than as a percentage of total assets. Total assets includes assets that have been funded with borrowed monies (leverage). For reference, the chart below illustrates our “Total annual expenses” as a percentage of total assets:

<u>Estimated Annual Expenses (as a Percentage of Total Assets)</u>	
Management Fees	2.00%(1)
Incentive Fees Payable under the Investment Management Agreement	1.09%(2)
Interest Payments on Borrowed Funds	1.74%(3)
Other Expenses	0.72%(4)
Total Annual Expenses	<u>5.55%</u>

- (1) Our management fee is 2.0% of our total assets, payable quarterly in arrears based on our total assets at the beginning of the quarter. “Management Fees” reflected in the table above is based on our total assets at December 31, 2011. See “The Advisor.”
- (2) These Incentive Fees are based on actual amounts incurred during the year ended December 31, 2011, as our Incentive Fees are currently expected to be concentrated in the fourth quarter of each year. However, the Incentive Fee is based on our performance, will vary from year to year and will not be paid unless our performance exceeds certain thresholds. As we cannot predict whether we will meet these thresholds, the Incentive Fee paid in future years, if any, may be substantially different than the fee earned during the year ended December 31, 2011. For more detailed information about the Incentive Fee, please see the section of this prospectus captioned “The Advisor” and Note 3 to our financial statements included elsewhere in this prospectus.
- (3) “Interest Payments on Borrowed Funds” represents interest and credit facility fees incurred and amortization of debt issuance costs during the year ended December 31, 2011. Our average outstanding debt balance during the year ended December 31, 2011 was approximately \$291.4 million. The Credit Facility allows us to increase commitments thereunder up to an additional \$525 million. In addition, on January 18, 2011 we issued \$158 million of Senior Secured Notes with an interest rate of 6.50% and a maturity date of January 18, 2016 and \$17 million of Senior Secured Notes with an interest rate of 6.60% and a maturity date of January 18, 2018. As a result, our interest payments on borrowed funds as a percentage of net assets attributable to common shares may increase.
- (4) “Other Expenses” includes our overhead expenses, including expenses of the Advisor reimbursable under the investment management agreement and of the Administrator reimbursable under the administration agreement. Such expenses are based on actual other expenses for the year ended December 31, 2011.

Critical accounting policies

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Changes in the economic environment, financial markets and any other parameters used in determining such estimates could cause actual results to differ. Our critical accounting policies, including those relating to the valuation of our investment portfolio, are further described in the notes to the financial statements and in Note 2 to the financial statements in the Company’s Annual Report on Form 10-K for the year ended December 31, 2011, which was filed with the SEC on March 1, 2012. See Note 2 to the financial statements for a description of recently issued accounting pronouncements.

Valuation of portfolio investments

Investments for which market quotations are readily available are valued at such market quotations unless they are deemed not to represent fair value. We obtain market quotations, when available, from an independent pricing service or one or more broker-dealers or market makers and may utilize the average of the range of bid and ask quotations as a practical expedient for fair value. Debt and equity securities for which market quotations are not readily available or for which market quotations are deemed not to represent fair value are valued at fair value as determined in good faith by or under the direction of our Board of Directors. Because we expect that there will not be a readily available market value for substantially all of the investments in our portfolio, we expect to value substantially all of our portfolio investments at fair value as determined in good faith under the direction of our Board of Directors using a consistently applied valuation process in accordance with a documented valuation policy that has been reviewed and approved by our Board of Directors. Due to the inherent uncertainty and subjectivity of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a readily available market value existed for such investments and may differ materially from the values that we may ultimately realize. In addition, changes in the market environment and other events may have differing impacts on the market quotations used to value some of our investments than on the fair values of our investments for which market quotations are not readily available. Market quotations may be deemed not to represent fair value in certain circumstances where the Advisor believes that facts and circumstances applicable to an issuer, a seller or purchaser or the market for a particular security cause current market quotations to not reflect the fair value of the security. Examples of these events could include cases where a security trades infrequently causing a quoted purchase or sale price to become stale, where there is a “forced” sale by a distressed seller, where market quotations vary substantially among market makers, or where there is a wide bid-ask spread or significant increase in the bid-ask spread.

Those investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value are valued utilizing a market approach, an income approach, or both approaches, as appropriate. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts. In following these approaches, the types of factors that we may take into account in determining the fair value of our investments include, as relevant and among other factors: available current market data, including relevant and applicable market trading and transaction comparables, applicable market yields and multiples, security covenants, call protection provisions, information rights, the nature and realizable value of any collateral, the portfolio company’s ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons of financial ratios of peer companies that are public, M&A comparables, our principal market (as the reporting entity) and enterprise values.

With respect to investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value, our Board of Directors has approved a multi-step valuation process each quarter, as described below:

- our quarterly valuation process begins with each portfolio company or investment being initially evaluated and rated by the investment professionals of the Advisor responsible for the portfolio investment;
- the investment professionals provide recent portfolio company financial statements and other reporting materials to independent valuation firms engaged by our Board of Directors, such firms conduct independent appraisals each quarter and their preliminary valuation conclusions are documented and discussed with senior management of the Advisor;
- the audit committee of our Board of Directors reviews the preliminary valuations prepared by the independent valuation firms; and

[Table of Contents](#)

- the Board of Directors discusses valuations and determines the fair value of each investment in our portfolio in good faith based on the input of the Advisor, the respective independent valuation firms and the audit committee.

Until the end of the second calendar quarter following its acquisition, each unquoted investment in a new portfolio company generally is valued at cost, which the Advisor believes approximates fair value under the circumstances. As of that date, an independent valuation firm may conduct an initial independent appraisal of the investment.

Accounting Standards Codification (“ASC”) 820-10, *Fair Value Measurements and Disclosures* (“ASC 820-10”), defines fair value, establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements. ASC 820-10 defines fair value as the price that a company would receive upon selling an investment or pay to transfer a liability in an orderly transaction to a market participant in the principal or most advantageous market for the investment. ASC 820-10 emphasizes that valuation techniques maximize the use of observable market inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of us. Unobservable inputs are inputs that reflect our assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances.

ASC 820-10 establishes a hierarchy that classifies these inputs into the three broad levels listed below:

Level 1 — Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that a company has the ability to access.

Level 2 — Valuations based on unadjusted quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 — Valuations based on inputs that are unobservable and significant to the overall fair value measurement. The inputs into the determination of fair value may require significant management judgment or estimation.

Transfers between levels, if any, represent the value as of the beginning of the period of any investment where a change in the pricing level occurred from the beginning to the end of the period.

We evaluate the source of inputs, including any markets in which our investments are trading, in determining fair value and categorize each investment within the fair value hierarchy pursuant to and consistent with ASC 820-10.

Determination of fair value involves subjective judgments and estimates. Accordingly, the notes to our financial statements express the uncertainty with respect to the possible effect of such valuations, and any change in such valuations, on the financial statements.

Revenue recognition

We record interest income, adjusted for amortization of premium and accretion of discount, and dividend income on an accrual basis to the extent we expect to collect such amounts. For loans and securities with payment-in-kind (“PIK”) income, which represents contractual interest or dividends accrued and added to the principal balance and generally due at maturity, such income is accrued only to the extent that the Advisor believes that the PIK income is likely to be collected. We may not accrue PIK income if the Advisor believes that the PIK income is not collectible.

[Table of Contents](#)

In accordance with ASC 605-10-25-1, *Revenue Recognition*, which establishes the considerations with respect to recognition of revenue and gains, structuring of service fees, origination, closing, commitment and other upfront fees are recognized as revenue when earned. For GAAP purposes these fees may be recognized upfront or may be amortized. For tax purposes these fees are generally recognized upfront. This may result in income being recorded as GAAP income over the life of portfolio investment and as taxable income when received.

Upon the prepayment of a loan or debt security, any prepayment penalties and unamortized loan origination, structuring, closing, commitment and other upfront fees are recorded as interest income.

Net realized gains or losses and net change in unrealized appreciation or depreciation

We measure realized gains or losses by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment, without regard to unrealized appreciation or depreciation previously recognized, but considering unamortized upfront fees and prepayment fees. Realized gains and losses are computed using the specific identification method. Net change in unrealized appreciation or depreciation reflects the change in portfolio investment values during the reporting period, including the reversal of previously recorded unrealized appreciation or depreciation, when gains or losses are realized.

Federal income taxes

We have elected to be taxed as a RIC under Subchapter M of the Code and currently qualify, and intend to continue to qualify each year, as a RIC under the Code. In order to qualify as a RIC, we are required to distribute annually at least 90% of investment company taxable income, as defined by the Code, to our stockholders. To avoid federal excise taxes, we must distribute annually at least 98% of our ordinary income and 98.2% of our net capital gains from the current year and any undistributed ordinary income and net capital gains from the preceding years. We may, at our discretion, carry forward taxable income in excess of calendar year distributions and pay a 4% excise tax on this income. If we choose to do so, all other things being equal, this would increase expenses and reduce the amount available to be distributed to our stockholders. We will accrue excise tax on estimated excess taxable income as required.

Financial and operating highlights

At December 31, 2011:

Investment Portfolio: \$1,056.7 million

Net Assets: \$701.0 million

Indebtedness (borrowings under Credit Facility and Senior Secured Notes): \$343.0 million

Net Asset Value per share: \$9.58

Portfolio Activity for the Year Ended December 31, 2011:

Cost of investments during period: \$401.5 million

Sales, repayments and other exits during period: \$249.1 million

Number of portfolio companies at end of period: 54

Operating Results for the Year Ended December 31, 2011:

Net investment income per share: \$1.00

Dividends declared per share: \$1.10

Earnings per share: \$1.05

Net investment income: \$72.9 million

Net realized and unrealized gains: \$4.0 million

Net increase in net assets from operations: \$76.9 million

Portfolio and investment activity

During the year ended December 31, 2011, we invested approximately \$401.5 million across twelve new and several existing portfolio companies. The new investments consisted primarily of senior loans secured by first liens (\$93.5 million, or 23% of the total) or second liens (\$267.6 million, or 67%), senior secured notes (\$40.9 million, or 10%) and unsecured or subordinated debt securities and equity securities (\$0.5 million or less than 1%) representing the cancellation of an unsettled prior period equity purchase. Additionally, we received proceeds from sales, repayments and other exits of investment principal of approximately \$249.1 million during the year ended December 31, 2011.

At December 31, 2011, our portfolio of \$1,056.7 million (at fair value) consisted of 54 portfolio companies and was invested 62% in senior secured loans, 16% in unsecured or subordinated debt securities, 11% in equity investments, 11% in senior secured notes and less than 1% in cash and cash equivalents. Our average portfolio company investment at amortized cost was approximately \$20.3 million. Our largest portfolio company investment by value was approximately \$50.0 million and our five largest portfolio company investments by value comprised approximately 21% of our portfolio at December 31, 2011. At December 31, 2010, our net portfolio of \$882 million (at fair value) consisted of 50 portfolio companies and was invested 50% in senior secured loans, 26% in unsecured or subordinated debt securities, 14% in equity investments, 10% in senior secured notes and less than 1% in cash and cash equivalents. Our average portfolio company investment at amortized cost was approximately \$19.7 million. Our largest portfolio company investment by value was approximately \$53.1 million and our five largest portfolio company investments by value comprised approximately 26% of our portfolio at December 31, 2010.

The weighted average yield of the debt and income producing equity securities in our portfolio at fair value was 12.7% at December 31, 2011 and 12.4% at December 31, 2010. The weighted average yields on our senior secured loans and other debt securities at fair value were 12.2% and 13.5%, respectively, at December 31, 2011, versus 11.3% and 14.3% at December 31, 2010. The weighted average yield of the debt and income producing equity securities in our portfolio at their current cost basis was 11.9% at December 31, 2011 and 10.9% at December 31, 2010. The weighted average yields on our senior secured loans and other debt securities at their current cost basis were 12.0% and 11.4%, respectively, at December 31, 2011, versus 10.1% and 12.1% at December 31, 2010. Yields are computed using interest rates and dividend yields as of the balance sheet date and include amortization of loan origination and commitment fees, original issue discount and market premium or discount. Yields exclude common equity investments, preferred equity investments with no stated dividend rate, short-term investments, and cash and cash equivalents.

At December 31, 2011, 51% of our debt investments bore interest based on floating rates, such as LIBOR, the Federal Funds Rate or the Prime Rate, and 49% bore interest at fixed rates. The percentage of our total debt investments that bore floating rate interest subject to an interest rate floor was 44% at December 31, 2011. At December 31, 2010, 45% of our debt investments bore interest based on floating rates, such as LIBOR, the Federal Funds Rate or the Prime Rate, and 55% bore interest at fixed rates. The percentage of our total debt investments that bore floating rate interest subject to an interest rate floor was 25% at December 31, 2010.

Results of operations

Results comparisons are for the years ended December 31, 2011, 2010 and 2009.

Investment income

Investment income totaled \$131,502,538, \$105,870,837 and \$124,884,057, respectively, for the years ended December 31, 2011, 2010 and 2009, of which \$73,521,854, \$57,321,456 and \$68,096,154 were attributable to interest and fees on senior secured loans, \$52,922,002, \$44,042,992 and \$54,112,822 to interest earned on other debt securities, \$4,056,403, \$4,385,525, and \$2,590,001 to dividends from equity securities, \$26,562, \$8,610 and \$11,509 to interest earned on short-term investments and cash equivalents, and \$975,717, \$112,254 and \$73,571 to other income, respectively. The increase in investment income compared to the prior year reflects interest and

[Table of Contents](#)

one time fees collected from the early repayment of one of our largest portfolio company investments during the second quarter as well as the consistent growth of our portfolio throughout the year as a result of the deployment of debt capital under our Credit Facility. Total investments at their current cost basis were \$1,097,870,669 at December 31, 2011, compared to \$985,677,505 at December 31, 2010.

Expenses

Total expenses for the years ended December 31, 2011, 2010 and 2009 were \$58,623,747, \$45,721,726 and \$47,818,496, respectively, which consisted of \$19,841,258, \$16,877,854 and \$18,498,189 in base management fees, \$16,561,095, \$6,233,689 and \$6,416,888 in interest expense and fees related to the Credit Facility and Senior Secured Notes, \$11,878,159, \$15,108,049 and \$16,818,602 in incentive management fees owed to the Advisor, \$2,499,742, \$2,136,038 and \$683,552 in amortization of debt issuance costs, \$1,905,782, \$877,930 and \$1,126,665 in professional fees, \$1,779,734, \$1,622,957, and \$1,466,563 in Advisor expenses, \$1,173,754, \$763,876 and \$807,837 in administrative services, \$486,759, \$581,428 and \$569,201 in insurance expenses, \$417,564, \$385,750 and \$360,095 in director fees and \$2,079,900, \$1,134,155 and \$1,070,904 in other expenses, respectively. In addition, we recorded a provision for federal excise taxes of zero, \$298,322 and \$1,012,791 for the years ended December 31, 2011, 2010 and 2009, respectively. The increase in base management fees reflects the overall growth and appreciation in the value of our portfolio as well as the deployment of debt capital under our Credit Facility. The decrease in incentive management fees primarily reflects the increase in the hurdle amount as a result of the increase in net asset value as compared to prior year. The increase in interest expense and fees related to the debt primarily reflects the issuance of our Senior Secured Notes in January 2011.

Net investment income

Net investment income was \$72,878,791, \$59,850,789 and \$76,052,770 respectively, for the years ended December 31, 2011, 2010 and 2009. The increase for the 2011 period is primarily a result of an increase in interest income and other fees partially offset by an increase in interest and debt related expenses.

Net realized gain or loss

Net realized loss of \$(49,893,376) for the year ended December 31, 2011 was the result of \$(51,102,184) in net losses realized from the disposition or restructuring of our investments and \$1,208,808 in net gain realized on foreign currency transactions. Net realized loss on investments for the year ended December 31, 2011 resulted primarily from the restructuring or disposition of our investments in Facet Technologies, LLC, Mattress Giant Corporation and Fitness Together Holdings, Inc. Foreign currency gains mainly represent gains on forward currency contracts used to mitigate the impact that changes in foreign exchange rates would have on our investments denominated in foreign currencies. For the year ended December 31, 2010, net realized loss was \$(90,236,723) as a result of \$(89,301,764) in net losses realized from the disposition or restructuring of our investments and \$(934,959) in net loss realized on foreign currency transactions. For the year ended December 31, 2009, net realized loss was \$(110,238,068) as a result of \$(106,531,541) in net losses realized from the disposition or restructuring of investments and \$(3,706,527) in net loss realized on foreign currency transactions.

Net unrealized appreciation or depreciation

For the years ended December 31, 2011, 2010 and 2009, the change in net unrealized appreciation or depreciation was a decrease in net unrealized depreciation of \$53,935,094, \$101,935,495 and \$101,425,021, respectively. The decrease in net unrealized depreciation for the year ended December 31, 2011 was comprised of a decrease in net unrealized depreciation on investments of \$54,695,534 and a net foreign currency translation loss of \$(760,440). The valuations of our investments were favorably impacted by market-wide decreases in interest yields, as well as increases in multiples used to estimate the fair value of some of our investments. Market-wide movements and trading multiples are not necessarily indicative of any fundamental change in the

[Table of Contents](#)

condition or prospects of our portfolio companies. The decrease in net unrealized depreciation for the year ended December 31, 2010 was comprised of a decrease in net unrealized depreciation on investments of \$102,486,118 and net foreign currency translation loss of \$(550,623). The decrease in net unrealized depreciation for the year ended December 31, 2009 was comprised of a decrease in net unrealized depreciation on investments of \$100,908,828 and a net foreign currency translation gain of \$516,193.

Net increase in net assets resulting from operations

The net increase in net assets resulting from operations was \$76,920,509, \$71,549,561 and \$67,239,723 for the years ended December 31, 2011, 2010 and 2009, respectively. As compared to the prior periods, the increase primarily reflects the increase in net investment income as well as the decrease in net unrealized depreciation on investments, net of realized gains and losses, for the year ended December 31, 2011.

Financial condition, liquidity and capital resources

During the year ended December 31, 2011, we generated operating cash flows primarily from interest earned and fees received on senior secured loans and other debt securities, as well as from sales of selected portfolio company investments or repayments of principal.

Net cash used in operating activities for the year ended December 31, 2011 was \$87,099,594. Our primary sources of cash from operating activities during the period consisted of a net increase in net assets from operations of \$76,920,509 and sales/repayments of investments of \$249,139,391, net of purchases of investments of \$401,530,203.

Net cash provided by financing activities for the year ended December 31, 2011 was \$92,736,149. Our primary source of cash from financing activities was \$175,000,000 in proceeds from the issuance of our Senior Secured Notes in January. Our primary use of cash for financing activities was \$76,522,495 of dividend distributions.

Our senior secured, multi-currency Credit Facility provides us with \$375,000,000 in total availability, consisting of \$275,000,000 of revolving loan commitments and \$100,000,000 of term loan commitments. The Credit Facility is secured by substantially all of the assets in the Company's portfolio, including cash and cash equivalents. The Credit Facility has a stated maturity date of December 6, 2013 and the interest rate applicable to borrowings thereunder is generally LIBOR plus an applicable spread of either 3.00% or 3.25% for revolving loans, based on a pricing grid depending on the Company's credit rating, and LIBOR plus 3.00% for term loans. The Credit Facility does not contain a LIBOR floor requirement. At December 31, 2011, the effective LIBOR spread under the Credit Facility was 3.01%. Term loan commitments under the Credit Facility have been fully drawn and, once repaid, may not be reborrowed. The Credit Facility also includes an "accordion" feature that allows the Company, under certain circumstances, to increase the size of the Credit Facility by up to an additional \$275,000,000 of revolving loan commitments and \$250,000,000 of term loan commitments. The Credit Facility is used to supplement the Company's equity capital to make additional portfolio investments and for other general corporate purposes. At December 31, 2011, we had \$168,000,000 drawn and outstanding under the Credit Facility, with \$207,000,000 available to us, subject to compliance with customary affirmative and negative covenants, including the maintenance of a minimum stockholders' equity, the maintenance of a ratio of not less than 200% of total assets (less total liabilities other than indebtedness) to total indebtedness, and restrictions on certain payments and issuance of debt. At December 31, 2011, the Company was in compliance with regulatory coverage requirements with an asset coverage ratio of approximately 301% and was in compliance with all financial covenants under our debt agreements. In addition, borrowings under the Credit Facility (and the incurrence of certain other permitted debt) are subject to compliance with a borrowing base that applies different advance rates to different types of assets in the Company's portfolio.

On January 18, 2011, the Company closed a private placement issuance of \$158,000,000 in aggregate principal amount of Senior Secured Notes with a fixed interest rate of 6.50% and a maturity date of January 18,

[Table of Contents](#)

2016 and \$17,000,000 million in aggregate principal amount of Senior Secured Notes with a fixed interest rate of 6.60% and a maturity date of January 18, 2018. Interest on the Senior Secured Notes is due semi-annually on January 18 and July 18, commencing on July 18, 2011. The proceeds from the issuance of the Senior Secured Notes were used to fund new portfolio investments, reduce outstanding borrowings under the Credit Facility and for general corporate purposes. The Senior Secured Notes contain customary affirmative and negative covenants substantially similar to those in our Credit Facility. At December 31, 2011, we were in compliance with all financial and operational covenants required by the Credit Facility and Senior Secured Notes.

The primary use of existing funds is expected to be purchases of investments in portfolio companies, cash distributions to our stockholders, repayment of indebtedness and other general corporate purposes.

As a closed-end investment company regulated as a BDC under the 1940 Act, we are prohibited from selling shares of our common stock at a price below the current net asset value of the stock, or NAV, unless our stockholders approve such a sale and our Board of Directors makes certain determinations. On February 8, 2010, subject to certain Board of Director determinations, our stockholders approved our ability to sell or otherwise issue shares of our common stock at a price below its then current net asset value per share for a twelve month period expiring on the anniversary of the date of stockholder approval. In any such case, the price at which our common stock would be issued and sold may not be less than a price that, in the determination of our Board of Directors, closely approximates the market value of such common stock. Any sale of the Company's common stock at a price below NAV would have a dilutive effect on our NAV.

Contractual obligations

A summary of our significant contractual payment obligations for the repayment of outstanding borrowings at December 31, 2011 is as follows:

	Payments Due By Period (dollars in millions)				
	Total	Less than 1 year	1-3 years	3-5 years	After 5 years
Credit Facility(1)	\$ 168.0	\$ —	\$ 168.0	\$ —	\$ —
Senior Secured Notes	175.0	—	—	158.0	17.0
Interest Payable	5.6	5.6	—	—	—
Credit Facility Fees Payable	0.3	0.3	—	—	—

(1) At December 31, 2011, \$207.0 million remained unused under our Credit Facility.

We have entered into several contracts under which we have future commitments. Pursuant to an investment management agreement, the Advisor manages our day-to-day operations and provides investment advisory services to us. Payments under the investment management agreement are equal to a percentage of the value of our gross investment assets and an incentive management fee, plus reimbursement of certain expenses incurred by the Advisor. Under our administration agreement, the Administrator provides us with administrative services, facilities and personnel. Payments under the administration agreement are equal to an allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations to us, including rent and our allocable portion of the cost of certain of our officers and their respective staffs. Pursuant to various other agreements, subsidiaries of The Bank of New York Mellon Corporation provide custodian services, administrative and accounting services, transfer agency and compliance support services to us. Payments under such agreements are generally equal to a percentage of our average net assets plus reimbursement of reasonable expenses, and a base fee. Either party may terminate each of the investment management agreement, administration agreement and such other agreements without penalty upon not less than 60 days' written notice to the other.

Off-balance sheet financing

In the normal course of business, the Company may enter into guarantees on behalf of portfolio companies. Under these arrangements, the Company would be required to make payments to third parties if the portfolio

[Table of Contents](#)

companies were to default on their related payment obligations. The Company's only such guarantee outstanding at December 31, 2010 was terminated on January 17, 2011 with no payments having been made thereunder. There were no such guarantees outstanding at December 31, 2011.

Dividends

Our quarterly dividends, if any, are determined by our Board of Directors. Dividends are declared considering our estimate of annual taxable income available for distribution to stockholders and the amount of taxable income carried over from the prior year for distribution in the current year. We cannot assure stockholders that they will receive any dividends and distributions or dividends and distributions at a particular level. Dividends declared by the Company since July 25, 2005 (inception of operations) have been as follows:

<u>Dividend Amount Per Share Outstanding</u>	<u>Record Date</u>	<u>Payment Date</u>
\$0.20	December 31, 2005	January 31, 2006
\$0.20	March 15, 2006	March 31, 2006
\$0.23	June 15, 2006	June 30, 2006
\$0.30	September 15, 2006	September 29, 2006
\$0.42	December 31, 2006	January 31, 2007
\$0.42	March 15, 2007	March 30, 2007
\$0.42	May 15, 2007	May 31, 2007

\$0.26	December 21, 2011	January 4, 2012
\$0.26	March 20, 2012	April 3, 2012

Tax characteristics of all dividends are reported to stockholders on Form 1099 after the end of the calendar year.

We have elected to be taxed as a RIC under Subchapter M of the Code. In order to maintain favorable RIC tax treatment, we must distribute annually to our stockholders at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any, out of the assets legally available for distribution. In order to avoid certain excise taxes imposed on RICs, we must distribute during each calendar year an amount at least equal to the sum of:

- 98% of our ordinary income for the calendar year;
- 98.2% of our capital gains in excess of capital losses for the one-year period ending on October 31st; and

[Table of Contents](#)

- any ordinary income and net capital gains for preceding years that were not distributed during such years.

We may, at our discretion, carry forward taxable income in excess of calendar year distributions and pay a 4% excise tax on this income. If we choose to do so, all other things being equal, this would increase expenses and reduce the amounts available to be distributed to our stockholders. We accrue excise tax on estimated taxable income as required. In addition, although we currently intend to distribute realized net capital gains (i.e., net long-term capital gains in excess of short-term capital losses), if any, at least annually, out of the assets legally available for such distributions, we may in the future decide to retain such capital gains for investment. There was no provision for federal excise taxes recorded for the year ended December 31, 2011. For the years ended December 31, 2010 and 2009, we recorded a provision for federal excise taxes of \$298,322 and \$1,012,791, respectively. There was no undistributed taxable income carried forward from 2011.

We maintain an “opt out” dividend reinvestment plan for our common stockholders. As a result, if we declare a dividend, stockholders’ cash dividends will be automatically reinvested in additional shares of our common stock, unless they specifically “opt out” of the dividend reinvestment plan so as to receive cash dividends. With respect to our dividends and distributions paid to stockholders during the years ended December 31, 2011, 2010 and 2009, dividends reinvested pursuant to our dividend reinvestment plan totaled \$8,021,087, \$5,468,133 and \$9,083,849, respectively.

Under the terms of an amendment to our dividend reinvestment plan adopted on March 4, 2009, dividends may be paid in newly issued or treasury shares of our common stock at a price equal to 95% of the market price on the dividend payment date. This feature of the plan means that, under certain circumstances, we may issue shares of our common stock at a price below net asset value per share, which could cause our stockholders to experience dilution.

We may not be able to achieve operating results that will allow us to make dividends and distributions at a specific level or to increase the amount of these dividends and distributions from time to time. Also, we may be limited in our ability to make dividends and distributions due to the asset coverage test applicable to us as a BDC under the 1940 Act and due to provisions in our existing and future debt arrangements. If we do not distribute a certain percentage of our income annually, we will suffer adverse tax consequences, including possible loss of favorable RIC tax treatment. In addition, in accordance with U.S. generally accepted accounting principles and tax regulations, we include in income certain amounts that we have not yet received in cash, such as payment-in-kind interest, which represents contractual interest added to the loan balance that becomes due at the end of the loan term, or the accrual of original issue or market discount. Since we may recognize income before or without receiving cash representing such income, we may have difficulty meeting the requirement to distribute at least 90% of our investment company taxable income to obtain tax benefits as a RIC and may be subject to an excise tax.

With respect to dividends paid to stockholders, certain income we receive from origination, structuring, closing, commitment and other upfront fees associated with investments in portfolio companies may cause our taxable income to exceed our GAAP income although the differences are expected to be temporary in nature.

Recent developments

On February 29, 2012, our Board of Directors declared a dividend of \$0.26 per share, payable on April 3, 2012 to stockholders of record at the close of business on March 20, 2012.

Our Board of Directors has authorized us to purchase shares of our common stock from time to time in the open market at prevailing market prices.

Quantitative and Qualitative Disclosure About Market Risk

We are subject to financial market risks, including changes in interest rates. At December 31, 2011, 51% of our debt investments bore interest based on floating rates, such as LIBOR, the Federal Funds Rate or the Prime Rate. The interest rates on such investments generally reset by reference to the current market index after one to six months. At December 31, 2011, the percentage of our total debt investments that bore floating rate interest subject to an interest rate floor was 44%. Floating rate investments subject to a floor generally reset by reference to the current market index after one to six months only if the index exceeds the floor.

To illustrate the potential impact of changes in interest rates, we have performed the following analysis based on our December 31, 2011 balance sheet and assuming no changes in our investment structure. Net asset value is analyzed using the assumptions that interest rates, as defined by the LIBOR and U.S. Treasury yield curves, increase or decrease and that the yield curves of the rate shocks will be parallel to each other. Under this analysis, an instantaneous 100 basis point increase in LIBOR and U.S. Treasury yields would cause a decline of approximately \$10,700,000, or \$0.15 per share, in the value of our net assets at December 31, 2011 and a corresponding 100 basis point decrease in LIBOR and U.S. Treasury yields would cause an increase of approximately \$10,300,000, or \$0.14 per share, in the value of our net assets on that date.

While hedging activities may help to insulate us against adverse changes in interest rates, they also may limit our ability to participate in the benefits of lower interest rates with respect to our portfolio of investments. During the years ended December 31, 2011, 2010 and 2009, we did not engage in any interest rate hedging activity.

SALES OF COMMON STOCK BELOW NET ASSET VALUE

On May 26, 2011, our stockholders approved a proposal authorizing us to sell or issue shares of our common stock at a price below our then current net asset value per share in one or more offerings, subject to certain limitations set forth in the Proxy Statement for our 2011 Annual Meeting of Stockholders. On May 24, 2011, the Board of Directors adopted a policy that the Company will not sell or issue more than 25% of the Company's then outstanding shares of common stock (immediately prior to such sale or issuance) at a price below its then current net asset value per share. The Proxy Statement for our 2012 Annual Meeting of Stockholders (the "Proxy Statement"), filed March 16, 2012, contains a proposal that, if approved by stockholders, would authorize us to sell or issue shares of our common stock (during the next 12 months) at a price below our then current net asset value per share in one or more offerings, subject to certain limitations set forth in the Proxy Statement (including that the cumulative number of shares sold following such approval pursuant to such authority does not exceed 25% of our then outstanding common stock immediately prior to each such sale). The Proxy Statement is hereby incorporated by reference.

In making a determination that an offering below NAV per share is in our and our stockholders' best interests, our Board of Directors will consider a variety of factors including:

- The effect that an offering below NAV per share would have on our stockholders, including the potential dilution they would experience as a result of the offering;
- The amount per share by which the offering price per share and the net proceeds per share are less than the most recently determined NAV per share;
- The relationship of recent market prices of our common stock to NAV per share and the potential impact of the offering on the market price per share of our common stock;
- Whether the estimated offering price would closely approximate the market value of our shares;
- The potential market impact of being able to raise capital during the recent financial market difficulties;
- The nature of any new investors anticipated to acquire shares in the offering;
- The anticipated rate of return on and quality, type and availability of investments; and
- The leverage available to us.

We will not sell shares of our common stock (or any warrants, options, rights or units to purchase shares of our common stock) under a prospectus supplement to this registration statement of which this prospectus forms a part (the "current registration statement") without first filing a new post-effective amendment to the current registration statement if the cumulative dilution to our NAV per share from offerings under the current registration statement exceeds 15%. This limit would be measured separately for each offering pursuant to the current registration statement by calculating the percentage dilution or accretion to aggregate NAV from that offering and then summing the percentage from each offering. For example, if our most recently determined NAV per share at the time of the first offering is \$15.00 and we have 50 million shares outstanding, the sale of 8 million shares at net proceeds to us of \$7.50 per share (a 50% discount) would produce dilution of 6.90%. If we subsequently determined that our NAV per share increased to \$17.50 on the then 58 million shares outstanding and then made an additional offering, we could, for example, sell approximately an additional 10 million shares at net proceeds to us of \$7.86 per share, which would produce dilution of 8.10%, before we would reach the aggregate 15% limit. If we file a new post-effective amendment, the threshold would reset.

Sales by us of our common stock at a discount from NAV pose potential risks for our existing stockholders whether or not they participate in the offering, as well as for new investors who participate in the offering.

[Table of Contents](#)

The following three headings and accompanying tables will explain and provide hypothetical examples on the impact of an offering of our common stock at a price less than NAV per share on three different set of investors:

- existing stockholders who do not purchase any shares in the offering;
- existing stockholders who purchase a relatively small amount of shares in the offering or a relatively large amount of shares in the offering; and
- new investors who become stockholders by purchasing shares in the offering.

Impact on Existing Stockholders who do not Participate in the Offering

Our existing stockholders who do not participate in an offering below NAV per share or who do not buy additional shares in the secondary market at the same or lower price we obtain in the offering (after expenses and commissions) face the greatest potential risks. These stockholders will experience an immediate decrease (often called dilution) in the NAV of the shares they hold and their NAV per share. These stockholders will also experience a disproportionately greater decrease in their participation in our earnings and assets and their voting power than the increase we will experience in our assets, potential earning power and voting interests due to the offering. These stockholders may also experience a decline in the market price of their shares, which often reflects to some degree announced or potential increases and decreases in NAV per share. This decrease could be more pronounced as the size of the offering and level of discounts increase.

The following table illustrates the level of net asset value dilution that would be experienced by a nonparticipating stockholder in three different hypothetical offerings of different sizes and levels of discount from net asset value per share, although it is not possible to predict the level of market price decline that may occur. Actual sales prices and discounts may differ from the presentation below.

The examples assume that we have 1,000,000 common shares outstanding, \$15,000,000 in total assets and \$5,000,000 in total liabilities. The current net asset value and net asset value per share are thus \$10,000,000 and \$10.00. The table illustrates the dilutive effect on a nonparticipating stockholder of (1) an offering of 50,000 shares (5% of the outstanding shares) at \$9.50 per share after offering expenses and commission (a 5% discount from net asset value), (2) an offering of 100,000 shares (10% of the outstanding shares) at \$9.00 per share after offering expenses and commissions (a 10% discount from net asset value) and (3) an offering of 200,000 shares (20% of the outstanding shares) at \$8.00 per share after offering expenses and commissions (a 20% discount from net asset value).

Impact on Existing Stockholders who do Participate in the Offering

Our existing stockholders who participate in an offering below NAV per share or who buy additional shares in the secondary market at the same or lower price as we obtain in the offering (after expenses and commissions) will experience the same types of NAV dilution as the nonparticipating stockholders, albeit at a lower level, to the extent they purchase less than the same percentage of the discounted offering as their interest in our shares immediately prior to the offering. The level of NAV dilution will decrease as the number of shares such stockholders purchase increases. Existing stockholders who buy more than such percentage will experience NAV dilution but will, in contrast to existing stockholders who purchase less than their proportionate share of the offering, experience an increase (often called accretion) in NAV per share over their investment per share and will also experience a disproportionately greater increase in their participation in our earnings and assets and their voting power than our increase in assets, potential earning power and voting interests due to the offering. The level of accretion will increase as the excess number of shares such stockholder purchases increases. Even a stockholder who over participates will, however, be subject to the risk that we may make additional discounted offerings in which such stockholder does not participate, in which case such a stockholder will experience NAV dilution as described above in such subsequent offerings. These stockholders may also experience a decline in the market price of their shares, which often reflects to some degree announced or potential increases and decreases in NAV per share. This decrease could be more pronounced as the size of the offering and level of discount to NAV increases.

Table of Contents

The following chart illustrates the level of dilution and accretion in the hypothetical 20% discount offering from the prior chart for a stockholder that acquires shares equal to (1) 50% of its proportionate share of the offering (i.e., 1,000 shares, which is 0.50% of the offering of 200,000 shares rather than its 1.00% assumed or hypothetical proportionate share) and (2) 150% of such percentage (i.e., 3,000 shares, which is 1.50% of an offering of 200,000 shares rather than its 1.00% assumed or hypothetical proportionate share). The prospectus supplement pursuant to which any discounted offering is made will include a chart for this example based on the actual number of shares in such offering and the actual discount from the most recently determined NAV per share.

	Prior to Sale Below NAV	Example 1 50% Participation		Example 2 150% Participation

Impact on New Investors

Investors who are not currently stockholders, but who participate in an offering below NAV and whose investment per share is greater than the resulting NAV per share (due to selling compensation and expenses paid by us) will experience an immediate decrease, albeit small, in the NAV of their shares and their NAV per share compared to the price they pay for their shares. Investors who are not currently stockholders and who participate in an offering below NAV per share and whose investment per share is also less than the resulting NAV per share due to selling compensation and expenses paid by the issuer being significantly less than the discount per share

[Table of Contents](#)

will experience an immediate increase in the NAV of their shares and their NAV per share compared to the price they pay for their shares. These investors will experience a disproportionately greater participation in our earnings and assets and their voting power than our increase in assets, potential earning power and voting interests. These investors will, however, be subject to the risk that we may make additional discounted offerings in which such new stockholder does not participate, in which case such new stockholder will experience dilution as described above in such subsequent offerings. These investors may also experience a decline in the market price of their shares, which often reflects to some degree announced or potential increases and decreases in NAV per share. This decrease could be more pronounced as the size of the offering and level of discounts increases.

The following chart illustrates the level of dilution or accretion for new investors that would be experienced by a new investor in the same 5%, 10% and 20% discounted offerings as described in the first chart above. The illustration is for a new investor who purchases the same percentage (1.00%) of the shares in the offering as the stockholder in the prior examples held immediately prior to the offering. The prospectus supplement pursuant to which any discounted offering is made will include a chart for this example based on the actual number of shares in such offering and the actual discount from the most recently determined NAV per share.

Fiscal 2009 (as of December 31, 2009)	\$ 296,000	\$ 2,817	\$ —	N/A
Fiscal 2008 (as of December 31, 2008)	\$ 426,000	\$ 2,195	\$ —	N/A
Fiscal 2007 (as of December 31, 2007)	\$ 381,300	\$ 2,910	\$ —	N/A
Senior Secured Notes				
Fiscal 2011 (as of December 31, 2011)	\$ 175,000	\$ 3,009	\$ —	N/A

- (1) On January 18, 2011, we closed a private placement issuance of \$158 million in aggregate principal amount of five-year, senior secured notes with a fixed interest rate of 6.50% and a maturity date of January 18, 2016 and \$17 million in aggregate principal amount of seven-year senior secured notes with a fixed interest rate of 6.60% and a maturity date of January 18, 2018.
- (2) Total amount of each class of senior securities outstanding at the end of the period presented (in 000's).
- (3) The asset coverage ratio for senior securities representing indebtedness is calculated as our consolidated total assets, less all liabilities and indebtedness not represented by senior securities, divided by senior securities representing indebtedness. This asset coverage ratio is multiplied by \$1,000 to determine the Asset Coverage Per Unit.
- (4) The amount to which such class of senior security would be entitled upon the involuntary liquidation of the issuer in preference to any security junior to it.
- (5) Not applicable, as senior securities are not registered for public trading.

PRICE RANGE OF COMMON STOCK

Our common stock has been quoted on The NASDAQ Global Select Market under the symbol “BKCC” since June 27, 2007. The following table lists the high and low closing bid price for our common stock, the closing bid price as a percentage of NAV, and quarterly dividends per share for the last three completed fiscal years. On March 14, 2012, the last reported closing price of our common stock was \$10.22 per share.

	<u>Closing Sales Price</u>			<u>Premium/ Discount of High Sales Price to NAV(2)</u>	<u>Premium/ Discount of Low Sales Price to NAV(2)</u>	<u>Declared Dividends</u>
	<u>NAV(1)</u>	<u>High</u>	<u>Low</u>			
<i>Year Ended December 31, 2009</i>						
First Quarter	\$ 9.04	\$ 10.98	\$ 2.41	121%	27%	\$ 0.16
Second Quarter	\$ 9.24	\$ 7.00	\$ 4.24	76%	46%	\$ 0.16
Third Quarter	\$ 9.59	\$ 8.91	\$ 5.79	93%	60%	\$ 0.16
Fourth Quarter	\$ 9.55	\$ 8.79	\$ 7.23	92%	76%	\$ 0.32
<i>Year Ended December 31, 2010</i>						
First Quarter	\$ 9.77	\$ 10.10	\$ 8.52	103%	87%	\$ 0.32
Second Quarter	\$ 9.83	\$ 11.58	\$ 9.70	118%	99%	\$ 0.32
Third Quarter	\$ 9.76	\$ 11.97	\$ 9.58	123%	98%	\$ 0.32
Fourth Quarter	\$ 9.62	\$ 12.69	\$ 10.95	132%	114%	\$ 0.32
<i>Year Ending December 31, 2011</i>						
First Quarter	\$ 9.56	\$ 12.75	\$ 9.48	133%	99%	\$ 0.32
Second Quarter	\$ 9.83	\$ 10.52	\$ 8.95	107%	91%	\$ 0.26
Third Quarter	\$ 9.75	\$ 9.43	\$ 7.30	97%	75%	\$ 0.26
Fourth Quarter	\$ 9.58	\$ 8.95	\$ 7.03	93%	73%	\$ 0.26

(1) NAV per share is determined as of the last day in the relevant quarter and therefore may not reflect the NAV per share on the date of the high and low sales prices. The NAVs shown are based on outstanding shares at the end of each period.

(2) Calculated as of the respective high or low closing sales price divided by NAV.

RATIO OF EARNINGS TO FIXED CHARGES

For the years ended December 31, 2011, 2010, 2009, 2008 and 2007, our ratios of earnings to fixed charges, computed as set forth below, were as follows:

	<u>Year Ended December 31, 2011</u>	<u>Year Ended December 31, 2010</u>	<u>Year Ended December 31, 2009</u>	<u>Year Ended December 31, 2008</u>	<u>Year Ended December 31, 2007</u>
Earnings to Fixed Charges(1)	5.0	9.5	10.5	(6.8)	1.8

For purposes of computing the ratios of earnings to fixed charges, earnings represent net increase (decrease) in net assets resulting from operations plus fixed charges. Fixed charges include interest and credit facility fees and amortization of debt issuance costs.

- (1) Earnings include net realized and unrealized gains or losses. Net realized and unrealized gains or losses can vary substantially from period to period. Excluding the net unrealized gains or losses, the earnings to fixed charges ratio would be 1.2, (3.6), (4.8), 5.2 and 3.6 for the years ended December 31, 2011, 2010, 2009, 2008 and 2007. Excluding the net realized and unrealized gains or losses, the earnings to fixed charges ratio would be 3.8, 7.2, 10.7, 4.9 and 3.7 for the years ended December 31, 2011, 2010, 2009, 2008 and 2007, respectively.

THE COMPANY

General

We provide middle-market companies with flexible financing solutions, including senior and junior secured, unsecured and subordinated debt securities and loans, and equity securities. Our strategy is to provide capital to meet our clients' current and future needs across this spectrum, creating long-term partnerships with growing middle-market companies.

We are organized as an externally-managed, non-diversified closed-end management investment company. We have elected to be regulated as a business development company, or BDC, under the Investment Company Act of 1940, which we refer to as the 1940 Act. In addition, for tax purposes we intend to continue to qualify as a regulated investment company, or RIC, under the Internal Revenue Code of 1986, which we refer to as the Code.

Our investment objective is to generate both current income and capital appreciation through our debt and equity investments. We invest primarily in middle-market companies and target investments throughout the capital structure that we believe provide an attractive risk-adjusted return. The term "middle-market" refers to companies with annual revenues typically between \$50 million and \$1 billion. Our targeted investment typically ranges between \$10 million and \$50 million, although the investment sizes may be more or less than the targeted range and the size of our investments may grow with our capital availability. We generally seek to invest in companies that operate in a broad variety of industries and that generate positive cash flows.

Although most of our investments are in senior and junior secured, unsecured and subordinated loans to U.S. private and certain public middle-market companies, we invest throughout the capital structure, which may include common and preferred equity, options and warrants, credit derivatives, high-yield bonds, distressed debt and other structured securities. We may from time-to-time invest up to 30% of our assets opportunistically in other types of investments, including securities of other public companies and foreign securities.

The senior and junior secured loans in which we invest generally have stated terms of three to ten years and the subordinated debt investments we make generally have stated terms of up to ten years, but the expected average life of such senior and junior secured loans and subordinated debt is generally between three and seven years. However, we may invest in securities of any maturity or duration. The debt that we invest in typically is not initially rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade (rated lower than "Baa3" by Moody's Investors Service, lower than "BBB-" by Fitch Ratings or lower than "BBB-" by Standard & Poor's). We may invest without limit in debt of any rating, as well as debt that has not been rated by any nationally recognized statistical rating organization.

We were incorporated on April 13, 2005, commenced operations with private funding on July 25, 2005, and completed our initial public offering on July 2, 2007. Since the commencement of our operations, the team of investment professionals of BlackRock Kelso Capital Advisors LLC (the "Advisor" or "BlackRock Kelso Capital Advisors"), including our senior management, has evaluated more than 2,000 investment opportunities and completed 128 investments, aggregating approximately \$2.5 billion in capital provided to middle-market companies through December 31, 2011.

During the year ended December 31, 2011, we invested approximately \$401.5 million across twelve new and several existing portfolio companies. This compares to \$406.0 million across eight new and several existing portfolio companies for the year ended December 31, 2010. Sales, repayments and other exits of investment principal totaled \$249.1 million during the year ended December 31, 2011, versus \$395.3 million during the year ended December 31, 2010.

At December 31, 2011, our net portfolio consisted of 54 portfolio companies and was invested 62% in senior secured loans, 16% in unsecured or subordinated debt securities, 11% in equity investments, 11% in senior

[Table of Contents](#)

secured notes and less than 1% in cash and cash equivalents. This compares to our portfolio of 50 portfolio companies which was invested 50% in senior secured loans, 26% in unsecured or subordinated debt securities, 14% in equity investments, 10% in senior secured notes and less than 1% in cash and cash equivalents at December 31, 2010. Our average portfolio company investment at amortized cost was approximately \$20.3 million at December 31, 2011, versus \$19.7 million at December 31, 2010.

The weighted average yield of the debt and income producing equity securities in our portfolio at fair value was 12.7% at December 31, 2011 and 12.4% at December 31, 2010. The weighted average yields on our senior secured loans and other debt securities at fair value were 12.2% and 13.5%, respectively, at December 31, 2011, versus 11.3% and 14.3% at December 31, 2010. The weighted average yield of the debt and income producing equity securities in our portfolio at their current cost basis was 11.9% at December 31, 2011 and 10.9% at December 31, 2010. The weighted average yields on our senior secured loans and other debt securities at their current cost basis were 12.0% and 11.4%, respectively, at December 31, 2011, versus 10.1% and 12.1% at December 31, 2010.

BlackRock Kelso Capital Advisors

Our investment activities are managed by the Advisor. The Advisor is responsible for sourcing potential investments, conducting research on prospective investments, analyzing investment opportunities, structuring our investments, and monitoring our investments and portfolio companies on an ongoing basis. The Advisor is led by James R. Maher, Chairman and Chief Executive Officer of the Company and the Advisor, and Michael B. Lazar, Chief Operating Officer of the Company and the Advisor. They are supported by the Advisor's team of employees, including 16 investment professionals who have extensive experience in commercial lending, investment banking, accounting, corporate law and private equity investing.

The Advisor has an investment committee comprised of 11 members, including Messrs. Maher and Lazar and several executives of BlackRock, Inc. ("BlackRock") and several of the principals of Kelso & Company, L.P. (the "Kelso Principals"). We benefit from the extensive and varied relevant experience of the BlackRock executives and the Kelso Principals serving on the Advisor's investment committee.

BlackRock is a leader in investment management, risk management and advisory services for institutional and retail clients worldwide. At December 31, 2011, BlackRock's assets under management were \$3.513 trillion.

The Kelso Principals have an average tenure of at least twenty years at Kelso. Kelso is a leading private equity firm and since 1980 has raised over \$10 billion of committed private equity capital, investing primarily in middle-market companies across a broad range of industries and through different economic and interest rate environments. Through our relationship with the Kelso Principals, we have access to these management teams who can provide unique insight into the industries in which they operate. Although the Kelso Principals who serve on the investment committee bring the benefit of the expertise they have gained at Kelso and elsewhere, Kelso as an organization does not participate in the activities of the Advisor or advise us.

Our executive officers and directors and the employees of the Advisor and members of its investment committee serve or may serve as investment advisors, officers, directors or principals of entities or investment funds that operate in the same or a related line of business as we do and/or investment funds managed by our affiliates. We note that any affiliated investment vehicle currently formed or formed in the future and managed by the Advisor or its affiliates may have overlapping investment objectives with our own and, accordingly, may invest in asset classes similar to those targeted by us. As a result, the Advisor and/or its affiliates may face conflicts in allocating investment opportunities between us and such other entities. Accordingly, we may not be given the opportunity to participate in certain investments made by investment funds managed by advisors affiliated with the Advisor. However, the Advisor and its affiliates will endeavor to allocate investment opportunities in a fair and equitable manner and consistent with applicable allocation procedures. In any such case, if the Advisor forms other affiliates in the future, we may co-invest on a concurrent basis with such other

[Table of Contents](#)

affiliates, subject to compliance with applicable regulations and regulatory guidance, as well as applicable allocation procedures. In certain circumstances, negotiated co-investments may be made only if we receive an order from the United States Securities and Exchange Commission, or the SEC, permitting us to do so.

Administration

BlackRock, through its subsidiary, BlackRock Financial Management, Inc. (the “Administrator”), serves as our administrator and provides us with office space, equipment and office services. The Administrator processes our financial records, assists in the preparation of reports to our stockholders and reports filed with the SEC, and generally monitors the payment of our expenses.

Market opportunity

We believe there are abundant opportunities for investments in middle-market companies with attractive risk-adjusted returns for several reasons, including:

The current market environment may mean more favorable terms for investments in middle-market companies. We believe the tight supply of credit due to deleveraging by banks, hedge funds and structured investment vehicles, such as collateralized loan obligation (CLO) funds, will continue and that this situation provides a promising environment in which to originate investments in middle-market companies. We believe we are able to structure investments with lower leverage multiples, higher current returns, greater opportunity for equity appreciation, better prepayment protection, and more meaningful financial covenants than were typical in the past.

Middle-market companies have faced increasing difficulty in accessing the capital markets. While many middle-market companies were able to raise funds by raising debt in the capital markets in the past, we believe this approach to financing has become more difficult, as transactions have increased in size to address investors demands for greater liquidity in securities such as high yield bonds. In addition, we believe that many senior lenders have, in recent years, de-emphasized their service and product offerings to middle-market businesses in favor of lending to large corporate clients and managing large, liquid capital markets transactions.

There is a large pool of uninvested private equity capital likely to seek additional capital to support private investments. We believe there is a large pool of uninvested private equity capital available to middle-market companies. We expect that private equity firms will be active investors in middle-market companies and that these private equity firms will seek to supplement their equity investments with senior secured and junior loans and equity co-investments from other sources, such as us.

Middle-market companies are increasingly seeking private sources for debt and equity capital. We believe that many middle-market companies prefer to execute transactions with private capital providers such as us, rather than execute high-yield bond or equity transactions in the public markets, which may necessitate increased financial and regulatory compliance and reporting obligations.

Consolidation among commercial banks has reduced the focus on middle-market business. We believe that many senior lenders have de-emphasized their service and product offerings to middle-market companies in favor of lending to large corporate clients, managing capital markets transactions and providing other non-credit services to their customers.

Competitive advantages

We believe we possess the following competitive advantages over many other capital providers to middle-market companies:

Demonstrated ability to deploy capital consistent with our investment policies. Since our inception, the Advisor has invested in excess of \$2.5 billion across 128 portfolio companies with over 80 financial sponsors

[Table of Contents](#)

through December 31, 2011. We have a portfolio yield at fair value of approximately 12.7% at December 31, 2011. During 2011, we invested approximately \$401.5 million of gross assets across twelve new and several existing portfolio companies.

Proven transaction sourcing strategy. Since the Advisor's inception of operations, it has sourced and reviewed more than 2,100 potential investments and has a proven process through which it has invested in excess of \$2.5 billion through December 31, 2011. The Advisor identifies potential investments through its dynamic transaction origination efforts. The origination efforts include calling on financial institutions such as investment banks, commercial banks, specialty finance companies and private equity firms; as well as on advisory firms, trade associations and the owners and managers of middle-market companies with whom its investment professionals and investment committee members have relationships. In addition to its investment professionals, senior members of the Advisor's investment committee have relationships with a large and diverse group of financial intermediaries. We expect that our ability to leverage these relationships will continue to result in the referral of investment opportunities to us and provide us with a competitive advantage.

Highly experienced investment team. Our investment activities are carried out by BlackRock Kelso Capital Advisors and led by James R. Maher and Michael B. Lazar with guidance from the Advisor's investment committee. The investment committee is comprised of members of BlackRock and the Kelso Principals. Members of the investment committee and the Advisor's investment professionals have significant experience investing across market cycles and possess a broad range of transaction, financial, managerial and investment skills.

Access to BlackRock and Kelso Principals' broad investing capabilities. Our Advisor's relationship with BlackRock and the Kelso Principals provides access to extensive expertise across asset classes. The Advisor's investment committee and its team of dedicated investment professionals have had extensive experience in fixed-income, public equity and private equity investing.

Disciplined investment process with focus on preservation of capital. In making investment decisions, the Advisor employs a disciplined and selective review process that focuses on, among other things, a thorough analysis of the underlying issuer's business and the performance drivers of that business, as well as an assessment of the legal and economic features of each particular investment.

Cost-effective and high quality infrastructure. We benefit from the existing infrastructure and administrative capabilities of BlackRock. BlackRock serves as our administrator and provides us with office space, equipment and office services. It oversees our financial records, assists in the preparation of reports to our stockholders and reports filed with the SEC, and generally monitors the payment of our expenses and the performance of administrative and professional services rendered to us by others. Our relationship with BlackRock grants us access to BlackRock's fund administration platform, which we believe provides higher quality service and lower cost than traditionally available in the industry.

Leverage

We maintain a multi-currency \$375 million senior secured credit facility with a group of lenders, under which we had approximately \$168 million of indebtedness outstanding at December 31, 2011. Availability under the facility, which we refer to as our Credit Facility, consists of \$275 million in revolving loan commitments and \$100 million in term loan commitments. The term loan commitments have been fully drawn and may not be reborrowed once repaid. The Credit Facility has an "accordion" feature that allows the Company, under certain circumstances, to increase the size of the Credit Facility by up to an additional \$275 million of revolving loan commitments and \$250 million of term loan commitments. The Credit Facility has a stated maturity date of December 6, 2013 and the interest rate applicable to borrowings thereunder is generally LIBOR plus an applicable spread of either 3.00% or 3.25% for revolving loans, based on a pricing grid depending on the Company's credit rating, and LIBOR plus 3.00% for term loans.

[Table of Contents](#)

On January 18, 2011, we closed a private placement issuance of \$158 million in aggregate principal amount of five-year, senior secured notes with a fixed interest rate of 6.50% and a maturity date of January 18, 2016 and \$17 million in aggregate principal amount of seven-year, senior secured notes with a fixed interest rate of 6.60% and a maturity date of January 18, 2018. The Senior Secured Notes were sold to certain institutional accredited investors pursuant to an exemption from registration under the Securities Act of 1933, as amended. Interest on the Senior Secured Notes is due semi-annually on January 18 and July 18, commencing on July 18, 2011. The proceeds from the issuance of the Senior Secured Notes were used to fund new portfolio investments, reduce outstanding borrowings under the Credit Facility and for general corporate purposes. We expect that our substantial debt capital resources will provide us with the flexibility to take advantage of market opportunities when they arise. See “Risks—Risks related to our business.”

Investment selection criteria

The Advisor chooses investments and constructs our portfolio based on the investment experience of its professionals and a detailed investment analysis for each investment opportunity. In analyzing each prospective portfolio company, the Advisor has identified several criteria it believes are important in identifying and investing in prospective portfolio companies. These criteria provide general guidelines for the Advisor’s investment decisions on our behalf, although each prospective portfolio company may fail to meet one or more of these criteria. Generally, the Advisor seeks to utilize its access to information generated by its investment professionals and investment committee members to identify investment candidates and to structure investments quickly and effectively.

Value Orientation/Positive Cash Flow. The Advisor’s investment philosophy places a premium on fundamental analysis from an investor’s perspective and has a distinct value orientation. The Advisor focuses on companies in which it can invest at relatively low multiples of operating cash flow and that are profitable at the time of investment on an operating cash flow basis. Typically, the Advisor does not invest in start-up companies or companies having speculative business plans.

Experienced Management. The Advisor generally requires that portfolio companies have an experienced management team. The Advisor also generally requires portfolio companies to have in place proper incentives to induce management to succeed and to act in concert with our interests as investors, which may include having significant equity interests.

Strong Competitive Position in Industry. The Advisor seeks to invest in companies that have strong market positions within their respective markets or market niches and are well positioned to capitalize on growth opportunities. The Advisor seeks companies that demonstrate significant competitive advantages versus their competitors, which it believes should help to protect their market position and profitability.

Exit Strategy. The Advisor seeks to invest in companies that it believes will provide a steady stream of cash flow to repay loans and/or build equity value. With respect to loans and debt securities, the Advisor expects that such internally generated cash flow, leading to the payment of interest on, and the repayment of the principal of, our investments will be a key means by which we exit these investments over time. In addition, the Advisor also seeks to invest in companies whose business models and expected future cash flows offer attractive exit possibilities. These companies include candidates for strategic acquisition by other industry participants and companies that may repay our investments through an initial public offering of common stock or another capital market transaction. With respect to our equity investments, the Advisor will look to exit such investments via repurchases by the portfolio company, public offerings and sales pursuant to merger and acquisition transactions.

Liquidation Value of Assets. The prospective liquidation value of the assets, if any, collateralizing loans in which we invest is an important factor in the Advisor’s credit analysis. The Advisor emphasizes both tangible assets, such as accounts receivable, inventory, equipment and real estate, and intangible assets, such as intellectual property, customer lists, networks and databases.

[Table of Contents](#)

Generally, the Advisor utilizes access to information generated by its investment professionals to identify investment candidates and to structure investments quickly and effectively. Furthermore, the Advisor seeks to identify those companies exhibiting superior fundamental risk-reward profiles and strong defensible business franchises while focusing on the relative value of the security in the company's capital structure.

Investment selection process

The Advisor selectively narrows prospective investment opportunities through a process designed to identify the most attractive opportunities. If the senior investment professionals responsible for the transaction and the Advisor's senior management determine that an investment opportunity merits pursuit, the Advisor engages in an intensive due diligence process. This process involves extensive research into the target company, its management, its industry, its growth prospects and its ability to withstand adverse conditions.

In conducting their due diligence, the Advisor's investment professionals use publicly available information as well as information from their extensive relationships with former and current management teams, consultants, competitors and investment bankers, among others. Though each transaction involves a somewhat different approach, the Advisor often undertakes the following due diligence steps. Initially, the investment team involved in the transaction may meet with management to get an insider's view of the business and probe for potential weaknesses in business prospects. They may also visit headquarters and company operations, meeting top- and middle-level executives. Independently from the company, the investment team may check management's backgrounds and references. With information provided by the company, the investment team performs a detailed review of historical financial performance and the quality of earnings. To assess both business prospects and standard practices, they may contact customers and vendors and conduct a competitive analysis, comparing the company to its main competitors on an operating, financial, market share and valuation basis. The investment team also researches the industry for historic growth trends and future prospects utilizing industry analysts at BlackRock, third party research, industry association literature and general news. Furthermore, they assess asset value and the ability of physical infrastructure and information systems to handle anticipated growth and investigate any legal risks and the viability of current financial and accounting systems. Attorneys and independent accountants as well as outside advisors, as appropriate, may conduct additional due diligence on behalf of the Advisor.

After the Advisor has identified an investment opportunity and completed due diligence, the investment team involved in the transaction prepares a written investment analysis. Senior investment professionals involved in the transaction review the analysis, and if they are in favor of making the potential investment, present it first to Messrs. Maher and Lazar and then, if approved by Messrs. Maher and Lazar, to the Advisor's investment committee for guidance. The investment committee is comprised of Messrs. Maher and Lazar and several executives of BlackRock and several of the Kelso Principals. Investment committee members have an average of over 20 years of investment experience in the fixed income and private equity markets.

Investment structure

Once the Advisor determines that a prospective portfolio company is a suitable investment, it works with the management of that company, any intermediaries and other capital providers, including senior and junior debt security investors and equity capital providers, to structure an investment quickly and effectively.

We invest in portfolio companies primarily in the form of senior and junior secured loans and unsecured and subordinated loans. The senior and junior secured loans generally have terms of three to ten years. We obtain security interests in the assets of our portfolio companies that serve as collateral in support of the repayment of the senior and junior secured loans. The collateral may take the form of first or second priority liens on the assets of a portfolio company.

The Advisor structures unsecured and subordinated debt securities and loans to have relatively high floating or fixed interest rates that provide us with current investment income. These debt securities and loans generally

[Table of Contents](#)

have terms of up to ten years. Such unsecured and subordinated debt securities and loans may have interest-only payments in the early years, with amortization of principal deferred to the later years of the loan. Also, some of these loans will be collateralized by a subordinate lien on some or all of the assets of the company.

In some cases, our debt investments may provide for a portion of the interest payable to be payment-in-kind, or PIK, interest. To the extent interest is PIK, it will be payable through the increase of the principal amount of the loan by the amount of the interest due on the then-outstanding principal amount of the loan. We must recognize PIK interest, a non-cash source of income, as taxable income, increasing the amounts we are required to distribute to stockholders to qualify for the federal income tax benefits applicable to RICs.

In the case of the senior secured and junior loans, the Advisor tailors the terms of the investment to the facts and circumstances of the transaction and the prospective portfolio company, negotiating a structure that aims to protect our rights and manage our risk while creating incentives for the portfolio company to achieve its business plan and improve its profitability. For example, in addition to seeking a senior position in the capital structure of our portfolio companies, the Advisor seeks to limit the downside potential of our investments. The Advisor may accomplish this through requiring a total return on our investment (including both interest and potential equity appreciation) that compensates us for credit risk or through incorporating call protection into the investment structure. The Advisor may also negotiate covenants in connection with our investments that protect the preservation of our capital. Such restrictions may include affirmative and negative covenants, default penalties, lien protection, change of control provisions and board rights, including either observation or participation rights.

In general, our debt investments include financial covenants and terms that require the portfolio company to reduce leverage over time, thereby enhancing its credit quality. These methods may include, among others: maintenance leverage covenants requiring a decreasing ratio of debt to cash flow; maintenance cash flow covenants requiring an increasing ratio of cash flow to interest expense and possibly other cash expenses such as capital expenditures, cash taxes and mandatory principal payments; and debt incurrence prohibitions, limiting a company's ability to relevel its balance sheet. In addition, limitations on asset sales and capital expenditures prevent a company from changing the nature of its business or capitalization without our consent.

Structurally, subordinated loans usually rank junior in priority of payment to senior debt, such as senior bank debt, and are often unsecured. As such, other creditors may rank senior to us in the event of an insolvency. However, subordinated loans rank senior to common and preferred equity in a borrower's capital structure. Due to their higher risk profile and often less restrictive covenants as compared to senior loans, subordinated loans generally earn higher interest yields than senior secured loans. We believe that subordinated loans offer an attractive alternative investment opportunity. In many cases investors in subordinated loans receive opportunities to invest directly in the equity securities of borrowers, and from time to time also may receive warrants to purchase equity securities.

Our debt investments may include equity features, such as warrants or options to buy a minority interest in the portfolio company. Warrants we receive with our debt may require only a nominal cost to exercise, and thus, as a portfolio company appreciates in value, we may achieve additional investment return from this equity interest. We generally seek to structure the warrants to provide provisions protecting our rights as a minority-interest holder, and we generally seek to structure puts or rights to sell such securities back to the company upon the occurrence of specified events.

Our equity investments may consist of preferred equity that pays dividends on a current basis or preferred equity that does not pay current dividends. Preferred equity generally has a preference over common equity as to distributions on liquidations and dividends. In some cases, we may acquire common equity. Our equity investments frequently are not control-oriented investments, and in many cases, we acquire equity securities as part of a group of private equity investors in which we are not the lead investor. Our preferred and common equity investments typically are made in conjunction with loans to these companies.

Ongoing relationship with portfolio companies

The Advisor monitors our portfolio companies on an ongoing basis. The Advisor monitors the financial trends of each portfolio company to determine if it is meeting its business plans and to assess the appropriate course of action for each company.

The Advisor has several methods of evaluating and monitoring the performance and fair values of our investments, which may include the following and other methods:

- assessment of success of the portfolio company in adhering to its business plan and compliance with covenants;
- periodic and regular contact with portfolio company management and, if appropriate, the financial or strategic sponsor, to discuss financial position, requirements and accomplishments;
- comparisons to other companies in the industry;
- attendance at and participation in board meetings;
- review of interim and annual financial statements and financial projections for portfolio companies; and
- retention of third-party valuation firms to assist in determination of fair value.

Managerial assistance

As a BDC, we offer, and must provide upon request, managerial assistance to our portfolio companies. This assistance could involve, among other things, participating in board and management meetings, consulting with and advising officers of portfolio companies and providing other organizational and financial guidance or exercising strategic or managerial influence over such companies. We may receive fees for these services. The Advisor will provide managerial assistance on our behalf to those portfolio companies that request this assistance. Employees of the Advisor have experience providing managerial assistance to private operating companies like our portfolio companies, and such assistance has tended to be related to board representation and to strategic and financing transactions. The Advisor generally will not receive any direct compensation from our portfolio companies for providing managerial assistance, although it may do so from time to time.

Investment rating system

The Advisor employs a grading system for our portfolio. The Advisor grades all loans on a scale of 1 to 4. This system is intended to reflect the performance of the borrower's business, the collateral coverage of the loans and other factors considered relevant. Generally, the Advisor assigns only one loan grade to each portfolio company for all loan investments in that portfolio company; however, the Advisor will assign multiple ratings when appropriate for different investments in one portfolio company. The following is a description of the conditions associated with each investment rating:

Grade 1: Investments in portfolio companies whose performance is substantially within the Advisor's expectations and whose risk factors are neutral to favorable to those at the time of the original investment.

Grade 2: Investments in portfolio companies whose performance is below the Advisor's expectations and that require closer monitoring; however, no loss of investment return (interest and/or dividends) or principal is expected.

Grade 3: Investments in portfolio companies whose performance is below the Advisor's expectations and for which risk has increased materially since origination. Some loss of investment return is expected, but no loss of principal is expected. Companies graded 3 generally will be out of compliance with debt covenants and will be unlikely to make debt repayments on their original schedule.

Grade 4: Investments in portfolio companies whose performance is materially below the Advisor's expectations where business trends have deteriorated and risk factors have increased substantially since the original investment. Investments graded 4 are those for which some loss of principal is expected.

[Table of Contents](#)

The Advisor monitors and, when appropriate, changes the investment ratings assigned to each investment in our portfolio. In connection with our valuation process, the Advisor and Board of Directors review these investment ratings on a quarterly basis. Our average investment rating was 1.20 at December 31, 2011 versus 1.32 at December 31, 2010. The following is a distribution of the investment ratings of our portfolio companies at December 31, 2011 and December 31, 2010:

	<u>December 31, 2011</u>	<u>December 31, 2010</u>
Grade 1	\$ 872,465,840	\$ 640,463,981
Grade 2	156,359,268	211,899,165
Grade 3	9,000,116	9,631,767
Grade 4	11,035,005	18,090,753
Not rated	92,213	—
Total investments	<u>\$ 1,048,952,442</u>	<u>\$ 880,085,666</u>

The investment rating process begins with each portfolio company or investment being initially evaluated by the transaction team, led by a senior investment professional who is responsible for the portfolio company relationship. This evaluation generally is completed no less frequently than quarterly. At the Advisor's weekly investment professionals' meeting, the transaction team presents an update on the activities of any company rated below Grade 1. Each quarter, all investment professionals attend a separate investment rating meeting. At these quarterly meetings, the transaction team responsible for each portfolio investment reviews each portfolio company and suggests a rating for each investment for discussion among the investment professionals. At the conclusion of discussion, and subject to the approval of the Advisor's chief executive officer and chief operating officer, the Advisor's chief financial officer records the internal investment ratings for review by the Board of Directors quarterly.

Competition

A number of entities compete with us to make the types of investments that we make. We compete with other BDCs, public and private funds, commercial and investment banks, CLO funds, commercial financing companies, insurance companies, high yield investors and, to the extent they provide an alternative form of financing, private equity funds. Additionally, because competition for investment opportunities generally has increased among alternative investment vehicles, such as hedge funds, those entities have begun to invest in areas they have not traditionally invested in, including investments in middle-market companies. As a result of these new entrants, competition for investment opportunities at middle-market companies has intensified. Many of our existing and potential competitors are substantially larger and have considerably greater financial, technical and marketing resources than we do. For example, some competitors may have a lower cost of funds and access to funding sources that are not available to us. In addition, some competitors may have higher risk tolerances or different risk assessments, which could allow them to consider a wider variety of investments and establish more relationships than us. Furthermore, many of our competitors are not subject to the regulatory restrictions that the 1940 Act imposes on us as a BDC or the restrictions that the Code imposes on us as a RIC.

Staffing

Services necessary for our business are provided by individuals who are employees of the Advisor or the Administrator and its affiliates, pursuant to the terms of the management agreement and the administration agreement. Each of our executive officers is an employee of the Advisor or the Administrator and its affiliates. Our executive officers are also executive officers of the Advisor. Our day-to-day investment operations are managed by the Advisor. The Advisor currently has 18 investment professionals who focus on origination and transaction development and monitoring of our investments. We reimburse the Advisor for costs and expenses incurred by the Advisor for office space rental, office equipment and utilities allocable to the Advisor under the management agreement, as well as any costs and expenses incurred by the Advisor relating to any non-investment advisory, administrative or operating services provided by the Advisor to us. In addition, we

[Table of Contents](#)

reimburse the Administrator for our allocable portion of expenses it incurs in performing its obligations under the administration agreement, including rent and our allocable portion of the cost of certain of our officers and their respective staffs.

Properties

We do not own any real estate or other physical properties materially important to our operation. Our administrative and principal executive offices are located at 40 East 52nd Street, New York, NY 10022. We believe that our office facilities are suitable and adequate for our business as it is contemplated to be conducted.

Legal Proceedings

From time to time, we and the Advisor may be a party to certain legal proceedings incidental to the normal course of our business, including the enforcement of our rights under contracts with our portfolio companies. While we cannot predict the outcome of these legal proceedings with certainty, we do not expect that these proceedings will have a material effect on our financial statements.

Portfolio composition

We have built an investment portfolio that includes senior and junior secured, senior and junior unsecured and subordinated loans to U.S. private middle-market companies. We invest a range of \$10 million to \$50 million of capital, on average, per transaction, although the investment sizes may be more or less and are expected to grow with our capital availability. Although most of our investments are in senior and junior secured, senior and junior unsecured and subordinated loans to U.S. private and certain public middle-market companies, we invest throughout the capital structure of these companies in other securities, which may include common and preferred equity, options and warrants, credit derivatives, high-yield bonds, distressed debt and other structured securities. We generally seek to invest in companies that operate in a broad variety of industries and that generate positive cash flows. While our focus is to generate current income through these investments, we also seek capital appreciation.

We generally are not permitted to invest in any private company in which any of our affiliates holds an existing investment, except to the extent permitted by the 1940 Act. We may, however, co-invest on a concurrent basis with our affiliates, subject to compliance with applicable regulations and regulatory guidance, as well as applicable allocation procedures. We may invest, to the extent permitted by law, in the securities and instruments of other investment companies, including private funds.

At December 31, 2011, our portfolio consisted of 54 portfolio companies and was invested 62% in senior secured loans, 16% in unsecured or subordinated debt securities, 11% in equity investments, 11% in senior secured notes and less than 1% in cash and cash equivalents.

[Table of Contents](#)

The industry composition of the portfolio at fair value at December 31, 2011 and 2010 was as follows:

<u>Industry</u>	<u>December 31,</u>	
	<u>2011</u>	<u>2010</u>
Personal and Other Services	13.1%	13.8%
Healthcare	12.9	10.6
Business Services	9.9	11.8
Financial Services	8.3	4.9
Printing, Publishing and Media	8.1	8.5
Manufacturing	7.6	7.1
Retail	5.2	4.0
Distribution	5.1	6.3
Consumer Products	4.8	7.6
Chemicals	4.4	4.4
Building and Real Estate	4.3	5.2
Electronics	4.1	6.1
Automotive	3.6	4.5
Beverage, Food and Tobacco	3.6	0.8
Containers and Packaging	2.7	3.2
Telecommunications	1.4	—
Transportation	0.5	0.4
Entertainment and Leisure	0.4	0.8
Total	<u>100.0%</u>	<u>100.0%</u>

The geographic composition of the portfolio at fair value at December 31, 2011 was United States 96% and Canada 4%, and at December 31, 2010 was United States 94.7% and Canada 5.3%. The geographic composition is determined by the location of the corporate headquarters of the portfolio company.

PORTFOLIO COMPANIES

The following is a listing of each portfolio company or its affiliate, together referred to as portfolio companies, in which we had an investment at December 31, 2011. Percentages shown for class of securities held by us represent percentage of the class owned at December 31, 2011 and do not necessarily represent voting ownership or economic ownership. Percentages shown for equity securities other than warrants or options represent the actual percentage of the class of security held at December 31, 2011 before dilution. Percentages shown for warrants and options held represent the percentage of class of security we may own on a fully diluted basis assuming we exercise our warrants or options. Our portfolio is actively managed and the information set forth in the table below is as of December 31, 2011 and does not reflect subsequent changes to the portfolio resulting from purchases, sales, redemptions, repayment or other actions we may have taken with respect to our portfolio securities.

We make available significant managerial assistance to our portfolio companies. We may receive rights to observe the meetings of our portfolio companies' board of directors, and may have one or more voting seats on their boards.

For more information relating to our investments in portfolio companies, see our schedules of investments included in our financial statements appearing elsewhere in this prospectus.

- (5) We are the sole stockholder of BKC MTCH Blocker, Inc., a consolidated subsidiary, which is the beneficiary of 1.1% of the voting securities of Marquette Transportation Company Holdings, LLC.

Set forth below is a brief description of each portfolio company in which we have made an investment that represents greater than 5% of our total assets at December 31, 2011 or in which we own 5% or more of the portfolio company's voting securities.

Alpha Media Group Holdings Inc.

Alpha Media Group is a magazine publisher. The company currently produces Maxim magazine. Maxim is published in both the United States and internationally. Alpha Media Group also publishes websites such as Maxim.com and Blender.com. In addition, it develops marketing programs designed to reach men across multiple platforms, including Internet, mobile, live events, TV, and film.

American SportWorks LLC/BKC ASW Blocker, Inc.

BKC ASW Blocker, Inc. is a holding company for our investment in American SportWorks LLC, which is a maker of utility vehicles (UTVs) and an importer, assembler and distributor of all-terrain vehicles (ATVs) and go-karts. The company maintains an extensive network of independent service centers to provide aftermarket support and training to purchasers of its products.

[Table of Contents](#)

Bankruptcy Management Solutions, Inc.

Bankruptcy Management Solutions, Inc. is a national provider of Chapter 7 bankruptcy case management solutions for bankruptcy trustees. The company provides bankruptcy trustees and certain other fiduciary customers with mission critical proprietary software products, computer hardware and support services designed to assist trustees in the administration of bankruptcy cases.

Big Dumpster Holdings, Inc.

Big Dumpster Holdings, Inc. (“Wastequip” or the “Company”) engages in the design, development, manufacture, assembly, and distribution of waste handling equipment to the waste services industry. The Company’s product offerings include roll-off containers, small containers, hoists, compactors and balers, intermodal containers, and newly-acquired tarping capabilities.

Conney Safety Products, LLC/BKC CSP Blocker, Inc.

BKC CSP Blocker, Inc. is a holding company for our investment in Conney Safety Products, LLC, which is a national marketer and distributor of personal protective equipment, first aid supplies, material handling and various other safety products. The company’s principal market is business-to-business worker protection for a variety of end-markets including manufacturing, food processing, retail trade, services and the government.

ECI Holdco, Inc.

ECI Holdco, Inc. is a holding company for Electrical Components International, Inc., which is a designer, manufacturer, and marketer of wire harnesses and provider of assembly services primarily to the white goods industry. Wire harnesses are configurations of wires, cables, connectors, terminals, and plugs found in many electronic products including home appliances, transportation, heating, ventilation, and air conditioning, construction, and agricultural equipment and vending.

M & M Tradition Holdings Corp.

M & M Tradition Holdings Corp. is a holding company for M & M Manufacturing Company, which is a diversified fabricator of custom sheet metal products, primarily serving the air distribution and ventilation market. The company manufactures air ventilation ducts and fittings for residential and commercial uses and fabricates precision sheet metal parts for a variety of industries.

MGHC Holding Corporation

MGHC Holding Corporation is a holding company for Mattress Giant Corporation, which is a bedding specialty retailer in the United States. The company’s product offerings include traditional innerspring and visco-elastic foam mattresses and other specialty bedding.

Penton Business Media Holdings LLC

Penton Business Media Holdings LLC is a holding company for Penton Media, Inc., which is a business-to-business media company. The company’s brands are focused on a variety of industries and include trade magazines, Web sites, industry trade shows and conferences, and information data products.

United Subcontractors, Inc./USI Senior Holdings, Inc.

USI Senior Holdings, Inc. is a holding company for United Subcontractors, Inc., which is an independent insulation subcontractor in the United States and a contractor for construction of residential framing in Florida.

MANAGEMENT OF THE COMPANY**Directors and executive officers**

Our business and affairs are managed under the direction of our Board of Directors. The Board of Directors currently consists of five members, four of whom are not “interested persons” of our company or of the Advisor as defined in Section 2(a)(19) of the 1940 Act. We refer to these individuals as our independent directors. No independent director owns beneficially or of record any security of the Advisor or any person (other than a RIC or portfolio company) directly or indirectly controlling, controlled by or under common control with the Advisor. Our Board of Directors elects our executive officers, who serve at the discretion of the Board of Directors. Each director holds office until his or her successor is elected and qualified or until his or her term as a director is terminated as provided in our bylaws. The address for each director and executive officer is c/o BlackRock Kelso Capital Corporation, 40 East 52nd Street, New York, New York 10022.

The directors and executive officers of the Company are as follows:

<u>Name and Year of Birth</u>	<u>Position</u>	<u>Director Since</u>	<u>Expiration of Term</u>
Independent Directors:			
Jerrold B. Harris (1942)	Director	2005	2014
William E. Mayer (1940)	Director	2005	2012
François de Saint Phalle (1946)	Director	2005	2012
Maureen K. Usifer (1960)	Director	2005	2013
Interested Director:			
James R. Maher(1) (1949)	Chairman of the Board of Directors and Chief Executive Officer	2005	2013
Executive Officers:			
Michael B. Lazar	Chief Operating Officer	N/A	N/A
Corinne Pankovcin	Chief Financial Officer and Treasurer	N/A	N/A
Matthew J. Fitzgerald	Chief Compliance Officer	N/A	N/A

(1) “Interested person” of BlackRock Kelso Capital Corporation and of the Advisor within the meaning of the 1940 Act. Mr. Maher is an interested person due to his employment with the Advisor.

Classes of directors

Our Board of Directors is divided into three classes, designated Class I, Class II and Class III. The term of office of directors of one class expires at each annual meeting of stockholders on a staggered basis. Each class of directors will hold office for a three year term. Class I Director, Mr. Harris, is expected to stand for re-election at our 2014 annual meeting of stockholders, Class II Directors, Messrs. Mayer and de Saint Phalle, are expected to stand for re-election at our 2012 annual meeting of stockholders and Class III Directors, Mr. Maher and Ms. Usifer, are expected to stand for re-election at our 2013 annual meeting of stockholders. Each director holds office for the term to which he or she is elected and until his or her successor is duly elected and qualifies or until his or her earlier resignation, removal from office, death or incapacity.

The charter of the governance committee of the Board of Directors provides for evaluating potential director candidates against the knowledge, experience, skills, expertise and diversity that in the Company’s view are necessary and desirable for such candidates. The knowledge, experience, skills, expertise and diversity of a director candidate are considered in their totality, and none of the criteria, in isolation, is controlling. The Company believes that the criteria set forth in the governance committee charter allow for directors who have

[Table of Contents](#)

balanced and diverse experience, skills, attributes and qualifications, which in turn allows the Board of Directors to operate effectively in governing the Company and protecting the interests of stockholders. Each director's background experiences evinces the ability to perform his or her duties as a director effectively. In particular, these experiences include the director's education or professional training; business, consulting, public service or academic positions; experience from service as a board member of the Company, other investment companies, public companies, or non-profit entities or other organizations; ongoing commitment and participation in Board of Directors and committee meetings, as well as leadership of standing committees throughout the years; or other relevant life experiences. Information about the specific experience, skills, attributes and qualifications of each director, which in each case led to the conclusion that the director should serve (or continue to serve) as a director of the Company, is provided below, in "Biographical information."

Our directors have been divided into two groups—interested directors and independent directors. Interested directors are interested persons as defined in the 1940 Act. The Board of Directors' chair, James R. Maher, is the Company's sole interested director. Mr. Maher is an interested director by virtue of his employment with the Advisor. In part because the Company is an externally-managed investment company, the Board of Directors believes having an interested chairperson that is familiar with the Company's portfolio companies, its day-to-day management and the operations of its Advisor enhances, among other things, its understanding of the Company's investment portfolio, business, finances and risk management efforts. In addition, the Board of Directors believes that Mr. Maher's employment with the Advisor better allows for the efficient mobilization of the Advisor's resources at the Board of Directors' behest and on its behalf.

The Board of Directors does not have a lead independent director. The Board of Directors believes its relatively small size and the composition and leadership of its committees allow each director to enjoy full, accurate and efficient communication with the Company, the Advisor and management, and facilitates the timely transmission of information among such parties.

Biographical information

The following is information concerning the business experience of our Board of Directors and executive officers.

Independent directors

Jerrold B. Harris, Director of the Company. Mr. Harris has been retired since 1999. From 1990 to 1999, Mr. Harris was President and Chief Executive Officer of VWR Scientific Products Corporation (which was acquired by Merck KGaA in 1999). From 1996 to 2007, Mr. Harris was a director of the BlackRock Liquidity Funds. Mr. Harris is currently a director of the active exchange-listed funds comprising the BlackRock Closed-End Fund Complex and of Henry Troemner LLC. Mr. Harris is a trustee of Ursinus College and a Director of Delta Waterfowl Foundation. Mr. Harris earned a B.S. degree from the University of California at Berkeley in 1964.

William E. Mayer, Director of the Company. Mr. Mayer is currently the owner of the United Football League's Virginia Destroyers. Since 1999, Mr. Mayer has been a partner at Park Avenue Equity Partners, L.P. ("Park Avenue"), which he co-founded. From 1996 until the formation of Park Avenue, Mr. Mayer was a founding Partner of Development Capital, which invested in private and public companies. From the fall of 1992 until December 1996, Mr. Mayer was a professor and Dean of the College of Business and Management at the University of Maryland. From 1991 to 1992, Mr. Mayer served as a professor and Dean of the Simon Graduate School of Business at the University of Rochester. Mr. Mayer worked for The First Boston Corporation (now Credit Suisse), a major investment bank, from 1967 to 1990. During his career at The First Boston Corporation, Mr. Mayer held numerous management positions including President and Chief Executive Officer. Mr. Mayer is currently a board member of Lee Enterprises (a newspaper company owning or having stakes in over 50 daily

[Table of Contents](#)

newspapers) and DynaVox Inc. (a leading provider of speech generating devices and special education software for persons with speech, language and learning challenges). Mr. Mayer is also the chairman of the board of PEOPLEExpress™ Airlines (an airlines company) and a trustee of the Columbia Group of Mutual Funds. Mr. Mayer has been a director of numerous public, private and not-for-profit boards over the years. Mr. Mayer is a former Chairman of the Aspen Institute and the Chairman of the Board of Trustees of The University of Maryland. Mr. Mayer holds a B.S. degree and an M.B.A. degree from the University of Maryland.

François de Saint Phalle, Director of the Company. Mr. de Saint Phalle has been a private equity investor, financial advisor and investment banker for more than thirty-five years. Mr. de Saint Phalle has been a private investor since 2000 and was a consultant for Evercore Partners, Inc. from 2000 to 2002. From 1989 to 2000 he was Chief Operating Officer and Vice Chairman of Dillon, Read & Co. Inc. before it was merged into UBS. In this capacity Mr. de Saint Phalle was responsible for the oversight of the firm's capital commitments in debt and equity markets. Previously, Mr. de Saint Phalle worked for 21 years at Lehman Brothers. Mr. de Saint Phalle was named a general partner of the firm in 1976 and at various points he managed the Corporate Syndicate Department, the Equity Division and co-headed the Corporate Finance Department. From 1985 to 1989 Mr. de Saint Phalle served as Chairman of Lehman International, with a primary responsibility for developing a coordinated international finance strategy with American Express which had acquired Lehman in 1984. Mr. de Saint Phalle was named to Lehman's Operating and Compensation Committees in 1980. Mr. de Saint Phalle is a Director of Evercore Partners, Inc. and Cornerstone Management Solutions, Inc. Mr. de Saint Phalle is a member Emeritus of the Board of Visitors of Columbia College. He received his B.A. from Columbia College.

Maureen K. Usifer, Director of the Company. Ms. Usifer has been a Vice President of Investor Relations with Church & Dwight Co., Inc., a major producer of baking soda and consumer products, from April 2009 until present. From May 2004 until April 2009, she was a senior finance director with Church & Dwight. From October 2001 until May 2004, Ms. Usifer was the Chief Financial Officer for Armkel, LLC a joint venture with Church & Dwight and Kelso & Company, L.P. which encompassed over \$400 million in personal care sales. Ms. Usifer was Division Controller of Church & Dwight's Armus joint venture, which encompassed \$500 million in laundry sales, from May 2000 through October 2001. From 1996 through 2000, Ms. Usifer was a Senior Finance Manager of Church & Dwight responsible for all of the Arm & Hammer's personal care businesses. Ms. Usifer received an undergraduate degree in business from St. Michael's College and an M.B.A. in Finance from Clarkson University.

Interested director

James R. Maher, Chairman of the Board and Chief Executive Officer of the Company and Chairman of the Board and Chief Executive Officer of the Advisor. Mr. Maher is a co-founder of the Company and has served as its Chairman and Chief Executive Officer since its formation in 2004. Mr. Maher was, from 2001 until June 2004, a Partner at Park Avenue, a private equity fund specializing in middle-market management buyouts and growth capital investments. Prior to joining Park Avenue, Mr. Maher was President of MacAndrews & Forbes Holdings Inc., a diversified holding company with interests primarily in consumer products and financial services companies. Mr. Maher served as Chairman of Laboratory Corporation of America Holdings ("LabCorp"), after serving as President and Chief Executive Officer of National Health Laboratories, LabCorp's predecessor, from 1992 to 1995. Prior to joining National Health Laboratories, Mr. Maher was Vice Chairman and a member of the Operating Committee of The First Boston Corporation, an international investment-banking firm. He served on the Group Executive Committee of CS First Boston, Inc., where he was responsible for the global oversight of merger and acquisition activities, as well as the investment committee. He was also Head of the Investment Banking Group for more than four years. Mr. Maher is a Trustee of Prep for Prep, an organization that assists intellectually gifted public school students from minority group backgrounds, and prepares them for placement in independent schools. Mr. Maher received a Master's in Business Administration from Columbia University and an undergraduate degree from Boston College.

[Table of Contents](#)

Executive officers

Michael B. Lazar, Chief Operating Officer of the Company and Chief Operating Officer of the Advisor. Mr. Lazar is a co-founder of the Company and has served as its Chief Operating Officer since its formation in 2004. Previously, Mr. Lazar was a Managing Director and Principal at Kelso & Company, L.P., one of the oldest and most established firms specializing in private equity investing. Having originally joined Kelso & Company, L.P. in 1993, Mr. Lazar was involved in Kelso & Company, L.P.'s private equity transactions since that time. Prior to joining Kelso & Company L.P., Mr. Lazar worked in the Acquisition Finance Group at Chemical Securities, Inc. (predecessor to J.P. Morgan Securities Inc.) where his responsibilities included working with financial sponsors on the analysis, evaluation and financing of leveraged buyouts. He began his career in the Corporate Finance and Structured Finance Groups at Chemical Bank, where he focused on financings for leveraged companies. Mr. Lazar received a B.A. degree, cum laude, from Dartmouth College. Mr. Lazar has served as a Director of Waste Services, Inc. and is currently a Director of the New York Division of the March of Dimes, a not-for-profit organization whose mission is to prevent birth-defects, premature birth and infant mortality. In addition, Mr. Lazar has served on the Boards of certain Kelso portfolio companies.

Corinne Pankovcin, Chief Financial Officer and Treasurer of the Company, Chief Financial Officer and Treasurer of the Advisor and a Managing Director of BlackRock Investment Management Inc. Prior to joining the Company, Ms. Pankovcin was a senior member of Finance & Accounting of Alternative Investments and served as Chief Financial Officer for the Emerging Markets products group at PineBridge Investments (formerly AIG Investments). From 2005 to 2011, Ms. Pankovcin was primarily responsible for the administration of the alternative asset products, including financial reporting. She managed the finance operations for the various product teams and coordinated investment valuations and investor reporting. From 2002 to 2005 Ms. Pankovcin was with Geller & Company, where she served as Director of Business Development and Process Implementations. Prior to joining Geller & Company, she served as Vice President of Finance and Accounting for Bessemer Venture Partners. Ms. Pankovcin began her career with PricewaterhouseCoopers LLP, where she ultimately held the role of Senior Manager of Business Assurance for Consumer Products, Manufacturing, and Middle Market industries from 1991 to 2001. Ms. Pankovcin earned her B.S. in Business Administration, with honors, from Dowling College and her M.B.A from Hofstra University. She is a Certified Public Accountant.

Matthew J. Fitzgerald, Chief Compliance Officer of the Company, Chief Compliance Officer of the Advisor and a Director in the Legal and Compliance Department of BlackRock Institutional Trust Company, N.A. Mr. Fitzgerald has served as the Company's Chief Compliance Officer since November 2010 and has been with BlackRock (via Barclays Global Investors) since 2004. Prior to joining BlackRock, Mr. Fitzgerald was the General Counsel and a Managing Director of a Hong Kong SFC registered dealer and financial/investment advisory firm. From 1991 to 2000, he practiced law with Brown and Wood LLP and Kirkpatrick and Lockhart in Washington, D.C. Mr. Fitzgerald has a B.A. from Yale University and a J.D. from The Emory University School of Law.

Committees of the Board of Directors

The Board of Directors currently has two committees: an audit committee and a governance committee.

Audit Committee. The audit committee operates pursuant to a charter approved by our Board of Directors. The charter sets forth the responsibilities of the audit committee. The primary function of the audit committee is to serve as an independent and objective party to assist the Board of Directors in fulfilling its responsibilities for overseeing all material aspects of our accounting and financial reporting processes, internal control and audit functions, monitoring the independence and performance of our independent accountants, providing a means for open communication among our independent accountants, financial and senior management and the Board and overseeing our compliance with legal and regulatory requirements. The audit committee is presently composed of four persons, including Ms. Usifer (Chairperson) and Messrs. Harris, de Saint Phalle and Mayer, each of whom is independent for purposes of the 1940 Act and The NASDAQ Global Select Market corporate governance regulations. Our Board of Directors has determined that Ms. Usifer is an "audit committee financial

[Table of Contents](#)

expert” as defined under Item 407 of Regulation S-K of the Securities Exchange Act of 1934. Ms. Usifer meets the current independence and experience requirements of Rule 10A-3 of the Securities Exchange Act of 1934 and, in addition, is not an “interested person” of the Company or of the Advisor as defined in Section 2(a)(19) of the 1940 Act.

Governance Committee. The governance committee consists of Ms. Usifer and Messrs. de Saint Phalle, Harris and Mayer (Chair), each of whom is independent for purposes of the 1940 Act and The NASDAQ Global Select Market corporate governance regulations. The governance committee acts in accordance with the governance committee charter. The governance committee performs those functions enumerated in the governance committee charter including, but not limited to, making nominations for the appointment or election of independent directors, reviewing independent director compensation, retirement policies and personnel training policies and administering the provisions of the code of ethics applicable to the independent directors.

The governance committee may consider nominations for the office of director made by Company stockholders as it deems appropriate. Stockholders who wish to recommend a nominee should send a recommendation to the Company’s Secretary that includes all information relating to such person that is required to be disclosed in solicitations of proxies for the election of members to the Board of Directors or is required by the advance notice provision of the Company’s bylaws. For a candidate to be considered by the governance committee, a stockholder must submit the recommendation in writing and must include:

- the name and record address of the stockholder, the class or series and number of shares of the Company which are owned beneficially or of record by the stockholder, a description of all arrangements or understandings between the stockholder and each proposed candidate and any other person or persons (including their names) in connection with which the nomination(s) made by the stockholder, a representation that the stockholder intends to appear in person or by proxy at the meeting to nominate the persons named in its recommendation and any other information relating to the stockholder that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for election of directors/trustees pursuant to Section 14 of the Securities Exchange Act of 1934 and the rules and regulations promulgated thereunder; and
- the name, age, business address and residential address of the candidate(s), the principal occupation or employment of the candidate(s), the class or series and number of shares of the Company which are owned beneficially or of record by the candidate(s), if any, and any other information relating to the candidate(s) that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for election of directors/trustees pursuant to Section 14 of the Exchange Act.

Such recommendation must be accompanied by a written consent of each proposed candidate to being named as a nominee and to serve as a Director if elected. The Governance Committee may take into consideration the number of shares of the Company’s stock held by the recommending stockholder and the length of time that such shares have been held. The Governance Committee seeks to identify individuals to serve on the Board who have a diverse range of viewpoints, qualifications, experiences, backgrounds and skill sets so that the Board will be better suited to fulfill its responsibility of overseeing the Company’s activities. In so doing, the Governance Committee reviews the size of the Board and the knowledge, experience, skills, expertise and diversity of the Directors in light of the issues facing the Company in determining whether one or more new directors should be added to the Board. The Governance Committee believes that the Directors as a group possess the array of skills, experiences and backgrounds necessary to guide the Company. The Director biographies included herein highlight the diversity and breadth of skills, qualifications and expertise that the Directors bring to the Company.

In 2011, the Board of Directors met four times, the audit committee met four times and the governance committee met twice. Each director attended at least 75% of the aggregate of (i) all regular meetings of the Board of Directors and (ii) all meetings of all committees of the Board of the Company on which the director served.

[Table of Contents](#)

The Board of Directors' role with respect to the Company is oversight. As is the case with most Business Development Companies and investment companies, the Company's investment adviser has responsibility for the day-to-day management of the Company, which includes responsibility for risk management. Examples of prominent risks include investment risk, regulatory and compliance risks, operational risks, accounting risks, valuation risks, service provider risks and legal risks. As part of its oversight role, the Board of Directors, acting at its scheduled meetings, or the Chairman, acting between Board of Directors meetings, interacts with and receives reports from senior personnel of service providers, including the Advisor's portfolio management personnel. The Board of Directors receives periodic presentations and reports from senior personnel of the Advisor regarding risk management generally, as well as periodic presentations regarding specific operational, compliance or investment areas such as accounting, administration, anti-money laundering, business continuity, personal trading, valuation, and investment research. The Board of Directors also receives reports from counsel to the Company and the Board of Directors' own independent legal counsel regarding regulatory compliance and governance matters. The Board of Directors' audit committee receives periodic communications from the Company's independent public accounting firm. The Board of Directors interacts with and receives reports from the Company's Chief Compliance Officer in connection with each scheduled meeting and, at least on an annual basis, the Company's independent directors meet separately from the Advisor and the Company's management, with the Company's Chief Compliance Officer and independent legal counsel on regulatory compliance matters. The Board of Directors' oversight role does not make the Board of Directors a guarantor of the Company's investments or activities. While there are a number of risk management functions performed by the Advisor and the other service providers, as applicable, it is not possible to eliminate all of the risks applicable to the Company.

Compensation of Directors and Officers

The following table shows information regarding the compensation received by the independent directors and executive officers for the fiscal year ended December 31, 2011. No compensation is paid to directors who are "interested persons."

<u>Name and Principal Position with the Company</u>	<u>Fees Earned From or Paid in Cash by the Company</u>	<u>Pension or Retirement Benefits Accrued As Part of the Company's Expenses(1)</u>	<u>All Other Compensation</u>	<u>Total Compensation From the Company Received by Directors</u>
Independent Directors				
Jerrold B. Harris, Director	\$ 101,750	None	None	\$ 101,750
William E. Mayer, Director	104,250	None	None	104,250
François de Saint Phalle, Director	101,750	None	None	101,750

(1) We do not have a pension or retirement plan or deferred compensation plan, and directors do not receive any pension or retirement benefits.

(2) Messrs. Maher and Lazar are employees of, and compensated by, the Advisor.

[Table of Contents](#)

- (3) Ms. Pankovcin is currently an employee of, and compensated by, BlackRock Investment Management LLC.
- (4) On August 3, 2011, the Board appointed Ms. Pankovcin as the Company's Chief Financial Officer and Treasurer to replace Frank D. Gordon who was serving as the Company's Chief Financial Officer, Secretary and Treasurer. While serving as the Company's Chief Financial Officer, Secretary and Treasurer, Mr. Gordon was an employee of, and compensated by, BlackRock Financial Management, Inc. Mr. Gordon was also compensated, in part, by the Advisor. Mr. Gordon received no compensation from the Company.
- (5) Mr. Fitzgerald is currently an employee of, and compensated by, BlackRock Institutional Trust Company N.A.

As compensation for serving on our Board, each Independent Director received an annual fee of \$87,500 in 2011 and will receive an annual fee of \$100,000 in 2012. Additionally, each Independent Director receives meeting attendance fees of \$2,500 (\$1,250 for telephonic attendance) per board meeting and \$1,000 (\$500 for telephonic attendance) per committee meeting attended plus reimbursement of reasonable out-of-pocket expenses incurred in connection with such attendance. In addition, the chairperson of the audit committee receives an annual fee of \$7,500 and the chairperson of any other committee receives an annual fee of \$2,500 for their additional services in these capacities. In addition, we purchase directors' and officers' liability insurance on behalf of our directors and officers.

CONTROL PERSONS AND PRINCIPAL STOCKHOLDERS

The following table sets forth, at March 14, 2012, information with respect to the ownership of our common stock by each beneficial owner who owned more than 5% of our outstanding shares of common stock, each director, our chief executive officer, each of our other executive officers and our directors and executive officers as a group. Percentage of common stock is based on 73,424,682 shares of common stock outstanding at March 14, 2012. Unless otherwise indicated, we believe that each beneficial owner set forth in the table has sole voting and investment power.

<u>Name and address</u>	<u>Type of ownership</u>	<u>Shares owned</u>	<u>Percentage of common stock currently outstanding</u>

[Table of Contents](#)

The following table sets forth the dollar range of our equity securities beneficially owned by each of our directors at March 14, 2012. We are not part of a “family of investment companies” as that term is defined in the 1940 Act.

<u>Name of Director</u>	<u>Dollar Range of Equity Securities in the Company(1)(2)</u>
Independent Directors:	
Jerrold B. Harris	Over \$100,000
William E. Mayer	Over \$100,000
François de Saint Phalle	Over \$100,000
Maureen K. Usifer	Over \$100,000
Interested Director and Executive Officer:	
James R. Maher	Over \$100,000

(1) Dollar ranges are as follows: None; \$1-\$10,000; \$10,001-\$50,000; \$50,001-\$100,000; or over \$100,000.

(2) The dollar range of equity securities beneficially owned is based on the closing price of \$10.22 per share of our common stock on March 14, 2012 on The NASDAQ Global Select Market.

CERTAIN RELATIONSHIPS AND TRANSACTIONS

Our investment activities are managed by the Advisor. The Advisor is led by James R. Maher, Chairman and Chief Executive Officer of the Company and the Advisor, and Michael B. Lazar, Chief Operating Officer of the Company and the Advisor. They are supported by the Advisor's team of employees, including 16 dedicated investment professionals, who have extensive experience in commercial banking, investment banking, accounting, corporate law and private equity investing. Our Advisor is responsible for identifying prospective customers, conducting research on prospective investments, identifying and underwriting credit risk, and monitoring our investments and portfolio companies on an ongoing basis. The Advisor has an investment committee comprised of 11 members, including Messrs. Maher and Lazar and several executives of BlackRock, Inc. and its subsidiaries ("BlackRock") and several of the principals of Kelso & Company, L.P. (the "Kelso Principals"). Although the BlackRock executives and Kelso Principals who serve on the investment committee bring the benefit of expertise they have gained at BlackRock, Kelso & Company, L.P. and elsewhere; neither of those organizations provides us with investment advice.

We have entered into a license agreement with BlackRock and the Advisor pursuant to which BlackRock has agreed to grant to the Advisor, and the Advisor has agreed to grant to us, a non-exclusive, royalty-free license to use the name "BlackRock." In addition, we have entered into a license agreement with Mr. Lazar and the Advisor pursuant to which Mr. Lazar has agreed to grant to the Advisor, and the Advisor has agreed to grant to us, a non-exclusive, royalty-free license to use the name "Kelso." Mr. Lazar obtained this limited right to license the name "Kelso" under an agreement with Kelso.

The Advisor is organized as a Delaware limited liability company. The Advisor is registered as an investment advisor with the SEC under the Investment Advisers Act of 1940. James R. Maher and Michael B. Lazar, the managing members of the Advisor, are control persons of the Advisor. For purposes of this paragraph, the term "control" has the meaning given to it in the 1940 Act.

The Company has entered into an investment management agreement with the Advisor, under which the Advisor, subject to the overall supervision of the Company's Board of Directors, manages the day-to-day operations of, and provides investment advisory services to, the Company. For providing these services, the Company has agreed to pay the Advisor a management fee based on the Company's total assets and an incentive fee based on our investment performance, plus reimbursement of certain expenses incurred by the Advisor. Our senior management, our Chairman of the Board and certain members of the Advisor's investment committee have ownership and financial interests in the Advisor and indirectly benefit from any increase in the Company's total assets. In addition, our executive officers and directors and the employees of the Advisor and members of its investment committee serve or may serve as investment advisers, officers, directors or principals of entities or investment funds that operate in the same or a related line of business as we do and/or investment funds managed by our affiliates. We note that any affiliated investment vehicle currently formed or formed in the future and managed by the Advisor or its affiliates may have overlapping investment objectives with our own and, accordingly, may invest in asset classes similar to those targeted by us. As a result, the Advisor and/or its affiliates may face conflicts in allocating investment opportunities between us and such other entities. Accordingly, we may not be given the opportunity to participate in certain investments made by investment funds managed by advisors affiliated with the Advisor. However, the Advisor and its affiliates will endeavor to allocate investment opportunities in a fair and equitable manner and consistent with applicable allocation procedures. In any such case, if the Advisor forms other affiliates in the future, we may co-invest on a concurrent basis with such other affiliates, subject to compliance with applicable regulations and regulatory guidance, as well as applicable allocation procedures. In certain circumstances, negotiated co-investments may be made only if we receive an order from the SEC permitting us to do so.

The Company has entered into an administration agreement with BlackRock Financial Management, Inc. (the "Administrator"), a wholly-owned subsidiary of BlackRock, under which the Administrator provides us with the office facilities and administrative services necessary to conduct our day-to-day operations.

[Table of Contents](#)

In 2007, our Board authorized the purchase by the Advisor from time to time in the open market of an indeterminate number of shares of our common stock, in the Advisor's discretion, subject to compliance with our and the Advisor's applicable policies and requirements of law. Pursuant to this authorization, during the years ended December 31, 2009, 2008 and 2007, the Advisor purchased 80,867, 225,185 and 71,703 shares of our common stock in the open market for \$312,322, \$2,267,330 and \$994,663, respectively, including brokerage commissions. There were no such purchases during the years ended December 31, 2011 and 2010.

In March 2011, the Company's Board authorized the purchase in a private placement of up to 1,000,000 shares of the Company's common stock by the Advisor in its discretion, subject to compliance with the Company's and the Advisor's applicable policies and requirements of law. Pursuant to this authorization, on March 16, 2011, the Company issued and sold to the Advisor in a private placement 200,000 shares of common stock for \$2,000,000 or \$10.00 per share, which was the closing price of the Company's common stock on The NASDAQ Global Select Market on that date.

The principal executive office of each of the Company and the Advisor are located at 40 East 52nd Street, New York, New York 10022. The principal executive office of the Administrator is located at 55 East 52nd Street, New York, New York 10055.

See Note 3 to our financial statements included elsewhere in this prospectus for additional information regarding these relationships and transactions.

At December 31, 2011 and 2010, the Advisor owned and had the right to vote 258,692 and 46,732 shares, respectively, of the Company's common stock. On such dates, under compensation arrangements for its officers and employees the Advisor owned of record but did not have the right to vote an additional 275,079 and 426,056 shares, respectively, of the Company's common stock. At December 30, 2011, BlackRock, through its affiliates, including its affiliated investment funds, beneficially owned approximately 6,019,483 shares of the Company's common stock, representing approximately 8.2% of the total shares outstanding. An entity affiliated with BlackRock has ownership and financial interests in the Advisor.

From time to time, we may invest in transactions in which our directors and officers or the officers and employees of the Advisor have a pecuniary interest. With respect to any such investment, we intend to comply with the relevant provisions of the 1940 Act to the extent they apply to us as a business development company, any other applicable laws and our written policies and procedures concerning affiliated transactions. Depending on the extent of the individual's pecuniary interest, the Advisor will disclose the interest to its investment committee, our senior management and our Board and may, among other actions, seek the Board's approval to enter into the transaction and require the individual to recuse himself or herself from the deliberations and voting of our Board, the Advisor and its investment committee with respect to the transaction.

Mr. Maher, our Chief Executive Officer and Chairman of our Board, is a former partner, and Mr. Mayer, one of our Directors, is currently a partner, of Park Avenue, a private equity fund manager specializing in middle-market management buyouts and growth capital investments. In addition, an employee of the Advisor is a former employee of Park Avenue. Mr. Maher and the employee have economic interests in Park Avenue. Messrs. Maher and Mayer own limited partner interests in the fund managed by Park Avenue. During 2006, we purchased \$5,250,000 of senior secured loans of DynaVox Systems LLC, which is a portfolio company of the fund managed by Park Avenue. In 2008, we purchased \$31,000,000 of senior subordinated notes and \$1,000,000 of Class A units of DynaVox Systems LLC and affiliates. The transactions were approved by the Advisor, its investment committee and our Board after disclosure of these facts.

Mr. Maher owns a limited partnership interest in a private equity fund managed by Vestar Capital Partners ("Vestar"), a private equity management firm specializing in management buyouts and growth capital investments. During 2006, we purchased the loans of DynaVox Systems LLC described above, and \$8,000,000 of subordinated debt of MediMedia USA, Inc., each of which are portfolio companies of Vestar. In 2008, we

[Table of Contents](#)

purchased \$5,000,000 of subordinated notes and \$500,000 of limited liability company interests from PGA Holdings, Inc. and affiliates, and \$31,000,000 of senior subordinated notes and \$1,000,000 of Class A units of DynaVox Systems LLC and affiliates, each portfolio companies of Vestar. During 2010, we entered into an amendment of the senior subordinated notes of DynaVox Systems LLC which permitted DynaVox Systems LLC to dividend proceeds to DynaVox Systems Holdings LLC (DynaVox Systems LLC and DynaVox System Holdings LLC are referred to hereafter as “DynaVox”). DynaVox subsequently invested in a newly formed entity, Sunrise Medical Investors LLC (“Sunrise”). Sunrise and DynaVox are owned, in part, by a group of investors headed by Vestar and Park Avenue. We also held approximately 1% of the outstanding preferred stock of Sunrise. The aforementioned transactions were approved by the Advisor and its investment committee after consideration of the significant relevant factors and disclosed to our Board.

THE ADVISOR

Our investment activities are managed by the Advisor. The Advisor is responsible for sourcing potential investments, conducting research on prospective investments, analyzing investment opportunities, structuring our investments, and monitoring our investments and portfolio companies on an ongoing basis. The Advisor is led by James R. Maher, Chairman and Chief Executive Officer of the Company and the Advisor, and Michael B. Lazar, Chief Operating Officer of the Company and the Advisor. They are supported by the Advisor's team of employees, including 16 investment professionals who have extensive experience in commercial lending, investment banking, accounting, corporate law and private equity investing. Since the commencement of our operations, our Advisor, including our senior management, has evaluated more than 2,100 investment opportunities and completed 128 investments, aggregating over \$2.5 billion in capital provided to middle-market companies through December 31, 2011.

The Advisor has an investment committee comprised of 11 members, including Messrs. Maher and Lazar, several executives of BlackRock and several of the Kelso Principals. We benefit from the extensive and varied relevant experience of the BlackRock executives and the Kelso Principals serving on the investment committee. Although the BlackRock executives and Kelso Principals who serve on the investment committee bring the benefit of expertise they have gained at BlackRock, Kelso and elsewhere, neither of those organizations provides us with investment advice. Nevertheless, we benefit from the business and specific industry knowledge, and transaction expertise of BlackRock. The Kelso Principals who serve on the investment committee bring the benefit of the expertise they gained at Kelso and elsewhere, including providing access to a broad network of contacts.

James R. Maher and Michael B. Lazar, the managing members of the Advisor, are control persons of the Advisor.

BlackRock is a leader in investment management, risk management and advisory services for institutional and retail clients worldwide. At December 31, 2011, BlackRock's assets under management was \$3.513 trillion. BlackRock offers products that span the risk spectrum to meet clients' needs, including active, enhanced and index strategies across markets and asset classes. Products are offered in a variety of structures including separate accounts, mutual funds, iShares® (exchange traded funds), and other pooled investment vehicles. BlackRock also offers risk management, advisory and enterprise investment system services to a broad base of institutional investors through BlackRock Solutions®.

The Kelso Principals have an average tenure of at least twenty years at Kelso. Kelso is a leading private equity firm and since 1980 has raised over \$10 billion of committed private equity capital, investing primarily in middle-market companies across a broad range of industries and through different economic and interest rate environments. Kelso was organized in 1971 and has since made investments in over 110 companies with aggregate initial capitalization of over \$38 billion. The firm typically makes investments in companies where key managers make significant investments and works in partnership with management teams to create value for investors. Through our relationship with the Kelso Principals, we have access to these management teams who can provide unique insight into the industries in which they operate. Although the Kelso Principals who serve on the investment committee bring the benefit of the expertise they have gained at Kelso and elsewhere, Kelso as an organization does not participate in the activities of the Advisor or advise us.

Portfolio managers

Messrs. Maher and Lazar are the persons primarily responsible for the day-to-day management of our portfolio. Both Mr. Maher and Mr. Lazar have been employed by the Advisor since its formation in 2004. Biographical information with respect to Messrs. Maher and Lazar is set forth under "Management of the Company—Biographical information."

[Table of Contents](#)

At December 31, 2011, each of Mr. Maher and Mr. Lazar was a full time employee of the Advisor. Each has ownership and financial interests in the Advisor. Neither Mr. Maher nor Mr. Lazar receives any direct compensation from us. See “Certain Relationships and Transactions” for a description of certain relationships and transactions between us and Mr. Maher and Mr. Lazar.

The following table sets forth the dollar range of our common stock beneficially owned by each of the portfolio managers as of December 31, 2011.

<u>Portfolio Manager</u>	<u>Aggregate Dollar Range of Common Stock Owned by Portfolio Manager(1)(2)</u>
James R. Maher	Over \$ 1,000,000
Michael B. Lazar	Over \$ 1,000,000

- (1) Dollar ranges are as follows: None; \$1-\$10,000; \$10,001-\$50,000; \$50,001-\$100,000; \$100,001-\$500,000; \$500,001-\$1,000,000; or over \$1,000,000.
(2) The dollar range of equity securities beneficially owned is based on the closing price of \$8.16 per share of our common stock on December 31, 2011 on The NASDAQ Global Select Market.

Such persons may not necessarily continue to hold such positions or be involved in the performance by the Advisor of its obligations to us during the entire term of the investment management agreement referred to below.

The investment committee’s role is limited to providing oversight and guidance to compliment and supervise the Advisor’s management of our investment portfolio.

Investment management agreement

We have entered into an investment management agreement, which we refer to as the management agreement, with the Advisor, under which the Advisor, subject to the overall supervision of our Board of Directors, manages our day-to-day operations and provides us with investment advisory services. For providing these services, the Advisor receives a base management fee from us at an annual rate of 2.0% of our total assets, including any assets acquired with the proceeds of leverage, payable quarterly in arrears.

The investment management agreement became effective on June 22, 2008 and its initial term expired on June 22, 2010. Since then, our Board of Directors has approved the agreement for successive one year terms with the most recently approved term scheduled to expire on June 22, 2012, unless an additional one year term is approved by the Board.

For the years ended December 31, 2011, 2010 and 2009, the Advisor earned \$19,841,258, \$16,877,854 and \$18,498,189, respectively, in base management fees under the management agreement.

The management agreement provides that the Advisor or its affiliates may be entitled to an incentive management fee, which we refer to as the Incentive Fee, under certain circumstances. The determination of the Incentive Fee, as described in more detail below, will result in the Advisor or its affiliates receiving no Incentive Fee payments if returns to our stockholders do not meet an 8.0% annualized rate of return during the applicable fee measurement period and will result in the Advisor or its affiliates receiving less than the full amount of the Incentive Fee percentage until returns to our stockholders exceed an approximate 13.3% annualized rate of return during such period. Annualized rate of return in this context is computed by reference to our net asset value and does not take into account changes in the market price of our common stock.

[Table of Contents](#)

The Advisor will be entitled to receive the Incentive Fee from us if our performance exceeds a “hurdle rate” during different measurement periods; trailing four quarters’ periods (which applies only to the portion of the Incentive Fee based on income); and annual periods (which applies only to the portion of the Incentive Fee based on capital gains).

- The income portion of the Incentive Fee payable for the quarter was determined by reference to the current calendar quarter and the three preceding calendar quarters.
- The term “annual period” means the period beginning on July 1 of each calendar year and ending on June 30 of the next calendar year.

The hurdle rate for each quarterly portion of a measurement period is 2.0% multiplied by our net asset values at the beginning of each calendar quarter during the measurement period, calculated after giving effect to any distribution that occurred during the measurement period. A portion of the Incentive Fee is based on our income and a portion is based on capital gains. Each portion of the Incentive Fee is described below.

Quarterly Incentive Fee Based on Income. For each of the first two measurement periods referred to above (the transition period and each trailing four quarters’ period), we pay the Advisor an Incentive Fee based on the amount by which (A) aggregate distributions and amounts distributable out of taxable net income (excluding any capital gain and loss) during the period less the amount, if any, by which net unrealized capital depreciation exceeds net realized capital gains during the period exceeds (B) the hurdle rate for the period. The amount of the excess of (A) over (B) described in this paragraph for each period is referred to as the excess income amount.

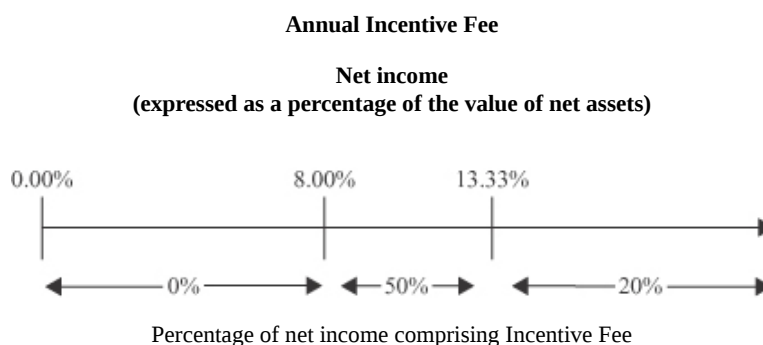

The portion of the Incentive Fee based on income for each period will equal 50% of the period’s excess income amount, until the cumulative Incentive Fee payments for the period equal 20% of the period’s income amount distributed or distributable to stockholders as described in clause (A) of the preceding paragraph. Thereafter, the portion of the Incentive Fee based on income for the period equals 20% of the period’s remaining excess income amount.

Annual Incentive Fee Based on Capital Gains. The portion of the Incentive Fee based on capital gains is calculated on an annual basis. For each annual period, we pay the Advisor an Incentive Fee based on the amount by which (A) net realized capital gains, if any, to the extent they exceed gross unrealized capital depreciation, if any, occurring during the period exceeds (B) the amount, if any, by which the period’s hurdle rate exceeds the amount of income used in the determination of the Incentive Fee based on income for the period. The amount of the excess of (A) over (B) described in this paragraph is referred to as the excess gain amount.

The portion of the Incentive Fee based on capital gains for each period will equal 50% of the period’s excess gain amount, until such payments equal 20% of the period’s capital gain amount distributed or distributable to our stockholders. Thereafter, the portion of the Incentive Fee based on capital gains for the period equals an amount such that the portion of the Incentive Fee payments to the Advisor based on capital gains for the period equals 20% of the period’s remaining excess gain amount. The result of this formula is that, if the portion of the Incentive Fee based on income for the period exceeds the period’s hurdle, then the portion of the Incentive Fee based on capital gains will be capped at 20% of the capital gain amount.

In calculating whether the portion of the Incentive Fee based on capital gains is payable with respect to any period, we account for our assets on a security-by-security basis. In addition, we use the “period-to-period” method pursuant to which the portion of the Incentive Fee based on capital gains for any period is based on realized capital gains for the period reduced by realized capital losses and gross unrealized capital depreciation for the period. Based on current interpretations of Section 205(b)(3) of the Investment Advisers Act of 1940 by the SEC and its staff, the calculation of unrealized depreciation for each portfolio security over a period is based on the fair value of the security at the end of the period compared to the fair value at the beginning of the period. Incentive Fees earned in any of the periods described above are not subject to modification or repayment based upon performance in a subsequent period.

The following is a graphical representation of the calculation of the portion of the Incentive Fee based on income.

Example of Calculation of Net Income Portion of Incentive Fee

For each trailing four quarters' period, beginning with the four quarter period ending September 30, 2008

Formula

The formula for the net income portion of the Incentive Fee for any trailing four quarters' post-offering period can be expressed as follows:

Incentive Fee with respect to net income—

- When the annualized rate of return to stockholders exceeds the hurdle but does not exceed 13.33% = 50% x (trailing four quarters' post-offering period net income less the excess (if any) of trailing four quarters' post-offering period net unrealized capital depreciation over trailing four quarters' post-offering period net realized capital gains – hurdle amount) – incentive fees with respect to net income paid in the prior three quarters
- When the annualized rate of return to stockholders exceeds 13.33% = 50% x (13.33% x net asset value – hurdle amount) + 20% x (the excess (if any) of trailing four quarters' net income less the excess (if any) of trailing four quarters' post-offering period net unrealized capital depreciation over trailing four quarters' post-offering period net realized capital gains – 13.33% x net asset value) – incentive fees with respect to net income paid in the prior three quarters

Annualized rate of return in this context is computed by reference to our net asset value and does not take into account changes in the market price of our common stock.

Assumptions

- Number of full calendar quarters in period = 4
- Net Asset Value = \$500.0 million
- Total Assets = \$500.0 million
- Quarter 1 net income(1) = \$15.0 million
- Quarter 1 incentive fee paid = \$0.0 million
- Quarter 2 net income = \$10.0 million
- Quarter 2 incentive fee paid = \$0.0 million
- Quarter 3 net income = \$37.5 million

Table of Contents

- Quarter 3 incentive fee paid with respect to net income = \$13.5 million
- Quarter 3 incentive fee paid with respect to net realized capital gains = \$0.15 million
- Net realized capital gains, Quarters 1 through 3 = \$1.5 million
- Net unrealized capital appreciation, Quarters 1 through 3 = \$0.5 million
- Hurdle(2) = 8.00%
- Base management fee(3) = 0.50%
- Other expenses (legal, accounting, custodian, transfer agent, etc.)(4) = 0.25%

Additional Assumptions

- Quarter 4 net income = Quarter 4 income – base management fee – other expenses = \$20.75 million – 0.50% x \$500.0 million – 0.25% x \$500.0 million = \$20.75 million – \$3.75 million = \$17.0 million
- Quarter 4 net realized capital gain = \$0.5 million
- Quarter 4 net unrealized capital appreciation = \$1.0 million
- Trailing four quarters' post-offering net income less the excess (if any) of trailing four quarters' post-offering period net unrealized capital depreciation over trailing four quarters' post-offering period net realized capital gains = Quarter 1 + Quarter 2 + Quarter 3 + Quarter 4 quarterly net income – (excess, if any, of trailing four quarters' post-offering period net unrealized capital depreciation from beginning of Quarter 1 to end of Quarter 4 over trailing four quarters' post-offering period net realized capital gains from beginning of Quarter 1 to end of Quarter 4) = \$15.0 million + \$10.0 million + \$37.5 million + \$17.0 million – \$0.0 million (as there was no trailing four quarters' post-offering period net unrealized capital depreciation from beginning of Quarter 1 to end of Quarter 4) = \$79.5 million
- Hurdle amount = 8.00% x \$500.0 million = \$40.0 million

Determination of Incentive Fee

Trailing four quarters' post-offering period net income less the excess (if any) of trailing four quarters' post-offering period net unrealized capital depreciation over trailing four quarters' post-offering period net realized capital gains equals \$79.5 million, which exceeds the Hurdle amount. Therefore there is an Incentive Fee payable with respect to net income in Quarter 4. The net income portion of the Incentive Fee for this quarter equals 50% of the amount by which the trailing four quarters' post-offering net income less the excess (if any) of trailing four quarters' post-offering period net unrealized capital depreciation over trailing four quarters' post-offering period net realized capital gains exceeds the Hurdle amount, until the cumulative Incentive Fee payments with respect to net income equal 20% of the trailing four quarters' net income less the excess (if any) of trailing four quarters' post-offering period net unrealized capital depreciation over trailing four quarters' post-offering period net realized capital gains (would occur if such amount for the trailing four quarters' represented an annualized return on net assets of 13.33% or higher, which is the case in this example), less any incentive fees paid with respect to net income in the prior three quarters.

$$\begin{aligned} \text{Incentive Fee with respect to net income} &= 50\% \times (13.33\% / 4 \times \$500.0 \text{ million} - \text{Hurdle amount}) + 20\% \times (\text{trailing four quarters' post-offering period} \\ &\text{net income less the excess (if any) of trailing four quarters' post-offering period net unrealized capital depreciation over trailing four quarters' post-offering} \\ &\text{period net realized capital gains} - 13.33\% / 4 \times \$500.0 \text{ million}) - \text{incentive fees with respect to net income paid in the prior three quarters} \\ &= 50\% \times (\$66.66 \text{ million} - \$40.0 \text{ million}) + 20\% \times (\$79.5 \text{ million} - \$66.66 \text{ million}) - \$13.5 \text{ million} \\ &= 50\% \times \$26.66 \text{ million} + 20\% \times \$12.84 \text{ million} - \$13.5 \text{ million} \\ &= \$2.4 \text{ million} \end{aligned}$$

[Table of Contents](#)

Conclusion

The Incentive Fee payable at the end of Quarter 4 with respect to net income for the trailing four quarters' period equals \$2.4 million.

- (1) Net income refers to taxable net income, excluding any realized capital gain and loss and unrealized capital appreciation and depreciation.
- (2) Represents an annual hurdle of 8.00% of the value of net assets.
- (3) Represents quarterly portion of an annual base management fee of 2.00% of the value of total assets.
- (4) Excludes offering expenses and is expressed as a percentage of the value of net assets.

Examples of Calculation of Capital Gains Portion of Incentive Fee

For each annual period beginning on July 1, commencing July 1, 2007, and ending on the day prior to the first anniversary of such date

Formula

The formula for the capital gains portion of the Incentive Fee for each annual period can be expressed as follows:

Incentive Fee with respect to capital gains = 50% x (net realized capital gains to the extent in excess of gross unrealized capital depreciation, but only to the extent that such net realized capital gains, when added to net income, exceed the Hurdle amount), up to a limit of 20% x net realized capital gains to the extent in excess of gross unrealized capital depreciation

The following Alternative 1 and Alternative 2 assume that with respect to each year, the trailing four quarters' post-offering period net income less the excess (if any) of trailing four quarters' post-offering period net unrealized capital depreciation over trailing four quarters' post-offering period net realized capital gains exceeds the hurdle amount.

Alternative 1

Assumptions

- Year 1: \$20 million investment made in Company A ("Investment A"), and \$30 million investment made in Company B ("Investment B")
- Year 2: Investment A is sold for \$50 million and fair value of Investment B determined to be \$32 million
- Year 3: fair value of Investment B determined to be \$25 million
- Year 4: Investment B sold for \$31 million

The capital gains portion of the Incentive Fee, if any, would be:

- Year 1: None
- Year 2: \$6 million (20% multiplied by \$30 million realized capital gains on sale of Investment A)
- Year 3: None
- Year 4: \$200,000 (20% multiplied by \$1 million realized capital gains on sale of investment B)

Alternative 2

Assumptions

- Year 1: \$20 million investment made in Company A ("Investment A"), \$30 million investment made in Company B ("Investment B") and \$25 million investment made in Company C ("Investment C")

Table of Contents

- Year 2: Investment A sold for \$50 million, fair value of Investment B determined to be \$25 million and fair value of Investment C determined to be \$25 million
- Year 3: fair value of Investment B determined to be \$27 million and Investment C sold for \$30 million
- Year 4: fair value of Investment B determined to be \$35 million

The capital gains portion of the Incentive Fee, if any, would be:

- Year 1: None
- Year 2: \$5 million (20% multiplied by \$25 million (\$30 million realized capital gains on Investment A less \$5 million unrealized capital depreciation on Investment B))
- Year 3: \$1 million (20% multiplied by \$5 million realized capital gains on Investment C)
- Year 4: None

With respect to each year, if the trailing four quarters' post-offering period net income less the excess (if any) of trailing four quarters' post-offering period net unrealized capital depreciation over trailing four quarters' post-offering period net realized capital gains did not exceed the hurdle amount, the capital gains portion of the Incentive Fee could be reduced because no Incentive Fee is payable unless the sum of (1) the amount of net income used in the determination of the Incentive Fee, if any, based on income and (2) the amount of net realized capital gains in excess of unrealized capital depreciation used in the determination of the Incentive Fee, if any, based on capital gains exceeds the hurdle amount. The following Alternative 3 and Alternative 4 illustrate the calculation of the capital gains portion of the Incentive Fee when the hurdle amount is exceeded only after capital gains are taken into account.

Alternative 3

Assumptions

- Year 1: Net income less the excess (if any) of trailing four quarters' net unrealized capital depreciation over trailing four quarters' net realized capital gains = \$38.0 million
- Year 1: Net realized capital gains to the extent in excess of gross unrealized capital depreciation = \$8.0 million

Determination of Incentive Fee

Net income less the excess (if any) of trailing four quarters' net unrealized capital depreciation over trailing four quarters' net realized capital gains equals \$38.0 million, which does not exceed the Hurdle amount. Therefore there is no Incentive Fee payable with respect to net income. However, Year 1 net realized capital gains to the extent in excess of gross unrealized capital depreciation of \$8.0 million, when added to net income of \$38.0 million, results in a total of \$46.0 million, which exceeds the Hurdle amount. Therefore there is an Incentive Fee payable with respect to capital gains in Year 1.

Incentive Fee with respect to capital gains = 50% x (net realized capital gains to the extent in excess of gross unrealized capital depreciation, but only to the extent that such net realized capital gains, when added to net income, exceed the Hurdle amount), up to a limit of 20% x net realized capital gains to the extent in excess of gross unrealized capital depreciation

$$= 50\% \times (\$46.0 \text{ million} - \$40.0 \text{ million}), \text{ up to a limit of } 20\% \times \$8.0 \text{ million}$$

$$= 50\% \times \$6.0 \text{ million, up to a limit of } \$1.6 \text{ million}$$

$$= \$1.6 \text{ million}$$

[Table of Contents](#)

Conclusion

The Incentive Fee payable with respect to capital gains for Year 1 equals \$1.6 million.

Alternative 4

Assumptions

- Year 1: Net income less the excess (if any) of trailing four quarters' net unrealized capital depreciation over trailing four quarters' net realized capital gains = \$38.0 million
- Year 1: Net realized capital gains to the extent in excess of gross unrealized capital depreciation = \$3.0 million

Determination of Incentive Fee

Net income less the excess (if any) of trailing four quarters' net unrealized capital depreciation over trailing four quarters' net realized capital gains equals \$38.0 million, which does not exceed the Hurdle amount. Therefore there is no Incentive Fee payable with respect to net income. However, Year 1 net realized capital gains to the extent in excess of gross unrealized capital depreciation of \$3.0 million, when added to net income of \$38.0 million, results in a total of \$41.0 million, which exceeds the Hurdle amount. Therefore there is an Incentive Fee payable with respect to capital gains in Year 1.

Incentive Fee with respect to capital gains = 50% x (net realized capital gains to the extent in excess of gross unrealized capital depreciation, but only to the extent that such net realized capital gains, when added to net income, exceed the Hurdle amount), up to a limit of 20% x net realized capital gains to the extent in excess of gross unrealized capital depreciation

$$= 50\% \times (\$41.0 \text{ million} - \$40.0 \text{ million}), \text{ up to a limit of } 20\% \times \$3.0 \text{ million}$$

$$= 50\% \times \$1.0 \text{ million}, \text{ up to a limit of } \$0.6 \text{ million}$$

$$= \$0.5 \text{ million}$$

Conclusion

The Incentive Fee payable with respect to capital gains for Year 1 equals \$0.5 million.

For the years ended December 31, 2011, 2010 and 2009, the Advisor earned \$11,878,159, \$15,108,049 and \$16,818,602, respectively, in Incentive Fees from the Company.

Payment of our expenses

All investment professionals and staff of the Advisor, when and to the extent engaged in providing investment advisory and management services, and the compensation and routine overhead expenses of such personnel allocable to such services, will be provided and paid for by the Advisor. We will bear all other costs and expenses of our operations and transactions, including those relating to:

- our organization;
- calculating our net asset value (including the cost and expenses of any independent valuation firms);
- expenses incurred by the Advisor payable to third parties in monitoring our investments and performing due diligence on prospective portfolio companies;
- interest payable on debt, if any, incurred to finance our investments;
- the costs of future offerings of common shares and other securities, if any;

Table of Contents

- the base management fee and any incentive management fee;
- dividends and distributions on our preferred shares, if any, and common shares;
- administration fees payable under the administration agreement;
- fees payable to third parties relating to, or associated with, making investments;
- transfer agent and custodial fees;
- registration fees;
- listing fees;
- taxes;
- independent director fees and expenses;
- costs of preparing and filing reports or other documents with the SEC;
- the costs of any reports, proxy statements or other notices to our stockholders, including printing costs;
- our fidelity bond;
- directors and officers/errors and omissions liability insurance, and any other insurance premiums;
- indemnification payments;
- direct costs and expenses of administration, including audit and legal costs; and
- all other expenses reasonably incurred by us or the Administrator in connection with administering our business, such as the allocable portion of overhead under the administration agreement, including rent and other allocable portions of the cost of certain of our officers and their respective staffs.

We will reimburse the Advisor for costs and expenses incurred by the Advisor for office space rental, office equipment and utilities allocable to the Advisor under the management agreement, as well as any costs and expenses incurred by the Advisor relating to any non-investment advisory, administrative or operating services provided by the Advisor to us. For the years ended December 31, 2011, 2010 and 2009, we incurred \$1,779,734, \$1,622,957 and \$1,466,563, respectively, for such investment advisor expenses under the management agreement.

From time to time, the Advisor may pay amounts owed by us to third party providers of goods or services. We will subsequently reimburse the Advisor for such amounts paid on our behalf. Reimbursements to the Advisor for the years ended December 31, 2011, 2010 and 2009 were \$3,046,228, \$3,240,732 and \$1,978,629, respectively.

Indemnification

The management agreement provides that in the absence of willful misfeasance, bad faith, gross negligence or reckless disregard of its obligations thereunder, the Advisor is not liable to us or any of our stockholders for any act or omission by it or its employees in the supervision or management of our investment activities or for any loss sustained by us or our stockholders, and provides for indemnification by us of its members, directors, officers, employees, agents and control persons for liabilities incurred by it in connection with their services to us, subject to certain limitations and conditions.

Board and stockholder approval of the management agreement

The investment management agreement became effective on June 22, 2008 and its initial term expired on June 22, 2010. Since then, our Board of Directors has approved the agreement for successive one year terms with the most recently approved term scheduled to expire on June 22, 2012, unless an additional one year term is approved by the Board.

Duration and termination

The management agreement will continue in effect until June 22, 2012, and if not sooner terminated, will continue in effect for successive periods of twelve months thereafter, provided that each continuance is specifically approved at least annually by both (1) the vote of a majority of our Board of Directors or the vote of a majority of our outstanding voting securities and (2) the vote of a majority of the Board of Directors who are not parties to the management agreement or interested persons (as such term is defined in the 1940 Act) of any such party, cast in person at a meeting called for the purpose of voting on such approval. We may terminate the management agreement as a whole at any time, without the payment of any penalty, upon the vote of a majority of our Board of Directors or a majority of our outstanding voting securities or by the Advisor, on 60 days' written notice by either party to the other which can be waived by the non-terminating party. The management agreement will terminate automatically in the event of its assignment.

Organization of the Advisor

The Advisor is organized as a Delaware limited liability company. The Advisor is registered as an investment advisor with the SEC under the Advisers Act. Its principal executive offices are located at 40 East 52nd Street, New York, New York. James R. Maher and Michael B. Lazar, the managing members of the Advisor, are the control persons of the Advisor.

Administration agreement

We have entered into an administration agreement with the Administrator, a subsidiary of BlackRock, under which the Administrator provides administrative services to us. In payment for these services, facilities and personnel, we reimburse the Administrator for our allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations under the administration agreement, including rent and our allocable portion of the cost of certain of our officers and their respective staffs.

For the years ended December 31, 2011, 2010 and 2009, we incurred \$968,721, \$587,469 and \$642,993, respectively, for administrative services expenses payable to the Administrator under the administration agreement.

License agreements

We have entered into a license agreement with BlackRock and the Advisor pursuant to which BlackRock has agreed to grant to the Advisor, and the Advisor has agreed to grant to us, a non-exclusive, royalty-free license to use the name "BlackRock." In addition, we have entered into a license agreement with Michael B. Lazar, our Chief Operating Officer, and the Advisor pursuant to which Mr. Lazar has agreed to grant to the Advisor, and the Advisor has agreed to grant to us, a non-exclusive, royalty-free license to use the name "Kelso." Mr. Lazar obtained this limited right to license the name "Kelso" under an agreement with Kelso.

DETERMINATION OF NET ASSET VALUE

The net asset value per share of our outstanding shares of common stock is determined quarterly by dividing the value of total assets minus liabilities by the total number of shares outstanding.

In calculating the value of our total assets, investments for which market quotations are readily available are valued at such market quotations unless they are deemed not to represent fair value. We generally obtain market quotations, when available, from an independent pricing service or one or more broker-dealers or market makers and may utilize the average of the range of bid and ask quotations as a practical expedient for fair value. Debt and equity securities for which market quotations are not readily available or for which market quotations are deemed not to represent fair value are valued at fair value as determined in good faith by or under the direction of our Board of Directors. Because we expect that there will not be a readily available market value for substantially all of the investments in our portfolio, we expect to value substantially all of our portfolio investments at fair value as determined in good faith under the direction of our Board of Directors using a consistently applied valuation process in accordance with a documented valuation policy that has been reviewed and approved by our Board of Directors. Due to the inherent uncertainty and subjectivity of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a readily available market value existed for such investments and may differ materially from the values that we may ultimately realize. In addition, changes in the market environment and other events may have differing impacts on the market quotations used to value some of our investments than on the fair values of our investments for which market quotations are not readily available. Market quotations may be deemed not to represent fair value in certain circumstances where the Advisor believes that facts and circumstances applicable to an issuer, a seller or purchaser or the market for a particular security cause current market quotations to not reflect the fair value of the security. Examples of these events could include cases where a security trades infrequently causing a quoted purchase or sale price to become stale, where there is a “forced” sale by a distressed seller, where markets quotations vary substantially among market makers, or where there is a wide bid-ask spread or significant increase in the bid-ask spread.

With respect to investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value, our Board of Directors has approved a multi-step valuation process each quarter, as described below:

- our quarterly valuation process begins with each portfolio company or investment being initially evaluated and rated by the investment professionals of the Advisor responsible for the portfolio investment;
- the investment professionals provide recent portfolio company financial statements and other reporting materials to independent valuation firms engaged by our Board of Directors, such firms conduct independent appraisals each quarter and their preliminary valuation conclusions are documented and discussed with senior management of the Advisor;
- the audit committee of our Board of Directors reviews the preliminary valuations prepared by the independent valuation firms; and
- the Board of Directors discusses valuations and determines the fair value of each investment in our portfolio in good faith based on the input of the Advisor, the respective independent valuation firms and the audit committee.

Those investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value are valued utilizing a market approach, an income approach, or both approaches, as appropriate. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted). The measurement is based on the value indicated by current market expectations about

[Table of Contents](#)

those future amounts. In following these approaches, the types of factors that we may take into account in determining the fair value of our investments include, as relevant and among other factors: available current market data, including relevant and applicable market trading and transaction comparables, applicable market yields and multiples, security covenants, call protection provisions, information rights, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons of financial ratios of peer companies that are public, M&A comparables, our principal market (as the reporting entity) and enterprise values.

Until the end of the second calendar quarter following its acquisition, each unquoted investment in a new portfolio company generally is valued at cost, which the Advisor believes approximates fair value under the circumstances. As of that date, an independent valuation firm may conduct an initial independent appraisal of the investment.

Accounting Standards Codification ("ASC") 820-10, *Fair Value Measurements and Disclosures* ("ASC 820-10"), issued by the Financial Accounting Standards Board ("FASB"), defines fair value, establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements. ASC 820-10 defines fair value as the price that a company would receive upon selling an investment or pay to transfer a liability in an orderly transaction to a market participant in the principal or most advantageous market for the investment. ASC 820-10 emphasizes that valuation techniques maximize the use of observable market inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of us. Unobservable inputs are inputs that reflect our assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances.

ASC 820-10 establishes a hierarchy that classifies these inputs into the three broad levels listed below:

Level 1—Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that a company has the ability to access.

Level 2—Valuations based on unadjusted quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3—Valuations based on inputs that are unobservable and significant to the overall fair value measurement. The inputs into the determination of fair value may require significant management judgment or estimation.

Transfers between levels, if any, represent the value as of the beginning of the period of any investment where a change in the pricing level occurred from the beginning to the end of the period.

We evaluate the source of inputs, including any markets in which our investments are trading, in determining fair value and categorize each investment within the fair value hierarchy pursuant to and consistent with ASC 820-10.

Determination of fair value involves subjective judgments and estimates. Accordingly, the notes to our financial statements express the uncertainty with respect to the possible effect of such valuations, and any change in such valuations, on the financial statements.

Determinations in connection with offerings

We are not generally able to issue and sell our common stock at a price below net asset value per share. We may, however, sell our common stock, or sell warrants, options, rights or units to acquire such common stock, at

[Table of Contents](#)

a price below the current net asset value of the common stock if our Board of Directors determines that such sale is in our best interests and the best interests of our stockholders, and our stockholders approve our policy and practice of making such sales. In any such case, the price at which our securities are to be issued and sold may not be less than a price which, in the determination of our Board of Directors closely approximates the market value of such securities (less any distributing commission or discount).

We obtained approval at our 2011 Annual Meeting of Stockholders to allow us the flexibility, with the approval of our Board of Directors, to sell or otherwise issue shares of our common stock at a price below its then current net asset value per share subject to the policy of our Board of Directors that the Company shall not sell or otherwise issue more than 25% of the Company's then outstanding shares of common stock (immediately prior to such sale or issuance) at a price below its then current net asset value per share. As a result of obtaining this approval from stockholders, we may issue shares of our common stock at a price below its then current net asset value per share, subject to the foregoing conditions and the determination by our Board of Directors that such issuance and sale is in our and our stockholders' best interests.

In connection with each offering of shares of our common stock, the Board of Directors or a committee thereof is required to make the determination that we are not selling shares of our common stock at a price below our then current net asset value at the time at which the sale is made, subject to certain exceptions discussed above. Our Board of Directors will consider the following factors, among others, in making such determination:

- the net asset value of our common stock disclosed in the most recent periodic report that we filed with the SEC;
- our management's assessment of whether any material change in the net asset value of our common stock has occurred (including through the realization of gains on the sale of our portfolio securities) during the period beginning on the date of the most recently disclosed net asset value of our common stock and ending two days prior to the date of the sale of our common stock; and
- the magnitude of the difference between the net asset value of our common stock disclosed in the most recent periodic report that we filed with the SEC and our management's assessment of any material change in the net asset value of our common stock since the date of the most recently disclosed net asset value of our common stock, and the offering price of the shares of our common stock in the proposed offering.

Importantly, this determination will not require that we calculate the net asset value of our common stock in connection with each offering of shares of our common stock, but instead it will involve the determination by our Board of Directors or a committee thereof that we are not selling shares of our common stock at a price below the then current net asset value of our common stock at the time at which the sale is made or otherwise in violation of the 1940 Act.

To the extent that there is even a remote possibility that we may issue shares of our common stock at a price below the then current net asset value of our common stock at the time at which the sale is made or trigger the undertaking (which we provide in certain registration statements we file with the SEC) to suspend the offering of shares of our common stock pursuant to this prospectus if the net asset value of our common stock fluctuates by certain amounts in certain circumstances until the prospectus is amended, our Board of Directors will elect either to postpone the offering until such time that there is no longer the possibility of the occurrence of such event or to undertake to determine the net asset value of our common stock within two days prior to any such sale to ensure that such sale will not be below our then current net asset value, and to comply with such undertaking or to undertake to determine the net asset value of our common stock to ensure that such undertaking has not been triggered.

We may, however, subject to the requirements of the 1940 Act, issue rights to acquire our common stock at a price below the current net asset value of the common stock if our board of directors determines that such sale is in our best interests and the best interests of our common stockholders. In any such case, the price at which our

[Table of Contents](#)

securities are to be issued and sold may not be less than a price, that in the determination of our Board of Directors, closely approximates the market value of such securities. We will not offer transferable subscription rights to our stockholders at a price equivalent to less than the then current net asset value per share of common stock, excluding underwriting commissions, unless we first file a post-effective amendment that is declared effective by the SEC with respect to such issuance and the common stock to be purchased in connection with the rights represents no more than one-third of our outstanding common stock at the time such rights are issued. In addition, we note that for us to file a post-effective amendment to this registration statement on Form N-2, we must then be qualified to register our securities on Form S-3. If we raise additional funds by issuing more common stock or warrants or senior securities convertible into, or exchangeable for, our common stock, the percentage ownership of our common stockholders at that time would decrease, and our common stockholders may experience dilution.

Records will be made contemporaneously with all determinations described in this section and these records will be maintained with other records that we are required to maintain under the 1940 Act.

DIVIDEND REINVESTMENT PLAN

Unless the registered owner of your common shares elects to receive cash by contacting BNY Mellon Investment Servicing (U.S.) Inc., or BMIS, agent for stockholders in administering our amended and restated dividend reinvestment plan, or the plan, all dividends declared for you in common shares of our company will be automatically reinvested by the plan agent in additional common shares of our company. If the registered owner of your common shares elects not to participate in the plan, you will receive all dividends in cash paid by check mailed directly to you (or, if the shares are held in street or other nominee name, then to such nominee) by BMIS, as dividend disbursing agent. You may elect not to participate in the plan and to receive all dividends in cash by sending written instructions or by contacting BMIS, as dividend disbursing agent, at the address set forth below. Participation in the plan is completely voluntary and may be terminated or resumed at any time without penalty by contacting the plan agent before the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional common shares of our company for you. As this approach may cause you to incur brokerage charges or other transaction costs, we recommend that you consult with your broker or financial adviser. If you wish for all dividends declared on your common shares of our company to be automatically reinvested pursuant to the plan, please contact your broker.

The plan agent will open an account for each common stockholder under the plan in the same name in which such common stockholder's common shares are registered. Whenever we declare a dividend or other distribution payable in cash, non-participants in the plan will receive cash and participants in the plan will receive the number of common shares referred to below. The common shares will be paid to the plan agent for the participants' accounts through receipt of additional unissued but authorized common shares or treasury common shares from us. The number of newly issued or treasury common shares to be credited to each participant's account will be determined by dividing the dollar amount of the dividend by 95% of the market price per common share on the payment date for the dividend or other distribution. Under certain circumstances, this feature of the plan may cause us to issue or sell shares of our common stock at a price that is less than our net asset value per share, which could cause our common stockholders to experience dilution.

The plan agent maintains all stockholders' accounts in the plan and furnishes written confirmation of all transactions in the accounts, including information needed by stockholders for tax records. Common shares in the account of each plan participant will be held by the plan agent on behalf of the plan participant, and each stockholder proxy will include those shares purchased or received pursuant to the plan. The plan agent will forward all proxy solicitation materials to participants and vote proxies for shares held under the plan in accordance with the instructions of the participants.

In the case of stockholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the plan agent will administer the plan on the basis of the number of common shares certified from time to time by the record stockholder's name and held for the account of beneficial owners who participate in the plan.

There will be no brokerage charges with respect to common shares issued directly by us. The automatic reinvestment of dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. For additional details, see "Material U.S. Federal Tax Matters." Participants that request a sale of shares through the plan agent are subject to a \$2.50 sales fee and a \$0.15 per share sold brokerage commission.

We reserve the right to amend or terminate the plan. There is no direct service charge to participants in the plan; however, we reserve the right to amend the plan to include a service charge payable by the participants.

All correspondence concerning the plan should be directed to the plan agent at BNY Mellon Investment Servicing (U.S.) Inc., 301 Bellevue Parkway, Wilmington, DE 19809.

DESCRIPTION OF OUR CAPITAL STOCK**General**

Under the terms of our amended certificate of incorporation, our authorized capital stock will consist solely of 200,000,000 shares of common stock, par value \$0.001 per share, of which 73,210,584 shares were outstanding as of December 31, 2011, and 500 shares of preferred stock, par value \$0.001 per share, of which no shares were outstanding as of December 31, 2011.

Set forth below are our outstanding classes of capital stock as of December 31, 2011.

	(1) Title of Class	(2) Amount Authorized	(3) Amount Held by Company or for its Account	(4) Amount Outstanding Exclusive of Amount Shown Under(3)
BlackRock Kelso Capital Corporation	Common Stock	200,000,000	1,425,507	73,210,584

Common stock

Under the terms of our certificate of incorporation, holders of common stock are entitled to one vote for each share held on all matters submitted to a vote of stockholders and do not have cumulative voting rights. Accordingly, holders of a majority of the shares of common stock entitled to vote in any election of directors may elect all of the directors standing for election. Holders of common stock are entitled to receive proportionately any dividends declared by our Board of Directors, subject to any preferential dividend rights of outstanding preferred stock. Upon our liquidation, dissolution or winding up, the holders of common stock are entitled to receive ratably our net assets available after the payment of all debts and other liabilities and subject to the prior rights of any outstanding preferred stock. Holders of common stock have no preemptive, subscription, redemption or conversion rights. The rights, preferences and privileges of holders of common stock are subject to the rights of the holders of any series of preferred stock which we may designate and issue in the future under the Securities Act of 1933 in specified circumstances. In addition, holders of our common stock may participate in our dividend reinvestment plan.

Preferred stock

Under the terms of our certificate of incorporation, our Board of Directors is authorized to issue shares of preferred stock in one or more series without stockholder approval. The board has discretion to determine the rights, preferences, privileges and restrictions, including voting rights, dividend rights, conversion rights, redemption privileges and liquidation preferences of each series of preferred stock. The 1940 Act limits the rights and preferences of the preferred stock that our certificate of incorporation may provide and requires, among other things, that immediately after issuance and before any distribution is made with respect to common stock, we meet a coverage ratio of total assets to total senior securities, which include all of our borrowings and our preferred stock we may issue in the future, of at least 200%, and the holder of shares of preferred stock, if any are issued, must be entitled as a class to elect two directors at all times and to elect a majority of the directors if and for so long as dividends on the preferred stock are unpaid in an amount equal to two full years of dividends on the preferred stock. The features of the preferred stock will be further limited by the requirements applicable to regulated investment companies under the Code. The purpose of authorizing our board to issue preferred stock and determine its rights and preferences is to eliminate delays associated with a stockholder vote on specific issuances. The issuance of preferred stock, while providing desirable flexibility in connection with possible acquisitions and other corporate purposes, could make it more difficult for a third party to acquire, or could discourage a third party from acquiring, a majority of our outstanding voting stock.

Delaware law and certain charter and bylaw provisions; anti-takeover measures

We are subject to the provisions of Section 203 of the General Corporation Law of Delaware. In general, the statute prohibits a publicly held Delaware corporation from engaging in a “business combination” with “interested stockholders” for a period of three years after the date of the transaction in which the person became an interested stockholder, unless the business combination is approved in a prescribed manner. A “business combination” includes certain mergers, asset sales and other transactions resulting in a financial benefit to the interested stockholder. Subject to exceptions, an “interested stockholder” is a person who, together with his affiliates and associates, owns, or within three years did own, 15% or more of the corporation’s voting stock. Our amended certificate of incorporation and amended and restated bylaws provide that:

- the Board of Directors be divided into three classes, as nearly equal in size as possible, with staggered three-year terms;
- directors may be removed only for cause by the affirmative vote of the holders of 75% of the then outstanding shares of our capital stock entitled to vote; and
- subject to the rights of any holders of preferred stock, any vacancy on the Board of Directors, however the vacancy occurs, including a vacancy due to an enlargement of the board, may only be filled by vote a majority of the directors then in office.

The classification of our Board of Directors and the limitations on removal of directors and filling of vacancies could have the effect of making it more difficult for a third party to acquire us, or of discouraging a third party from acquiring us. Our certificate of incorporation and bylaws also provide that special meetings of the stockholders may only be called by our Board of Directors, Chairman, Chief Executive Officer or Secretary.

Delaware’s corporation law provides generally that the affirmative vote of a majority of the shares entitled to vote on any matter is required to amend a corporation’s certificate of incorporation or bylaws, unless a corporation’s certificate of incorporation or bylaws requires a greater percentage. Our certificate of incorporation permits our Board of Directors to amend or repeal our bylaws. Our bylaws generally can be amended by approval of at least 66- 2/3% of the total number of authorized directors subject to certain exceptions, including provisions relating to the size of our board, and certain actions requiring board approval, which provisions will require the vote of 75% of our Board of Directors to be amended. The affirmative vote of the holders of at least 66- 2/3% of the shares of our capital stock entitled to vote is required to amend or repeal any of the provisions of our amended and restated bylaws.

Limitations of liability and indemnification

Under our amended certificate of incorporation, we shall fully indemnify any person who was or is involved in any actual or threatened action, suit or proceeding by reason of the fact that such person is or was one of our directors or officers. So long as we are regulated under the 1940 Act, the above indemnification and limitation of liability is limited by the 1940 Act or by any valid rule, regulation or order of the SEC thereunder. The 1940 Act provides, among other things, that a company may not indemnify any director or officer against liability to it or its security holders to which he or she might otherwise be subject by reason of his or her willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his or her office unless a determination is made by final decision of a court, by vote of a majority of a quorum of directors who are disinterested, non-party directors or by independent legal counsel that the liability for which indemnification is sought did not arise out of the foregoing conduct.

Delaware law also provides that indemnification permitted under the law shall not be deemed exclusive of any other rights to which the directors and officers may be entitled under the corporation’s bylaws, any agreement, a vote of stockholders or otherwise.

We have obtained liability insurance for our officers and directors.

Anti-takeover provisions

Our certificate of incorporation includes provisions that could have the effect of limiting the ability of other entities or persons to acquire control of us or to change the composition of our Board of Directors. This could have the effect of depriving stockholders of an opportunity to sell their shares at a premium over prevailing market prices by discouraging a third party from seeking to obtain control over us. Such attempts could have the effect of increasing our expenses and disrupting our normal operation. Our Board of Directors is divided into three classes, with the term of one class expiring at each annual meeting of stockholders. At each annual meeting, one class of Directors is elected to a three-year term. This provision could delay for up to two years the replacement of a majority of the Board of Directors. A director may be removed from office by a vote of the holders of at least 75% of the shares then entitled to vote for the election of the respective director.

In addition, our certificate of incorporation requires the favorable vote of a majority of our Board of Directors followed by the favorable vote of the holders of at least 75% of our outstanding shares of each affected class or series, voting separately as a class or series, to approve, adopt or authorize certain transactions with 5% or greater holders of a class or series of shares and their associates, unless the transaction has been approved by at least 80% of our Directors, in which case “a majority of the outstanding voting securities” (as defined in the 1940 Act) will be required. For purposes of these provisions, a 5% or greater holder of a class or series of shares, or a principal stockholder, refers to any person who, whether directly or indirectly and whether alone or together with its affiliates and associates, beneficially owns 5% or more of the outstanding shares of our voting securities.

The 5% holder transactions subject to these special approval requirements are: the merger or consolidation of us or any subsidiary of ours with or into any principal stockholder; the issuance of any of our securities to any principal stockholder for cash, except pursuant to any automatic dividend reinvestment plan or rights offering in which the holder does not increase its percentage of voting securities; the sale, lease or exchange of all or any substantial part of our assets to any principal stockholder, except assets having an aggregate fair market value of less than 5% of our total assets, aggregating for the purpose of such computation all assets sold, leased or exchanged in any series of similar transactions within a twelve-month period; or the sale, lease or exchange to us or any subsidiary of ours, in exchange for our securities, of any assets of any principal stockholder, except assets having an aggregate fair market value of less than 5% of our total assets, aggregating for purposes of such computation all assets sold, leased or exchanged in any series of similar transactions within a twelve-month period.

To convert us to an open-end investment company, to liquidate and dissolve us, to merge or consolidate us with any entity in a transaction as a result of which the governing documents of the surviving entity do not contain substantially the same anti-takeover provisions as described in this prospectus or to amend any of the provisions discussed herein, our certificate of incorporation requires the favorable vote of a majority of our Board of Directors followed by the favorable vote of the holders of at least 75% of our outstanding shares of each affected class or series of our shares, voting separately as a class or series, unless such amendment has been approved by at least 80% of our Directors, in which case “a majority of the outstanding voting securities” (as defined in the 1940 Act) shall be required. If approved in the foregoing manner, our conversion to an open-end investment company could not occur until 90 days after the stockholders meeting at which such conversion was approved and would also require at least 30 days prior notice to all stockholders. As part of any such conversion, substantially all of our investment policies and strategies and portfolio would have to be modified to assure the degree of portfolio liquidity required for open-end investment companies. In the event of conversion, the common shares would cease to be listed on any national securities exchange or market system. Stockholders of an open-end investment company may require the company to redeem their shares at any time, except in certain circumstances as authorized by or under the 1940 Act, at their net asset value, less such redemption charge, if any, as might be in effect at the time of a redemption. You should assume that it is not likely that our Board of Directors would vote to convert us to an open-end fund.

For the purposes of calculating “a majority of the outstanding voting securities” under our certificate of incorporation, each class and series of our shares will vote together as a single class, except to the extent required

[Table of Contents](#)

by the 1940 Act or our certificate of incorporation, with respect to any class or series of shares. If a separate class vote is required, the applicable proportion of shares of the class or series, voting as a separate class or series, also will be required.

Our Board of Directors has determined that provisions with respect to the Board of Directors and the stockholder voting requirements described above, which voting requirements are greater than the minimum requirements under Delaware law or the 1940 Act, are in the best interest of stockholders generally. Reference should be made to our certificate of incorporation on file with the SEC for the full text of these provisions.

ISSUANCE OF WARRANTS OR SECURITIES TO SUBSCRIBE FOR OR CONVERTIBLE INTO SHARES OF OUR COMMON STOCK

We are obtained approval at our 2011 Annual Meeting of Stockholders to allow us the flexibility, with the approval of the Board of Directors, to sell or otherwise issue warrants or securities to subscribe for or convertible into shares of our common stock, not exceeding 25% of our then outstanding common stock, at an exercise or conversion price that, at the date of issuance, will not be less than the greater of the market value per share of our common stock and the net asset value per share of our common stock. The authorization we obtained granting us the right to sell or authorize issue warrants or securities to subscribe for or convertible into shares of our common stock has no expiration and is applicable only to such securities. Any exercise of warrants or securities to subscribe for or convertible into shares of our common stock at an exercise or conversion price that is below net asset value at the time of such exercise or conversion would result in an immediate dilution to existing common stockholders. This dilution would include reduction in net asset value as a result of the proportionately greater decrease in the stockholders' interest in our earnings and assets and their voting interest than the increase in our assets resulting from such offering.

As a result of obtaining this authorization, in order to sell or otherwise issue such securities, (a) the exercise, conversion or subscription rights in such securities must expire by their terms within ten years, (b) with respect to any warrants, options or rights to subscribe or convert to our common stock that are issued along with other securities, such warrants, options or rights must not be separately transferable, (c) the exercise or conversion price of such securities must not be less than the greater of the market value per share of our common stock and the net asset value per share of our common stock at the date of issuance of such securities, (d) the issuance of such securities must be approved by a majority of the board of directors who have no financial interest in the transaction and a majority of the non-interested directors on the basis that such issuance is in the best interests of the Company and its stockholders and (e) the number of shares of our common stock that would result from the exercise or conversion of such securities and all other securities convertible, exercisable or exchangeable into shares of our common stock outstanding at the time of issuance of such securities must not exceed 25% of our outstanding common stock at such time.

We could also sell shares of common stock below net asset value per share in certain other circumstances, including through subscription rights issued in rights offerings. See "Description of Our Subscription Rights."

DESCRIPTION OF OUR PREFERRED STOCK

In addition to shares of common stock, our certificate of incorporation authorizes the issuance of preferred stock. If we offer preferred stock under this prospectus, we will issue an appropriate prospectus supplement. We may issue preferred stock from time to time in one or more classes or series, without stockholder approval. Prior to issuance of shares of each class or series, our Board of Directors is required by Delaware law and by our charter to set the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms or conditions of redemption for each class or series. Any such an issuance must adhere to the requirements of the 1940 Act, Delaware law and any other limitations imposed by law.

The 1940 Act requires, among other things, that (1) immediately after issuance and before any distribution is made with respect to common stock, the liquidation preference of the preferred stock, together with all other senior securities, must not exceed an amount equal to 50% of our total assets (taking into account such distribution) and (2) the holders of shares of preferred stock, if any are issued, must be entitled as a class to elect two directors at all times and to elect a majority of the directors if dividends on the preferred stock are in arrears by two years or more.

For any series of preferred stock that we may issue, our Board of Directors will determine and the prospectus supplement relating to such series will describe:

- the designation and number of shares of such series;
- the rate and time at which, and the preferences and conditions under which, any dividends will be paid on shares of such series, as well as whether such dividends are cumulative or non-cumulative and participating or non-participating;
- any provisions relating to convertibility or exchangeability of the shares of such series;
- the rights and preferences, if any, of holders of shares of such series upon our liquidation, dissolution or winding up of our affairs;
- the voting powers, if any, of the holders of shares of such series;
- any provisions relating to the redemption of the shares of such series;
- any limitations on our ability to pay dividends or make distributions on, or acquire or redeem, other securities while shares of such series are outstanding;
- any conditions or restrictions on our ability to issue additional shares of such series or other securities;
- if applicable, a discussion of certain U.S. federal income tax considerations; and
- any other relative power, preferences and participating, optional or special rights of shares of such series, and the qualifications, limitations or restrictions thereof.

All shares of preferred stock that we may issue will be identical and of equal rank except as to the particular terms thereof that may be fixed by our Board of Directors, and all shares of each series of preferred stock will be identical and of equal rank except as to the dates from which cumulative dividends, if any, thereon will be cumulative.

DESCRIPTION OF OUR WARRANTS

The following is a general description of the terms of the warrants we may issue from time to time. Particular terms of any warrants we offer will be described in the prospectus supplement relating to such warrants.

We may issue warrants to purchase shares of our common stock, preferred stock or debt securities. Such warrants may be issued independently or together with shares of common or preferred stock or a specified principal amount of debt securities and may be attached or separate from such securities. We will issue each series of warrants under a separate warrant agreement to be entered into between us and a warrant agent. The warrant agent will act solely as our agent and will not assume any obligation or relationship of agency for or with holders or beneficial owners of warrants.

A prospectus supplement will describe the particular terms of any series of warrants we may issue, including the following:

- the title of such warrants;
- the aggregate number of such warrants;
- the price or prices at which such warrants will be issued;
- the currency or currencies, including composite currencies, in which the price of such warrants may be payable;
- if applicable, the designation and terms of the securities with which the warrants are issued and the number of warrants issued with each such security or each principal amount of such security;
- in the case of warrants to purchase debt securities, the principal amount of debt securities purchasable upon exercise of one warrant and the price at which and the currency or currencies, including composite currencies, in which this principal amount of debt securities may be purchased upon such exercise;
- in the case of warrants to purchase common stock or preferred stock, the number of shares of common stock or preferred stock, as the case may be, purchasable upon exercise of one warrant and the price at which and the currency or currencies, including composite currencies, in which these shares may be purchased upon such exercise;
- the date on which the right to exercise such warrants shall commence and the date on which such right will expire;
- whether such warrants will be issued in registered form or bearer form;
- if applicable, the minimum or maximum amount of such warrants which may be exercised at any one time;
- if applicable, the date on and after which such warrants and the related securities will be separately transferable;
- information with respect to book-entry procedures, if any;
- the terms of the securities issuable upon exercise of the warrants;
- if applicable, a discussion of certain U.S. federal income tax considerations; and
- any other terms of such warrants, including terms, procedures and limitations relating to the exchange and exercise of such warrants.

We and the warrant agent may amend or supplement the warrant agreement for a series of warrants without the consent of the holders of the warrants issued thereunder to effect changes that are not inconsistent with the provisions of the warrants and that do not materially and adversely affect the interests of the holders of the warrants.

[Table of Contents](#)

Prior to exercising their warrants, holders of warrants will not have any of the rights of holders of the securities purchasable upon such exercise, including, in the case of warrants to purchase debt securities, the right to receive principal, premium, if any, or interest payments, on the debt securities purchasable upon exercise or to enforce covenants in the applicable indenture or, in the case of warrants to purchase common stock or preferred stock, the right to receive dividends, if any, or payments upon our liquidation, dissolution or winding up or to exercise any voting rights.

Under the 1940 Act, we may generally only offer warrants provided that (1) the warrants expire by their terms within ten years; (2) the exercise or conversion price is not less than the current market value at the date of issuance; (3) our stockholders authorize the proposal to issue such warrants, and our Board of Directors approves such issuance on the basis that the issuance is in the best interests of the Company and its stockholders; and (4) if the warrants are accompanied by other securities, the warrants are not separately transferable unless no class of such warrants and the securities accompanying them has been publicly distributed. The 1940 Act also provides that the amount of our voting securities that would result from the exercise of all outstanding warrants at the time of issuance may not exceed 25% of our outstanding voting securities.

DESCRIPTION OF OUR SUBSCRIPTION RIGHTS

We may issue subscription rights to purchase common stock. Subscription rights may be issued independently or together with any other offered security and may or may not be transferable by the person purchasing or receiving the subscription rights. We will not offer transferable subscription rights to our stockholders at a price equivalent to less than the then current net asset value per share of common stock, excluding underwriting commissions, unless we first file a post-effective amendment that is declared effective by the SEC with respect to such issuance and the common stock to be purchased in connection with the rights represents no more than one-third of our outstanding common stock at the time such rights are issued. In addition, we note that for us to file a post-effective amendment to this registration statement on Form N-2, we must then be qualified to register our securities on Form S-3. In connection with a subscription rights offering to our stockholders, we would distribute certificates evidencing the subscription rights and a prospectus supplement to our stockholders on the record date that we set for receiving subscription rights in such subscription rights offering.

The applicable prospectus supplement would describe the following terms of subscription rights in respect of which this prospectus is being delivered:

- the title of such subscription rights;
- the exercise price or a formula for the determination of the exercise price for such subscription rights;
- the number or a formula for the determination of the number of such subscription rights issued to each stockholder;
- the extent to which such subscription rights are transferable;
- if applicable, a discussion of the material U.S. federal income tax considerations applicable to the issuance or exercise of such subscription rights;
- the date on which the right to exercise such subscription rights would commence, and the date on which such rights shall expire (subject to any extension);
- the extent to which such subscription rights include an over-subscription privilege with respect to unsubscribed securities;
- if applicable, the material terms of any standby underwriting or other purchase arrangement that we may enter into in connection with the subscription rights offering; and
- any other terms of such subscription rights, including terms, procedures and limitations relating to the exchange and exercise of such subscription rights.

Exercise of Subscription Rights

Each subscription right would entitle the holder of the subscription right to purchase for cash such amount of shares of common stock or other securities at such exercise price as shall in each case be set forth in, or be determinable as set forth in, the prospectus supplement relating to the subscription rights offered thereby or another report filed with the SEC. Subscription rights may be exercised at any time up to the close of business on the expiration date for such subscription rights set forth in the applicable prospectus supplement. After the close of business on the expiration date, all unexercised subscription rights would become void.

Subscription rights may be exercised as set forth in the prospectus supplement relating to the subscription rights offered thereby. Upon receipt of payment and the subscription rights certificate properly completed and duly executed at the corporate trust office of the subscription rights agent or any other office indicated in the prospectus supplement, we will forward, as soon as practicable, the shares of common stock or other securities purchasable upon such exercise. We may determine to offer any unsubscribed offered securities directly to stockholders, persons other than stockholders, to or through agents, underwriters or dealers or through a combination of such methods, including pursuant to standby underwriting or other arrangements, as set forth in the applicable prospectus supplement.

DESCRIPTION OF OUR DEBT SECURITIES

We currently have our Senior Secured Notes outstanding; however, we may issue additional debt securities in one or more series. The specific terms of each series of debt securities will be described in the particular prospectus supplement relating to that series. The prospectus supplement may or may not modify the general terms found in this prospectus and will be filed with the SEC. For a complete description of the terms of a particular series of debt securities, you should read both this prospectus and the prospectus supplement relating to that particular series. The description below is a summary with respect to future debt securities we may issue and not a summary of our Senior Secured Notes. See “The Company—Leverage” for a description of our Senior Secured Notes.

As required by federal law for all bonds and notes of companies that are publicly offered, the debt securities are governed by a document called an “indenture”. An indenture is a contract between us and The Bank of New York, a financial institution acting as trustee on your behalf, and is subject to and governed by the Trust Indenture Act of 1939, as amended. The trustee has two main roles. First, the trustee can enforce your rights against us if we default. There are some limitations on the extent to which the trustee acts on your behalf, described in the second paragraph under “Events of Default—Remedies if an Event of Default Occurs”. Second, the trustee performs certain administrative duties for us.

Because this section is a summary, it does not describe every aspect of the debt securities and the indenture. We urge you to read the indenture because it, and not this description, defines your rights as a holder of debt securities. For example, in this section, we use capitalized words to signify terms that are specifically defined in the indenture. Some of the definitions are repeated in this prospectus, but for the rest you will need to read the indenture. We have filed the form of the indenture with the SEC. See “Additional Information” for information on how to obtain a copy of the indenture.

The prospectus supplement, which will accompany this prospectus, will describe the particular series of debt securities being offered by including:

- the designation or title of the series of debt securities;
- the total principal amount of the series of debt securities;
- the percentage of the principal amount at which the series of debt securities will be offered;
- the date or dates on which principal will be payable;
- the rate or rates (which may be either fixed or variable) and/or the method of determining such rate or rates of interest, if any;
- the date or dates from which any interest will accrue, or the method of determining such date or dates, and the date or dates on which any interest will be payable;
- the terms for redemption, extension or early repayment, if any;
- the currencies in which the series of debt securities are issued and payable;
- whether the amount of payments of principal, premium or interest, if any, on a series of debt securities will be determined with reference to an index, formula or other method (which could be based on one or more currencies, commodities, equity indices or other indices) and how these amounts will be determined;
- the place or places, if any, other than or in addition to The City of New York, of payment, transfer, conversion and/or exchange of the debt securities;
- the denominations in which the offered debt securities will be issued;

Table of Contents

- the provision for any sinking fund;
- any restrictive covenants;
- any Events of Default;
- whether the series of debt securities are issuable in certificated form;
- any provisions for defeasance or covenant defeasance;
- any special federal income tax implications, including, if applicable, federal income tax considerations relating to original issue discount;
- whether and under what circumstances we will pay additional amounts in respect of any tax, assessment or governmental charge and, if so, whether we will have the option to redeem the debt securities rather than pay the additional amounts (and the terms of this option);
- any provisions for convertibility or exchangeability of the debt securities into or for any other securities;
- whether the debt securities are subject to subordination and the terms of such subordination;
- the listing, if any, on a securities exchange; and
- any other terms.

The debt securities may be secured or unsecured obligations. Under the provisions of the 1940 Act, we are permitted, as a business development company, to issue debt only in amounts such that our asset coverage, as defined in the 1940 Act, equals at least 200% after each issuance of debt. Unless the prospectus supplement states otherwise, principal (and premium, if any) and interest, if any, will be paid by us in immediately available funds.

General

The indenture provides that any debt securities proposed to be sold under this prospectus and the attached prospectus supplement (“offered debt securities”) and any debt securities issuable upon the exercise of warrants or upon conversion or exchange of other offered securities (“underlying debt securities”), may be issued under the indenture in one or more series.

For purposes of this prospectus, any reference to the payment of principal of or premium or interest, if any, on debt securities will include additional amounts if required by the terms of the debt securities.

The indenture does not limit the amount of debt securities that may be issued thereunder from time to time. Debt securities issued under the indenture, when a single trustee is acting for all debt securities issued under the indenture, are called the “indenture securities”. The indenture also provides that there may be more than one trustee thereunder, each with respect to one or more different series of indenture securities. See “Resignation of Trustee” below. At a time when two or more trustees are acting under the indenture, each with respect to only certain series, the term “indenture securities” means the one or more series of debt securities with respect to which each respective trustee is acting. In the event that there is more than one trustee under the indenture, the powers and trust obligations of each trustee described in this prospectus will extend only to the one or more series of indenture securities for which it is trustee. If two or more trustees are acting under the indenture, then the indenture securities for which each trustee is acting would be treated as if issued under separate indentures.

The indenture does not contain any provisions that give you protection in the event we issue a large amount of debt or we are acquired by another entity.

We refer you to the prospectus supplement for information with respect to any deletions from, modifications of or additions to the Events of Default or our covenants that are described below, including any addition of a covenant or other provision providing event risk or similar protection.

[Table of Contents](#)

We have the ability to issue indenture securities with terms different from those of indenture securities previously issued and, without the consent of the holders thereof, to reopen a previous issue of a series of indenture securities and issue additional indenture securities of that series unless the reopening was restricted when that series was created.

Conversion and exchange

If any debt securities are convertible into or exchangeable for other securities, the prospectus supplement will explain the terms and conditions of the conversion or exchange, including the conversion price or exchange ratio (or the calculation method), the conversion or exchange period (or how the period will be determined), if conversion or exchange will be mandatory or at the option of the holder or us, provisions for adjusting the conversion price or the exchange ratio and provisions affecting conversion or exchange in the event of the redemption of the underlying debt securities. These terms may also include provisions under which the number or amount of other securities to be received by the holders of the debt securities upon conversion or exchange would be calculated according to the market price of the other securities as of a time stated in the prospectus supplement.

Issuance of securities in registered form

We may issue the debt securities in registered form, in which case we may issue them either in book-entry form only or in “certificated” form. Debt securities issued in book-entry form will be represented by global securities. We expect that we will usually issue debt securities in book-entry only form represented by global securities.

We also will have the option of issuing debt securities in non-registered form as bearer securities if we issue the securities outside the United States to non-U.S. persons. In that case, the prospectus supplement will set forth the mechanics for holding the bearer securities, including the procedures for receiving payments, for exchanging the bearer securities, including the procedures for receiving payments, for exchanging the bearer securities for registered securities of the same series, and for receiving notices. The prospectus supplement will also describe the requirements with respect to our maintenance of offices or agencies outside the United States and the applicable U.S. federal tax law requirements.

Book-Entry Holders

We will issue registered debt securities in book-entry form only, unless we specify otherwise in the applicable prospectus supplement. This means debt securities will be represented by one or more global securities registered in the name of a depositary that will hold them on behalf of financial institutions that participate in the depositary’s book-entry system. These participating institutions, in turn, hold beneficial interests in the debt securities held by the depositary or its nominee. These institutions may hold these interests on behalf of themselves or customers.

Under the indenture, only the person in whose name a debt security is registered is recognized as the holder of that debt security. Consequently, for debt securities issued in book-entry form, we will recognize only the depositary as the holder of the debt securities and we will make all payments on the debt securities to the depositary. The depositary will then pass along the payments it receives to its participants, which in turn will pass the payments along to their customers who are the beneficial owners. The depositary and its participants do so under agreements they have made with one another or with their customers; they are not obligated to do so under the terms of the debt securities.

As a result, investors will not own debt securities directly. Instead, they will own beneficial interests in a global security, through a bank, broker or other financial institution that participates in the depositary’s book-entry system or holds an interest through a participant. As long as the debt securities are represented by one or more global securities, investors will be indirect holders, and not holders, of the debt securities.

[Table of Contents](#)

Street Name Holders

In the future, we may issue debt securities in certificated form or terminate a global security. In these cases, investors may choose to hold their debt securities in their own names or in “street name”. Debt securities held in street name are registered in the name of a bank, broker or other financial institution chosen by the investor, and the investor would hold a beneficial interest in those debt securities through the account he or she maintains at that institution.

For debt securities held in street name, we will recognize only the intermediary banks, brokers and other financial institutions in whose names the debt securities are registered as the holders of those debt securities and we will make all payments on those debt securities to them. These institutions will pass along the payments they receive to their customers who are the beneficial owners, but only because they agree to do so in their customer agreements or because they are legally required to do so. Investors who hold debt securities in street name will be indirect holders, and not holders, of the debt securities.

Legal Holders

Our obligations, as well as the obligations of the applicable trustee and those of any third parties employed by us or the applicable trustee, run only to the legal holders of the debt securities. We do not have obligations to investors who hold beneficial interests in global securities, in street name or by any other indirect means. This will be the case whether an investor chooses to be an indirect holder of a debt security or has no choice because we are issuing the debt securities only in book-entry form.

For example, once we make a payment or give a notice to the holder, we have no further responsibility for the payment or notice even if that holder is required, under agreements with depository participants or customers or by law, to pass it along to the indirect holders but does not do so. Similarly, if we want to obtain the approval of the holders for any purpose (for example, to amend an indenture or to relieve us of the consequences of a default or of our obligation to comply with a particular provision of an indenture), we would seek the approval only from the holders, and not the indirect holders, of the debt securities. Whether and how the holders contact the indirect holders is up to the holders.

When we refer to you, we mean those who invest in the debt securities being offered by this prospectus, whether they are the holders or only indirect holders of those debt securities. When we refer to your debt securities, we mean the debt securities in which you hold a direct or indirect interest.

Special Considerations for Indirect Holders

If you hold debt securities through a bank, broker or other financial institution, either in book-entry form or in street name, we urge you to check with that institution to find out:

- how it handles securities payments and notices,
- whether it imposes fees or charges,
- how it would handle a request for the holders’ consent, if ever required,
- whether and how you can instruct it to send you debt securities registered in your own name so you can be a holder, if that is permitted in the future for a particular series of debt securities,
- how it would exercise rights under the debt securities if there were a default or other event triggering the need for holders to act to protect their interests, and
- if the debt securities are in book-entry form, how the depository’s rules and procedures will affect these matters.

Global securities

As noted above, we usually will issue debt securities as registered securities in book-entry form only. A global security represents one or any other number of individual debt securities. Generally, all debt securities represented by the same global securities will have the same terms.

Each debt security issued in book-entry form will be represented by a global security that we deposit with and register in the name of a financial institution or its nominee that we select. The financial institution that we select for this purpose is called the depository. Unless we specify otherwise in the applicable prospectus supplement, The Depository Trust Company, New York, New York, known as DTC, will be the depository for all debt securities issued in book-entry form.

A global security may not be transferred to or registered in the name of anyone other than the depository or its nominee, unless special termination situations arise. We describe those situations below under “Special Situations when a Global Security Will Be Terminated”. As a result of these arrangements, the depository, or its nominee, will be the sole registered owner and holder of all debt securities represented by a global security, and investors will be permitted to own only beneficial interests in a global security. Beneficial interests must be held by means of an account with a broker, bank or other financial institution that in turn has an account with the depository or with another institution that has an account with the depository. Thus, an investor whose security is represented by a global security will not be a holder of the debt security, but only an indirect holder of a beneficial interest in the global security.

Special Considerations for Global Securities

As an indirect holder, an investor’s rights relating to a global security will be governed by the account rules of the investor’s financial institution and of the depository, as well as general laws relating to securities transfers. The depository that holds the global security will be considered the holder of the debt securities represented by the global security.

If debt securities are issued only in the form of a global security, an investor should be aware of the following:

- an investor cannot cause the debt securities to be registered in his or her name, and cannot obtain certificates for his or her interest in the debt securities, except in the special situations we describe below.
- an investor will be an indirect holder and must look to his or her own bank or broker for payments on the debt securities and protection of his or her legal rights relating to the debt securities, as we describe under “Issuance of securities in registered form” above.
- an investor may not be able to sell interests in the debt securities to some insurance companies and other institutions that are required by law to own their securities in non-book-entry form.
- an investor may not be able to pledge his or her interest in a global security in circumstances where certificates representing the debt securities must be delivered to the lender or other beneficiary of the pledge in order for the pledge to be effective.
- the depository’s policies, which may change from time to time, will govern payments, transfers, exchanges and other matters relating to an investor’s interest in a global security. We and the trustee have no responsibility for any aspect of the depository’s actions or for its records of ownership interests in a global security. We and the trustee also do not supervise the depository in any way.
- if we redeem less than all the debt securities of a particular series being redeemed, DTC’s practice is to determine by lot the amount to be redeemed from each of its participants holding that series.
- an investor is required to give notice of exercise of any option to elect repayment of its debt securities, through its participant, to the applicable trustee and to deliver the related debt securities by causing its participant to transfer its interest in those debt securities, on DTC’s records, to the applicable trustee.

Table of Contents

- DTC requires that those who purchase and sell interests in a global security deposited in its book-entry system use immediately available funds. Your broker or bank may also require you to use immediately available funds when purchasing or selling interests in a global security.
- financial institutions that participate in the depositary's book-entry system, and through which an investor holds its interest in a global security, may also have their own policies affecting payments, notices and other matters relating to the debt securities. There may be more than one financial intermediary in the chain of ownership for an investor. We do not monitor and are not responsible for the actions of any of those intermediaries.

Special Situations when a Global Security Will Be Terminated

In a few special situations described below, a global security will be terminated and interests in it will be exchanged for certificates in non-book-entry form (certificated securities). After that exchange, the choice of whether to hold the certificated debt securities directly or in street name will be up to the investor. Investors must consult their own banks or brokers to find out how to have their interests in a global security transferred on termination to their own names, so that they will be holders. We have described the rights of holders and street name investors under "Issuance of securities in registered form" above.

The special situations for termination of a global security are as follows:

- if the depositary notifies us that it is unwilling, unable or no longer qualified to continue as depositary for that global security, and we are unable to appoint another institution to act as depositary,
- if we notify the trustee that we wish to terminate that global security, or
- if an event of default has occurred with regard to the debt securities represented by that global security and has not been cured or waived; we discuss defaults later under "Events of default".

The prospectus supplement may list situations for terminating a global security that would apply only to the particular series of debt securities covered by the prospectus supplement. If a global security is terminated, only the depositary, and not we or the applicable trustee, is responsible for deciding the names of the institutions in whose names the debt securities represented by the global security will be registered and, therefore, who will be the holders of those debt securities.

Payment and paying agents

We will pay interest to the person listed in the applicable trustee's records as the owner of the debt security at the close of business on a particular day in advance of each due date for interest, even if that person no longer owns the debt security on the interest due date. That day, often about two weeks in advance of the interest due date, is called the "record date". Because we will pay all the interest for an interest period to the holders on the record date, holders buying and selling debt securities must work out between themselves the appropriate purchase price. The most common manner is to adjust the sales price of the debt securities to prorate interest fairly between buyer and seller based on their respective ownership periods within the particular interest period. This prorated interest amount is called "accrued interest".

Payments on Global Securities

We will make payments on a global security in accordance with the applicable policies of the depositary as in effect from time to time. Under those policies, we will make payments directly to the depositary, or its nominee, and not to any indirect holders who own beneficial interests in the global security. An indirect holder's right to those payments will be governed by the rules and practices of the depositary and its participants, as described under "Global securities".

[Table of Contents](#)

Payments on Certificated Securities

We will make payments on a certificated debt security as follows. We will pay interest that is due on an interest payment date by check mailed on the interest payment date to the holder at his or her address shown on the trustee's records as of the close of business on the regular record date. We will make all payments of principal and premium, if any, by check at the office of the applicable trustee in New York, NY and/or at other offices that may be specified in the prospectus supplement or in a notice to holders against surrender of the debt security.

Alternatively, if the holder asks us to do so, we will pay any amount that becomes due on the debt security by wire transfer of immediately available funds to an account at a bank in New York City, on the due date. To request payment by wire, the holder must give the applicable trustee or other paying agent appropriate transfer instructions at least 15 business days before the requested wire payment is due. In the case of any interest payment due on an interest payment date, the instructions must be given by the person who is the holder on the relevant regular record date. Any wire instructions, once properly given, will remain in effect unless and until new instructions are given in the manner described above.

Payment When Offices Are Closed

If any payment is due on a debt security on a day that is not a business day, we will make the payment on the next day that is a business day. Payments made on the next business day in this situation will be treated under the indenture as if they were made on the original due date, except as otherwise indicated in the attached prospectus supplement. Such payment will not result in a default under any debt security or the indenture, and no interest will accrue on the payment amount from the original due date to the next day that is a business day.

Book-entry and other indirect holders should consult their banks or brokers for information on how they will receive payments on their debt securities.

Events of default

You will have rights if an Event of Default occurs in respect of the debt securities of your series and is not cured, as described later in this subsection.

The term "Event of Default" in respect of the debt securities of your series means any of the following:

- we do not pay the principal of, or any premium on, a debt security of the series on its due date.
- we do not pay interest on a debt security of the series within 30 days of its due date.
- we do not deposit any sinking fund payment in respect of debt securities of the series on its due date.
- we remain in breach of a covenant in respect of debt securities of the series for 60 days after we receive a written notice of default stating we are in breach. The notice must be sent by either the trustee or holders of at least 25% of the principal amount of debt securities of the series.
- we file for bankruptcy or certain other events of bankruptcy, insolvency or reorganization occur.
- any other Event of Default in respect of debt securities of the series described in the prospectus supplement occurs.

An Event of Default for a particular series of debt securities does not necessarily constitute an Event of Default for any other series of debt securities issued under the same or any other indenture. The trustee may withhold notice to the holders of debt securities of any default, except in the payment of principal, premium or interest, if it considers the withholding of notice to be in the best interests of the holders.

[Table of Contents](#)

Remedies if an Event of Default Occurs

If an Event of Default has occurred and has not been cured, the trustee or the holders of at least 25% in principal amount of the debt securities of the affected series may declare the entire principal amount of all the debt securities of that series to be due and immediately payable. This is called a declaration of acceleration of maturity. A declaration of acceleration of maturity may be canceled by the holders of a majority in principal amount of the debt securities of the affected series.

Except in cases of default, where the trustee has some special duties, the trustee is not required to take any action under the indenture at the request of any holders unless the holders offer the trustee reasonable protection from expenses and liability (called an “indemnity”). If reasonable indemnity is provided, the holders of a majority in principal amount of the outstanding debt securities of the relevant series may direct the time, method and place of conducting any lawsuit or other formal legal action seeking any remedy available to the trustee. The trustee may refuse to follow those directions in certain circumstances. No delay or omission in exercising any right or remedy will be treated as a waiver of that right, remedy or Event of Default.

Before you are allowed to bypass your trustee and bring your own lawsuit or other formal legal action or take other steps to enforce your rights or protect your interests relating to the debt securities, the following must occur:

- you must give your trustee written notice that an Event of Default has occurred and remains uncured.
- the holders of at least 25% in principal amount of all outstanding debt securities of the relevant series must make a written request that the trustee take action because of the default and must offer reasonable indemnity to the trustee against the cost and other liabilities of taking that action.
- the trustee must not have taken action for 60 days after receipt of the above notice and offer of indemnity.
- the holders of a majority in principal amount of the debt securities must not have given the trustee a direction inconsistent with the above notice during that 60-day period.

However, you are entitled at any time to bring a lawsuit for the payment of money due on your debt securities on or after the due date.

Holders of a majority in principal amount of the debt securities of the affected series may waive any past defaults other than:

- the payment of principal, any premium or interest or
- in respect of a covenant that cannot be modified or amended without the consent of each holder.

Book-entry and other indirect holders should consult their banks or brokers for information on how to give notice or direction to or make a request of the trustee and how to declare or cancel an acceleration of maturity.

Each year, we will furnish to each trustee a written statement of certain of our officers certifying that to their knowledge we are in compliance with the indenture and the debt securities, or else specifying any default.

Merger or consolidation

Under the terms of the indenture, we are generally permitted to consolidate or merge with another entity. We are also permitted to sell all or substantially all of our assets to another entity. However, we may not take any of these actions unless all the following conditions are met:

- where we merge out of existence or sell our assets, the resulting entity must agree to be legally responsible for our obligations under the debt securities.

[Table of Contents](#)

- the merger or sale of assets must not cause a default on the debt securities and we must not already be in default (unless the merger or sale would cure the default). For purposes of this no-default test, a default would include an Event of Default that has occurred and has not been cured, as described under “Events of default” above. A default for this purpose would also include any event that would be an Event of Default if the requirements for giving us a notice of default or our default having to exist for a specific period of time were disregarded.
- under the indenture, no merger or sale of assets may be made if as a result any of our property or assets or any property or assets of one of our subsidiaries, if any, would become subject to any mortgage, lien or other encumbrance unless either (i) the mortgage, lien or other encumbrance could be created pursuant to the limitation on liens covenant in the indenture without equally and ratably securing the indenture securities or (ii) the indenture securities are secured equally and ratably with or prior to the debt secured by the mortgage, lien or other encumbrance.
- we must deliver certain certificates and documents to the trustee.
- we must satisfy any other requirements specified in the prospectus supplement relating to a particular series of debt securities.

Modification or waiver

There are three types of changes we can make to the indenture and the debt securities issued thereunder.

Changes Requiring Your Approval

First, there are changes that we cannot make to your debt securities without your specific approval. The following is a list of those types of changes:

- change the stated maturity of the principal of or interest on a debt security;
- reduce any amounts due on a debt security;
- reduce the amount of principal payable upon acceleration of the maturity of a security following a default;
- adversely affect any right of repayment at the holder’s option;
- change the place (except as otherwise described in the prospectus or prospectus supplement) or currency of payment on a debt security;
- impair your right to sue for payment;
- adversely affect any right to convert or exchange a debt security in accordance with its terms;
- modify the subordination provisions in the indenture in a manner that is adverse to holders of the debt securities;
- reduce the percentage of holders of debt securities whose consent is needed to modify or amend the indenture;
- reduce the percentage of holders of debt securities whose consent is needed to waive compliance with certain provisions of the indenture or to waive certain defaults;
- modify any other aspect of the provisions of the indenture dealing with supplemental indentures, modification and waiver of past defaults, changes to the quorum or voting requirements or the waiver of certain covenants; and
- change any obligation we have to pay additional amounts.

[Table of Contents](#)

Changes Not Requiring Approval

The second type of change does not require any vote by the holders of the debt securities. This type is limited to clarifications and certain other changes that would not adversely affect holders of the outstanding debt securities in any material respect. We also do not need any approval to make any change that affects only debt securities to be issued under the indenture after the change takes effect.

Changes Requiring Majority Approval

Any other change to the indenture and the debt securities would require the following approval:

- if the change affects only one series of debt securities, it must be approved by the holders of a majority in principal amount of that series.
- if the change affects more than one series of debt securities issued under the same indenture, it must be approved by the holders of a majority in principal amount of all of the series affected by the change, with all affected series voting together as one class for this purpose.

In each case, the required approval must be given by written consent.

The holders of a majority in principal amount of all of the series of debt securities issued under an indenture, voting together as one class for this purpose, may waive our compliance with some of our covenants in that indenture. However, we cannot obtain a waiver of a payment default or of any of the matters covered by the bullet points included above under “—Changes Requiring Your Approval”.

Further Details Concerning Voting

When taking a vote, we will use the following rules to decide how much principal to attribute to a debt security:

- for original issue discount securities, we will use the principal amount that would be due and payable on the voting date if the maturity of these debt securities were accelerated to that date because of a default.
- for debt securities whose principal amount is not known (for example, because it is based on an index), we will use a special rule for that debt security described in the prospectus supplement.
- for debt securities denominated in one or more foreign currencies, we will use the U.S. dollar equivalent.

Debt securities will not be considered outstanding, and therefore not eligible to vote, if we have deposited or set aside in trust money for their payment or redemption. Debt securities will also not be eligible to vote if they have been fully defeased as described later under “Defeasance—Full Defeasance”.

We will generally be entitled to set any day as a record date for the purpose of determining the holders of outstanding indenture securities that are entitled to vote or take other action under the indenture. If we set a record date for a vote or other action to be taken by holders of one or more series, that vote or action may be taken only by persons who are holders of outstanding indenture securities of those series on the record date and must be taken within eleven months following the record date.

Book-entry and other indirect holders should consult their banks or brokers for information on how approval may be granted or denied if we seek to change the indenture or the debt securities or request a waiver.

Defeasance

The following provisions will be applicable to each series of debt securities unless we state in the applicable prospectus supplement that the provisions of covenant defeasance and full defeasance will not be applicable to that series.

Covenant Defeasance

Under current United States federal tax law, we can make the deposit described below and be released from some of the restrictive covenants in the indenture under which the particular series was issued. This is called “covenant defeasance”. In that event, you would lose the protection of those restrictive covenants but would gain the protection of having money and government securities set aside in trust to repay your debt securities. If applicable, you also would be released from the subordination provisions described under “Indenture provisions—subordination” below. In order to achieve covenant defeasance, we must do the following:

- If the debt securities of the particular series are denominated in U.S. dollars, we must deposit in trust for the benefit of all holders of such debt securities a combination of money and United States government or United States government agency notes or bonds that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates.
- We may be required to deliver to the trustee a legal opinion of our counsel confirming that, under current United States federal income tax law, we may make the above deposit without causing you to be taxed on the debt securities any differently than if we did not make the deposit and just repaid the debt securities ourselves at maturity.

We must deliver to the trustee a legal opinion of our counsel stating that the above deposit does not require registration by us under the Investment Company Act of 1940, as amended, and a legal opinion and officers’ certificate stating that all conditions precedent to covenant defeasance have been complied with.

If we accomplish covenant defeasance, you can still look to us for repayment of the debt securities if there were a shortfall in the trust deposit or the trustee is prevented from making payment. In fact, if one of the remaining Events of Default occurred (such as our bankruptcy) and the debt securities became immediately due and payable, there might be a shortfall. Depending on the event causing the default, you may not be able to obtain payment of the shortfall.

Full Defeasance

If there is a change in United States federal tax law, as described below, we can legally release ourselves from all payment and other obligations on the debt securities of a particular series (called “full defeasance”) if we put in place the following other arrangements for you to be repaid:

- If the debt securities of the particular series are denominated in U.S. dollars, we must deposit in trust for the benefit of all holders of such debt securities a combination of money and United States government or United States government agency notes or bonds that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates.
- We may be required to deliver to the trustee a legal opinion confirming that there has been a change in current United States federal tax law or an Internal Revenue Service ruling that allows us to make the above deposit without causing you to be taxed on the debt securities any differently than if we did not make the deposit and just repaid the debt securities ourselves at maturity. Under current United States federal tax law, the deposit and our legal release from the debt securities would be treated as though we paid you your share of the cash and notes or bonds at the time the cash and notes or bonds were deposited in trust in exchange for your debt securities and you would recognize gain or loss on the debt securities at the time of the deposit.

[Table of Contents](#)

- We must deliver to the trustee a legal opinion of our counsel stating that the above deposit does not require registration by us under the Investment Company Act of 1940, as amended, and a legal opinion and officers' certificate stating that all conditions precedent to defeasance have been complied with.

If we ever did accomplish full defeasance, as described above, you would have to rely solely on the trust deposit for repayment of the debt securities. You could not look to us for repayment in the unlikely event of any shortfall. Conversely, the trust deposit would most likely be protected from claims of our lenders and other creditors if we ever became bankrupt or insolvent. If applicable, you would also be released from the subordination provisions described later under "Indenture provisions—subordination".

Form, exchange and transfer of certificated registered securities

If registered debt securities cease to be issued in book-entry form, they will be issued:

- only in fully registered certificated form,
- without interest coupons, and
- unless we indicate otherwise in the prospectus supplement, in denominations of \$1,000 and amounts that are multiples of \$1,000.

Holders may exchange their certificated securities for debt securities of smaller denominations or combined into fewer debt securities of larger denominations, as long as the total principal amount is not changed.

Holders may exchange or transfer their certificated securities at the office of their trustee. We have appointed the trustee to act as our agent for registering debt securities in the names of holders transferring debt securities. We may appoint another entity to perform these functions or perform them ourselves.

Holders will not be required to pay a service charge to transfer or exchange their certificated securities, but they may be required to pay any tax or other governmental charge associated with the transfer or exchange. The transfer or exchange will be made only if our transfer agent is satisfied with the holder's proof of legal ownership.

If we have designated additional transfer agents for your debt security, they will be named in the prospectus supplement. We may appoint additional transfer agents or cancel the appointment of any particular transfer agent. We may also approve a change in the office through which any transfer agent acts.

If any certificated securities of a particular series are redeemable and we redeem less than all the debt securities of that series, we may block the transfer or exchange of those debt securities during the period beginning 15 days before the day we mail the notice of redemption and ending on the day of that mailing, in order to freeze the list of holders to prepare the mailing. We may also refuse to register transfers or exchanges of any certificated securities selected for redemption, except that we will continue to permit transfers and exchanges of the unredeemed portion of any debt security that will be partially redeemed.

If a registered debt security is issued in book-entry form, only the depository will be entitled to transfer and exchange the debt security as described in this subsection, since it will be the sole holder of the debt security.

Resignation of trustee

Each trustee may resign or be removed with respect to one or more series of indenture securities provided that a successor trustee is appointed to act with respect to these series. In the event that two or more persons are acting as trustee with respect to different series of indenture securities under the indenture, each of the trustees will be a trustee of a trust separate and apart from the trust administered by any other trustee.

Indenture provisions—subordination

Upon any distribution of our assets upon our dissolution, winding up, liquidation or reorganization, the payment of the principal of (and premium, if any) and interest, if any, on any indenture securities denominated as subordinated debt securities is to be subordinated to the extent provided in the indenture in right of payment to the prior payment in full of all Senior Indebtedness, but our obligation to you to make payment of the principal of (and premium, if any) and interest, if any, on such subordinated debt securities will not otherwise be affected. In addition, no payment on account of principal (or premium, if any), sinking fund or interest, if any, may be made on such subordinated debt securities at any time unless full payment of all amounts due in respect of the principal (and premium, if any), sinking fund and interest on Senior Indebtedness has been made or duly provided for in money or money's worth.

In the event that, notwithstanding the foregoing, any payment by us is received by the trustee in respect of subordinated debt securities or by the holders of any of such subordinated debt securities before all Senior Indebtedness is paid in full, the payment or distribution must be paid over to the holders of the Senior Indebtedness or on their behalf for application to the payment of all the Senior Indebtedness remaining unpaid until all the Senior Indebtedness has been paid in full, after giving effect to any concurrent payment or distribution to the holders of the Senior Indebtedness. Subject to the payment in full of all Senior Indebtedness upon this distribution by us, the holders of such subordinated debt securities will be subrogated to the rights of the holders of the Senior Indebtedness to the extent of payments made to the holders of the Senior Indebtedness out of the distributive share of such subordinated debt securities.

By reason of this subordination, in the event of a distribution of our assets upon our insolvency, certain of our senior creditors may recover more, ratably, than holders of any subordinated debt securities. The indenture provides that these subordination provisions will not apply to money and securities held in trust under the defeasance provisions of the indenture.

Senior Indebtedness is defined in the indenture as the principal of (and premium, if any) and unpaid interest on:

- our indebtedness (including indebtedness of others guaranteed by us), whenever created, incurred, assumed or guaranteed, for money borrowed (other than indenture securities issued under the indenture and denominated as subordinated debt securities), unless in the instrument creating or evidencing the same or under which the same is outstanding it is provided that this indebtedness is not senior or prior in right of payment to the subordinated debt securities, and
- renewals, extensions, modifications and refinancings of any of this indebtedness.

If this prospectus is being delivered in connection with the offering of a series of indenture securities denominated as subordinated debt securities, the accompanying prospectus supplement will set forth the approximate amount of our Senior Indebtedness outstanding as of a recent date.

The trustee under the indenture

The Bank of New York will serve as the trustee under the indenture. The Bank of New York is one of a number of banks with which we maintain ordinary banking relationships.

Certain considerations relating to foreign currencies

Debt securities denominated or payable in foreign currencies may entail significant risks. These risks include the possibility of significant fluctuations in the foreign currency markets, the imposition or modification of foreign exchange controls and potential illiquidity in the secondary market. These risks will vary depending upon the currency or currencies involved and will be more fully described in the applicable prospectus supplement.

Book-entry securities

DTC will act as securities depository for the debt securities. The debt securities will be issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered certificate will be issued for the debt securities, in the aggregate principal amount of such issue, and will be deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 2.2 million issues of U.S. and non-U.S. equity, corporate and municipal debt issues, and money market instruments from over 100 countries that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC").

DTCC, in turn, is owned by a number of Direct Participants of DTC and Members of the National Securities Clearing Corporation, Fixed Income Clearing Corporation, and Emerging Markets Clearing Corporation (NSCC, FICC, and EMCC, also subsidiaries of DTCC), as well as by the New York Stock Exchange, Inc., the American Stock Exchange LLC, and the Financial Industry Regulatory Authority. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has Standard & Poor's highest rating: AAA. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com and www.dtc.org.

Purchases of debt securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the debt securities on DTC's records. The ownership interest of each actual purchaser of each security ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the debt securities are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in debt securities, except in the event that use of the book-entry system for the debt securities is discontinued.

To facilitate subsequent transfers, all debt securities deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of debt securities with DTC and their registration in the name of Cede & Co. or such other nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the debt securities; DTC's records reflect only the identity of the Direct Participants to whose accounts such debt securities are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

[Table of Contents](#)

Redemption notices shall be sent to DTC. If less than all of the debt securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor such other DTC nominee) will consent or vote with respect to the debt securities unless authorized by a Direct Participant in accordance with DTC's Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to us as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the debt securities are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, distributions, and dividend payments on the debt securities will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts, upon DTC's receipt of funds and corresponding detail information from us or the trustee on the payment date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC nor its nominee, the trustee, or us, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the trustee, but disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the debt securities at any time by giving reasonable notice to us or to the trustee. Under such circumstances, in the event that a successor securities depository is not obtained, certificates are required to be printed and delivered. We may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, certificates will be printed and delivered to DTC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy thereof.

DESCRIPTION OF OUR UNITS

The following is a general description of the terms of the units we may issue from time to time. Particular terms of any units we offer will be described in the prospectus supplement relating to such units. For a complete description of the terms of particular units, you should read both this prospectus and the prospectus supplement relating to those particular units.

We may issue units comprised of one or more of the other securities described in this prospectus in any combination. Each unit may also include debt obligations of third parties, such as U.S. Treasury securities. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security.

A prospectus supplement will describe the particular terms of any series of units we may issue, including the following:

- the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances the securities comprising the units may be held or transferred separately;
- a description of the terms of any unit agreement governing the units;
- a description of the provisions for the payment, settlement, transfer or exchange of the units; and
- whether the units will be issued in fully registered or global form.

REGULATION

We are a BDC under the 1940 Act. The 1940 Act contains prohibitions and restrictions relating to transactions between BDCs and their affiliates (including any investment advisors or sub-advisors), principal underwriters and affiliates of those affiliates or underwriters and requires that a majority of the directors be persons other than “interested persons,” as that term is defined in the 1940 Act. In addition, the 1940 Act provides that we may not change the nature of our business so as to cease to be, or to withdraw our election as, a BDC unless approved by a majority of our outstanding voting securities.

We may invest up to 100% of our assets in securities acquired directly from issuers in privately negotiated transactions. With respect to such securities, we may, for the purpose of public resale, be deemed an “underwriter” as that term is defined in the Securities Act of 1933. We may purchase or otherwise receive warrants to purchase the common stock of our portfolio companies in connection with acquisition financing or other investment. Similarly, in connection with an acquisition, we may acquire rights to require the issuers of acquired securities or their affiliates to repurchase them under certain circumstances. We also do not intend to acquire securities issued by any investment company that exceed the limits imposed by the 1940 Act. Under these limits, except for registered money market funds we generally cannot acquire more than 3% of the voting stock of any investment company, invest more than 5% of the value of our total assets in the securities of one investment company or invest more than 10% of the value of our total assets in the securities of more than one investment company. With regard to that portion of our portfolio invested in securities issued by investment companies, it should be noted that such investments might subject our stockholders to additional expenses. None of these policies are fundamental and may be changed without stockholder approval.

Qualifying assets

Under the 1940 Act, a BDC may not acquire any asset other than assets of the type listed in section 55(a) of the 1940 Act, which are referred to as qualifying assets, unless, at the time the acquisition is made, qualifying assets represent at least 70% of the company’s total assets. The principal categories of qualifying assets relevant to our proposed business are the following:

- Securities purchased in transactions not involving any public offering from the issuer of such securities, which issuer (subject to certain limited exceptions) is an eligible portfolio company, or from any person who is, or has been during the preceding 13 months, an affiliated person of an eligible portfolio company, or from any other person, subject to such rules as may be prescribed by the SEC. An eligible portfolio company is defined in the 1940 Act as any issuer which:
 - is organized under the laws of, and has its principal place of business in, the United States;
 - is not an investment company (other than a small business investment company wholly owned by the BDC) or a company that would be an investment company but for certain exclusions under the 1940 Act; and
 - satisfies any of the following:
 - does not have any class of securities listed on a national securities exchange or has any class of securities listed on a national securities exchange but has an aggregate market value of outstanding equity of less than \$250 million;
 - is controlled by a BDC or a group of companies including a BDC, the BDC actually exercises a controlling influence over the management or policies of the eligible portfolio company, and, as a result thereof, the BDC has an affiliated person who is a director of the eligible portfolio company; or
 - is a small and solvent company having total assets of not more than \$4 million and capital surplus of not less than \$2 million.

[Table of Contents](#)

- Securities of any eligible portfolio company which we control.
- Securities purchased in a private transaction from a U.S. issuer that is not an investment company or from an affiliated person of the issuer, or in transactions incident thereto, if the issuer is in bankruptcy and subject to reorganization or if the issuer, immediately prior to the purchase of its securities was unable to meet its obligations as they came due without material assistance other than conventional lending or financing arrangements.
- Securities of an eligible portfolio company purchased from any person in a private transaction if there is no ready market for such securities and we already own 60% of the outstanding equity of the eligible portfolio company.
- Securities received in exchange for or distributed on or with respect to securities described above, or pursuant to the exercise of warrants or rights relating to such securities.
- Cash, cash equivalents, U.S. Government securities or high-quality debt securities maturing in one year or less from the time of investment.

Managerial assistance to portfolio companies

In addition, a BDC must have been organized and have its principal place of business in the United States and must be operated for the purpose of making investments in the types of securities described in “Regulation—Qualifying assets” above. However, in order to count portfolio securities as qualifying assets for the purpose of the 70% test, the BDC must either control the issuer of the securities or must offer to make available to the issuer of the securities significant managerial assistance; except that, where the BDC purchases such securities in conjunction with one or more other persons acting together, one of the other persons in the group may make available such managerial assistance. Making available managerial assistance means, among other things, any arrangement whereby the BDC, through its directors, officers or employees, offers to provide, and, if accepted, does so provide, significant guidance and counsel concerning the management, operations or business objectives and policies of a portfolio company.

Temporary investments

Pending investment in other types of “qualifying assets,” as described above, our investments may consist of cash, cash equivalents, U.S. Government securities or high-quality debt securities maturing in one year or less from the time of investment, which we refer to, collectively, as temporary investments, so that 70% of our assets are qualifying assets. Typically, we will invest in highly rated commercial paper, U.S. Government agency notes, U.S. Treasury bills or in repurchase agreements, provided that such agreements are fully collateralized by cash or securities issued by the U.S. Government or its agencies. A repurchase agreement involves the purchase by an investor, such as us, of a specified security and the simultaneous agreement by the seller to repurchase it at an agreed-upon future date and at a price which is greater than the purchase price by an amount that reflects an agreed-upon interest rate. There is no percentage restriction on the proportion of our assets that may be invested in such repurchase agreements. However, if more than 25% of our total assets constitute repurchase agreements from a single counterparty, we would not meet certain diversification tests in order to qualify as a RIC for federal income tax purposes. Thus, we do not intend to enter into repurchase agreements with a single counterparty in excess of this limit. Our investment advisor will monitor the creditworthiness of the counterparties with which we enter into repurchase agreement transactions.

Senior securities

We are permitted, under specified conditions, to issue multiple classes of indebtedness and one class of stock senior to our common stock if our asset coverage, as defined in the 1940 Act, is at least equal to 200% immediately after each such issuance. In addition, while any senior securities remain outstanding, we must make provisions to prohibit any distribution to our stockholders or the repurchase of such securities or shares unless we meet the applicable asset coverage ratios at the time of the distribution or repurchase. We may also borrow

[Table of Contents](#)

amounts up to 5% of the value of our total assets for temporary or emergency purposes without regard to asset coverage. For a discussion of the risks associated with leverage, see “Risks—Risks related to our operations as a BDC.”

Code of ethics

We and the Advisor have each adopted a code of ethics pursuant to Rule 17j-1 under the 1940 Act that establishes procedures for personal investments and restricts certain personal securities transactions. Personnel subject to each code may invest in securities for their personal investment accounts, including securities that may be purchased or held by us, so long as such investments are made in accordance with the code’s requirements. You may read and copy each code of ethics at the SEC’s Public Reference Room in Washington, D.C. You may obtain information on the operation of the Public Reference Room by calling the SEC at (202) 551-8090. In addition, each code of ethics is attached as an exhibit to the registration statement of which this prospectus is a part, and is available on the EDGAR Database on the SEC’s Internet site at <http://www.sec.gov>. You may also obtain copies of each code of ethics, after paying a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov, or by writing the SEC’s Public Reference Section, 100 F Street, N.E., Washington, D.C. 20549.

Proxy voting policies and procedures

We have delegated our proxy voting responsibility to the Advisor. The Proxy Voting Policies and Procedures of the Advisor are set forth below. The guidelines are reviewed periodically by the Advisor and our independent directors, and, accordingly, are subject to change.

Introduction

As an investment advisor registered under the Advisers Act, the Advisor has a fiduciary duty to act solely in our best interests and in the best interests of our stockholders. As part of this duty, the Advisor recognizes that it must vote client securities in a timely manner free of conflicts of interest and in our best interests and the best interests of our stockholders. The Advisor’s Proxy Voting Policies and Procedures have been formulated to ensure decision-making consistent with these fiduciary duties.

These policies and procedures for voting proxies for our investment advisory clients are intended to comply with Section 206 of, and Rule 206(4)-6 under, the Advisers Act.

Proxy policies

The Advisor evaluates routine proxy matters, such as proxy proposals, amendments or resolutions on a case-by-case basis. Routine matters are typically proposed by management and the Advisor will normally support such matters so long as they do not measurably change the structure, management control, or operation of the corporation and are consistent with industry standards as well as the corporate laws of the state of incorporation.

The Advisor also evaluates non-routine matters on a case-by-case basis. Non-routine proposals concerning social issues are typically proposed by stockholders who believe that the corporation’s internally adopted policies are ill-advised or misguided. If the Advisor has determined that management is generally socially responsible, the Advisor will generally vote against these types of non-routine proposals. Non-routine proposals concerning financial or corporate issues are usually offered by management and seek to change a corporation’s legal, business or financial structure. The Advisor will generally vote in favor of such proposals provided the position of current stockholders is preserved or enhanced. Non-routine proposals concerning stockholder rights are made regularly by both management and stockholders. They can be generalized as involving issues that transfer or realign board or stockholder voting power. The Advisor typically would oppose any proposal aimed solely at

[Table of Contents](#)

thwarting potential takeovers by requiring, for example, super-majority approval. At the same time, the Advisor believes stability and continuity promote profitability. The Advisor's guidelines in this area seek a middle road and individual proposals will be carefully assessed in the context of their particular circumstances.

The Advisor, through the Administrator's operations group, has engaged a third-party service provider to assist it in the voting of proxies. This third-party service provider makes recommendations to the Advisor, based on its guidelines, as to how our votes should be cast. These recommendations are then reviewed by the Advisor's employees, one of whom must approve the proxy vote in writing and return such written approval to the Administrator's operations group. The Advisor recognizes that it must vote client securities in a timely manner free of conflicts of interest and in the best interests of our stockholders. If there is any possibility that a vote may involve a material conflict of interest, prior to approving such vote, the Advisor must consult with its chief compliance officer to determine whether the potential conflict is material and if so, the appropriate method to resolve such conflict. If the conflict is determined not to be material, the Advisor's employees shall vote the proxy in accordance with the Advisor's proxy voting policy.

Proxy voting records

You may obtain information about how we voted proxies by making a written request for proxy voting information to:

New York, NY 10022

Other

We have elected to be taxed as a RIC under Subchapter M of the Code. To maintain our RIC status and obtain favorable RIC tax treatment, we must meet certain requirements including source of income, asset diversification and distribution requirements. See "Material U.S. Federal Tax Matters."

We may be prohibited under the 1940 Act from knowingly participating in certain transactions with our affiliates without the prior approval of our Board of Directors who are not interested persons and, in some cases, prior approval by the SEC.

We will be periodically examined by the SEC for compliance with the 1940 Act.

We are required to provide and maintain a bond issued by a reputable fidelity insurance company to protect us against larceny and embezzlement. Furthermore, as a BDC, we are prohibited from protecting any director or officer against any liability to us or our stockholders arising from willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of such person's office.

We and the Advisor have adopted and implemented written policies and procedures reasonably designed to prevent violation of the federal securities laws, reviewed these policies and procedures annually for their adequacy and the effectiveness of their implementation, and designated a chief compliance officer to be responsible for administering the policies and procedures.

Compliance with the Sarbanes-Oxley Act of 2002 and The NASDAQ Global Select Market Corporate Governance Regulations

The Sarbanes-Oxley Act of 2002 imposes a wide variety of regulatory requirements on publicly-held companies and their insiders. Many of these requirements affect us. The Sarbanes-Oxley Act has required us to review our policies and procedures to determine whether we comply with the Sarbanes-Oxley Act and the

[Table of Contents](#)

regulations promulgated thereunder. We will continue to monitor our compliance with all future regulations that are adopted under the Sarbanes-Oxley Act and will take actions necessary to ensure that we are in compliance therewith.

In addition, The NASDAQ Global Select Market has adopted or is in the process of adopting corporate governance changes to its listing standards. We believe we are in compliance with such corporate governance listing standards. We will continue to monitor our compliance with all future listing standards and will take actions necessary to ensure that we are in compliance therewith.

BROKERAGE ALLOCATIONS AND OTHER PRACTICES

Since we generally acquire and dispose of our investments in privately negotiated transactions, we infrequently use brokers in the normal course of our business. Subject to policies established by our Board of Directors, the Advisor is primarily responsible for the execution of the publicly traded securities portion of our portfolio transactions and the allocation of brokerage commissions. The Advisor does not execute transactions through any particular broker or dealer, but seeks to obtain the best net results for us, taking into account such factors as price (including the applicable brokerage commission or dealer spread), size of order, difficulty of execution, and operational facilities of the firm and the firm's risk and skill in positioning blocks of securities. While the Advisor generally seeks reasonably competitive trade execution costs, we will not necessarily pay the lowest spread or commission available. Subject to applicable legal requirements, the Advisor may select a broker based partly on brokerage or research services provided to the Advisor and us and any other clients. In return for such services, we may pay a higher commission than other brokers would charge if the Advisor determines in good faith that such commission is reasonable in relation to the services provided.

MATERIAL U.S. FEDERAL TAX MATTERS

The following discussion is a general summary of the material U.S. Federal income tax considerations applicable to us and to an investment in shares of our common stock. This discussion does not purport to deal with all of the U.S. federal income tax consequences applicable to us, or which may be important to particular stockholders in light of their individual investment circumstances or to some types of stockholders subject to special tax rules, such as stockholders subject to the alternative minimum tax, financial institutions, broker-dealers, insurance companies, pension plans and trusts, tax-exempt organizations, partnerships or other pass-through entities, U.S. stockholders (as defined below) whose financial currency is not the U.S. dollar, persons who mark-to-market our shares and persons holding our common shares as part of a “hedge”, “straddle”, “conversion” or other integrated transaction, persons engaged in a trade or business in the United States or persons who have ceased to be U.S. citizens or to be taxed as resident aliens. This discussion assumes that investors hold our common shares as capital assets for U.S. federal income tax purposes (generally, assets held for investment). The discussion is based upon the Code, Treasury regulations, and administrative and judicial interpretations, each as of the date of this prospectus and all of which are subject to change, possibly retroactively, which could affect the continuing validity of this discussion. This summary does not discuss any aspects of U.S. estate or gift tax or foreign, state or local tax. It does not discuss the special treatment under U.S. Federal income tax laws that could result if we invested in tax-exempt securities or certain other investment assets. It also does not discuss the tax aspects of common or preferred stock sold in units with the other securities being registered.

This summary does not discuss the consequences of an investment in our preferred stock, debt securities, warrants representing rights to purchase shares of our preferred stock, common stock or debt securities, subscription rights, or as units in combination with such securities. The U.S. federal income tax consequences of such an investment will be discussed in a relevant prospectus supplement.

For purposes of this discussion, a “U.S. stockholder” (or in this section, a “stockholder”) is a beneficial holder of shares of our common stock that is for U.S. federal income tax purposes (1) a person who is a citizen or individual resident of the United States, (2) a corporation (or other entity taxable as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States or any state thereof or the District of Columbia, (3) an estate whose income is subject to U.S. federal income tax regardless of its source, or (4) a trust if (a) a U.S. court is able to exercise primary supervision over the trust’s administration and one or more U.S. persons are authorized to control all substantial decisions of the trust or (b) the trust has in effect a valid election to be treated as a domestic trust for U.S. federal income tax purposes. A “non-U.S. stockholder” is a beneficial owner of shares of our common stock that is not a partnership and is not a U.S. stockholder.

If a partnership or other entity treated as a partnership for U.S. federal income tax purposes holds the shares of our common stock, the tax treatment of the partnership and each partner generally will depend on status of the partner and the activities of the partnership. A prospective stockholder that is a partner of a partnership holding shares of our common stock should consult its tax advisors with respect to the purchase, ownership and disposition of shares of our common stock.

Tax matters are very complicated and the tax consequences to an investor of an investment in our shares will depend on the facts of his, her or its particular situation. We encourage investors to consult their independent tax advisors regarding the specific consequences of such an investment, including tax reporting requirements, the applicability of federal, state, local and foreign tax laws, eligibility for the benefits of any applicable tax treaty and the effect of any possible changes in the tax laws.

Taxation of the Company as a RIC

We intend to qualify each year to be taxed as a RIC under Subchapter M of the Code. To continue to qualify as a RIC, we must, among other things, (a) qualify to be treated as a business development company or be registered as a management investment company under the 1940 Act at all times during each taxable year,

[Table of Contents](#)

(b) derive in each taxable year at least 90 percent of our gross income (including tax-exempt interest) from dividends, interest, payments with respect to certain securities loans, gains from the sale or other disposition of stock, securities or foreign currencies, other income (including but not limited to gain from options, futures and forward contracts) derived with respect to our business of investing in stock, securities or currencies, or net income derived from an interest in a “qualified publicly traded partnership” (a “QPTP”); and (c) diversify our holdings so that, at the end of each fiscal quarter (i) at least 50 percent of the market value of our total assets is represented by cash and cash items, U.S. Government securities, the securities of other regulated investment companies and other securities, with other securities limited, in respect of any one issuer, to an amount not greater than 5 percent of the value of our total assets and not more than 10 percent of the outstanding voting securities of such issuer (subject to the exception described below), and (ii) not more than 25 percent of the market value of our total assets is invested in the securities of any issuer (other than U.S. Government securities and the securities of other regulated investment companies), the securities of any two or more issuers that we control and that are determined to be engaged in the same business or similar or related trades or businesses, or the securities of one or more QPTPs.

In the case of a RIC that furnishes capital to development corporations, there is an exception to the rule relating to the diversification of investments described above. This exception is available only to registered management investment companies that the SEC determines to be principally engaged in the furnishing of capital to other corporations that are principally engaged in the development or exploitation of inventions, technological improvements, new processes, or products not previously generally available (“SEC Certification”). We have not yet received SEC Certification, but it is possible that we will receive SEC Certification in future years. If we receive SEC Certification, we generally will be entitled to include in the computation of the 50 percent value of our assets (described in (c)(i) above) the value of any securities of an issuer, whether or not we own more than 10 percent of the outstanding voting securities of the issuer, if the basis of the securities, when added to our basis of any other securities of the issuer that we own, does not exceed 5 percent of the value of our total assets.

As a RIC, in any fiscal year with respect to which we distribute at least 90 percent of the sum of our (i) investment company taxable income (which includes, among other items, dividends, interest, the excess of any net realized short-term capital gains over net realized long-term capital losses and other taxable income (other than any net capital gain), reduced by deductible expenses) determined without regard to the deduction for dividends paid and (ii) net tax exempt interest (which is the excess of our gross tax exempt interest income over certain disallowed deductions) (the “Annual Distribution Requirement”), we (but not our stockholders) generally will not be subject to U.S. federal income tax on our investment company taxable income and net capital gains that we timely distribute to our stockholders. To the extent that we retain any investment company taxable income or net capital gain (as described below) for investment, we will be subject to U.S. federal income tax. We may choose to retain our net capital gains for investment and pay the associated federal corporate income tax.

Although we do not presently expect to do so, we are authorized to borrow funds and to sell assets in order to satisfy the Annual Distribution Requirement. However, under the 1940 Act, we are not permitted to make distributions to our stockholders while our debt obligations and other senior securities are outstanding unless certain “asset coverage” tests are met. See “Regulation—Senior securities.” Moreover, our ability to dispose of assets to meet the Annual Distribution Requirements may be limited by (1) the illiquid nature of our portfolio and/or (2) other requirements relating to our status as a RIC, including the diversification tests discussed above. If we dispose of assets in order to meet the Annual Distribution Requirement or the Excise Tax Avoidance Requirement (as discussed below), we may make such dispositions at times that, from an investment standpoint, are not advantageous.

Amounts not distributed on a timely basis in accordance with a calendar year distribution requirement are subject to a nondeductible 4 percent excise tax payable by us (the “Excise Tax Avoidance Requirement”). To avoid this tax, we must distribute during each calendar year an amount equal to at least the sum of:

- (1) 98 percent of our ordinary income (not taking into account any capital gains or losses) for the calendar year;

[Table of Contents](#)

(2) 98.2 percent of our capital gains in excess of our capital losses (adjusted for certain ordinary losses) for a one-year period generally ending on October 31 of the calendar year (unless an election is made by us to use our fiscal year); and

(3) any undistributed amounts from previous years on which we paid no U.S. federal income tax.

While we intend to distribute any income and capital gains in the manner necessary to minimize imposition of the 4 percent excise tax, sufficient amounts of our taxable income and capital gains may not be distributed to avoid entirely the imposition of the tax. In that event, we will be liable for the tax only on the amount by which we do not meet the foregoing distribution requirement.

If, in any particular taxable year, we do not qualify as a RIC or do not satisfy the Annual Distribution Requirement, all of our taxable income (including our net capital gains) will be subject to tax at regular corporate rates without any deduction for distributions to stockholders, and distributions will be taxable to the stockholders as ordinary dividends to the extent of our current and accumulated earnings and profits. In the case of non-corporate stockholders, such distributions would generally be eligible for the reduced maximum rate for taxable years beginning before 2013 (but not for taxable years beginning thereafter, unless the relevant provisions are extended by legislation), provided certain holding period and other requirements are met. Subject to certain limitations under the Code, corporate distributees would be eligible for the dividends-received deduction. To qualify again to be taxed as a RIC in a subsequent year, we would be required to distribute to our stockholders our accumulated earnings and profits attributable to non-RIC years. In addition, if we failed to qualify as a RIC for a period greater than two taxable years, then, in order to qualify as a RIC in a subsequent year, we would be required to elect to recognize and pay tax on any net built-in gain (the excess of aggregate gain, including items of income, over aggregate loss that would have been realized if we had been liquidated) or, alternatively, be subject to taxation on such built-in gain recognized for a period of ten years.

We may decide to be taxed as a corporation even if we would otherwise qualify as a RIC.

Company investments

We may make certain investments that would subject us to special provisions of the Code that may, among other things, defer or disallow the use of certain deductions or losses or affect the holding period of securities held by us or the character of the gains or losses realized by us. These provisions may also require that we recognize income or gain without receiving cash with which to make distributions. In particular, we may recognize original issue discount if we acquire zero coupon securities, deferred interest securities or certain other securities, or if we receive warrants in connection with the making of a loan or possibly in other circumstances. Such original issue discount, which could but is not expected to be significant relative to our overall investment activities, generally will be included in income in the taxable year of accrual and before we receive any corresponding cash payments. We also may be required to include in income certain other amounts that we will not receive in cash.

Since in certain circumstances we may recognize income before or without receiving cash representing such income, we may have difficulty making distributions in the amounts necessary to satisfy the requirements for maintaining favorable RIC treatment and for avoiding income and excise taxes. Accordingly, we may have to sell some of our investments at times we would not consider advantageous, raise additional debt or equity capital or reduce new investment originations to meet these distribution requirements. If we are not able to obtain cash from other sources, we may fail to qualify for favorable RIC treatment and thereby be subject to corporate-level income tax.

In the event we invest in foreign securities, we may be subject to withholding and other foreign taxes with respect to those securities. We do not expect to satisfy the requirement to pass through to our stockholders their share of the foreign taxes paid by us.

[Table of Contents](#)

The remainder of this discussion assumes that we qualify as a RIC and have satisfied the Annual Distribution Requirement.

Taxation of U.S. stockholders

Distributions we pay to you from our ordinary income or from an excess of net short-term capital gains over net long-term capital losses (together referred to hereinafter as “ordinary income dividends”) are taxable to you as ordinary income to the extent of our current or accumulated earnings and profits, whether paid in cash or reinvested in additional common stock through our dividend reinvestment plan. Due to our expected investments, in general, distributions will not be eligible for the dividends received deduction allowed to corporate stockholders and will not qualify for the reduced rate of tax for qualified dividend income allowed to individuals. Distributions made to you from our net capital gain (which is the excess of net long-term capital gains over net short-term capital losses) (“capital gain dividends”), including capital gain dividends credited to you but retained by us, are taxable to you as long-term capital gains (currently at a maximum rate of 15% through 2012 in the case of individuals, trusts or estates), regardless of the length of time you have owned our shares, and regardless of whether paid in cash or reinvested in additional common stock through our dividend reinvestment plan. Distributions in excess of our earnings and profits will first reduce the adjusted tax basis of your shares and, after the adjusted tax basis is reduced to zero, will constitute capital gains to you (assuming the shares are held as a capital asset).

In the event that we retain any net capital gain, we may designate the retained amounts as undistributed capital gains in a notice to our stockholders. If a designation is made, stockholders would include in income, as long-term capital gains, their proportionate share of the undistributed amounts, but would be allowed a credit or refund, as the case may be, for their proportionate share of the corporate tax paid by us. In addition, the tax basis of shares owned by a stockholder would be increased by an amount equal to the difference between (i) the amount included in the stockholder’s income as long-term capital gains and (ii) the stockholder’s proportionate share of the corporate tax paid by us.

For purposes of determining (1) whether the Annual Distribution Requirement is satisfied for any year and (2) the amount of capital gain dividends paid for that year, we may, under certain circumstances, elect to treat a dividend that is paid during the following taxable year as if it had been paid during the taxable year in question. If we make such an election, the U.S. stockholders will still be treated as receiving the dividend in the taxable year in which the distribution is made. However, any dividend declared by us in October, November or December of any calendar year, payable to stockholders of record on a specified date in such a month and actually paid during January of the following year, will be treated as if it had been received by our U.S. stockholders on December 31 of the year in which the dividend was declared.

A stockholder will recognize gain or loss on the sale or exchange of our common shares in an amount equal to the difference between the stockholder’s adjusted basis in the shares sold or exchanged and the amount realized on their disposition. Generally, gain recognized by a stockholder on the sale or other disposition of our common shares will result in capital gain or loss to you, and will be a long-term capital gain or loss if the shares have been held for more than one year at the time of sale. Any loss upon the sale or exchange of our shares held for six months or less will be treated as a long-term capital loss to the extent of any capital gain dividends received (including amounts credited as an undistributed capital gain dividends) by you. A loss realized on a sale or exchange of our shares will be disallowed if other substantially identical shares are acquired (whether through the automatic reinvestment of dividends or otherwise) within a 61-day period beginning 30 days before and ending 30 days after the date that the shares are disposed of. In this case, the basis of the shares acquired will be adjusted to reflect the disallowed loss. The deductibility of capital losses is subject to various limitations under the Code.

We will send to each of our U.S. stockholders, as promptly as possible after the end of each calendar year, a notice detailing, on a per share and per distribution basis, the amounts includible in such U.S. stockholder’s

[Table of Contents](#)

taxable income for such year as ordinary income and as long-term capital gain. In addition, the federal tax status of each year's distributions generally will be reported to the Internal Revenue Service (including the amount of dividends, if any, eligible for the 15% maximum rate). Distributions may also be subject to additional state, local and foreign taxes depending on a U.S. stockholder's particular situation.

Backup Withholding. We may be required to withhold federal income tax ("backup withholding"), currently at a rate of 28% (until January 1, 2013 when a higher rate of 31% will apply absent Congressional action), from all taxable distributions to any non-corporate U.S. stockholder (1) who fails to furnish us with a correct taxpayer identification number or a certificate that such stockholder is exempt from backup withholding, or (2) with respect to whom the Internal Revenue Service notifies us that such stockholder has failed to properly report certain interest and dividend income to the Internal Revenue Service and to respond to notices to that effect. An individual's taxpayer identification number is his or her social security number. Backup withholding is not an additional tax, and any amount withheld under backup withholding is allowed as a credit against the U.S. stockholder's federal income tax liability and may entitle such stockholder to a refund, provided that proper information is timely provided to the Internal Revenue Service.

Taxation of non-U.S. stockholders

Distributions of our "investment company taxable income" to non-U.S. stockholders, subject to the discussion below, will be subject to withholding of federal tax at a 30% rate (or lower rate provided by an applicable treaty) to the extent of our current and accumulated earnings and profits unless the distributions are effectively connected with a U.S. trade or business of the non-U.S. stockholder, and, if an income tax treaty applies, attributable to a permanent establishment in the United States. In this latter case the distributions will be subject to federal income tax at the rates applicable to U.S. stockholders, and will not be subject to federal withholding tax if the non-U.S. stockholder complies with applicable certification and disclosure requirements.

Actual or deemed distributions of our net capital gains to a non-U.S. stockholder, and gains recognized by a non-U.S. stockholder upon the sale of our common stock, generally will not be subject to federal withholding tax and will not be subject to federal income tax unless the distributions or gains, as the case may be, are effectively connected with a U.S. trade or business of the non-U.S. stockholder and, if an income tax treaty applies, are attributable to a permanent establishment maintained by the non-U.S. stockholder in the United States. In this latter case, the distributions or gains, as the case may be, will be subject to federal income tax at the rates applicable to U.S. stockholders, and will not be subject to federal withholding tax if the non-U.S. stockholder complies with applicable certification and disclosure requirements.

If we distribute our net capital gains in the form of deemed rather than actual distributions (which we may do in the future), a non-U.S. stockholder will be entitled to a federal income tax credit or tax refund equal to the stockholder's allocable share of the tax we pay on the capital gains deemed to have been distributed. In order to obtain such refund the non-U.S. stockholder must obtain a U.S. taxpayer identification number and file a federal income tax return. For a corporate non-U.S. stockholder, distributions (both actual and deemed) and gains realized upon the sale of our common stock that are effectively connected with a U.S. trade or business carried on by the corporate non-U.S. stockholder may, under certain circumstances, be subject to an additional "branch profits tax" at a 30% rate (or at a lower rate if provided for by an applicable tax treaty).

The tax consequences to a non-U.S. stockholder entitled to claim the benefits of an applicable tax treaty may differ from those described herein. Non-U.S. stockholders should consult their independent tax advisor with respect to the particular tax consequences to them of an investment in our shares.

After December 31, 2013, withholding at a rate of 30% will be required on dividends in respect of, and after December 31, 2014, withholding at a rate of 30% will be required on gross proceeds from the sale of, our common stock held by or through certain foreign financial institutions (including investment funds), unless such institution enters into an agreement with the Secretary of the Treasury to report, on an annual basis, information

[Table of Contents](#)

with respect to shares in, and accounts maintained by, the institution to the extent such shares or accounts are held by certain United States persons or by certain non-U.S. entities that are wholly or partially owned by United States persons. Accordingly, the entity through which our common stock is held will affect the determination of whether such withholding is required. Similarly, after December 31, 2013, dividends in respect of, and after December 31, 2014, gross proceeds from the sale of, our common stock held by an investor that is a non-financial non-U.S. entity will be subject to withholding at a rate of 30%, unless such entity either (i) certifies to us that such entity does not have any “substantial United States owners” or (ii) provides certain information regarding the entity’s “substantial United States owners,” which we will in turn provide to the Secretary of the Treasury. Non-U.S. stockholders are encouraged to consult with their tax advisers regarding the possible implications of these requirements on their investment in our common stock.

Backup Withholding. A non-U.S. stockholder who is a non-resident alien individual, and who is otherwise subject to withholding of federal income tax, may be subject to information reporting and backup withholding of federal income tax on dividends unless the non-U.S. stockholder provides us or the dividend paying agent with an Internal Revenue Service Form W-8BEN (or an acceptable substitute form) or otherwise meets documentary evidence requirements for establishing that it is a non-U.S. stockholder or otherwise establishes an exemption from backup withholding. Backup withholding is not an additional tax, and any amounts withheld from payments made to you may be refunded or credited against your U.S. federal income tax liability, if any, provided that the required information is furnished to the Internal Revenue Service.

Non-U.S. persons should consult their independent tax advisor with respect to the U.S. federal income tax and withholding tax, and state, local and foreign tax consequences of an investment in our shares.

The discussion set forth herein does not constitute tax advice, and potential investors should consult their independent tax advisor concerning the tax considerations relevant to their particular situation.

PLAN OF DISTRIBUTION

We may sell the securities in any of three ways (or in any combination): (a) through underwriters or dealers; (b) directly to a limited number of purchasers or to a single purchaser; or (c) through agents. The securities may be sold “at-the-market” to or through a market maker or into an existing trading market for the securities, on an exchange or otherwise. The prospectus supplement will set forth the terms of the offering of such securities, including:

- the name or names of any underwriters, dealers or agents and the amounts of securities underwritten or purchased by each of them;
- the offering price of the securities and the proceeds to us and any discounts, commissions or concessions allowed or reallocated or paid to dealers; and
- any securities exchanges on which the securities may be listed.

Any offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time.

If underwriters are used in the sale of any securities, the securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The securities may be either offered to the public through underwriting syndicates represented by managing underwriters, or directly by underwriters. Generally, the underwriters’ obligations to purchase the securities will be subject to certain conditions precedent. The underwriters will be obligated to purchase all of the securities if they purchase any of the securities.

In compliance with the guidelines of the Financial Industry Regulatory Authority, or FINRA, the maximum compensation to the underwriters or dealers in connection with the sale of our securities pursuant to this prospectus and the accompanying supplement to this prospectus may not exceed 8% of the aggregate offering price of the securities as set forth on the cover page of the supplement to this prospectus.

We may sell the securities through agents from time to time. The prospectus supplement will name any agent involved in the offer or sale of the securities and any commissions we pay to them. Generally, any agent will be acting on a best efforts basis for the period of its appointment.

We may authorize underwriters, dealers or agents to solicit offers by certain purchasers to purchase the securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. The contracts will be subject only to those conditions set forth in the prospectus supplement, and the prospectus supplement will set forth any commissions we pay for soliciting these contracts.

Agents and underwriters may be entitled to indemnification by us against certain civil liabilities, including liabilities under the Securities Act of 1933 or to contribution with respect to payments which the agents or underwriters may be required to make in respect thereof. Agents and underwriters may be customers of, engage in transactions with, or perform services for us in the ordinary course of business.

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of stock. The third party in such sale transactions will be an underwriter and, if not identified in this prospectus, will be identified in the applicable prospectus supplement (or a post-effective amendment). We or one of our affiliates may loan or pledge securities to a financial institution or other third party that in turn may sell the securities using this prospectus. Such financial institution or third party may transfer its short position to investors in our securities or in connection with a simultaneous offering of other securities offered by this prospectus or otherwise.

CUSTODIAN, TRANSFER AGENT AND TRUSTEE

BNY Mellon Investment Servicing (US) Inc., or BNYIS, a subsidiary of The Bank of New York Mellon Corporation, provides administrative and accounting services to us under a sub-administration and accounting services agreement. The Bank of New York Mellon, or BNYM, another subsidiary of The Bank of New York Mellon Corporation, provides custodian services to us pursuant to a custodian services agreement. Also, BNYIS provides transfer agency and compliance support services to us under a transfer agency agreement and a compliance support services agreement, respectively. For the services provided to us by BNYIS and its affiliates, BNYIS is entitled to an annual fee equal to a percentage of our average net assets plus reimbursement of reasonable expenses, and a base fee, payable monthly. BNYM acts as trustee for offerings of our debt securities.

LEGAL MATTERS

Certain legal matters in connection with the securities offered by this prospectus will be passed upon for us by Skadden, Arps, Slate, Meagher & Flom LLP, New York, New York. Attorneys at Skadden, Arps, Slate, Meagher & Flom LLP involved in the representation of the Company beneficially own less than 0.1 percent of our common stock outstanding at December 31, 2011.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Deloitte & Touche LLP is our independent registered public accounting firm.

ADDITIONAL INFORMATION

We have filed a registration statement with the SEC on Form N-2, including amendments, relating to the securities we are offering. This prospectus does not contain all of the information set forth in the registration statement, including any exhibits and schedules it may contain. For further information concerning us or the securities we are offering, please refer to the registration statement. Statements contained in this prospectus as to the contents of any contract or other document referred to are not necessarily complete and in each instance reference is made to the copy of any contract or other document filed as an exhibit to the registration statement. Each statement is qualified in all respects by this reference.

We file with or submit to the SEC annual, quarterly and current periodic reports, proxy statements and other information meeting the informational requirements of the Securities Exchange Act of 1934. You may inspect and copy these reports, proxy statements and other information, as well as the registration statement of which this prospectus forms a part and the related exhibits and schedules, at the Public Reference Room of the SEC at 100 F Street, N.E., Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Copies of these reports, proxy and information statements and other information may be obtained, after paying a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov, or by writing the SEC's Public Reference Section, Washington D.C. 20549-0102. In addition, the SEC maintains an Internet website that contains reports, proxy and information statements and other information filed electronically by us with the SEC at <http://www.sec.gov>.

PRIVACY PRINCIPLES

We are committed to maintaining the privacy of securityholders and to safeguarding our non-public personal information. The following information is provided to help you understand what personal information we collect, how we protect that information and why, in certain cases, we may share information with select other parties.

[Table of Contents](#)

Generally, we do not receive any nonpublic personal information relating to our securityholders, although certain nonpublic personal information of our securityholders may become available to us. We do not disclose any nonpublic personal information about our securityholders or former securityholders to anyone, except as permitted by law or as is necessary in order to service securityholders accounts (for example, to a transfer agent or third party administrator).

We restrict access to nonpublic personal information about our securityholders to our investment advisor's employees with a legitimate business need for the information. We maintain physical, electronic and procedural safeguards designed to protect the nonpublic personal information of our securityholders.

Report Of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of
BlackRock Kelso Capital Corporation:

We have audited the accompanying consolidated statements of assets and liabilities of BlackRock Kelso Capital Corporation and subsidiaries (the “Company”), including the consolidated schedules of investments, as of December 31, 2011 and 2010, and the related consolidated statements of operations, changes in net assets, and cash flows for each of the three years in the period ended December 31, 2011 and the consolidated financial highlights for each of the five years in the period then ended. These consolidated financial statements and consolidated financial highlights are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of investments as of December 31, 2011 and 2010, by correspondence with the custodian, loan agent or borrower; where replies were not received, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of BlackRock Kelso Capital Corporation and subsidiaries as of December 31, 2011 and 2010, and the results of its operations, changes in its net assets, and its cash flows for each of the three years in the period ended December 31, 2011 and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company’s internal control over financial reporting as of December 31, 2011, based on the criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 1, 2012 expressed an unqualified opinion on the Company’s internal control over financial reporting.

- (a) Unaudited
- (b) Represents amortized cost for fixed income securities and cost for preferred and common stock, limited partnership/limited liability company interests and equity warrants/options.
- (c) Fair value is determined by or under the direction of the Company's Board of Directors (see Note 2).
- (d) Security is exempt from registration under Rule 144A of the Securities Act of 1933. Such securities may be resold in transactions that are exempt from registration, normally to qualified institutional buyers. In the aggregate, these securities represent 12.8% of the Company's net assets at December 31, 2011.
- (e) Transaction and other information for "non-controlled, affiliated" investments under the Investment Company Act of 1940, whereby the Company owns 5% or more (but not more than 25%) of the portfolio company's outstanding voting securities.
- (f) Approximately 68% of the senior secured loans to the Company's portfolio companies bear interest at a floating rate that may be determined by reference to the London Interbank Offered Rate (LIBOR) or other base rate (commonly the Federal Funds Rate or the Prime Rate), at the borrower's option. In addition, approximately 58% of such senior secured loans have floors of 1.00% to 3.25%. The borrower under a senior secured loan generally has the option to select from interest reset periods of one, two, three or six months and may alter that selection at the end of any reset period. The stated interest rate represents the weighted average interest rate at December 31, 2011 of all contracts within the specified loan facility.
- (g) Transaction and other information for "controlled" investments under the Investment Company Act of 1940, whereby the Company owns more than 25% of the portfolio company's outstanding voting securities.

The accompanying notes are an integral part of these consolidated financial statements.

* Gross additions include increases in the cost basis of investments resulting from new portfolio investments, payment-in-kind interest or dividends, the amortization of unearned income, the exchange of one or more existing securities for one or more new securities and the movement of an existing portfolio company into this category from a different category.

** Gross reductions include decreases in the cost basis of investments resulting from principal collections related to investment repayments or sales, the exchange of one or more existing securities for one or more new securities and the movement of an existing portfolio company out of this category into a different category.

*** For the year ended December 31, 2011.

† Investment moved out of the non-controlled, affiliated category into the non-controlled, non-affiliated category during the period.

†† Investment no longer held at December 31, 2011.

The aggregate fair value of non-controlled, affiliated investments at December 31, 2011 represents 10.1% of the Company's net assets.

- (h) Non-U.S. company or principal place of business outside the U.S.
- (i) Principal amount is denominated in Canadian dollars.
- (j) Non-accrual status (in default) at December 31, 2011 and therefore non-income producing. At December 31, 2011, the aggregate fair value and amortized cost of the Company's debt investments on non-accrual status represents 0.5% and 0.8% of total debt investments at fair value and amortized cost, respectively.
- (k) Non-income producing equity securities at December 31, 2011.

The accompanying notes are an integral part of these consolidated financial statements.

Note regarding change in presentation: The Company revised the consolidated schedules of Investments from the presentation in its Annual Report on Form 10-K for the year ended December 31, 2010 to incorporate the unearned income into the cost and fair value of the associated portfolio company investments. The previously reported Consolidated Schedules of Investments included a separate line item reporting total unearned income. The amount of total unearned income is \$9,392,954 at December 31, 2010. This change in presentation did not impact total investment cost or fair value as reported on the Company's Consolidated Statements of Assets and Liabilities.

- (a) Unaudited
- (b) Represents amortized cost for fixed income securities and cost for preferred and common stock, limited partnership/limited liability company interests and equity warrants/options.
- (c) Fair value is determined by or under the direction of the Company's Board of Directors (see Note 2).
- (d) Security is exempt from registration under Rule 144A of the Securities Act of 1933. Such securities may be resold in transactions that are exempt from registration, normally to qualified institutional buyers. In the aggregate, these securities represent 7.9% of the Company's net assets at December 31, 2010.

The accompanying notes are an integral part of these consolidated financial statements.

* Gross additions include increases in the cost basis of investments resulting from new portfolio investments, payment-in-kind interest or dividends, the amortization of unearned income, the exchange of one or more existing securities for one or more new securities and the movement of an existing portfolio company into this category from a different category.

** Gross reductions include decreases in the cost basis of investments resulting from principal collections related to investment repayments or sales, the exchange of one or more existing securities for one or more new securities and the movement of an existing portfolio company out of this category into a different category.

*** For the year ended December 31, 2010.

† Investment no longer held at December 31, 2010.

The aggregate fair value of non-controlled, affiliated investments at December 31, 2010 represents 11.1% of the Company's net assets.

- (e) Transaction and other information for "non-controlled, affiliated" investments under the Investment Company Act of 1940, whereby the Company owns 5% or more (but not more than 25%) of the portfolio company's outstanding voting securities, is as follows:
- (f) Approximately 71% of the senior secured loans to the Company's portfolio companies bear interest at a floating rate that may be determined by reference to the London Interbank Offered Rate (LIBOR) or other base rate (commonly the Federal Funds Rate or the Prime Rate), at the borrower's option. In addition, approximately 35% of such senior secured loans have floors of 1.50% to 3.25% on the LIBOR base rate. The borrower under a senior secured loan generally has the option to select from interest reset periods of one, two, three or six months and may alter that selection at the end of any reset period. The stated interest rate represents the weighted average interest rate at December 31, 2010 of all contracts within the specified loan facility.

* Gross additions include increases in the cost basis of investments resulting from new portfolio investments, payment-in-kind interest or dividends, the amortization of unearned income, the exchange of one or more existing securities for one or more new securities and the movement of an existing portfolio company into this category from a different category.

** Gross reductions include decreases in the cost basis of investments resulting from principal collections related to investment repayments or sales, the exchange of one or more existing securities for one or more new securities and the movement of an existing portfolio company out of this category into a different category.

*** For the year ended December 31, 2010. There was no dividend income from these securities during the period.

† Investment no longer held at December 31, 2010.

The aggregate fair value of controlled investments at December 31, 2010 represents 13.7% of the Company's net assets.

- (g) Transaction and other information for "controlled" investments under the Investment Company Act of 1940, whereby the Company owns more than 25% of the portfolio company's outstanding voting securities, is as follows:
 - (h) Non-U.S. company or principal place of business outside the U.S.
 - (i) Principal amount is denominated in Canadian dollars.
 - (j) Guaranty by the Company on behalf of portfolio company Facet Technologies, LLC. This guaranty was terminated on January 17, 2011 with no payments having been made thereunder.
 - (k) Non-accrual status (in default) at December 31, 2010 and therefore non-income producing. At December 31, 2010, the aggregate fair value and amortized cost of the Company's debt investments on non-accrual status represents 1.4% and 1.8% of total debt investments at fair value and amortized cost, respectively.
 - (l) Non-income producing equity securities at December 31, 2010.

[Table of Contents](#)

The accompanying notes are an integral part of these consolidated financial statements.

- (m) The Company is the sole stockholder of BKC ARS Blocker, Inc., which is the beneficiary of less than 5% of the voting securities of American Residential Services L.L.C. and thus a non-controlled, non-affiliated investment.
 - (n) The Company is the sole stockholder of BKC ASW Blocker, Inc., which is the beneficiary of more than 25% of the voting securities of American SportWorks LLC and thus a controlled investment.
 - (o) The Company is the sole stockholder of BKC CSP Blocker, Inc., which is the beneficiary of more than 5% (but less than 25%) of the voting securities of Conney Prime Holdings, LLC and thus a non-controlled, affiliated investment.
 - (p) The Company is the sole stockholder of BKC DVSH Blocker, Inc., which is the beneficiary of less than 5% of the voting securities of DynaVox Systems Holdings LLC and thus a non-controlled, non-affiliated investment.
 - (q) The Company is the sole stockholder of BKC MTCH Blocker, Inc., which is the beneficiary of less than 5% of the voting securities of Marquette Transportation Company Holdings, LLC and thus a non-controlled, non-affiliated investment.
- PIK Payment-in-kind.

BlackRock Kelso Capital Corporation
Notes to Consolidated Financial Statements

1. Organization

BlackRock Kelso Capital Corporation and subsidiaries (the “Company”) was organized as a Delaware corporation on April 13, 2005 and was initially funded on July 25, 2005. The Company has elected to be regulated as a business development company (“BDC”) under the Investment Company Act of 1940 (the “1940 Act”). In addition, for tax purposes the Company has qualified and has elected to be treated as a regulated investment company (“RIC”) under the Internal Revenue Code of 1986 (the “Code”). The Company’s investment objective is to generate both current income and capital appreciation through debt and equity investments. The Company invests primarily in middle-market companies in the form of senior and junior secured and unsecured debt securities and loans, each of which may include an equity component, and by making direct preferred, common and other equity investments in such companies.

On July 25, 2005, the Company completed a private placement of 35,366,589 shares of its common stock at a price of \$15.00 per share receiving net proceeds of approximately \$529 million. On July 2, 2007, the Company completed an initial public offering through which it sold an additional 10,000,000 shares of its common stock at a price of \$16.00 per share and listed its shares on The NASDAQ Global Select Market.

The accompanying consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

2. Significant accounting policies

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of income and expenses during the reported period. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ and such differences could be material.

The significant accounting policies consistently followed by the Company are as follows:

- (a) Investments for which market quotations are readily available are valued at such market quotations unless they are deemed not to represent fair value. The Company obtains market quotations, when available, from an independent pricing service or one or more broker-dealers or market makers and utilizes the average of the range of bid and ask quotations. Debt and equity securities for which market quotations are not readily available or for which market quotations are deemed not to represent fair value are valued at fair value as determined in good faith by or under the direction of the Company’s Board of Directors. Because the Company expects that there will not be a readily available market for substantially all of the investments in its portfolio, the Company expects to value substantially all of its portfolio investments at fair value as determined in good faith by or under the direction of the Board of Directors using a consistently applied valuation process in accordance with a documented valuation policy that has been reviewed and approved by the Board of Directors. Due to the inherent uncertainty and subjectivity of determining the fair value of investments that do not have a readily available market value, the fair value of the Company’s investments may differ significantly from the values that would have been used had a readily available market value existed for such investments and may differ materially from the values that the Company may ultimately realize. In addition, changes in the market environment and other events may have differing impacts on the market quotations used to value some of the Company’s investments than on the fair values of the Company’s investments for which market quotations are not readily available. Market quotations may be deemed not to represent fair value in certain circumstances where BlackRock Kelso Capital Advisors LLC, the Company’s investment advisor (the “Advisor”), believes that facts and circumstances applicable to an

Table of Contents

issuer, a seller or purchaser or the market for a particular security cause current market quotations to not reflect the fair value of the security. Examples of these events could include cases where a security trades infrequently causing a quoted purchase or sale price to become stale, where there is a “forced” sale by a distressed seller, where market quotations vary substantially among market makers, or where there is a wide bid-ask spread or significant increase in the bid-ask spread.

With respect to the Company’s investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value, the Board of Directors has approved a multi-step valuation process each quarter, as described below:

- (i) The quarterly valuation process begins with each portfolio company or investment being initially evaluated and rated by the investment professionals of the Advisor responsible for the portfolio investment;
- (ii) The investment professionals provide recent portfolio company financial statements and other reporting materials to independent valuation firms engaged by the Board of Directors, such firms conduct independent appraisals each quarter and their preliminary valuation conclusions are documented and discussed with senior management of the Advisor;
- (iii) The audit committee of the Board of Directors reviews the preliminary valuations prepared by the independent valuation firms; and
- (iv) The Board of Directors discusses valuations and determines the fair value of each investment in the portfolio in good faith based on the input of the Advisor, the respective independent valuation firms and the audit committee.

Those investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value are valued utilizing a market approach, an income approach, or both approaches, as appropriate. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts. In following these approaches, the types of factors that the Company may take into account in determining the fair value of its investments include, as relevant and among other factors: available current market data, including relevant and applicable market trading and transaction comparables, applicable market yields and multiples, security covenants, call protection provisions, information rights, the nature and realizable value of any collateral, the portfolio company’s ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons of financial ratios of peer companies that are public, M&A comparables, the Company’s principal market (as the reporting entity) and enterprise values.

Until the end of the second calendar quarter following its acquisition, each unquoted investment in a new portfolio company generally is valued at cost, which the Advisor believes approximates fair value under the circumstances. As of that date, an independent valuation firm conducts an initial independent appraisal of the investment.

Accounting Standards Codification (“ASC”) 820-10, *Fair Value Measurements and Disclosures* (“ASC 820-10”), issued by the Financial Accounting Standards Board (“FASB”), defines fair value, establishes a framework for measuring fair value and requires disclosures about fair value measurements. ASC 820-10 defines fair value as the price that the Company would receive upon selling an investment or pay to transfer a liability in an orderly transaction to a market participant in the principal or most advantageous market for the investment. ASC 820-10 emphasizes that valuation techniques maximize the use of observable market inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from

[Table of Contents](#)

sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances.

Level 1—Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.

Level 2—Valuations based on unadjusted quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3—Valuations based on inputs that are unobservable and significant to the overall fair value measurement. The inputs into the determination of fair value may require significant management judgment or estimation.

Transfers between levels, if any, represent the value as of the beginning of the period of any investment where a change in the pricing level occurred from the beginning to the end of the period.

The Company's valuation policy and fair value disclosures are consistent with ASC 820-10. The Company evaluates the source of inputs, including any markets in which its investments are trading, in determining fair value and categorizes each investment within the fair value hierarchy pursuant to ASC 820-10.

- (b) Cash equivalents include short-term liquid investments in a money market fund.
- (c) Security transactions are accounted for on the trade date unless there are substantial conditions to the purchase.
- (d) Gains or losses on the disposition of investments are calculated using the specific identification method.
- (e) Interest income is recorded on an accrual basis and includes amortization of premiums and accretion of discounts. Discounts and premiums to par value on securities purchased are accreted/amortized into interest income over the life of the respective security. Premiums and discounts are determined based on the cash flows expected to be received for a particular investment upon maturity.

Dividend income is recorded on an accrual basis to the extent that the Company expects to collect such amounts. For loans and securities with payment-in-kind ("PIK") income, which represents contractual interest or dividends accrued and added to the principal balance and generally due at maturity, PIK income is accrued only to the extent that the Advisor believes that the PIK income is likely to be collected.

Structuring service fees, origination, closing, commitment and other upfront fees are generally non-recurring and are recognized as revenue when earned. In instances where the Company does not perform significant services in connection with the related investment, fees paid to the Company in these situations may be deferred and amortized over the estimated life of the loan.

Upon the prepayment of a loan or debt security, any prepayment penalties and unamortized loan origination, structuring, closing, commitment and other upfront fees are recorded as interest income.

Expenses are recorded on an accrual basis.

- (f) The Company has elected to be taxed as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs.

In order to qualify for favorable tax treatment as a RIC, the Company is required to distribute annually to its stockholders at least 90% of its investment company taxable income, as defined by the Code. To avoid federal excise taxes, we must distribute annually at least 98% of our ordinary income and 98.2% of net capital gains from the current year and any undistributed ordinary income and net capital gains from the preceding years. The Company, at its discretion, may carry forward taxable income in excess of calendar year distributions and pay a 4% excise tax on this income. If the Company chooses to do so, all other things being equal, this would increase expenses and reduce the amount available to be distributed to stockholders. The Company will accrue excise tax on estimated excess taxable income as required.

Table of Contents

In accordance with GAAP, book and tax basis differences relating to distributions to stockholders and other permanent book and tax differences are reclassified to capital in excess of par. In addition, the character of income and gains to be distributed is determined in accordance with income tax regulations that may differ from GAAP.

- (g) Dividends and distributions to common stockholders are recorded on the ex-dividend date. The amount to be paid out as a dividend is determined by the Board of Directors. Net realized capital gains, if any, generally are distributed at least annually, although the Company may decide to retain such capital gains for investment.

The Company has adopted a dividend reinvestment plan that provides for reinvestment of distributions on behalf of stockholders, unless a stockholder elects to receive cash. As a result, if the Board of Directors authorizes, and the Company declares, a cash dividend, then stockholders who have not “opted out” of the dividend reinvestment plan will have their cash dividends automatically reinvested in additional shares of Common Stock, rather than receiving the cash dividends.

- (h) Foreign currency amounts are translated into United States dollars on the following basis:

- (i) market value of investment securities, other assets and liabilities—at the spot exchange rate on the last business day of the period; and
- (ii) purchases and sales of investment securities, income and expenses—at the rates of exchange prevailing on the respective dates of such transactions, income or expenses.

Although net assets and fair values are presented based on the applicable foreign exchange rates described above, the Company does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in fair values of investments held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

Investments denominated in foreign currencies and foreign currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. dollar.

- (i) Debt issuance costs are amortized over the term of the related debt using the straight line method.
- (j) The Company records registration expenses related to its shelf registration statement and related SEC filings as prepaid assets. These expenses are charged as a reduction of capital upon utilization, in accordance with ASC 946, *Financial Services—Investment Companies*.
- (k) Loans or debt securities are placed on non-accrual status, as a general matter, when principal or interest payments are past due 30 days or more or when there is reasonable doubt that principal or interest will be collected. Accrued interest generally is reversed when a loan or debt security is placed on non-accrual status. Interest payments received on non-accrual loans or debt securities may be recognized as income or applied to principal depending upon management’s judgment. Non-accrual loans and debt securities are restored to accrual status when past due principal and interest is paid and, in management’s judgment, are likely to remain current. The Company may make exceptions to this treatment if the loan has sufficient collateral value and is in the process of collection.
- (l) The Company discloses subsequent events in accordance with ASC 855-10, *Subsequent Events* (“ASC 855-10”), which provides guidance to establish general standards of accounting for and disclosures of events that occur after the balance sheet date but before consolidated financial statements are issued or are available to be issued and ASU 2010-09, *Amendments to Certain Recognition and Disclosure Requirements*, which amends ASC 855-10 to clarify that an SEC filer is not required to disclose the date through which subsequent events have been evaluated in the consolidated financial statements. See Note 14.
- (m) The accompanying consolidated financial statements include the accounts of the Company and its subsidiaries, which were established to hold certain investments of the Company. The Company owns 100% of each subsidiary and, as such, the subsidiaries are consolidated into the Company’s consolidated financial

statements. The subsidiaries hold investments which are treated as pass through entities for tax purposes. By investing through these 100% owned subsidiaries the Company is able to elect corporate tax treatment for these entities and thereby create a tax structure that is more advantageous with respect to the RIC status of the Company. Transactions between subsidiaries, to the extent they occur, are eliminated in consolidation.

(n) Recently Issued Accounting Pronouncements:

In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (“ASU 2011-04”), which amends the existing fair value guidance within ASC 820-10. The amendments include: (1) application of the concepts of highest and best use and valuation premise only to measuring the fair value of nonfinancial assets (that is, it does not apply to financial assets or any liabilities), (2) an exception to fair value measurement principles for financial assets and financial liabilities (and derivatives) with offsetting positions in market risks or counterparty credit risk, which allows an entity to measure the fair value of the net risk position, when several criteria are met, (3) extension of the prohibition of a blockage factor application to all fair value measurements, (4) a model for the fair value measurement of instruments classified within an entity’s shareholders’ equity which is consistent with the guidance of measuring the fair value for liabilities, (5) additional disclosures for fair value measurements categorized in Level 3 of the fair value hierarchy: (i) quantitative information about unobservable inputs used, (ii) a description of the valuation processes used by the entity and (iii) a qualitative discussion about the sensitivity of the measurements, (6) disclosure of the level in the fair value hierarchy of assets and liabilities not recorded at fair value but where fair value is disclosed and (7) disclosure of any transfers between Levels 1 and 2 of the fair value hierarchy, not just significant transfers. The provisions of ASU 2011-04 will be effective for the Company on January 1, 2012. Management is evaluating the impact of ASU 2011-04 on the consolidated financial statements.

In December 2011, FASB issued ASU No. 2011-11 “Disclosures about Offsetting Assets and Liabilities.” These common disclosure requirements are intended to help investors and other financial statement users to better assess the effect or potential effect of offsetting arrangements on a portfolio’s financial position. They also improve transparency in the reporting of how companies mitigate credit risk, including disclosure of related collateral pledged or received. In addition, ASU No. 2011-11 facilitates comparison between those entities that prepare their financial statements on the basis of U.S. GAAP and those entities that prepare their financial statements on the basis of IFRS. ASU No. 2011-11 requires entities to disclose both gross and net information about both instruments and transactions eligible for offset in the financial position; and disclose instruments and transactions subject to an agreement similar to a master netting agreement. ASU No. 2011-11 is effective for fiscal years beginning on or after January 1, 2012, and interim periods within those annual periods. Management is currently evaluating the implications of ASU No. 2011-11 and its impact on financial statement disclosures.

3. Agreements and related party transactions

The Company has entered into an Investment Management Agreement (the “Management Agreement”) with the Advisor, under which the Advisor, subject to the overall supervision of the Company’s Board of Directors, manages the day-to-day operations of, and provides investment advisory services to, the Company. For providing these services, the Advisor receives a base management fee (the “Management Fee”) from the Company quarterly in arrears at an annual rate of 2.0% of the Company’s total assets, including any assets acquired with the proceeds of leverage.

For the years ended December 31, 2011, 2010 and 2009, the Advisor earned \$19,841,258, \$16,877,854 and \$18,498,189, respectively, in base management fees under the management agreement.

The Management Agreement provides that the Advisor or its affiliates may be entitled to an incentive management fee (the “Incentive Fee”) under certain circumstances. The determination of the Incentive Fee, as described in more detail below, will result in the Advisor or its affiliates receiving no Incentive Fee payments if returns to Company stockholders do not meet an 8.0% annualized rate of return during the applicable fee

[Table of Contents](#)

measurement period and will result in the Advisor or its affiliates receiving less than the full amount of the Incentive Fee percentage until returns to stockholders exceed an approximate 13.3% annualized rate of return during such period. Annualized rate of return in this context is computed by reference to the Company's net asset value and does not take into account changes in the market price of the Company's common stock.

The Advisor will be entitled to receive the Incentive Fee from us if our performance exceeds a "hurdle rate" during different measurement periods; trailing four quarters' periods (which applies only to the portion of the Incentive Fee based on income); and annual periods (which applies only to the portion of the Incentive Fee based on capital gains).

- The income portion of the Incentive Fee payable for the quarter was determined by reference to the current calendar quarter and the three preceding calendar quarters.
- The term "annual period" means the period beginning on July 1 of each calendar year and ending on June 30 of the next calendar year.

The hurdle rate for each measurement period is 2.0% multiplied by the Company's net asset values at the beginning of each calendar quarter during the measurement period, calculated after giving effect to any distributions that occurred during the measurement period. Each portion of the Incentive Fee is described below.

Quarterly Incentive Fee Based on Income. The Company pays the Advisor an Incentive Fee based on the amount by which (A) aggregate distributions and amounts distributable out of taxable net income (excluding any capital gain and loss) during the period less the amount, if any, by which net unrealized capital depreciation exceeds net realized capital gains during the period exceeds (B) the hurdle rate for the period. The amount of the excess of (A) over (B) described in this paragraph for each period is referred to as the excess income amount.

The portion of the Incentive Fee based on income for each period will equal 50% of the period's excess income amount, until the cumulative Incentive Fee payments for the period equal 20% of the period's income amount distributed or distributable to stockholders as described in clause (A) of the preceding paragraph. Thereafter, the portion of the Incentive Fee based on income for the period will equal 20% of the period's remaining excess income amount.

Annual Incentive Fee Based on Capital Gains. The portion of the Incentive Fee based on capital gains is calculated on an annual basis. For each annual period, the Company pays the Advisor an Incentive Fee based on the amount by which (A) net realized capital gains, if any, to the extent they exceed gross unrealized capital depreciation, if any, occurring during the period exceeds (B) the amount, if any, by which the period's hurdle rate exceeds the amount of income used in the determination of the Incentive Fee based on income for the period. The amount of the excess of (A) over (B) described in this paragraph is referred to as the excess gain amount.

The portion of the Incentive Fee based on capital gains for each period will equal 50% of the period's excess gain amount, until such payments equal 20% of the period's capital gain amount distributed or distributable to stockholders. Thereafter, the portion of the Incentive Fee based on capital gains for the period equals an amount such that the portion of the Incentive Fee payments to the Advisor based on capital gains for the period equals 20% of the period's remaining excess gain amount. The result of this formula is that, if the portion of the Incentive Fee based on income for the period exceeds the period's hurdle, then the portion of the Incentive Fee based on capital gains will be capped at 20% of the capital gain amount.

In calculating whether the portion of the Incentive Fee based on capital gains is payable with respect to any period, the Company accounts for its assets on a security-by-security basis. In addition, the Company uses the "period-to-period" method pursuant to which the portion of the Incentive Fee based on capital gains for any period is based on realized capital gains for the period reduced by realized capital losses and gross unrealized capital depreciation for the period. Based on current interpretations of Section 205(b)(3) of the Investment Advisers Act of 1940 by the SEC and its staff, the calculation of unrealized depreciation for each portfolio

[Table of Contents](#)

security over a period is based on the fair value of the security at the end of the period compared to the fair value at the beginning of the period. Incentive Fees earned in any of the periods described above are not subject to modification or repayment based upon performance in a subsequent period.

For the years ended December 31, 2011, 2010 and 2009, the Advisor earned \$11,878,159, \$15,108,049 and \$16,818,602, respectively, in Incentive Fees from the Company.

The Management Agreement provides that the Company will reimburse the Advisor for costs and expenses incurred by the Advisor for office space rental, office equipment and utilities allocable to the Advisor under the Management Agreement, as well as any costs and expenses incurred by the Advisor relating to any non-investment advisory, administrative or operating services provided by the Advisor to the Company. For the years ended December 31, 2011, 2010 and 2009, the Company incurred \$1,779,734, \$1,622,957 and \$1,466,563, respectively, for such investment advisor expenses under the Management Agreement.

From time to time, the Advisor may pay amounts owed by the Company to third party providers of goods or services. The Company will subsequently reimburse the Advisor for such amounts paid on its behalf. Reimbursements to the Advisor for the years ended December 31, 2011, 2010 and 2009 were \$3,046,228, \$3,240,732 and \$1,978,629, respectively.

No person who is an officer, director or employee of the Advisor and who serves as a Director of the Company receives any compensation from the Company for such services. Directors who are not affiliated with the Advisor receive compensation for their services and reimbursement of expenses incurred to attend meetings.

The Company also has entered into an administration agreement with BlackRock Financial Management, Inc. (the "Administrator") under which the Administrator provides administrative services to the Company. For providing these services, facilities and personnel, the Company reimburses the Administrator for the Company's allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations under the administration agreement, including rent and the Company's allocable portion of the cost of certain of the Company's officers and their respective staffs. For the years ended December 31, 2011, 2010 and 2009, the Company incurred \$968,721, \$587,469 and \$642,993, respectively, for administrative services expenses payable to the Administrator under the administration agreement.

At December 31, 2011 and 2010, cash equivalents of \$7,478,904 and \$1,344,159 consisted of short-term liquid investments in a money market fund managed by an affiliate of the Administrator.

In 2007, the Company's Board of Directors authorized the purchase by the Advisor from time to time in the open market of an indeterminate number of shares of the Company's common stock, in the Advisor's discretion, subject to compliance with the Company's and the Advisor's applicable policies and requirements of law. Pursuant to this authorization, during the year ended December 31, 2009, the Advisor purchased 80,867 shares of the Company's common stock in the open market for \$312,322, including brokerage commissions. There were no such purchases during the years ended December 31, 2011 and 2010.

In March 2011, the Company's Board of Directors authorized the purchase in a private placement of up to 1,000,000 shares of the Company's common stock, by the Advisor in its discretion, subject to compliance with the Company's and the Advisor's applicable policies and requirements of law. Pursuant to this authorization, on March 16, 2011, the Company issued and sold to the Advisor in a private placement 200,000 shares of common stock for \$2,000,000 or \$10.00 per share, which was the closing price of the Company's common stock on The NASDAQ Global Select Market on that date.

At December 31, 2011 and 2010, the Advisor owned and had the right to vote approximately 259,000 and 47,000 shares, respectively, of the Company's common stock, representing less than 1.0% of the total shares outstanding. On such dates, under compensation arrangements for its officers and employees the Advisor owned of record, but did not have the right to vote an additional 275,000 and 426,000 shares, respectively, of the

[Table of Contents](#)

Company's common stock. At December 31, 2011 and 2010, other entities affiliated with the Administrator beneficially owned approximately 6,019,000 and 4,181,000 shares, respectively, of the Company's common stock, representing approximately 8.2% and 5.8% of the total shares outstanding. An entity affiliated with the Administrator has ownership and financial interests in the Advisor.

4. Earnings (loss) per share

The following information sets forth the computation of basic and diluted net increase in net assets per share (earnings per share) resulting from operations for the years ended December 31, 2011, 2010 and 2009.

	Year ended December 31, 2011	Year ended December 31, 2010	Year ended December 31, 2009
Numerator for basic and diluted net increase in net assets per share	\$ 76,920,509	\$ 71,549,561	\$ 67,239,723
Denominator for basic and diluted net increase in net assets per share	73,037,357	62,663,002	55,923,757
Basic/diluted net increase in net assets per share resulting from operations	\$ 1.05	\$ 1.14	\$ 1.20

Diluted net increase in net assets per share resulting from operations equals basic net increase in net assets per share resulting from operations for each year because there were no common stock equivalents outstanding during the above years.

5. Investments

Purchases of investments for the years ended December 31, 2011, 2010 and 2009 totaled \$401,530,203, \$405,956,515 and \$46,757,709, respectively. Proceeds from sales, repayments and other exits of investments for the years ended December 31, 2011, 2010 and 2009 totaled \$249,139,391, \$395,269,097 and \$128,224,448, respectively.

Under the 1940 Act, the Company is required to separately identify non-controlled investments where it owns 5% or more of a portfolio company's outstanding voting securities as investments in "affiliated" companies. In addition, under the 1940 Act, the Company is required to separately identify investments where it owns more than 25% of a portfolio company's outstanding voting securities as investments in "controlled" companies. Detailed information with respect to the Company's non-controlled affiliated and controlled investments is contained in the accompanying consolidated schedule of investments and other consolidated financial statements. The information in the tables below is presented on an aggregated portfolio basis, without segregating the non-controlled non-affiliated, non-controlled affiliated and controlled investment categories.

At December 31, 2011, investments consisted of the following:

	Cost	Fair Value
Senior secured notes	\$ 117,684,004	\$ 113,871,025
Unsecured debt	50,109,481	5,000,000
Subordinated debt	166,936,586	163,038,989
Senior secured loans:		
First lien	212,981,195	209,900,588
Second/other priority lien	451,420,012	445,694,225
Total senior secured loans	664,401,207	655,594,813
Common stock	51,653,041	65,985,605
Limited partnership/limited liability company interests	43,767,132	39,170,742
Equity warrants/options	3,319,218	6,291,268
Total investments	\$ 1,097,870,669	\$ 1,048,952,442

[Table of Contents](#)

At December 31, 2010, investments consisted of the following:

	<u>Cost*</u>	<u>Fair Value*</u>
Senior secured notes	\$ 95,164,161	\$ 88,265,252
Unsecured debt	49,786,740	6,898,385
Subordinated debt	230,083,014	221,369,811
Senior secured loans:		
First lien	153,982,953	143,591,287
Second/other priority lien	340,713,935	301,231,989
Total senior secured loans	494,696,888	444,823,276
Preferred stock	15,190,382	6,595,040
Common stock	68,698,050	83,162,072
Limited partnership/limited liability company interests	29,627,977	23,387,927
Equity warrants/options	2,430,293	5,583,903
Total investments	<u>\$ 985,677,505</u>	<u>\$ 880,085,666</u>

* As indicated in the accompanying schedules of investments, the Company revised its previous presentation of its schedule of investments to incorporate the unearned income into the cost and fair value of the associated portfolio company investments.

The industry composition of the portfolio at fair value at December 31, 2011 and 2010 was as follows:

<u>Industry</u>	<u>December 31,</u>	
	<u>2011</u>	<u>2010</u>
Personal and Other Services	13.1%	13.8%
Healthcare	12.9	10.6
Business Services	9.9	11.8
Financial Services	8.3	4.9
Printing, Publishing and Media	8.1	8.5
Manufacturing	7.6	7.1
Retail	5.2	4.0
Distribution	5.1	6.3
Consumer Products	4.8	7.6
Chemicals	4.4	4.4
Building and Real Estate	4.3	5.2
Electronics	4.1	6.1
Automotive	3.6	4.5
Beverage, Food and Tobacco	3.6	0.8
Containers and Packaging	2.7	3.2
Telecommunications	1.4	—
Transportation	0.5	0.4
Entertainment and Leisure	0.4	0.8
Total	<u>100.0%</u>	<u>100.0%</u>

The geographic composition of the portfolio at fair value at December 31, 2011 was United States 96.0% and Canada 4.0%, and at December 31, 2010 was United States 94.7% and Canada 5.3%. The geographic composition is determined by the location of the corporate headquarters of the portfolio company.

In the normal course of business, the Company invests in securities and enters into transactions where risks exist due to fluctuations in the market (market risk) or failure of the issuer of a security to meet all its obligations (issuer credit risk). The value of securities held by the Company may decline in response to certain events,

[Table of Contents](#)

including those directly involving the issuers whose securities are owned by the Company; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency and interest rate and price fluctuations. Similar to issuer credit risk, the Company may be exposed to counterparty credit risk, or the risk that an entity with which the Company has unsettled or open transactions may fail to or be unable to perform on its commitments. The Company manages counterparty risk by entering into transactions only with counterparties that they believe have the financial resources to honor their obligations and by monitoring the financial stability of those counterparties. Financial assets, which potentially expose the Company to market, issuer and counterparty credit risks, consist principally of investments in portfolio companies. The extent of the Company's exposure to market, issuer and counterparty credit risks with respect to these financial assets is generally approximated by their value recorded in the consolidated statements of assets and liabilities. The Company is also exposed to credit risk related to maintaining all of its cash at a major financial institution.

The Company has investments in lower rated and comparable quality unrated senior and junior secured, unsecured and subordinated debt securities and loans, which are subject to a greater degree of credit risk than more highly rated investments. The risk of loss due to default by the issuer is significantly greater for holders of such securities and loans, particularly in cases where the investment is unsecured or subordinated to other creditors of the issuer.

6. Derivatives

The Company may enter into forward foreign currency contracts from time to time to facilitate settlement of purchases and sales of investments denominated in foreign currencies or to help mitigate the impact that an adverse change in foreign exchange rates would have on the value of the Company's investments denominated in foreign currencies. A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date (usually the security transaction settlement date) at a negotiated forward rate. These contracts are marked-to-market by recognizing the difference between the contract exchange rate and the current market rate as unrealized appreciation or depreciation. Realized gains or losses are recognized when contracts are settled. The Company's forward foreign currency contracts generally have terms of approximately three months. The volume of open contracts at the end of each year is reflective of the typical volume of transactions during each calendar quarter. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts. The Company attempts to limit this risk by dealing with creditworthy counterparties.

At December 31, 2011, details of open forward foreign currency contracts were as follows:

<u>Foreign Currency</u>	<u>Settlement Date</u>	<u>Amount and Transaction</u>	<u>US\$ Value at Settlement Date</u>	<u>US\$ Value at December 31, 2011</u>	<u>Unrealized Appreciation (Depreciation)</u>
Canadian dollar	January 18, 2012	295,000 Purchased	\$ (289,385)	\$ (290,124)	\$ 739
Canadian dollar	January 18, 2012	593,819 Purchased	(587,012)	(584,004)	(3,008)
Canadian dollar	January 18, 2012	24,982,000 Sold	23,465,055	24,569,027	(1,103,972)
Total			<u>\$ 22,588,658</u>	<u>\$ 23,694,899</u>	<u>\$ (1,106,241)</u>

At December 31, 2010, details of open forward foreign currency contracts were as follows:

<u>Foreign Currency</u>	<u>Settlement Date</u>	<u>Amount and Transaction</u>	<u>US\$ Value at Settlement Date</u>	<u>US\$ Value at December 31, 2010</u>	<u>Unrealized Appreciation (Depreciation)</u>
Canadian dollar	January 19, 2011	29,400,000 Sold	\$ 29,166,667	\$ 29,535,112	\$ (368,445)

All realized and unrealized gains and losses on forward foreign currency contracts are included in earnings (changes in net assets) and are reported as separate line items within the Company's consolidated statements of operations. Unrealized gains and losses on forward foreign currency contracts are also reported as separate line items within the Company's consolidated statements of assets and liabilities.

[Table of Contents](#)

The Company holds warrants and options in certain portfolio companies in an effort to achieve additional investment return. In purchasing warrants and options, the Company bears the risk of an unfavorable change in the value of the underlying equity interest. The aggregate fair value of warrants and options at December 31, 2011 and 2010 represents 0.9% and 0.8%, respectively, of the Company's net assets.

The Company may enter into other derivative instruments and incur other exposures with other counterparties in the future.

7. Debt

Under the terms of the Company's amended and restated Senior Secured, Multi-Currency Credit Agreement (the "Credit Facility"), as amended on April 20, 2010, certain lenders agreed to extend credit to the Company in an aggregate principal amount not to exceed \$375,000,000 outstanding, at any one time, consisting of \$275,000,000 of revolving loan commitments and \$100,000,000 of term loan commitments. The Credit Facility is secured by substantially all of the assets in the Company's portfolio, including cash and cash equivalents. Subject to certain exceptions, pricing for outstanding borrowings is at LIBOR plus an applicable spread of either 3.00% or 3.25% for revolving loans, based on a pricing grid using the Company's credit rating, and LIBOR plus 3.00% for term loans. The Credit Facility does not contain a LIBOR floor requirement. At December 31, 2011, the effective LIBOR spread under the Credit Facility was 3.01%. Term loan commitments under the Credit Facility have been fully drawn and, once repaid, may not be reborrowed. The Credit Facility also includes an "accordion" feature that allows the Company, under certain circumstances, to increase the size of the Credit Facility by up to an additional \$275,000,000 of revolving loan commitments and \$250,000,000 of term loan commitments. The Credit Facility is used to supplement the Company's equity capital to make additional portfolio investments and for other general corporate purposes.

At December 31, 2011, the Company had \$168,000,000 drawn on the Credit Facility versus \$170,000,000 at December 31, 2010. Subject to compliance with applicable covenants and borrowing base limitations, the remaining amount available under the Credit Facility was \$207,000,000 at December 31, 2011.

On January 18, 2011, the Company closed a private placement issuance of \$158,000,000 in aggregate principal amount of five-year, senior secured notes with a fixed interest rate of 6.50% and a maturity date of January 18, 2016 and \$17,000,000 million in aggregate principal amount of seven-year, senior secured notes with a fixed interest rate of 6.60% and a maturity date of January 18, 2018 (collectively, the "Senior Secured Notes"). The Senior Secured Notes were sold to certain institutional accredited investors pursuant to an exemption from registration under the Securities Act of 1933, as amended. Interest on the Senior Secured Notes is due semi-annually on January 18 and July 18, commencing on July 18, 2011.

The average debt outstanding during the years ended December 31, 2011, 2010 and 2009 was \$291,353,425, \$205,151,507 and \$397,464,757, respectively. The maximum amounts borrowed during the years ended December 31, 2011, 2010 and 2009 were \$402,000,000, \$314,000,000 and \$434,000,000, respectively.

The weighted average annual interest cost for the years ended December 31, 2011, 2010 and 2009 was 5.23%, 2.41% and 1.53%, respectively, exclusive of commitment fees and of other prepaid expenses related to establishing the Credit Facility and the Senior Secured Notes. With respect to any unused portion of the commitments under the Credit Facility and the Senior Secured Notes, the Company incurs an annual commitment fee of 0.50%. Commitment fees incurred for the years ended December 31, 2011, 2010 and 2009 were \$1,261,681, \$1,223,193 and \$265,385, respectively.

At December 31, 2011, the Company was in compliance with all covenants required under the Credit Facility and the Senior Secured Notes.

8. Capital stock

The following table summarizes the total shares issued and proceeds the Company received net of underwriter and offering costs for offerings closed during year ended December 31, 2010. There were no share offerings during the years ended December 31, 2011 and 2009.

	<u>Shares issued</u>	<u>Offering price per share</u>	<u>Proceeds net of underwriting and offering costs</u>
June 2010 public offering	8,625,000	\$ 10.25	\$ 83,892,007
October 2010 public offering	6,900,000	11.95	78,463,117
Total for the year ended December 31, 2010	<u>15,525,000</u>		<u>\$ 162,355,124</u>

In 2008, the Company's Board of Directors approved a share repurchase plan under which the Company may repurchase up to 2.5 percent of its outstanding shares of common stock from time to time in open market or privately negotiated transactions. In 2009, the Board of Directors approved an extension and increase to the plan which authorized the Company to repurchase up to an additional 2.5 percent of its outstanding shares of common stock. In May 2011, the repurchase plan was further extended through the earlier of June 30, 2012 or until the approved number of shares has been repurchased. During the years ended December 31, 2011 and 2009, the Company purchased a total of 463,828 and 583,572 shares of its common stock on the open market for \$4,050,776 and \$2,234,892, respectively, including brokerage commissions. There were no such purchases during the year ended December 31, 2010. At December 31, 2011, the total number of remaining shares authorized for repurchase was 1,331,143. The Company currently holds the shares it repurchased in treasury.

For the years ended December 31, 2011, 2010 and 2009, dividends and distributions paid to common stockholders were \$80,361,895, \$80,455,656 and \$44,821,419, respectively. For the years ended December 31, 2011, 2010 and 2009, dividends and distributions reinvested pursuant to the Company's dividend reinvestment plan were \$8,021,087, \$5,468,133 and \$9,083,849, respectively.

In June 2010, the Company's stockholders approved an amendment to the Company's Certificate of Incorporation to increase the number of authorized shares of the Company's common stock from 100,000,000 to 200,000,000. The amendment was effective on that date.

9. Guarantees and contingencies

In the normal course of business, the Company may enter into guarantees on behalf of portfolio companies. Under these arrangements, the Company would be required to make payments to third parties if the portfolio companies were to default on their related payment obligations. The Company has no such guarantees outstanding at December 31, 2011. The Company's only such guarantee outstanding at December 31, 2010 was terminated on January 17, 2011 with no payments having been made thereunder.

In the normal course of business, the Company enters into contractual agreements that provide general indemnifications against losses, costs, claims and liabilities arising from the performance of individual obligations under such agreements. The Company has had no prior claims or payments pursuant to such agreements. The Company's individual maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred. However, based on management's experience, the Company expects the risk of loss to be remote.

From time to time, the Company may be a party to certain legal proceedings incidental to the normal course of its business, including the enforcement of the Company's rights under contracts with its portfolio companies. While the Company cannot predict the outcome of these legal proceedings with certainty, it does not expect that these proceedings will have a material effect on its consolidated financial statements.

10. Fair value of financial instruments

The carrying values of the Company's financial instruments approximate fair value. The carrying values of receivables, other assets, accounts payable and accrued expenses approximate fair value due to their short maturities. The carrying and fair values of the Company's Credit Facility payable were \$168,000,000 and \$157,080,000 at December 31, 2011 and \$170,000,000 and \$169,150,000 at December 31, 2010, respectively. The carrying and fair values of the Company's Secured Senior Notes were \$175,000,000 and \$180,815,000 at December 31, 2011, respectively. The carrying and fair values of the Company's total debt outstanding were therefore \$343,000,000 and 337,895,000 at December 31, 2011, respectively.

The following tables summarize the fair values of the Company's investments, forward foreign currency contracts and cash and cash equivalents based on the inputs used at December 31, 2011 and 2010 in determining such fair values:

	Fair Value at December 31, 2011	Fair Value Inputs at December 31, 2011		
		Price Quotations (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Senior secured notes	\$ 113,871,025	\$ —	\$ —	\$ 113,871,025
Unsecured debt	5,000,000	—	—	5,000,000
Subordinated debt	163,038,989	—	—	163,038,989

Cash and cash equivalents	2,160,871	2,160,871	—	—
Total	<u>\$881,878,092</u>	<u>\$2,160,871</u>	<u>\$ (368,445)</u>	<u>\$880,085,666</u>

[Table of Contents](#)

In determining the fair values of the Company's forward foreign currency contracts at December 31, 2011 and 2010, the Company used unadjusted indicative price quotations for similar assets (Level 2). The following tables summarize the valuation techniques used at December 31, 2011 and 2010 in determining the fair values of the Company's investments for which significant unobservable inputs (Level 3) were used:

	Valuation Techniques at December 31, 2011		
	Fair Value at December 31, 2011	Broker Quote(s) for Identical or Similar Assets	Market Approach, Income Approach or Both, Utilizing Third- Party Valuation Firms
Senior secured notes	\$ 113,871,025	\$ —	\$ 113,871,025
Unsecured debt	5,000,000	—	5,000,000

11. Consolidated financial highlights

The following per share data and ratios have been derived from information provided in the consolidated financial statements. The following is a schedule of consolidated financial highlights for a common share outstanding for each of the five years in the period ended December 31, 2011.

	Year ended December 31, 2011	Year ended December 31, 2010	Year ended December 31, 2009	Year ended December 31, 2008	Year ended December 31, 2007
Per Share Data:					
Net asset value, beginning of year	\$ 9.62	\$ 9.55	\$ 9.23	\$ 13.78	\$ 14.93
Net investment income	1.00	0.96	1.36	1.76	1.66
Net realized and unrealized gain (loss)	0.05	0.18	(0.16)	(4.54)	(1.31)
Total from investment operations	1.05	1.14	1.20	(2.78)	0.35
Dividend distributions to stockholders from:					
Net investment income	(0.81)	(1.28)	(0.80)	(1.71)	(1.68)
Net realized gains	—	—	—	(0.01)	(0.01)
Tax return of capital	(0.29)	—	—	—	—
Total dividend distributions	(1.10)	(1.28)	(0.80)	(1.72)	(1.69)
Issuance of stock at prices above (below) net asset value	0.01	0.35	(0.13)	(0.11)	0.38
Offering costs	—	(0.14)	—	—	(0.19)
Purchases of treasury stock at prices below net asset value.	—	—	0.05	0.06	—
Net increase (decrease) in net assets	(0.04)	0.07	0.32	(4.55)	(1.15)
Net asset value, end of year	<u>\$ 9.58</u>	<u>\$ 9.62</u>	<u>\$ 9.55</u>	<u>\$ 9.23</u>	<u>\$ 13.78</u>
Market price, end of year(1)	<u>\$ 8.16</u>	<u>\$ 11.06</u>	<u>\$ 8.52</u>	<u>\$ 9.86</u>	<u>\$ 15.28</u>
Total return(2)	(16.03)%	48.40%	(5.86)%	(23.88)%	3.41%
Ratios / Supplemental Data:					
Ratio of operating expenses to average net assets(3)	5.55%	6.05%	7.94%	4.41%	4.60%
Ratio of credit facility related expenses to average net assets	2.67%	1.35%	1.35%	2.96%	3.04%
Ratio of total expenses to average net assets(3)	8.22%	7.40%	9.29%	7.37%	7.64%
Ratio of net investment income to average net assets	10.22%	9.68%	14.47%	14.56%	11.16%
Net assets, end of year	\$ 701,008,849	\$ 698,479,924	\$ 539,562,762	\$ 510,295,501	\$ 728,191,869
Average debt outstanding	\$ 291,353,425	\$ 205,151,507	\$ 397,464,757	\$ 453,241,284	\$ 313,057,645
Weighted average shares outstanding	73,037,357	62,663,002	55,923,757	54,043,069	45,714,141
Average debt per share(4)	\$ 3.99	\$ 3.27	\$ 7.11	\$ 8.39	\$ 6.85
Portfolio turnover	26%	49%	14%	11%	31%

Figures may not foot due to rounding.

- (1) The Company's common stock commenced trading on The NASDAQ Global Select Market on June 27, 2007. There was no established public trading market for the stock prior to that date.
- (2) For the years ended December 31, 2011, 2010, 2009 and 2008, total return is based on the change in market price during the respective years. For the year ended December 31, 2007, total return is based on the change in net asset value per common share during the year. The total return for the period June 26, 2007 through December 31, 2007 based on the change in market price per common share during such period was 1.18%. Total return calculations take into account dividends and distributions, if any, reinvested in accordance with the Company's dividend reinvestment plan and do not reflect brokerage commissions. Total return is not annualized.
- (3) Through June 30, 2007, certain base management fee waivers were in effect. For the year ended December 31, 2007, the ratio of operating expenses before management fee waiver to average net assets was 4.90%, and the ratio of total expenses before management fee waiver to average net assets was 7.94%.
- (4) Average debt per share is calculated as average debt outstanding divided by the weighted average shares outstanding during the applicable period.

12. Federal tax information

Dividends from net investment income and distributions from net realized capital gains are determined in accordance with U.S. federal income tax regulations, which may differ from those amounts determined in accordance with GAAP. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent, they are charged or credited to paid-in-capital or accumulated net realized gain (loss), as appropriate, in the period that the differences arise. The following temporary and permanent differences at December 31, 2011 and 2010 primarily attributable to differences in the tax treatment of certain loans, the tax characterization of income from partnership investments, foreign currency transactions, non-deductible expenses and differences in accounting for upfront fees (which are treated as taxable income when received and may be accreted over the life of the respective investment for financial reporting purposes), were reclassified for tax purposes as follows:

	December 31, 2011	December 31, 2010
Paid-in capital in excess of par	\$ (6,266)	\$ (224,036)
Undistributed (distributions in excess of) net investment income	\$ (35,785,123)	\$ (2,888,423)
Accumulated net realized loss	\$ 35,791,389	\$ 3,112,459

The following reconciles net increase in net assets resulting from operations to taxable income for the years ended December 31, 2011 and 2010:

	December 31, 2011	December 31, 2010
Net increase in net assets resulting from operations	\$ 76,920,509	\$ 71,549,561
Net unrealized appreciation not taxable	(53,935,094)	(101,935,495)
Deferral of late year capital loss	10,280,211	23,613,827
Reversal of prior year post-October capital loss	(38,046,992)	(28,594,710)
Deferral of late year ordinary loss	—	733,702
Reversal of prior year post-October ordinary loss	(733,702)	(1,008,793)
Section 1256 currency contracts mark-to-market	(1,106,241)	(368,445)
Reversal of prior year Section 1256 currency contracts mark-to-market	368,445	(203,998)
Current year net capital losses	54,717,578	95,856,015
Taxable interest income on non-accrual loans	—	(1,046,547)
Taxable upfront fees reported, net of book amortization	(4,314,213)	5,985,578
Losses not currently taxable	2,330	(78,363)
Losses recognized on prior year exchange	(12,460,285)	—
Other book/tax differences	(217,100)	(1,062,826)
Non-deductible excise and other taxes	6,190	298,322
Amortization of organizational costs	(3,804)	(3,804)
Taxable income before deductions for distributions	<u>\$ 31,477,832</u>	<u>\$ 63,734,024</u>

Taxable income generally differs from the change in net assets resulting from operations for financial reporting purposes due to temporary and permanent differences in the recognition of income and expenses, and generally excludes net unrealized appreciation or depreciation, as gains or losses are not included in taxable income until they are realized.

At December 31, 2011, the cost of investments for tax purposes was \$1,130,655,822 resulting in net unrealized depreciation of \$(81,703,380), which was comprised of gross unrealized appreciation and depreciation of \$64,399,117 and \$(146,102,497), respectively. At December 31, 2010, the cost of investments for tax purposes was \$1,050,058,918, resulting in net unrealized depreciation of \$(169,973,252), which was comprised of gross unrealized appreciation and depreciation of \$48,185,710 and \$(218,158,962), respectively.

Table of Contents

At December 31, 2011 and 2010, the components of accumulated net losses on a tax basis and reconciliation to accumulated net losses on a book basis were as follows:

	Year ended December 31, 2011	Year ended December 31, 2010
Undistributed ordinary income—net	\$ —	\$ 8,885,367
Net unrealized depreciation	(51,999,958)	(105,935,052)
Deferred late year capital loss	(10,280,211)	(23,613,827)
Section 1256 currency contracts mark-to-market	1,106,241	368,445
Deferred late year ordinary loss	—	(733,702)
Differences between book and tax loss on investments	(40,475,352)	(53,518,710)
Dividends payable	(19,040,586)	—
Capital loss carry forward	(159,639,490)	(104,921,912)
Upfront fees adjustments	(8,199,031)	(12,513,316)
Wash sales on investments	(2,322)	—
Expenses not currently deductible	(32,335)	(36,135)
Net income from limited liability companies	15,891,560	1,650,613
Total accumulated losses—net, book basis	<u>\$ (272,671,484)</u>	<u>\$ (290,368,229)</u>

For the tax year ended December 31, 2011, the Company had a net capital loss carry forward of \$159,639,490, which can be used to offset future capital gains. If not utilized against future gains, \$9,065,897 expires in 2017 and \$95,856,015 expires in 2018. The remaining \$54,717,578 of this capital loss carry forward will not be subject to expiration and must be utilized prior to the losses subject to expiration.

As a RIC, the Company is subject to a non-deductible federal excise tax of 4% if it does not distribute at least 98% of its ordinary income, excluding net short-term capital gains, in any calendar year; 98.2% of its capital gains in excess of capital losses for each one-year period ended October 31; and any ordinary income and net capital gains for preceding years that were not distributed during such years. For the calendar year ended December 31, 2010, the Company did not distribute at least 98% of its ordinary income and capital gains and paid the 4% excise tax. Accordingly, for the years ended December 31, 2011 and 2010, a provision was recorded for federal excise taxes of zero and \$298,322, respectively.

For income tax purposes, distributions paid to stockholders are reported as ordinary income, non-taxable (return of capital), capital gains, or a combination thereof. The tax character of distributions paid or declared during the years ended December 31, 2011, 2010 and 2009, respectively, was as follows:

Year ended	Ordinary income	Amount per share*	Long- term capital gain	Amount per share*	Return of Capital	Amount per share*	Deferred Dividend**	Amount per share*	Total distributions	Total amount per share*
December 31, 2011	\$40,189,444	\$ 0.55	\$ —	\$ —	\$21,131,865	\$ 0.29	\$19,040,586	\$ 0.26	\$ 80,361,895	\$ 1.10
December 31, 2010	\$80,455,656	\$ 1.28	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 80,455,656	\$ 1.28
December 31, 2009	\$44,714,904	\$ 0.80	\$106,515	\$ 0.00	\$ —	\$ —	\$ —	\$ —	\$ 44,821,419	\$ 0.80

* Rounded to the nearest \$0.01.

** Deferred to the subsequent taxable year.

ASC 740-10, *Income Taxes* (“ASC 740-10”) clarifies the accounting for income taxes by prescribing the minimum recognition threshold an uncertain tax position is required to meet before tax benefits associated with such uncertain tax position are recognized in the consolidated financial statements. Based on its analysis of its tax position, the Company has concluded that it does not have any uncertain tax positions that met the recognition or measurement criteria of ASC 740-10.

Item 26. Marketing arrangements

The information contained under the heading "Plan of Distribution" in this Registration Statement is incorporated herein by reference and any information concerning any underwriters for a particular offering will be contained in a prospectus supplement related to that offering.

Item 27. Other expenses of issuance and distribution

The following table sets forth the estimated expenses to be incurred in connection with the offering described in this registration statement:

SEC registration fee	\$ 174,150
NASDAQ Global Select Market listing fee	187,500
Printing (other than certificates)	875,000
Accounting fees and expenses	250,000
Legal fees and expenses	625,000
FINRA fee	75,500
Miscellaneous fees and expenses	18,750
Total	<u>\$ 2,205,900</u>

All of the expenses set forth above shall be borne by the Registrant.

[Table of Contents](#)

Item 28. Persons controlled by or under common control with the registrant

The following list sets forth each of the companies considered to be “controlled” by us as defined by the Investment Company Act of 1940.

As of December 31, 2011:

	<u>% of Voting Securities owned</u>
American SportWorks LLC (Delaware)	80.2%
Bankruptcy Management Solutions, Inc. (Delaware)	32.5%
BKC ARS Blocker, Inc. (Delaware)	100.0%
BKC ASW Blocker, Inc. (Delaware)	100.0%
BKC CSP Blocker, Inc. (Delaware)	100.0%
BKC DVSH Blocker, Inc. (Delaware)	100.0%
BKC MTCH Blocker, Inc. (Delaware)	100.0%
ECI Holdco, Inc. (Delaware)	26.0%

Item 29. Number of holders of shares

As of February 29, 2012:

<u>Title of Class</u>	<u>Number of Record Holders</u>
Common Stock, \$0.001 par value	343

Item 30. Indemnification

The information contained under the heading “Description of Our Capital Stock” is incorporated herein by reference.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended (the “Securities Act”) may be permitted to directors, officers and controlling persons of the Registrant pursuant to the provisions described above, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person in the successful defense of an action suit or proceeding) is asserted by a director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is again public policy as expressed in the Act and will be governed by the final adjudication of such issue.

The Registrant carries liability insurance for the benefit of its directors and officers (other than with respect to claims resulting from the willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his or her office) on a claims-made basis.

We may agree to indemnify any underwriters or agents against specified liabilities for actions taken in their capacities as such, including liabilities under the Securities Act.

Item 31. Business and other connections of investment advisor

A description of any other business, profession, vocation or employment of a substantial nature in which the Advisor, and each managing director, director or executive officer of the Advisor, is or has been during the past two fiscal years, engaged in for his or her own account or in the capacity of director, officer, employee, partner or trustee, is set forth in Part A of this Registration Statement in the section entitled "The Advisor." Additional information regarding the Advisor and its officers and directors is set forth in its Form ADV, as filed with the Securities and Exchange Commission (SEC File No. 000-51327), and is incorporated herein by reference.

Item 32. Location of accounts and records

The Registrant's accounts, books and other documents are currently located at the offices of the Registrant, c/o BlackRock Kelso Capital Advisors LLC, 40 East 52nd Street, New York, NY 10022 and at the offices of the Registrant's Custodian, Transfer Agent, Sub-Administrator and Accounting Agent, BNY Mellon Investment Servicing Trust Company, 8800 Tincum Boulevard, 3rd Floor, Philadelphia, PA 19153 and BNY Investment Servicing (U.S.) Inc., 301 Bellevue Parkway, Wilmington, DE 19809, respectively.

Item 33. Management services

Not Applicable.

Item 34. Undertakings

(1) The Registrant hereby undertakes to suspend the offering of the securities until it amends its prospectus if (a) subsequent to the effective date of its registration statement, the net asset value declines more than 10 percent from its net asset value as of the effective date of the Registration Statement or (b) the net asset value increases to an amount greater than its net proceeds as stated in the prospectus.

(2) The Registrant undertakes:

(a) to file, during any period in which offers or sales are being made, a post-effective amendment to this Registration Statement:

(i) to include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) to reflect in the prospectus any facts or events arising after the effective date of this Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in this Registration Statement;

(iii) to include any material information with respect to the plan of distribution not previously disclosed in this Registration Statement or any material change to such information in the Registration Statement;

(b) that, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of those securities at that time shall be deemed to be the initial bona fide offering thereof;

(c) to remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering;

(d) that, for the purpose of determining liability under the Securities Act of 1933 to any purchaser, if the Registrant is subject to Rule 430C [17 CFR 230.430C]: Each prospectus filed pursuant to Rule 497(b), (c), (d) or (e) under the Securities Act of 1933 [17 CFR 230.497(b), (c), (d) or (e)] as part of a registration statement relating to an offering, other than prospectuses filed in reliance on Rule 430A under the Securities

[Table of Contents](#)

Act of 1933 [17 CFR 230.430A], shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness, *provided, however*, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use;

(e) that for the purpose of determining liability of the Registrant under the Securities Act of 1933 to any purchaser in the initial distribution of securities: The undersigned Registrant undertakes that in a primary offering of securities of the undersigned Registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned Registrant will be a seller to the purchaser and will be considered to offer or sell such securities to the purchaser:

(i) any preliminary prospectus or prospectus of the undersigned Registrant relating to the offering required to be filed pursuant to Rule 497 under the Securities Act of 1933 [17 CFR 230.497];

(ii) the portion of any advertisement pursuant to Rule 482 under the Securities Act of 1933 [17 CFR 230.482] relating to the offering containing material information about the undersigned Registrant or its securities provided by or on behalf of the undersigned Registrant;

(iii) any other communication that is an offer in the offering made by the undersigned Registrant to the purchaser;

(f) to file, at the time of each offering of securities, appropriate legality opinions by post-effective amendment to the registration statement;

(g) to file a post-effective amendment to the registration statement with respect to any offering of units; and

(h) to file a post-effective amendment to the registration statement with respect to any rights offering.

[Table of Contents](#)

The agreements included or incorporated by reference as exhibits to this registration statement contain representations and warranties by each of the parties to the applicable agreement. These representations and warranties were made solely for the benefit of the other parties to the applicable agreement and (i) were not intended to be treated as categorical statements of fact, but rather as a way of allocating the risk to one of the parties if those statements prove to be inaccurate; (ii) may have been qualified in such agreement by disclosures that were made to the other party in connection with the negotiation of the applicable agreement; (iii) may apply contract standards of “materiality” that are different from “materiality” under the applicable securities laws; and (iv) were made only as of the date of the applicable agreement or such other date or dates as may be specified in the agreement. The Company acknowledges that, notwithstanding the inclusion of the foregoing cautionary statements, it is responsible for considering whether additional specific disclosures of material information regarding material contractual provisions are required to make the statements in this registration statement not misleading.

Ladies and Gentlemen:

We have acted as special counsel to BlackRock Kelso Capital Corporation, a Delaware corporation (the "Company"), in connection with the Registration Statement on Form N-2 filed by the Company with the Securities and Exchange Commission (the "Commission") on September 16, 2011, under the Securities Act of 1933, as amended (the "Securities Act"), as amended by pre-effective Amendment No. 1 thereto (the "Registration Statement"). The Registration Statement relates to the issuance and sale from time to time, pursuant to Rule 415 of the General Rules and Regulations promulgated under the Securities Act, of an unspecified amount of securities of the Company, consisting of: (i) shares of the Company's common stock, par value \$0.001 per share (the "Common Stock"); (ii) shares of the Company's preferred stock, par value \$0.001 per share, to be issued in one or more series (the "Preferred Stock"); (iii) senior or subordinated debt securities of the Company (the "Debt Securities"), to be issued in one or more series under the indenture proposed to be entered into between the Company and The Bank of New York, as trustee (the "Trustee"), the form of which has been incorporated by reference as an exhibit to the Registration Statement (the "Indenture"); (iv) warrants (the "Warrants") to purchase Common Stock, Preferred Stock or Debt Securities as shall be designated by the Company at the time of the offering issued pursuant to one or more warrant agreements (each, a "Warrant Agreement") proposed to be entered into between the Company and warrant agents to be named (each, a "Warrant Agent"); (v) subscription rights to purchase Common Stock (the "Subscription Rights") which may be issued under one or more subscription rights certificates (each, a "Subscription Rights Certificate") and/or pursuant to one or more subscription rights agreements (each, a "Subscription Rights Agreement") proposed to be entered into between the Company and subscription agents to be named (each, a "Subscription Agent"); and (vi) units, which may be comprised of one or more of Common Stock, Preferred Stock, Debt Securities, Warrants or Subscription Rights, in any combination, and may also include debt obligations of third parties, such as U.S. Treasury securities (the "Units"). The Common Stock, Preferred Stock, Debt Securities, Warrants, Subscription Rights and Units are collectively referred to herein as the "Offered Securities."

This opinion is being furnished in accordance with the requirements of sub paragraph (l) of item 25.2 of part C of Form N-2.

In rendering the opinions set forth herein, we have examined and relied on originals or copies of: (i) the Registration Statement; (ii) the Certificate of Incorporation of the Company, as amended to date (the "Certificate of Incorporation"); (iii) the By-laws of the Company, as amended to date (the "By-Laws"); (iv) the form of the Indenture; and (v) certain resolutions of the Board of Directors of the Company (the "Board of Directors") relating to the issuance, sale and registration of the Offered Securities.

We have also examined originals or copies, certified or otherwise identified to our satisfaction, of such records of the Company and such agreements, certificates and receipts of public officials, certificates of officers or other representatives of the Company and others, and such other documents as we have deemed necessary or appropriate as a basis for the opinions set forth below.

In our examination, we have assumed the legal capacity of all natural persons, the genuineness of all signatures, the authenticity of all documents submitted to us as originals, the conformity to original documents of all documents submitted to us as facsimile, electronic, certified or photostatic copies, and the authenticity of the originals of such copies. In making our examination of executed documents or documents to be executed, we have assumed that the parties thereto, other than the Company, had or will have the power, corporate or other, to enter into and perform all obligations thereunder and have also assumed the due authorization by all requisite action, corporate or other, and the execution and delivery by such parties of such documents and the validity and binding effect thereof on such parties. We have assumed that each of the Indenture, Warrant Agreements and Subscription Agreements have been or will be duly authorized, executed and delivered by the Trustee, Warrant Agents or Subscription Agents, as the case may be, and that any Debt Securities, Warrants or Subscription Rights that may be issued will be manually signed or countersigned, as the case may be, by duly authorized officers of the Trustee, Warrant Agents or the Subscription Agents, as the case may be.

As to any facts material to the opinions expressed herein that we did not independently establish or verify, we have relied upon statements and representations of officers and other representatives of the Company and others and of public officials.

We have assumed that the terms of the Offered Securities will have been established so as not to, and that the execution and delivery by the Company of, and the performance of its obligations under, the Offered Securities, will not, violate, conflict with, constitute a default under or require (i) any agreement or instrument to which the Company is subject, (ii) any law, rule or regulation to which the Company is subject, (iii) any judicial or regulatory order or decree of any governmental authority or (iv) any consent, approval, license, authorization or validation of, or filing, recording or registration with any governmental authority.

Our opinions set forth herein are limited to the General Corporation Law of the State of Delaware (the "DGCL") and those laws of the State of New York that, in our experience, are normally applicable to transactions of the type contemplated by the Registration Statement and, to the extent that judicial or regulatory orders or decrees or consents, approvals, licenses, authorizations, validations, filings, recordings or registrations with governmental authorities are relevant, to those required under such laws (all of the foregoing being referred to as "Opined on Law"). We do not express any opinion with respect to the law of any jurisdiction other than Opined on Law or as to the effect of any such non-Opined on Law on the opinions herein stated. The Offered Securities may be issued from time to time on a delayed or continuous basis, and this opinion is limited to the laws, including the rules and regulations, as in effect on the date hereof, which laws are subject to change with possible retroactive effect.

Based upon the foregoing, and subject to the limitations, qualifications, exceptions and assumptions stated herein, we are of the opinion that:

1. With respect to any shares of Common Stock to be offered by the Company pursuant to the Registration Statement (the "Offered Common Stock"), when (i) the Registration Statement, as finally amended (including all necessary post-effective amendments), has become effective under the Securities Act, (ii) an appropriate prospectus supplement or term sheet with respect to the Offered Common Stock has been prepared, delivered and filed in compliance with the Securities Act and the applicable rules and regulations thereunder, (iii) if the Offered Common Stock is to be sold pursuant to a firm commitment underwritten offering, the underwriting agreement with respect to the Offered Common Stock has been duly authorized, executed and delivered by the Company and the other parties thereto, (iv) the Board of Directors, including any appropriate committee appointed thereby, and appropriate officers of the Company have taken all necessary corporate action to approve the issuance of the Offered Common Stock, the consideration to be received therefor and related matters, (v) the terms of the issuance and sale of the Offered Common Stock have been duly established in conformity with the Certificate of Incorporation and the By-Laws so as not to violate any applicable law, the Certificate of Incorporation or the By-Laws or result in a default under or breach of any agreement or instrument binding upon the Company and so as to comply with any requirement or restriction imposed by any court or governmental body having jurisdiction over the Company and (vi) certificates in the form required under the DGCL representing the Offered Common Stock are duly executed, countersigned, registered and delivered upon payment of the agreed upon consideration therefor, the shares of Offered Common Stock (including any shares of Common Stock duly issued upon conversion, exchange or exercise of any Debt Securities, Warrants, Preferred Stock or Subscription Rights registered on the Registration Statement), when issued and sold in accordance with the applicable underwriting agreement with respect to the Offered Common Stock or any other duly authorized, executed and delivered valid and binding purchase or agency agreement, or upon due conversion, exercise or exchange of any Debt Securities, Warrants, Preferred Stock, or Subscription Rights, as the case may be, will be duly authorized, validly issued, fully paid and nonassessable, provided that the consideration therefor is not less than \$0.001 per share of Common Stock.

2. With respect to any shares of Preferred Stock to be offered by the Company pursuant to the Registration Statement (the "Offered Preferred Stock"), when (i) the Registration Statement, as finally amended (including all necessary post-effective amendments), has become effective under the Securities Act, (ii) an appropriate prospectus supplement or term sheet with respect to the Offered Preferred Stock has been prepared, delivered and filed in compliance with the Securities Act and the applicable rules and regulations thereunder, (iii) if the Offered Preferred Stock is to be sold pursuant to a firm commitment underwritten offering, the underwriting agreement with respect to the Offered Preferred Stock has been duly authorized, executed and delivered by the Company and the other parties thereto, (iv) the Board of Directors, including any appropriate committee appointed thereby, and appropriate officers of the Company have taken all necessary corporate action to fix and determine the terms of the Offered Preferred Stock, and the consideration to be received therefor and related matters, including the adoption of a Certificate of Designation for the Offered Preferred Stock in the form required by the DGCL, (v) such Certificate of Designation has been duly filed with the Secretary of State for the State of Delaware, (vi) the terms of the issuance and sale of the Offered Preferred Stock have been duly established in conformity with the Certificate of Incorporation, including the Certificate of Designations relating to the Offered Preferred Stock, and the By-Laws so as not to violate any applicable law, the Certificate of Incorporation or the By-Laws or result in a default under or breach of any agreement or instrument binding upon the Company and so as to comply with any requirement or restriction imposed by any court or governmental body having jurisdiction over the Company and (vii) certificates in the form required under the DGCL representing the Offered Preferred Stock are duly executed, countersigned, registered and delivered upon payment of the agreed upon consideration therefor, the Offered Preferred Stock (including any shares of Preferred Stock duly issued upon conversion, exchange or exercise of any Debt Securities, Warrants, Preferred Stock or Subscription Rights registered on the Registration Statement), when issued and sold in accordance with the applicable underwriting agreement with respect to the Offered Preferred Stock or any other duly authorized, executed and delivered valid and binding purchase or agency agreement, or upon due conversion, exercise or exchange of any Debt Securities, Warrants, Preferred Stock or Subscription Rights, as the case may be, will be duly authorized, validly issued, fully paid and nonassessable, provided that the consideration therefor is not less than \$0.001 per share of Preferred Stock.

3. With respect to any series of Debt Securities to be offered by the Company pursuant to the Registration Statement (the “Offered Debt Securities”), when (i) the Registration Statement, as finally amended (including all necessary post-effective amendments), has become effective under the Securities Act and the Indenture has been qualified under the Trust Indenture Act of 1939, as amended (the “Trust Indenture Act”), (ii) an appropriate prospectus supplement or term sheet with respect to the Offered Debt Securities has been prepared, delivered and filed in compliance with the Securities Act and the applicable rules and regulations thereunder, (iii) if the Offered Debt Securities are to be sold pursuant to a firm commitment underwritten offering, the underwriting agreement with respect to the Offered Debt Securities has been duly authorized, executed and delivered by the Company and the other parties thereto, (iv) the Board of Directors, including any appropriate committee appointed thereby, and appropriate officers of the Company have taken all necessary corporate action to approve the issuance and terms of the Offered Debt Securities and related matters, (v) the Indenture and any supplemental indenture in respect of such Offered Debt Securities have been duly executed and delivered by each party thereto, (vi) the Statement of Eligibility and Qualification on Form T-1 under the Trust Indenture Act of the Trustee has been duly filed as an exhibit to the Registration Statement, (vii) the terms of the Offered Debt Securities and of their issuance and sale have been duly established in conformity with the Indenture and any supplemental indenture to be entered into in connection with the issuance of such Offered Debt Securities, so as not to violate any applicable law, the Certificate of Incorporation or the By-Laws or result in a default under or breach of any agreement or instrument binding upon the Company and so as to comply with any requirement or restriction imposed by any court or governmental body having jurisdiction over the Company, and (viii) the Offered Debt Securities have been issued in a form that complies with the Indenture and have been duly executed and authenticated in accordance with the provisions of the Indenture and any supplemental indenture to be entered into in connection with the issuance of such Offered Debt Securities and duly delivered to the purchasers thereof upon payment of the agreed-upon consideration therefor, the Offered Debt Securities (including any Debt Securities duly issued upon conversion of any Debt Securities), when issued and sold in accordance with the Indenture, any supplemental indenture to be entered into in connection with the issuance of such Offered Debt Securities and the applicable underwriting agreement, if any, or any other duly authorized, executed and delivered valid and binding purchase or agency agreement, will be valid and binding obligations of the Company, enforceable against the Company in accordance with their respective terms, except to the extent that enforcement thereof may be limited by (a) bankruptcy, insolvency, reorganization, fraudulent conveyance, moratorium or other similar laws now or hereafter in effect relating to creditors’ rights generally, (b) general principles of equity (regardless of whether enforceability is considered in a proceeding at law or in equity), (c) public policy considerations which may limit the rights of parties to obtain remedies, and (d) the waivers of any usury defense contained in the Indenture or Offered Debt Securities that may be unenforceable.

4. With respect to any series of Warrants to be offered by the Company pursuant to the Registration Statement (the “Offered Warrants”), when (i) the Registration Statement, as finally amended (including all necessary post-effective amendments), has become effective under the Act; (ii) an appropriate prospectus supplement or term sheet with respect to the Offered Warrants has been prepared, delivered and filed in compliance with the Act and the applicable rules and regulations thereunder; (iii) if the Offered Warrants are to be sold pursuant to a firm commitment underwritten offering, the underwriting agreement with respect to the Offered Warrants has been duly authorized, executed and delivered by the Company and the other parties thereto; (iv) the Board of Directors, including any appropriate committee appointed thereby, and appropriate officers of the Company have taken all necessary corporate action to approve the issuance and terms of the Offered Warrants, the Warrant Agreement and related matters; (v) the terms of the Offered Warrants and of their issuance and sale have been duly established in conformity with the applicable Warrant Agreement so as not to violate any applicable law, the Certificate of Incorporation or By-laws or result in a default under or breach of any agreement or instrument binding upon the Company and so as to comply with any requirement or restriction imposed by any court or governmental body having jurisdiction over the Company and the applicable Warrant Agent; (vi) the Common Stock or the Preferred Stock relating to such Offered Warrants have been duly authorized for issuance and paid for in the manner contemplated in the Registration Statement and any prospectus supplement relating thereto; (vii) the Offered Warrants have been duly executed, delivered, countersigned, issued and sold in accordance with the provisions of the applicable Warrant Agreement to be filed on a Current Report on Form 8-K in the manner contemplated in the Registration Statement or any prospectus supplement or term sheet relating thereto, the Offered Warrants (including any Warrants duly issued upon conversion, exchange or

exercise of any Debt Securities or Preferred Stock), when issued and sold in accordance with the applicable Warrant Agreement and the applicable purchase agreement or any other duly authorized, executed and delivered valid and binding purchase or agency agreement, will be valid and binding obligations of the Company, enforceable against the Company in accordance with their respective terms, except to the extent that enforcement thereof may be limited by (a) bankruptcy, insolvency, reorganization, fraudulent conveyance, moratorium or other similar laws now or hereafter in effect relating to creditors' rights generally and (b) general principles of equity (regardless of whether enforceability is considered in a proceeding at law or in equity).

5. With respect to any Subscription Rights to be offered by the Company pursuant to the Registration Statement (the "Offered Subscription Rights"), when (i) the Registration Statement, as finally amended (including all necessary post-effective amendments), has become effective under the Act; (ii) an appropriate prospectus supplement or term sheet with respect to the Offered Subscription Rights has been prepared, delivered and filed in compliance with the Act and the applicable rules and regulations thereunder; (iii) if the Offered Subscription Rights are to be sold pursuant to a firm commitment underwritten offering, the underwriting agreement with respect to the Offered Subscription Rights has been duly authorized, executed and delivered by the Company and the other parties thereto; (iv) the Board of Directors, including any appropriate committee appointed thereby, and appropriate officers of the Company have taken all necessary corporate action to approve the issuance and terms of the Offered Subscription Rights, the Subscription Rights Agreement and related matters, including setting forth the terms of the Subscription Rights in a Subscription Rights Certificate; (v) the terms of the Offered Subscription Rights and of their issuance and sale have been duly established in conformity with the applicable Subscription Rights Agreement, Subscription Rights Certificate, the Certificate of Incorporation and the By-laws of the Company, so as not to violate any applicable law, the Certificate of Incorporation or By-laws or result in a default under or breach of any agreement or instrument binding upon the Company and so as to comply with any requirement or restriction imposed by any court or governmental body having jurisdiction over the Company and the applicable Subscription Agent; (vi) the Common Stock relating to such Offered Subscription Rights has been duly authorized for issuance; and (vii) the Offered Subscription Rights have been duly executed, delivered, countersigned, issued and sold in accordance with the provisions of the applicable Subscription Rights Agreement and Subscription Rights Certificate to be filed on a Current Report on Form 8-K in the manner contemplated in the Registration Statement or any prospectus supplement or term sheet relating thereto, the Offered Subscription Rights, when issued and sold in accordance with the applicable Subscription Rights Agreement, Subscription Rights Certificate and the applicable purchase agreement or any other duly authorized, executed and delivered valid and binding purchase or agency agreement, will be valid and binding obligations of the Company, enforceable against the Company in accordance with their respective terms, except to the extent that enforcement thereof may be limited by (a) bankruptcy, insolvency, reorganization, fraudulent conveyance, moratorium or other similar laws now or hereafter in effect relating to creditors' rights generally and (b) general principles of equity (regardless of whether enforceability is considered in a proceeding at law or in equity).

6. With respect to any Units to be offered by the Company pursuant to the Registration Statement (the "Offered Units"), when (i) the Registration Statement, as finally amended (including all necessary post-effective amendments), has become effective under the Act; (ii) an appropriate prospectus supplement or term sheet with respect to the Offered Units has been prepared, delivered and filed in compliance with the Act and the applicable rules and regulations thereunder; (iii) if the Offered Units are to be sold pursuant to a firm commitment underwritten offering, the underwriting agreement with respect to the Offered Units has been duly authorized, executed and delivered by the Company and the other parties thereto; (iv) the Board of Directors, including any appropriate committee appointed thereby, and appropriate officers of the Company have taken all necessary corporate action to approve the issuance and terms of the Offered Units, the applicable Units Agreement and related matters; (v) the terms of the Offered Units and of their issuance and sale have been duly established in conformity with the applicable Units Agreement, the Certificate of Incorporation and the By-laws of the Company, so as not to violate any applicable law, the Certificate of Incorporation or By-laws or result in a default under or breach of any agreement or instrument binding upon the Company and so as to comply with any requirement or restriction imposed by any court or governmental body having jurisdiction over the Company; (vi) the Common Stock, Preferred Stock, Debt Securities, Warrants and Subscription Rights relating to such Offered Units has been duly authorized for issuance; and (vii) the Offered Units have been duly executed,

delivered, countersigned, issued and sold in accordance with the provisions of the applicable Units Agreement in the manner contemplated in the Registration Statement or any prospectus supplement or term sheet relating thereto, the Offered Units, when issued and sold in accordance with the applicable Units Agreement or any other duly authorized, executed and delivered valid and binding purchase or agency agreement, will be valid and binding obligations of the Company, enforceable against the Company in accordance with their respective terms, except to the extent that enforcement thereof may be limited by (a) bankruptcy, insolvency, reorganization, fraudulent conveyance, moratorium or other similar laws now or hereafter in effect relating to creditors' rights generally, (b) general principles of equity (regardless of whether enforceability is considered in a proceeding at law or in equity), (c) public policy considerations which may limit the rights of parties to obtain remedies, and (d) the waivers of any usury defense contained in any Indenture or Debt Securities relating to the Offered Units that may be unenforceable.

We hereby consent to the filing of this opinion with the Commission as an exhibit to the Registration Statement. We also consent to the reference to our firm under the caption "Legal Matters" in the prospectus which forms part of the Registration Statement. In giving this consent, we do not thereby admit that we are included in the category of persons whose consent is required under Section 7 of the Securities Act or the rules and regulations of the Commission. This opinion is expressed as of the date hereof unless otherwise expressly stated, and we disclaim any undertaking to advise you of any subsequent changes in the facts stated or assumed herein or of any subsequent changes in applicable laws.

Very truly yours,

/s/ Skadden, Arps, Slate, Meagher & Flom LLP

CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We consent to the use in this Registration Statement on Form N-2 of our report dated March 1, 2012 relating to the consolidated financial statements of BlackRock Kelso Capital Corporation appearing in the Prospectus, which is part of this Registration Statement, and to the references to us under the headings “Selected Financial Data” and “Senior Securities” in such Prospectus.

/s/ Deloitte & Touche LLP

New York, New York

March 21, 2012

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
BlackRock Kelso Capital Corporation:

We have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated statements of assets and liabilities of BlackRock Kelso Capital Corporation (the "Company"), including the consolidated schedules of investments, as of December 31, 2011 and 2010, and the related consolidated statements of operations, changes in net assets, and cash flows for each of the three years ended December 31, 2011 and the financial highlights for each of the five years in the period then ended, and have issued our report on those consolidated financial statements and consolidated financial highlights dated March 1, 2012. Such financial statements and financial highlights and our report thereon are included in the Company's annual report on Form 10-K for the year ended December 31, 2011 and in the Prospectus, which is part of this Registration Statement on Form N-2 (the "Prospectus").

We have also previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated statements of assets and liabilities of the Company as of December 31, 2009, 2008, and 2007, and the related consolidated statements of operations, changes in net assets, and cash flows for the years ended December 31, 2008 and 2007 (none of which are presented herein); and we expressed unqualified opinions on those financial statements. In our opinion, the information set forth under the heading "Senior Securities" as of December 31, 2011, 2010, 2009, 2008, and 2007, appearing on page 55 of the Prospectus, is fairly stated, in all material respects, in relation to the financial statements from which it has been derived.

/s/ Deloitte & Touche LLP

New York, New York
March 21, 2012

The information in this preliminary prospectus supplement is not complete and may be changed. A registration statement relating to these securities has been filed with the Securities and Exchange Commission. This preliminary prospectus supplement is not an offer to sell nor does it seek an offer to buy these securities in any jurisdiction where the offer or sale is not permitted.

BLACKROCK KELSO CAPITAL CORPORATION

Shares

Common Stock

\$ per Share

BlackRock Kelso Capital Corporation is an externally-managed, non-diversified closed-end management investment company. We have elected to be regulated as a business development company under the Investment Company Act of 1940. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in middle-market companies in the form of senior and junior secured, unsecured and subordinated debt securities and loans, each of which may include an equity component, and by making direct preferred, common and other equity investments in such companies.

We are offering for sale shares of our common stock. [We have granted the underwriters a -day option to purchase up to additional shares of our common stock at the public offering price, less underwriting discounts and commissions, to cover over-allotments. See "Underwriting" beginning on page S- of this prospectus supplement for more information regarding this offering.]

Our common stock is traded on The NASDAQ Global Select Market under the symbol "BKCC." The last reported closing price for our common stock on was \$ per share. The net asset value per share of our common stock at (the last date prior to the date of this prospectus supplement on which we determined net asset value) was .

This prospectus supplement and the accompanying prospectus set forth important information you should know before investing in our securities. Please read it before you invest and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information about us with the Securities and Exchange Commission, or the SEC. This information is available free of charge by contacting us at 40 East 52nd Street, New York, New York 10022, or by telephone at (212) 810-5800 or on our website at www.blackrockkelso.com/InvestorRelations. The SEC also maintains a website at www.sec.gov that contains such information free of charge.

Investing in our securities involves a high degree of risk, including the risk of the use of leverage. Before investing in our securities, you should read the discussion of the material risks of investing in the Company in "Risks" beginning on page of the accompanying prospectus.

Prospectus Supplement dated , 20

(1) In addition to the sections outlined in this form of prospectus supplement, each prospectus supplement actually used in connection with an offering conducted pursuant to the registration statement to which this form of prospectus supplement is attached will be updated to include such other information as may then be required to be disclosed therein pursuant to applicable law or regulation as in effect as of the date of each such prospectus supplement, including, without limitation, information particular to the terms of each security offered thereby and any related risk factors or tax considerations pertaining thereto. This form of prospectus supplement is intended only to provide a rough approximation of the nature and type of disclosure that may appear in any actual prospectus supplement used for the purposes of offering securities pursuant to the registration statement to which this form of prospectus supplement is attached, and is not intended to and does not contain all of the information that would appear in any such actual prospectus supplement, and should not be used or relied upon in connection with any offer or sale of securities.

You should rely only on the information contained in this prospectus supplement and the accompanying prospectus, which we sometimes refer to collectively as the “prospectus.” We have not, and the underwriters have not, authorized anyone to provide you with additional information, or information different from that contained in this prospectus supplement and the accompanying prospectus. If anyone provides you with different or additional information, you should not rely on it. We are offering to sell, and seeking offers to buy, securities only in jurisdictions where offers and sales are permitted. The information contained in or incorporated by reference in this prospectus supplement and the accompanying prospectus is accurate only as of the date of this prospectus supplement or such prospectus, respectively. Our business, financial condition, results of operations and prospects may have changed since then. This prospectus supplement supersedes the accompanying prospectus to the extent it contains information that is different from or in addition to the information in the accompanying prospectus.

PROSPECTUS

TABLE OF CONTENTS

[Insert table of contents from base prospectus]

THE COMPANY

This summary highlights some of the information in this prospectus supplement. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under “Risks” in the accompanying prospectus and the other information included in this prospectus supplement and the accompanying prospectus. Throughout this prospectus supplement and the accompanying prospectus, except where the context suggests otherwise, we refer to BlackRock Kelso Capital Corporation as the “Company,” “BlackRock Kelso,” “we,” “us” or “our.”

General

We provide middle-market companies with flexible financing solutions, including senior and junior secured, unsecured and subordinated debt securities and loans, and equity securities. Our strategy is to provide capital to meet our clients’ current and future needs across this spectrum, creating long-term partnerships with growing middle-market companies.

We are organized as an externally-managed, non-diversified, closed-end management investment company. We have elected to be regulated as a business development company, or BDC, under the Investment Company Act of 1940, which we refer to as the 1940 Act. In addition, for tax purposes we intend to continue to qualify as a regulated investment company, or RIC, under the Internal Revenue Code of 1986, which we refer to as the Code.

Our investment objective is to generate both current income and capital appreciation through our debt and equity investments. We invest primarily in middle-market companies and target investments throughout the capital structure that we believe provide an attractive risk-adjusted return. The term “middle-market” refers to companies with annual revenues typically between \$50 million and \$1 billion. Our targeted investment typically ranges between \$10 million and \$50 million, although the investment sizes may be more or less than the targeted range and the size of our investments may grow with our capital availability. We generally seek to invest in companies that operate in a broad variety of industries and that generate positive cash flows.

Although most of our investments are in senior and junior secured, unsecured and subordinated loans to U.S. private and certain public middle-market companies, we invest throughout the capital structure, which may include common and preferred equity, options and warrants, credit derivatives, high-yield bonds, distressed debt and other structured securities. We may from time-to-time invest up to 30% of our assets opportunistically in other types of investments, including securities of other public companies and foreign securities.

The senior and junior secured loans in which we invest generally have stated terms of three to ten years and the subordinated debt investments we make generally have stated terms of up to ten years, but the expected average life of such senior and junior secured loans and subordinated debt is generally between three and seven years. However, we may invest in securities of any maturity or duration. The debt that we invest in typically is not initially rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade (rated lower than “Baa3” by Moody’s Investors Service, lower than “BBB-” by Fitch Ratings or lower than “BBB-” by Standard & Poor’s). We may invest without limit in debt of any rating, as well as debt that has not been rated by any nationally recognized statistical rating organization.

We were incorporated on April 13, 2005, commenced operations with private funding on July 25, 2005, and completed our initial public offering on July 2, 2007. Since the commencement of our operations, the team of investment professionals of BlackRock Kelso Capital Advisors LLC (the “Advisor” or “BlackRock Kelso Capital Advisors”), including our senior management, has evaluated more than investment opportunities and completed investments, aggregating approximately \$ billion in capital provided to middle-market companies through , 20 .

During the ended , 20 , we invested \$ million across new and existing portfolio companies. This compares to investing \$ million across new and existing portfolio companies for the ended , 20 . Sales, repayments and other exits of investment principal totaled \$ million during the ended , 20 , versus \$ million during the ended , 20 .

At , 20 , our net portfolio consisted of portfolio companies and was invested % in senior secured loans, % in unsecured or subordinated debt securities, % in equity investments, % in senior secured notes and % in cash and cash equivalents. This compares to our portfolio of companies that was invested % in senior secured loans, % in unsecured or subordinated debt securities, % in senior secured notes, % in equity investments and less than % in cash and cash equivalents at , 20 . Our average portfolio company investment at amortized cost was approximately \$ million at , 20 , versus \$ million at , 20 .

The weighted average yields of the debt and income producing equity securities in our portfolio at fair value were % at , 20 and % at , 20 . The weighted average yields on our senior secured loans and other debt securities at fair value were % and %, respectively, at , 20 , versus % and % at , 20 . The weighted average yields of the debt and income producing equity securities in our portfolio at their current cost basis were % at , 20 and % at , 20 . The weighted average yields on our senior secured loans and other debt securities at their current cost basis were % and %, respectively, at , 20 , versus % and % at , 20 .

BlackRock Kelso Capital Advisors

Our investment activities are managed by the Advisor. The Advisor is responsible for sourcing potential investments, conducting research on prospective investments, analyzing investment opportunities, structuring our investments, and monitoring our investments and portfolio companies on an ongoing basis. The Advisor is led by James R. Maher, Chairman and Chief Executive Officer of the Company and the Advisor, and Michael B. Lazar, Chief Operating Officer of the Company and the Advisor. They are supported by the Advisor's team of employees, including investment professionals who have extensive experience in commercial lending, investment banking, accounting, corporate law and private equity investing.

The Advisor has an investment committee comprised of members, including Messrs. Maher and Lazar and several executives of BlackRock, Inc. ("BlackRock") and several of the principals of Kelso & Company, L.P. (the "Kelso Principals"). We benefit from the extensive and varied relevant experience of the BlackRock executives and the Kelso Principals serving on the Advisor's investment committee.

BlackRock is a leader in investment management, risk management and advisory services for institutional and retail clients worldwide. At , 20 , BlackRock's assets under management were \$ trillion.

The Kelso Principals have an average tenure of at least years at Kelso & Company, L.P. ("Kelso"). Kelso is a leading private equity firm and since 1980 has raised over \$ billion of committed private equity capital, investing primarily in middle-market companies across a broad range of industries and through different economic and interest rate environments. Through our relationship with the Kelso Principals, we have access to these management teams who can provide unique insight into the industries in which they operate. Although the Kelso Principals who serve on the investment committee bring the benefit of the expertise they have gained at Kelso and elsewhere, Kelso as an organization does not participate in the activities of the Advisor or advise us.

Our executive officers and directors and the employees of the Advisor and members of its investment committee serve or may serve as investment advisors, officers, directors or principals of entities or investment funds that operate in the same or a related line of business as we do and/or investment funds managed by our affiliates. We note that any affiliated investment vehicle currently formed or formed in the future and managed by the Advisor or its affiliates may have overlapping investment objectives with our own and, accordingly, may

invest in asset classes similar to those targeted by us. As a result, the Advisor and/or its affiliates may face conflicts in allocating investment opportunities between us and such other entities. Accordingly, we may not be given the opportunity to participate in certain investments made by investment funds managed by advisors affiliated with the Advisor. However, the Advisor and its affiliates will endeavor to allocate investment opportunities in a fair and equitable manner and consistent with applicable allocation procedures. In any such case, if the Advisor forms other affiliates in the future, we may co-invest on a concurrent basis with such other affiliates, subject to compliance with applicable regulations and regulatory guidance, as well as applicable allocation procedures. In certain circumstances, negotiated co-investments may be made only if we receive an order from the SEC permitting us to do so.

Administration

BlackRock, through its subsidiary, BlackRock Financial Management, Inc. (the “Administrator”), serves as our administrator and provides us with office space, equipment and office services. The Administrator processes our financial records, assists in the preparation of reports to our stockholders and reports filed with the SEC and generally monitors the payment of our expenses.

Company Information

Our administrative and executive offices are located at 40 East 52nd Street, New York, NY 10022, and our telephone number is (212) 810-5800.

RECENT DEVELOPMENTS

[Insert description at time of offering.]

FEES AND EXPENSES

The following table will assist you in understanding the various costs and expenses that an investor in shares of our common stock will bear directly or indirectly. However, we caution you that some of the percentages indicated in the table below are estimates and may vary. The following table should not be considered a representation of our future expenses. Actual expenses may be greater or less than shown. Except where the context suggests otherwise, whenever this prospectus supplement contains a reference to fees or expenses paid by “you” or “us” or that “we” will pay fees or expenses, stockholders will indirectly bear such fees or expenses as investors in the Company.

Stockholder Transaction Expenses (as a Percentage of Offering Price)

Sales Load	%(1)
Offering Expenses	%(2)
Total Common Stockholder Expenses	%(3)

Estimated Annual Expenses (as Percentage of Net Assets Attributable to Common Shares)(4)

Management Fees	%(5)
Incentive Fees Payable Under the Investment Management Agreement	%(6)
Interest Payments on Borrowed Funds	%(7)
Other Expenses	%(8)
Total Annual Expenses	%(9)

- (1) Represents the estimated underwriting discounts and commissions with respect to the shares to be sold by us in this offering.
- (2) Amount reflects estimated offering expenses of approximately \$ and based on the shares offered in this offering at the public offering price of \$ per share.
- (3) The expenses of our dividend reinvestment plan are included in “Other Expenses.”
- (4) “Net Assets Attributable to Common Shares” equals our net assets at , 20 , plus the anticipated net proceeds from this offering.
- (5) Our management fee is 2.0% of our total assets, payable quarterly in arrears based on our total assets at the beginning of the quarter. See “The Advisor—Investment management agreement” in the accompanying prospectus for additional information regarding our investment management agreement.
- (6) These Incentive Fees are based on actual amounts incurred during the year ended , 20 , as our Incentive Fees are currently expected to be concentrated in the fourth quarter of each year. However, the Incentive Fee is based on our performance, will vary from year to year and will not be paid unless our performance exceeds certain thresholds. As we cannot predict whether we will meet these thresholds, the Incentive Fee paid in future years, if any, may be substantially different than the fee incurred during the year ended , 20 . For more detailed information about the Incentive Fee, please see the section of the accompanying prospectus captioned “The Advisor—Investment management agreement” and Note 3 to our financial statements included elsewhere in this prospectus supplement.
- (7) “Interest Payments on Borrowed Funds” represents interest and credit facility fees incurred and amortization of debt issuance costs during the months ended , 20 [annualized for a full year]. Our average outstanding debt balance during the months ended , 20 was approximately \$ million. The Credit Facility allows us to increase commitments thereunder up to an additional \$ million. In addition, on January 18, 2011 we issued \$158 million of Senior Secured Notes with an interest rate of 6.50% and a maturity date of January 18, 2016 and \$17 million of Senior Secured Notes with an interest rate of 6.60% and a maturity date of January 18, 2018. As a result, our interest payments on borrowed funds as a percentage of net assets attributable to common shares may increase.

- (8) "Other Expenses" includes our overhead expenses, including expenses of the Advisor reimbursable under the investment management agreement and of the Administrator reimbursable under the administration agreement. Such expenses are based on actual other expenses for the _____ months ended _____, 20____ [annualized for a full year].
- (9) "Total Annual Expenses" as a percentage of net assets attributable to common stock are higher than the total annual expenses percentage would be for a company that is not leveraged. We borrow money to leverage our net assets and increase our total assets. The SEC requires that the "Total Annual Expenses" percentage be calculated as a percentage of net assets (defined as total assets less indebtedness), rather than total assets, including assets that have been funded with borrowed monies. If the "Total Annual Expenses" percentage were calculated instead as a percentage of total assets, as of _____, 20____ plus anticipated net proceeds from this offering, our "Total Annual Expenses" would be _____% of total assets. For a presentation and calculation of total annual expenses based on total assets see page S-_____ of this prospectus supplement.

Example

The following example illustrates the projected dollar amount of total cumulative expenses that you would pay on a \$1,000 hypothetical investment in common shares, assuming (1) a _____% sales load (underwriting discounts and commissions) and offering expenses totaling _____%, (2) total net annual expenses of _____% of net assets attributable to common shares as set forth in the table above (other than Incentive Fees), and (3) a 5% annual return:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Total Expenses Incurred	\$ _____	\$ _____	\$ _____	\$ _____

This example and the expenses in the table above should not be considered a representation of our future expenses. Actual expenses may be greater or less than those assumed. The foregoing table is to assist you in understanding the various costs and expenses that an investor in our common stock will bear directly or indirectly. While the example assumes, as required by the SEC, a 5% annual return, our performance will vary and may result in a return greater or less than 5%. Assuming a 5% annual return, the Incentive Fee under the investment management agreement would not be earned or payable and is not included in the example. If we achieve sufficient returns on our investments, including through the realization of capital gains, to trigger an Incentive Fee of a material amount, our expenses, and returns to our investors, would be higher. In addition, while the example assumes reinvestment of all dividends and distributions at net asset value, participants in our dividend reinvestment plan will receive a number of shares of our common stock, determined by dividing the total dollar amount of the dividend payable to a participant by 95% of the market price per share of our common stock at the close of trading on the valuation date for the dividend. See "Dividend Reinvestment Plan" in the accompanying prospectus for additional information regarding our dividend reinvestment plan.

SELECTED FINANCIAL DATA

The Statement of Operations Data, Per Share Data and Balance Sheet Data for each of the five years in the period ended December 31, 20 are derived from our financial statements which have been audited by Deloitte & Touche LLP, our independent registered public accounting firm. [Quarterly financial information is derived from unaudited financial data, but in the opinion of management, reflects all adjustments (consisting only of normal recurring adjustments) that are necessary to present fairly the results of such interim periods. Interim results at and for the and months ended , 20 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 20 .]

This selected financial data should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” set forth in this prospectus supplement and our financial statements and related notes thereto included elsewhere in this prospectus supplement, as well as “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Senior Securities” and our financial statements and the related notes thereto included in the accompanying prospectus.

(1) The base management fee waiver terminated on June 30, 2007.

(2) Our common stock commenced trading on The NASDAQ Global Select Market on June 27, 2007. There was no established public trading market for the stock prior to that date.

(3) For the and months ended , 20 and , 20 and the years ended December 31, 20 and , total return is based on the change in market price during the respective periods. For the years ended prior to December 31, 20 , total return is based on the change in net asset value per common share during the respective year. The total return for the period June 26, 2007 through December 31, 2007 based on the change in market price per common share during such period was 1.2%. Total return calculations take into account dividends and distributions, if any, reinvested in accordance with our dividend reinvestment plan and do not reflect brokerage commissions. Total return is not annualized.

- (4) Yield on investments at period end represents the weighted average yield on the debt and income producing equity securities in our portfolio at their current cost basis. Yields are computed using interest rates and dividend yields as of the balance sheet date and include amortization of loan origination and commitment fees, original issue discount and market premium or discount based on the expected cash flows of the respective portfolio investment. Yields exclude common equity investments, preferred equity investments with no stated dividend rate, short-term investments, cash and cash equivalents.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement, and other statements that we may make, may contain forward-looking statements with respect to future financial or business performance, strategies or expectations. Forward-looking statements are typically identified by words or phrases such as “trend,” “opportunity,” “pipeline,” “believe,” “comfortable,” “expect,” “anticipate,” “current,” “intention,” “estimate,” “position,” “assume,” “potential,” “outlook,” “continue,” “remain,” “maintain,” “sustain,” “seek,” “achieve” and similar expressions, or future or conditional verbs such as “will,” “would,” “should,” “could,” “may” or similar expressions.

Forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made, and we assume no duty to and do not undertake to update forward-looking statements. Actual results could differ materially from those anticipated in forward-looking statements and future results could differ materially from historical performance.

In addition to factors previously identified elsewhere in this prospectus supplement, including the “Risks” section of the accompanying prospectus, the following factors, among others, could cause actual results to differ materially from forward-looking statements or historical performance:

- our future operating results;
- our business prospects and the prospects of our portfolio companies;
- the impact of investments that we expect to make;
- our contractual arrangements and relationships with third parties;
- the dependence of our future success on the general economy and its impact on the industries in which we invest;
- the ability of our portfolio companies to achieve their objectives;
- our expected financings and investments;
- the adequacy of our cash resources and working capital, including our ability to obtain continued financing on favorable terms;
- the timing of cash flows, if any, from the operations of our portfolio companies;
- the impact of increased competition;
- the ability of the Advisor to locate suitable investments for us and to monitor and administer our investments;
- potential conflicts of interest in the allocation of opportunities between us and other investment funds managed by the Advisor or its affiliates;
- the ability of the Advisor to attract and retain highly talented professionals;
- fluctuations in foreign currency exchange rates;
- regulatory changes and other changes in law; and
- the impact of changes to tax legislation and, generally, our tax position.

The forward-looking statements in this prospectus supplement are excluded from the safe harbor protection provided by Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934.

USE OF PROCEEDS

We estimate that the net proceeds from the sale of the _____ shares of our common stock that we are offering, after deducting estimated expenses of this offering payable by us, will be approximately \$ _____ million [(or \$ _____ million, if the over-allotment is exercised in full)] based on a public offering price of \$ _____ per share.

[Describe use of proceeds and include any other relevant information to the extent required to be disclosed by applicable law or regulation.]

PRICE RANGE OF COMMON STOCK

Our common stock has been quoted on The NASDAQ Global Select Market under the symbol “BKCC” since June 27, 2007. The following table lists the high and low closing bid price for our common stock, the closing bid price as a percentage of NAV, and quarterly dividends per share for the last two completed fiscal years and the current fiscal year through ,20 . On , 20 , the last reported closing price of our common stock was \$ per share.

	<u>Closing Sales Price</u>			<u>Premium/ Discount of High Sales Price to NAV(2)</u>	<u>Premium/ Discount of Low Sales Price to NAV(2)</u>	<u>Declared Dividends</u>
	<u>NAV(1)</u>	<u>High</u>	<u>Low</u>			
Year Ending December 31, 20						
First Quarter	\$	\$	\$	%	%	\$
Second Quarter	\$	\$	\$	%	%	\$
Third Quarter	\$	\$	\$	%	%	\$
Fourth Quarter (through)	\$	\$	\$	%	%	\$
Year Ending December 31, 20						
First Quarter	\$	\$	\$	%	%	\$
Second Quarter	\$	\$	\$	%	%	\$
Third Quarter	\$	\$	\$	%	%	\$
Fourth Quarter	\$	\$	\$	%	%	\$
Year Ending December 31, 20						
First Quarter	\$	\$	\$	%	%	\$
Second Quarter	\$	\$	\$	%	%	\$
Third Quarter	\$	\$	\$	%	%	\$
Fourth Quarter	\$	\$	\$	%	%	\$

(1) NAV per share is determined as of the last day in the relevant quarter and therefore may not reflect the NAV per share on the date of the high and low sales prices. The NAVs shown are based on outstanding shares at the end of each period.

(2) Calculated as of the respective high or low closing sales price divided by the quarter end NAV.

* Net asset value has not yet been calculated for this period.

** Dividend has not yet been declared for this quarter.

Our common stock recently has traded at prices both above and below our most recently calculated net asset value. There can be no assurance, however, that our shares will trade above, below or at our net asset value.

In August 2008, our Board of Directors approved a share repurchase plan under which we may repurchase up to 2.5 percent of our outstanding shares of common stock from time to time in open market or privately negotiated transactions. In May 2009, our Board of Directors approved an extension and increase to the plan which authorized us to repurchase up to an additional 2.5 percent of our outstanding shares of common stock. In May 2011, our Board of Directors approved an extension of our share repurchase plan to June 30, 2012. During the year ended , 20 , we purchased a total of shares of our common stock on the open market for \$, including brokerage commissions. During the year ended , 20 , we purchased a total of shares of our common stock on the open market for \$, including brokerage commissions. At , 20 , the total number of remaining shares authorized for repurchase was . We currently hold the shares we repurchased in treasury. Notice is hereby given in accordance with Section 23 of the 1940 Act that from time to time we may purchase shares of our common stock in the open market at prevailing market prices.

We intend to pay quarterly dividends to our common stockholders. The amount of our quarterly dividend is determined by our board of directors. On _____, 20____, our Board of Directors declared a dividend of \$ _____ per share, payable on _____ to stockholders of record at the close of business on _____.

There can be no assurance that we will achieve investment results or maintain a tax status that will permit any particular level of dividend payment. Our Credit Facility may limit our ability to declare dividends if we default under certain provisions. For a description of the Credit Facility, see "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this prospectus supplement and Note 7 to our financial statements included elsewhere in this prospectus supplement.

CAPITALIZATION

The following table sets forth our cash and capitalization as of _____, 20____ (1) on an actual basis and (2) as adjusted to reflect the effects of the sale of _____ shares of our common stock in this offering at an offering price of \$ _____ per share. You should read this table together with “Use of Proceeds” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” set forth in this prospectus supplement and our financial statements and notes thereto, as well as “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our financial statements and notes thereto included in the accompanying prospectus.

	As of _____, 20____	As Adjusted for this Offering(1)(4)
	Actual	
	(Dollars in thousands, except per share data)	
Cash and cash equivalents	\$	\$
Total assets	\$	\$
Borrowings under Credit Facility	\$	\$
Common stock, par value \$0.001 per share; _____ shares authorized, issued and _____ outstanding, _____ shares issued and outstanding, as adjusted, respectively(2)	\$	\$
Capital in excess of par value	\$	\$
Distributable earnings(3)	\$	\$
Treasury stock	\$	\$
Total stockholders’ equity	\$	\$
Total capitalization	\$	\$

- (1) Does not include the underwriters’ over-allotment option.
- (2) Figures do not include _____ and _____ shares issued under our Dividend Reinvestment Plan on _____, 20____ and _____, 20____, respectively.
- (3) Includes cumulative net investment income or loss, cumulative amounts of gains and losses realized from investment and foreign currency transactions and net unrealized appreciation or depreciation of investments and foreign currencies, and distributions paid to stockholders other than tax return of capital distributions. Distributable earnings is not intended to represent amounts we may or will distribute to our stockholders.
- (4) As described under “Use of Proceeds,” we intend to use a part of the net proceeds from this offering initially to repay a portion of the borrowings outstanding under our Credit Facility. We have not yet determined how much of the net proceeds of this offering will be used for this purpose and, as a result, we have not reflected the consequences of such repayment in this table.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information contained in this section should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this prospectus supplement.

Overview

[Insert Management's Discussion and Analysis of Financial Condition and Results of Operations from most recently filed Quarterly Report on Form 10-Q prior to the offering.]

SUPPLEMENT TO MATERIAL U.S. FEDERAL TAX MATTERS

[Insert disclosure regarding federal income tax consequences of an investment in the shares of common stock to the extent required to be disclosed by applicable law or regulation.]

UNDERWRITING

are acting as joint book-running managers of the offering and as representatives of the underwriters named below. Subject to the terms and conditions stated in the underwriting agreement dated the date of this prospectus supplement, each underwriter named below has severally agreed to purchase, and we have agreed to sell to that underwriter, the number of shares set forth opposite the underwriter's name.

<u>Underwriter</u>	<u>Number of Shares</u>
Total	

The underwriting agreement provides that the obligations of the underwriters to purchase the shares included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the shares (other than those covered by the over-allotment option described below) if they purchase any of the shares.

Shares sold by the underwriters to the public will initially be offered at the public offering price set forth on the cover of this prospectus supplement. Any shares sold by the underwriters to securities dealers may be sold at a discount from the public offering price not to exceed \$ per share. If all the shares are not sold at the public offering price, the underwriters may change the offering price and the other selling terms.

[If the underwriters sell more shares than the total number set forth in the table above, we have granted to the underwriters an option, exercisable for days from the date of this prospectus supplement, to purchase up to additional shares at the public offering price less the underwriting discount. The underwriters may exercise the option solely for the purpose of covering over-allotments, if any, in connection with this offering. To the extent the option is exercised, each underwriter must purchase a number of additional shares approximately proportionate to that underwriter's initial purchase commitment. Any shares issued or sold under the option will be issued and sold on the same terms and conditions as the other shares that are the subject of this offering.]

We, our officers and directors, BlackRock Kelso Capital Advisors and certain of the partners and officers of BlackRock Kelso Capital Advisors (or any entities through which such partners and officers may invest in our shares) have agreed that, for a period of days from the date of this prospectus supplement, we and they will not, without the prior written consent of the representatives dispose of or hedge any shares or any securities convertible into or exchangeable for our common stock. in their sole discretion may release any of the securities subject to these lock-up agreements at any time without notice. Notwithstanding the foregoing, if (i) during the last days of the -day restricted period, we issue an earnings release or material news or a material event relating to our company occurs; or (ii) prior to the expiration of the -day restricted period, we announce that we will release earnings results during the -day period beginning on the last day of the -day restricted period, the restrictions described above shall continue to apply until the expiration of the -day period beginning on the issuance of the earnings release or the occurrence of the material news or material event.

The shares are listed on The NASDAQ Global Select Market under the symbol "BKCC".

The following table shows the underwriting discounts and commissions that we are to pay to the underwriters in connection with this offering. [These amounts are shown assuming both no exercise and full exercise of the underwriters' over-allotment option.]

	<u>No Exercise</u>	<u>Full Exercise</u>
Per share	\$	\$
Total	\$	\$

We estimate that our portion of the total expenses of this offering will be \$.

In connection with the offering, the underwriters may purchase and sell shares in the open market. Purchases and sales in the open market may include short sales, purchases to cover short positions, which may include purchases pursuant to the over-allotment option, and stabilizing purchases.

- Short sales involve secondary market sales by the underwriters of a greater number of shares than they are required to purchase in the offering.
 - “Covered” short sales are sales of shares in an amount up to the number of shares represented by the underwriters’ over-allotment option.
 - “Naked” short sales are sales of shares in an amount in excess of the number of shares represented by the underwriters’ over-allotment option.
- Covering transactions involve purchases of shares either pursuant to the over-allotment option or in the open market after the distribution has been completed in order to cover short positions.
 - To close a naked short position, the underwriters must purchase shares in the open market after the distribution has been completed. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.
 - To close a covered short position, the underwriters must purchase shares in the open market after the distribution has been completed or must exercise the over-allotment option. In determining the source of shares to close the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option.
- Stabilizing transactions involve bids to purchase shares so long as the stabilizing bids do not exceed a specified maximum.

The underwriters also may impose a penalty bid. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the underwriters, in covering short positions or making stabilizing purchases, repurchase shares originally sold by that syndicate member.

Purchases to cover short positions and stabilizing purchases, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of the shares. They may also cause the price of the shares to be higher than the price that would otherwise exist in the open market in the absence of these transactions. The underwriters may conduct these transactions on The NASDAQ Global Select Market, in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

In addition, in connection with this offering, some of the underwriters may engage in passive market making transactions in the shares on The NASDAQ Global Select Market, prior to the pricing and completion of the offering. Passive market making consists of displaying bids on The NASDAQ Global Select Market no higher than the bid prices of independent market makers and making purchases at prices no higher than those independent bids and effected in response to order flow. Net purchases by a passive market maker on each day

are limited to a specified percentage of the passive market maker's average daily trading volume in the shares during a specified period and must be discontinued when that limit is reached. Passive market making may cause the price of the shares to be higher than the price that otherwise would exist in the open market in the absence of those transactions. If the underwriters commence passive market making transactions, they may discontinue them at any time.

The underwriters have performed commercial banking, investment banking and advisory services for us, BlackRock Kelso Capital Advisors, and our affiliates from time to time for which they have received customary fees and reimbursement of expenses. The underwriters may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business for which they may receive customary fees and reimbursement of expenses. [In addition, affiliates of the underwriters are lenders under our Credit Facility.]

At _____, 20____, Bank of America Corporation, an affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated, owned approximately ____% of the outstanding preferred and common stock of BlackRock, Inc. and had a ____% voting interest therein.

A prospectus supplement and prospectus in electronic format may be made available on the websites maintained by one or more of the underwriters. Other than the prospectus supplement and prospectus in electronic format, the information on any such underwriter's website is not part of this prospectus supplement and prospectus. The representatives may agree to allocate shares to underwriters that may make Internet distributions on the same basis as other allocations. In addition, shares may be sold by the underwriters to securities dealers who resell shares to online brokerage account holders.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

[Describe any other specific transactions and compensation related thereto to the extent required to be disclosed by applicable law or regulation.]

[Describe if underwriters receiving proceeds of offering, if required by FINRA.]

[Insert principal business addresses of underwriters.]

[Insert applicable legends for jurisdictions in which offers and sales may be made.]

LEGAL MATTERS

Certain legal matters in connection with the securities offered by this prospectus supplement and accompanying prospectus will be passed upon for us by Skadden, Arps, Slate, Meagher & Flom LLP, New York, New York. Attorneys at Skadden, Arps, Slate, Meagher & Flom LLP involved in the representation of the Company beneficially own less than percent of our common stock outstanding at . Certain legal matters will be passed upon for the underwriters by Sutherland Asbill & Brennan LLP, Washington, D.C.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Deloitte & Touche LLP is our independent registered public accounting firm.

ADDITIONAL INFORMATION

We have filed a registration statement with the SEC on Form N-2, including amendments, relating to the securities we are offering. This prospectus supplement does not contain all of the information set forth in the registration statement, including any exhibits and schedules it may contain. For further information concerning us or the securities we are offering, please refer to the registration statement. Statements contained in this prospectus supplement as to the contents of any contract or other document referred to are not necessarily complete and in each instance reference is made to the copy of any contract or other document filed as an exhibit to the registration statement. Each statement is qualified in all respects by this reference.

We file with or submit to the SEC annual, quarterly and current periodic reports, proxy statements and other information meeting the informational requirements of the Securities Exchange Act of 1934. This information and the information specifically regarding how we voted proxies relating to portfolio securities for the period ended , 20 , are available free of charge by contacting us at 40 East 52nd Street, New York, NY 10022 or by telephone at toll-free (212) 810-5800. You may inspect and copy these reports, proxy statements and other information, as well as the registration statement of which this prospectus forms a part and the related exhibits and schedules, at the Public Reference Room of the SEC at 100 F Street, N.E., Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Copies of these reports, proxy and information statements and other information may be obtained, after paying a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov, or by writing the SEC's Public Reference Section, Washington D.C. 20549-0102. In addition, the SEC maintains an Internet website that contains reports, proxy and information statements and other information filed electronically by us with the SEC at <http://www.sec.gov>.

No dealer, salesperson or other individual has been authorized to give any information or to make any representation other than those contained in this prospectus supplement and, if given or made, such information or representations must not be relied upon as having been authorized by us or the underwriters. This prospectus supplement does not constitute an offer to sell or a solicitation of an offer to buy any securities in any jurisdiction in which such an offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so, or to any person to whom it is unlawful to make such offer or solicitation. Neither the delivery of this prospectus supplement nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in our affairs or that information contained herein is correct as of any time subsequent to the date hereof.

BLACKROCK KELSO CAPITAL CORPORATION
Shares
Series Preferred Stock
Liquidation Preference \$ _____ per Share

BlackRock Kelso Capital Corporation is an externally-managed, non-diversified closed-end management investment company. We have elected to be regulated as a business development company under the Investment Company Act of 1940. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in middle-market companies in the form of senior and junior secured, unsecured and subordinated debt securities and loans, each of which may include an equity component, and by making direct preferred, common and other equity investments in such companies.

We are offering for sale _____ shares of our Series _____ preferred stock, or our “preferred stock,” with a liquidation preference of \$ _____ per share. [Insert relevant information regarding ranking, conversion, redemption, dividends, etc. to the extent required to the extent required to be disclosed by applicable law or regulation.] [We have granted the underwriters a _____-day option to purchase up to _____ additional shares of our preferred stock at the public offering price, less underwriting discounts and commissions, to cover over-allotments. See “Underwriting” beginning on page S-_____ of this prospectus supplement for more information regarding this offering.]

[Add relevant disclosure depending on whether preferred shares are listed or not.]

This prospectus supplement and the accompanying prospectus set forth important information you should know before investing in our securities. Please read it before you invest and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information about us with the Securities and Exchange Commission, or the SEC. This information is available free of charge by contacting us at 40 East 52nd Street, New York, New York 10022, or by telephone at (212) 810-5800 or on our website at www.blackrockkelso.com/InvestorRelations. The SEC also maintains a website at www.sec.gov that contains such information free of charge.

Investing in our securities involves a high degree of risk, including the risk of the use of leverage. Before investing in our securities, you should read the discussion of the material risks of investing in the Company in “Risks” beginning on page S-_____ of this prospectus supplement and page _____ of the accompanying prospectus.

Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

Prospectus Supplement dated _____, 20____

(1) In addition to the sections outlined in this form of prospectus supplement, each prospectus supplement actually used in connection with an offering conducted pursuant to the registration statement to which this form of prospectus supplement is attached will be updated to include such other information as may then be required to be disclosed therein pursuant to applicable law or regulation as in effect as of the date of each such prospectus supplement, including, without limitation, information particular to the terms of each security offered thereby and any related risk factors or tax considerations pertaining thereto. This form of prospectus supplement is intended only to provide a rough approximation of the nature and type of disclosure that may appear in any actual prospectus supplement used for the purposes of offering securities pursuant to the registration statement to which this form of prospectus supplement is attached, and is not intended to and does not contain all of the information that would appear in any such actual prospectus supplement, and should not be used or relied upon in connection with any offer or sale of securities.

You should rely only on the information contained in this prospectus supplement and the accompanying prospectus, which we sometimes refer to collectively as the “prospectus.” We have not, and the underwriters have not, authorized anyone to provide you with additional information, or information different from that contained in this prospectus supplement and the accompanying prospectus. If anyone provides you with different or additional information, you should not rely on it. We are offering to sell, and seeking offers to buy, securities only in jurisdictions where offers and sales are permitted. The information contained in or incorporated by reference in this prospectus supplement and the accompanying prospectus is accurate only as of the date of this prospectus supplement or such prospectus, respectively. Our business, financial condition, results of operations and prospects may have changed since then. This prospectus supplement supersedes the accompanying prospectus to the extent it contains information that is different from or in addition to the information in the accompanying prospectus.

PROSPECTUS

TABLE OF CONTENTS

[Insert table of contents from base prospectus]

THE COMPANY

This summary highlights some of the information in this prospectus supplement. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under “Risks” in this prospectus supplement and the accompanying prospectus and the other information included in this prospectus supplement and the accompanying prospectus. Throughout this prospectus supplement and the accompanying prospectus, except where the context suggests otherwise, we refer to BlackRock Kelso Capital Corporation as the “Company,” “BlackRock Kelso,” “we,” “us” or “our.”

General

We provide middle-market companies with flexible financing solutions, including senior and junior secured, unsecured and subordinated debt securities and loans, and equity securities. Our strategy is to provide capital to meet our clients’ current and future needs across this spectrum, creating long-term partnerships with growing middle-market companies.

We are organized as an externally-managed, non-diversified, closed-end management investment company. We have elected to be regulated as a business development company, or BDC, under the Investment Company Act of 1940, which we refer to as the 1940 Act. In addition, for tax purposes we intend to continue to qualify as a regulated investment company, or RIC, under the Internal Revenue Code of 1986, which we refer to as the Code.

Our investment objective is to generate both current income and capital appreciation through our debt and equity investments. We invest primarily in middle-market companies and target investments throughout the capital structure that we believe provide an attractive risk-adjusted return. The term “middle-market” refers to companies with annual revenues typically between \$50 million and \$1 billion. Our targeted investment typically ranges between \$10 million and \$50 million, although the investment sizes may be more or less than the targeted range and the size of our investments may grow with our capital availability. We generally seek to invest in companies that operate in a broad variety of industries and that generate positive cash flows.

Although most of our investments are in senior and junior secured, unsecured and subordinated loans to U.S. private and certain public middle-market companies, we invest throughout the capital structure, which may include common and preferred equity, options and warrants, credit derivatives, high-yield bonds, distressed debt and other structured securities. We may from time-to-time invest up to 30% of our assets opportunistically in other types of investments, including securities of other public companies and foreign securities.

The senior and junior secured loans in which we invest generally have stated terms of three to ten years and the subordinated debt investments we make generally have stated terms of up to ten years, but the expected average life of such senior and junior secured loans and subordinated debt is generally between three and seven years. However, we may invest in securities of any maturity or duration. The debt that we invest in typically is not initially rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade (rated lower than “Baa3” by Moody’s Investors Service, lower than “BBB-” by Fitch Ratings or lower than “BBB-” by Standard & Poor’s). We may invest without limit in debt of any rating, as well as debt that has not been rated by any nationally recognized statistical rating organization.

We were incorporated on April 13, 2005, commenced operations with private funding on July 25, 2005, and completed our initial public offering on July 2, 2007. Since the commencement of our operations, the team of investment professionals of BlackRock Kelso Capital Advisors LLC (the “Advisor” or “BlackRock Kelso Capital Advisors”), including our senior management, has evaluated more than investment opportunities and completed investments, aggregating approximately \$ billion in capital provided to middle-market companies through , 20 .

During the ended , 20 , we invested \$ million across new and existing portfolio companies. This compares to investing \$ million across new and existing portfolio companies for the ended , 20 . Sales, repayments and other exits of investment principal totaled \$ million during the ended , 20 , versus \$ million during the ended , 20 .

At , 20 , our net portfolio consisted of portfolio companies and was invested % in senior secured loans, % in unsecured or subordinated debt securities, % in equity investments, % in senior secured notes and % in cash and cash equivalents. This compares to our portfolio of companies that was invested % in senior secured loans, % in unsecured or subordinated debt securities, % in senior secured notes, % in equity investments and less than % in cash and cash equivalents at , 20 . Our average portfolio company investment at amortized cost was approximately \$ million at , 20 , versus \$ million at , 20 .

The weighted average yields of the debt and income producing equity securities in our portfolio at fair value were % at , 20 and % at , 20 . The weighted average yields on our senior secured loans and other debt securities at fair value were % and %, respectively, at , 20 , versus % and % at , 20 . The weighted average yields of the debt and income producing equity securities in our portfolio at their current cost basis were % at , 20 and % at , 20 . The weighted average yields on our senior secured loans and other debt securities at their current cost basis were % and %, respectively, at , 20 , versus % and % at , 20 .

BlackRock Kelso Capital Advisors

Our investment activities are managed by the Advisor. The Advisor is responsible for sourcing potential investments, conducting research on prospective investments, analyzing investment opportunities, structuring our investments, and monitoring our investments and portfolio companies on an ongoing basis. The Advisor is led by James R. Maher, Chairman and Chief Executive Officer of the Company and the Advisor, and Michael B. Lazar, Chief Operating Officer of the Company and the Advisor. They are supported by the Advisor's team of employees, including investment professionals who have extensive experience in commercial lending, investment banking, accounting, corporate law and private equity investing.

The Advisor has an investment committee comprised of members, including Messrs. Maher and Lazar and several executives of BlackRock, Inc. ("BlackRock") and several of the principals of Kelso & Company, L.P. (the "Kelso Principals"). We benefit from the extensive and varied relevant experience of the BlackRock executives and the Kelso Principals serving on the Advisor's investment committee.

BlackRock is a leader in investment management, risk management and advisory services for institutional and retail clients worldwide. At , 20 , BlackRock's assets under management were \$ trillion.

The Kelso Principals have an average tenure of at least years at Kelso & Company, L.P. ("Kelso"). Kelso is a leading private equity firm and since 1980 has raised over \$ billion of committed private equity capital, investing primarily in middle-market companies across a broad range of industries and through different economic and interest rate environments. Through our relationship with the Kelso Principals, we have access to these management teams who can provide unique insight into the industries in which they operate. Although the Kelso Principals who serve on the investment committee bring the benefit of the expertise they have gained at Kelso and elsewhere, Kelso as an organization does not participate in the activities of the Advisor or advise us.

Our executive officers and directors and the employees of the Advisor and members of its investment committee serve or may serve as investment advisors, officers, directors or principals of entities or investment funds that operate in the same or a related line of business as we do and/or investment funds managed by our

affiliates. We note that any affiliated investment vehicle currently formed or formed in the future and managed by the Advisor or its affiliates may have overlapping investment objectives with our own and, accordingly, may invest in asset classes similar to those targeted by us. As a result, the Advisor and/or its affiliates may face conflicts in allocating investment opportunities between us and such other entities. Accordingly, we may not be given the opportunity to participate in certain investments made by investment funds managed by advisors affiliated with the Advisor. However, the Advisor and its affiliates will endeavor to allocate investment opportunities in a fair and equitable manner and consistent with applicable allocation procedures. In any such case, if the Advisor forms other affiliates in the future, we may co-invest on a concurrent basis with such other affiliates, subject to compliance with applicable regulations and regulatory guidance, as well as applicable allocation procedures. In certain circumstances, negotiated co-investments may be made only if we receive an order from the SEC permitting us to do so.

Administration

BlackRock, through its subsidiary, BlackRock Financial Management, Inc. (the “Administrator”), serves as our administrator and provides us with office space, equipment and office services. The Administrator processes our financial records, assists in the preparation of reports to our stockholders and reports filed with the SEC and generally monitors the payment of our expenses.

Company Information

Our administrative and executive offices are located at 40 East 52nd Street, New York, NY 10022, and our telephone number is (212) 810-5800.

[Insert description at time of offering.]

SPECIFIC TERMS OF THE PREFERRED STOCK AND THE OFFERING

This prospectus supplement sets forth certain terms of our preferred stock that we are offering pursuant to this prospectus supplement and supplements the accompanying prospectus that is attached to the back of this prospectus supplement. This section outlines the specific legal and financial terms of our preferred stock. You should read this section together with the more general description of our preferred stock in this prospectus supplement under the heading “Description of Our Preferred Stock” and in the accompanying prospectus under the headings “Description of Our Capital Stock—Preferred Stock” and “Description of Our Preferred Stock” before investing in our preferred stock. Capitalized terms used in this prospectus supplement and not otherwise defined shall have the meanings ascribed to them in the accompanying prospectus.

[Insert material terms of the preferred stock in tabular form to the extent required to be disclosed by applicable law or regulation.]

SELECTED FINANCIAL DATA

The Statement of Operations Data, Per Share Data and Balance Sheet Data for each of the five years in the period ended December 31, 20 are derived from our financial statements which have been audited by Deloitte & Touche LLP, our independent registered public accounting firm. [Quarterly financial information is derived from unaudited financial data, but in the opinion of management, reflects all adjustments (consisting only of normal recurring adjustments) that are necessary to present fairly the results of such interim periods. Interim results at and for the and months ended , 20 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 20 .]

This selected financial data should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” set forth in this prospectus supplement and our financial statements and related notes thereto included elsewhere in this prospectus supplement, as well as “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Senior Securities” and our financial statements and the related notes thereto included in the accompanying prospectus.

(1) The base management fee waiver terminated on June 30, 2007.

(2) Our common stock commenced trading on The NASDAQ Global Select Market on June 27, 2007. There was no established public trading market for the stock prior to that date.

(3) For the and months ended , 20 and , 20 and the years ended December 31, 20 and , total return is based on the change in market price during the respective periods. For the years ended prior to December 31, 20 , total return is based on the change in net asset value per common share during the respective years. The total return for the period June 26, 2007 through December 31, 2007 based on the change in market price per common share during such period was 1.2%. Total return calculations take into account dividends and distributions, if any, reinvested in accordance with our dividend reinvestment plan and do not reflect brokerage commissions. Total return is not annualized.

(4) Yield on investments at period end represents the weighted average yield on the debt and income producing equity securities in our portfolio at their current cost basis. Yields are computed using interest rates and dividend yields as of the balance sheet date and include amortization of loan origination and commitment fees, original issue discount and market premium or discount based on the expected cash flows of the respective portfolio investment. Yields exclude common equity investments, preferred equity investments with no stated dividend rate, short-term investments, cash and cash equivalents.

RISK FACTORS

[Insert risk factors applicable to preferred stock and any addition relevant risk factors not included in the base prospectus to the extent required to be disclosed by applicable law or regulation.]

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement, and other statements that we may make, may contain forward-looking statements with respect to future financial or business performance, strategies or expectations. Forward-looking statements are typically identified by words or phrases such as “trend,” “opportunity,” “pipeline,” “believe,” “comfortable,” “expect,” “anticipate,” “current,” “intention,” “estimate,” “position,” “assume,” “potential,” “outlook,” “continue,” “remain,” “maintain,” “sustain,” “seek,” “achieve” and similar expressions, or future or conditional verbs such as “will,” “would,” “should,” “could,” “may” or similar expressions.

Forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made, and we assume no duty to and do not undertake to update forward-looking statements. Actual results could differ materially from those anticipated in forward-looking statements and future results could differ materially from historical performance.

In addition to factors previously identified elsewhere in this prospectus supplement, including the “Risks” section of the accompanying prospectus, the following factors, among others, could cause actual results to differ materially from forward-looking statements or historical performance:

- our future operating results;
- our business prospects and the prospects of our portfolio companies;
- the impact of investments that we expect to make;
- our contractual arrangements and relationships with third parties;
- the dependence of our future success on the general economy and its impact on the industries in which we invest;
- the ability of our portfolio companies to achieve their objectives;
- our expected financings and investments;
- the adequacy of our cash resources and working capital, including our ability to obtain continued financing on favorable terms;
- the timing of cash flows, if any, from the operations of our portfolio companies;
- the impact of increased competition;
- the ability of the Advisor to locate suitable investments for us and to monitor and administer our investments;
- potential conflicts of interest in the allocation of opportunities between us and other investment funds managed by the Advisor or its affiliates;
- the ability of the Advisor to attract and retain highly talented professionals;
- fluctuations in foreign currency exchange rates;
- regulatory changes and other changes in law; and
- the impact of changes to tax legislation and, generally, our tax position.

The forward-looking statements in this prospectus supplement are excluded from the safe harbor protection provided by Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934.

USE OF PROCEEDS

We estimate that the net proceeds from the sale of the _____ shares of our preferred stock that we are offering, after deducting estimated expenses of this offering payable by us, will be approximately \$ _____ million [(or \$ _____ million, if the over-allotment is exercised in full)] based on a public offering price of \$ _____ per share.

[Describe use of proceeds and include any other relevant information to the extent required to be disclosed by applicable law or regulation.]

RATIO OF EARNINGS TO FIXED CHARGES AND PREFERRED DIVIDENDS

[Insert information required by Item 503(d) of Regulation S-K at time of offering.]

DESCRIPTION OF PREFERRED STOCK

This prospectus supplement sets forth certain terms of our preferred stock that we are offering pursuant to this prospectus supplement and the accompanying prospectus. This section outlines the specific legal and financial terms of our preferred stock. You should read this section together with the more general descriptions of our preferred stock in the accompanying prospectus under the headings “Description of Our Capital Stock—Preferred Stock” and “Description of Our Preferred Stock” in the accompanying prospectus before investing in our preferred stock. This summary is not necessarily complete and is subject to and entirely qualified by reference to our charter and bylaws.

[Insert material terms of the preferred stock to the extent required to be disclosed by applicable law or regulation.]

CAPITALIZATION

The following table sets forth our cash and capitalization as of _____, 20____ (1) on an actual basis and (2) as adjusted to reflect the effects of the sale of _____ shares of our preferred stock in this offering at an offering price of \$ _____ per share. You should read this table together with “Use of Proceeds” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” set forth in this prospectus supplement and our financial statements and notes thereto, as well as “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our financial statements and notes thereto included in the accompanying prospectus.

- (1) Does not include the underwriters’ over-allotment option.
- (2) Figures do not include _____ and _____ shares issued under our Dividend Reinvestment Plan on _____, 20____ and _____, 20____, respectively.
- (3) Includes cumulative net investment income or loss, cumulative amounts of gains and losses realized from investment and foreign currency transactions and net unrealized appreciation or depreciation of investments and foreign currencies, and distributions paid to stockholders other than tax return of capital distributions. Distributable earnings is not intended to represent amounts we may or will distribute to our stockholders.
- (4) As described under “Use of Proceeds,” we intend to use a part of the net proceeds from this offering initially to repay a portion of the borrowings outstanding under our Credit Facility. We have not yet determined how much of the net proceeds of this offering will be used for this purpose and, as a result, we have not reflected the consequences of such repayment in this table.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information contained in this section should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this prospectus supplement.

Overview

[Insert Management's Discussion and Analysis of Financial Condition and Results of Operations from most recently filed Quarterly Report on Form 10-Q prior to the offering.]

SUPPLEMENT TO MATERIAL U.S. FEDERAL TAX MATTERS

[Insert disclosure regarding federal income tax consequences of an investment in the shares of preferred stock to the extent required to be disclosed by applicable law or regulation.]

The following table shows the underwriting discounts and commissions that we are to pay to the underwriters in connection with this offering. [These amounts are shown assuming both no exercise and full exercise of the underwriters' over-allotment option.]

	<u>No Exercise</u>	<u>Full Exercise</u>
Per share	\$	\$
Total	\$	\$

We estimate that our portion of the total expenses of this offering will be \$.

In connection with the offering, the underwriters may purchase and sell shares in the open market. Purchases and sales in the open market may include short sales, purchases to cover short positions, which may include purchases pursuant to the over-allotment option, and stabilizing purchases.

- Short sales involve secondary market sales by the underwriters of a greater number of shares than they are required to purchase in the offering.
 - “Covered” short sales are sales of shares in an amount up to the number of shares represented by the underwriters’ over-allotment option.
 - “Naked” short sales are sales of shares in an amount in excess of the number of shares represented by the underwriters’ over-allotment option.
- Covering transactions involve purchases of shares either pursuant to the over-allotment option or in the open market after the distribution has been completed in order to cover short positions.
 - To close a naked short position, the underwriters must purchase shares in the open market after the distribution has been completed. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.
 - To close a covered short position, the underwriters must purchase shares in the open market after the distribution has been completed or must exercise the over-allotment option. In determining the source of shares to close the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option.
- Stabilizing transactions involve bids to purchase shares so long as the stabilizing bids do not exceed a specified maximum.

The underwriters also may impose a penalty bid. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the underwriters, in covering short positions or making stabilizing purchases, repurchase shares originally sold by that syndicate member.

[Purchases to cover short positions and stabilizing purchases, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of the shares. They may also cause the price of the shares to be higher than the price that would otherwise exist in the open market in the absence of these transactions. The underwriters may conduct these transactions on , in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.]

In addition, in connection with this offering, some of the underwriters may engage in passive market making transactions in the shares on , prior to the pricing and completion of the offering. Passive market making consists of displaying bids on no higher than the bid prices of independent market makers and making purchases at prices no higher than those independent bids and effected in response to order flow. Net purchases by a passive market maker on each day are limited to a specified percentage of the passive market maker’s average daily trading volume in the shares during a specified period and must be discontinued when that

limit is reached. Passive market making may cause the price of the shares to be higher than the price that otherwise would exist in the open market in the absence of those transactions. If the underwriters commence passive market making transactions, they may discontinue them at any time.

The underwriters have performed commercial banking, investment banking and advisory services for us, BlackRock Kelso Capital Advisors, and our affiliates from time to time for which they have received customary fees and reimbursement of expenses. The underwriters may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business for which they may receive customary fees and reimbursement of expenses. [In addition, affiliates of the underwriters are lenders under our Credit Facility.]

At _____, 20____, Bank of America Corporation, an affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated, owned approximately ____% of the outstanding preferred and common stock of BlackRock, Inc. and had a ____% voting interest therein.

A prospectus supplement and prospectus in electronic format may be made available on the websites maintained by one or more of the underwriters. Other than the prospectus supplement and prospectus in electronic format, the information on any such underwriter's website is not part of this prospectus supplement and prospectus. The representatives may agree to allocate shares to underwriters that may make Internet distributions on the same basis as other allocations. In addition, shares may be sold by the underwriters to securities dealers who resell shares to online brokerage account holders.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

[Describe any other specific transactions and compensation related thereto to the extent required to be disclosed by applicable law or regulation.]

[Describe if underwriters receiving proceeds of offering, if required by FINRA.]

[Insert principal business addresses of underwriters.]

[Insert applicable legends for jurisdictions in which offers and sales may be made.]

LEGAL MATTERS

Certain legal matters in connection with the securities offered by this prospectus supplement and accompanying prospectus will be passed upon for us by Skadden, Arps, Slate, Meagher & Flom LLP, New York, New York. Attorneys at Skadden, Arps, Slate, Meagher & Flom LLP involved in the representation of the Company beneficially own less than percent of our common stock outstanding at . Certain legal matters will be passed upon for the underwriters by Sutherland Asbill & Brennan LLP, Washington, D.C.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Deloitte & Touche LLP is our independent registered public accounting firm.

ADDITIONAL INFORMATION

We have filed a registration statement with the SEC on Form N-2, including amendments, relating to the securities we are offering. This prospectus supplement does not contain all of the information set forth in the registration statement, including any exhibits and schedules it may contain. For further information concerning us or the securities we are offering, please refer to the registration statement. Statements contained in this prospectus supplement as to the contents of any contract or other document referred to are not necessarily complete and in each instance reference is made to the copy of any contract or other document filed as an exhibit to the registration statement. Each statement is qualified in all respects by this reference.

We file with or submit to the SEC annual, quarterly and current periodic reports, proxy statements and other information meeting the informational requirements of the Securities Exchange Act of 1934. This information and the information specifically regarding how we voted proxies relating to portfolio securities for the period ended , 20 , are available free of charge by contacting us at 40 East 52nd Street, New York, NY 10022 or by telephone at toll-free (212) 810-5800. You may inspect and copy these reports, proxy statements and other information, as well as the registration statement of which this prospectus forms a part and the related exhibits and schedules, at the Public Reference Room of the SEC at 100 F Street, N.E., Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Copies of these reports, proxy and information statements and other information may be obtained, after paying a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov, or by writing the SEC's Public Reference Section, Washington D.C. 20549-0102. In addition, the SEC maintains an Internet website that contains reports, proxy and information statements and other information filed electronically by us with the SEC at <http://www.sec.gov>.

No dealer, salesperson or other individual has been authorized to give any information or to make any representation other than those contained in this prospectus supplement and, if given or made, such information or representations must not be relied upon as having been authorized by us or the underwriters. This prospectus supplement does not constitute an offer to sell or a solicitation of an offer to buy any securities in any jurisdiction in which such an offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so, or to any person to whom it is unlawful to make such offer or solicitation. Neither the delivery of this prospectus supplement nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in our affairs or that information contained herein is correct as of any time subsequent to the date hereof.

PRELIMINARY PROSPECTUS SUPPLEMENT

To the Prospectus dated _____, 20__

BLACKROCK KELSO CAPITAL CORPORATION

Warrants to Purchase up to [Type of Security]

BlackRock Kelso Capital Corporation is an externally-managed, non-diversified closed-end management investment company. We have elected to be regulated as a business development company under the Investment Company Act of 1940. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in middle-market companies in the form of senior and junior secured, unsecured and subordinated debt securities and loans, each of which may include an equity component, and by making direct preferred, common and other equity investments in such companies.

We are offering for sale warrants to purchase up to _____ [type of security]. Each warrant entitles the holder to purchase _____ [type of security]. [The underwriters may also purchase up to an additional _____ warrants from us at the public offering price, less the underwriting discount, within _____ days of the date of this prospectus supplement to cover overallotments. If the underwriters exercise this option in full, the total public offering price will be \$ _____, the total underwriting discount (sales load) paid by us will be \$ _____, and total proceeds, before expenses, will be \$ _____.]

The exercise price will be \$ _____ per warrant. The warrants will be exercisable beginning on _____, 20__, and will expire on _____, 20__, or earlier upon redemption.

[Our common stock is traded on The NASDAQ Global Select Market under the symbol "BKCC." The last reported closing price for our common stock on _____ was \$ _____ per share. The net asset value per share of our common stock at _____ (the last date prior to the date of this prospectus supplement on which we determined net asset value) was _____.]

This prospectus supplement and the accompanying prospectus set forth important information you should know before investing in our securities. Please read it before you invest and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information about us with the Securities and Exchange Commission, or the SEC. This information is available free of charge by contacting us at 40 East 52nd Street, New York, New York 10022, or by telephone at (212) 810-5800 or on our website at www.blackrockkelso.com/InvestorRelations. The SEC also maintains a website at www.sec.gov that contains such information free of charge.

Investing in our securities involves a high degree of risk, including the risk of the use of leverage. Before investing in our securities, you should read the discussion of the material risks of investing in the Company in "Risks" beginning on page S-_____ of this prospectus supplement and page _____ of the accompanying prospectus.

Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

Prospectus Supplement dated _____, 20__

(1) In addition to the sections outlined in this form of prospectus supplement, each prospectus supplement actually used in connection with an offering conducted pursuant to the registration statement to which this form of prospectus supplement is attached will be updated to include such other information as may then be required to be disclosed therein pursuant to applicable law or regulation as in effect as of the date of each such prospectus supplement, including, without limitation, information particular to the terms of each security offered thereby and any related risk factors or tax considerations pertaining thereto. This form of prospectus supplement is intended only to provide a rough approximation of the nature and type of disclosure that may appear in any actual prospectus supplement used for the purposes of offering securities pursuant to the registration statement to which this form of prospectus supplement is attached, and is not intended to and does not contain all of the information that would appear in any such actual prospectus supplement, and should not be used or relied upon in connection with any offer or sale of securities.

You should rely only on the information contained in this prospectus supplement and the accompanying prospectus, which we sometimes refer to collectively as the “prospectus.” We have not, and the underwriters have not, authorized anyone to provide you with additional information, or information different from that contained in this prospectus supplement and the accompanying prospectus. If anyone provides you with different or additional information, you should not rely on it. We are offering to sell, and seeking offers to buy, securities only in jurisdictions where offers and sales are permitted. The information contained in or incorporated by reference in this prospectus supplement and the accompanying prospectus is accurate only as of the date of this prospectus supplement or such prospectus, respectively. Our business, financial condition, results of operations and prospects may have changed since then. This prospectus supplement supersedes the accompanying prospectus to the extent it contains information that is different from or in addition to the information in the accompanying prospectus.

PROSPECTUS
TABLE OF CONTENTS

[Insert table of contents from base prospectus]

THE COMPANY

This summary highlights some of the information in this prospectus supplement. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under “Risks” in the accompanying prospectus and the other information included in this prospectus supplement and the accompanying prospectus. Throughout this prospectus supplement and the accompanying prospectus, except where the context suggests otherwise, we refer to BlackRock Kelso Capital Corporation as the “Company,” “BlackRock Kelso,” “we,” “us” or “our.”

General

We provide middle-market companies with flexible financing solutions, including senior and junior secured, unsecured and subordinated debt securities and loans, and equity securities. Our strategy is to provide capital to meet our clients’ current and future needs across this spectrum, creating long-term partnerships with growing middle-market companies.

We are organized as an externally-managed, non-diversified, closed-end management investment company. We have elected to be regulated as a business development company, or BDC, under the Investment Company Act of 1940, which we refer to as the 1940 Act. In addition, for tax purposes we intend to continue to qualify as a regulated investment company, or RIC, under the Internal Revenue Code of 1986, which we refer to as the Code.

Our investment objective is to generate both current income and capital appreciation through our debt and equity investments. We invest primarily in middle-market companies and target investments throughout the capital structure that we believe provide an attractive risk-adjusted return. The term “middle-market” refers to companies with annual revenues typically between \$50 million and \$1 billion. Our targeted investment typically ranges between \$10 million and \$50 million, although the investment sizes may be more or less than the targeted range and the size of our investments may grow with our capital availability. We generally seek to invest in companies that operate in a broad variety of industries and that generate positive cash flows.

Although most of our investments are in senior and junior secured, unsecured and subordinated loans to U.S. private and certain public middle-market companies, we invest throughout the capital structure, which may include common and preferred equity, options and warrants, credit derivatives, high-yield bonds, distressed debt and other structured securities. We may from time-to-time invest up to 30% of our assets opportunistically in other types of investments, including securities of other public companies and foreign securities.

The senior and junior secured loans in which we invest generally have stated terms of three to ten years and the subordinated debt investments we make generally have stated terms of up to ten years, but the expected average life of such senior and junior secured loans and subordinated debt is generally between three and seven years. However, we may invest in securities of any maturity or duration. The debt that we invest in typically is not initially rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade (rated lower than “Baa3” by Moody’s Investors Service, lower than “BBB-” by Fitch Ratings or lower than “BBB-” by Standard & Poor’s). We may invest without limit in debt of any rating, as well as debt that has not been rated by any nationally recognized statistical rating organization.

We were incorporated on April 13, 2005, commenced operations with private funding on July 25, 2005, and completed our initial public offering on July 2, 2007. Since the commencement of our operations, the team of investment professionals of BlackRock Kelso Capital Advisors LLC (the “Advisor” or “BlackRock Kelso Capital Advisors”), including our senior management, has evaluated more than investment opportunities and completed investments, aggregating over \$ billion in capital provided to middle-market companies through , 20 .

During the ended , 20 , we invested \$ million across new and existing portfolio companies. This compares to investing \$ million across new and existing portfolio companies for the ended , 20 . Sales, repayments and other exits of investment principal totaled \$ million during the ended , 20 , versus \$ million during the ended , 20 .

At , 20 , our net portfolio consisted of portfolio companies and was invested % in senior secured loans, % in unsecured or subordinated debt securities, % in equity investments, % in senior secured notes and % in cash and cash equivalents. This compares to our portfolio of companies that was invested % in senior secured loans, % in unsecured or subordinated debt securities, % in senior secured notes, % in equity investments and less than % in cash and cash equivalents at , 20 . Our average portfolio company investment at amortized cost was approximately \$ million at , 20 , versus \$ million at , 20 .

The weighted average yields of the debt and income producing equity securities in our portfolio at fair value were % at , 20 and % at , 20 . The weighted average yields on our senior secured loans and other debt securities at fair value were % and %, respectively, at , 20 , versus % and % at , 20 . The weighted average yields of the debt and income producing equity securities in our portfolio at their current cost basis were % at , 20 and % at , 20 . The weighted average yields on our senior secured loans and other debt securities at their current cost basis were % and %, respectively, at , 20 , versus % and % at , 20 .

BlackRock Kelso Capital Advisors

Our investment activities are managed by the Advisor. The Advisor is responsible for sourcing potential investments, conducting research on prospective investments, analyzing investment opportunities, structuring our investments, and monitoring our investments and portfolio companies on an ongoing basis. The Advisor is led by James R. Maher, Chairman and Chief Executive Officer of the Company and the Advisor, and Michael B. Lazar, Chief Operating Officer of the Company and the Advisor. They are supported by the Advisor's team of employees, including investment professionals who have extensive experience in commercial lending, investment banking, accounting, corporate law and private equity investing.

The Advisor has an investment committee comprised of members, including Messrs. Maher and Lazar and several executives of BlackRock, Inc. ("BlackRock") and several of the principals of Kelso & Company, L.P. (the "Kelso Principals"). We benefit from the extensive and varied relevant experience of the BlackRock executives and the Kelso Principals serving on the Advisor's investment committee.

BlackRock is a leader in investment management, risk management and advisory services for institutional and retail clients worldwide. At , 20 , BlackRock's assets under management were \$ trillion.

The Kelso Principals have an average tenure of at least years at Kelso & Company, L.P. ("Kelso"). Kelso is a leading private equity firm and since 1980 has raised over \$ billion of committed private equity capital, investing primarily in middle-market companies across a broad range of industries and through different economic and interest rate environments. Through our relationship with the Kelso Principals, we have access to these management teams who can provide unique insight into the industries in which they operate. Although the Kelso Principals who serve on the investment committee bring the benefit of the expertise they have gained at Kelso and elsewhere, Kelso as an organization does not participate in the activities of the Advisor or advise us.

Our executive officers and directors and the employees of the Advisor and members of its investment committee serve or may serve as investment advisors, officers, directors or principals of entities or investment funds that operate in the same or a related line of business as we do and/or investment funds managed by our affiliates. We note that any affiliated investment vehicle currently formed or formed in the future and managed by the Advisor or its affiliates may have overlapping investment objectives with our own and, accordingly, may

invest in asset classes similar to those targeted by us. As a result, the Advisor and/or its affiliates may face conflicts in allocating investment opportunities between us and such other entities. Accordingly, we may not be given the opportunity to participate in certain investments made by investment funds managed by advisors affiliated with the Advisor. However, the Advisor and its affiliates will endeavor to allocate investment opportunities in a fair and equitable manner and consistent with applicable allocation procedures. In any such case, if the Advisor forms other affiliates in the future, we may co-invest on a concurrent basis with such other affiliates, subject to compliance with applicable regulations and regulatory guidance, as well as applicable allocation procedures. In certain circumstances, negotiated co-investments may be made only if we receive an order from the SEC permitting us to do so.

Administration

BlackRock, through its subsidiary, BlackRock Financial Management, Inc. (the “Administrator”), serves as our administrator and provides us with office space, equipment and office services. The Administrator processes our financial records, assists in the preparation of reports to our stockholders and reports filed with the SEC and generally monitors the payment of our expenses.

Company Information

Our administrative and executive offices are located at 40 East 52nd Street, New York, NY 10022, and our telephone number is (212) 810-5800.

RECENT DEVELOPMENTS

[Insert description at time of offering.]

SPECIFIC TERMS OF OUR WARRANTS AND THE OFFERING

This prospectus supplement sets forth certain terms of our warrants that we are offering pursuant to this prospectus supplement and supplements the accompanying prospectus that is attached to the back of this prospectus supplement. This section outlines the specific legal and financial terms of our warrants. You should read this section together with the more general description of our warrants in this prospectus supplement under the heading “Description of Our Warrants” and in the accompanying prospectus under the heading “Description of Our Warrants” before investing in our warrants. Capitalized terms used in this prospectus supplement and not otherwise defined shall have the meanings ascribed to them in the accompanying prospectus.

[Insert material terms of our warrants in tabular form to the extent required to be disclosed by applicable law or regulation.]

[FEES AND EXPENSES]¹

The following table will assist you in understanding the various costs and expenses that an investor in shares of our common stock will bear directly or indirectly. However, we caution you that some of the percentages indicated in the table below are estimates and may vary. The following table should not be considered a representation of our future expenses. Actual expenses may be greater or less than shown. Except where the context suggests otherwise, whenever this prospectus supplement contains a reference to fees or expenses paid by “you” or “us” or that “we” will pay fees or expenses, stockholders will indirectly bear such fees or expenses as investors in the Company.

<u>Stockholder Transaction Expenses (as a Percentage of Offering Price)</u>	
Sales Load	%(1)
Offering Expenses	%(2)
Total Common Stockholder Expenses	%(3)
<u>Estimated Annual Expenses (as Percentage of Net Assets Attributable to Common Shares)(4)</u>	
Management Fees	%(5)
Incentive Fees Payable Under the Investment Management Agreement	%(6)
Interest Payments on Borrowed Funds	%(7)
Other Expenses	%(8)
Total Annual Expenses	%(9)

- (1) Represents the estimated underwriting discounts and commissions with respect to the warrants to be sold by us in this offering.
- (2) Amount reflects estimated offering expenses of approximately \$ and based on the warrants offered in this offering at the public offering price of \$ per warrant.
- (3) The expenses of our dividend reinvestment plan are included in “Other Expenses.”
- (4) “Net Assets Attributable to Common Shares” equals our net assets at , 20 , plus the anticipated net proceeds from this offering.
- (5) Our management fee is 2.0% of our total assets, payable quarterly in arrears based on our total assets at the beginning of the quarter. See “The Advisor—Investment management agreement” in the accompanying prospectus for additional information regarding our investment management agreement.
- (6) These Incentive Fees are based on actual amounts incurred during the year ended , 20 , as our Incentive Fees are currently expected to be concentrated in the fourth quarter of each year. However, the Incentive Fee is based on our performance, will vary from year to year and will not be paid unless our performance exceeds certain thresholds. As we cannot predict whether we will meet these thresholds, the Incentive Fee paid in future years, if any, may be substantially different than the fee incurred during the year ended , 20 . For more detailed information about the Incentive Fee, please see the section of the accompanying prospectus captioned “The Advisor—Investment management agreement” and Note 3 to our financial statements included elsewhere in this prospectus supplement.
- (7) “Interest Payments on Borrowed Funds” represents interest and credit facility fees incurred and amortization of debt issuance costs during the months ended , 20 [annualized for a full year]. Our average outstanding debt balance during the months ended , 20 was approximately \$ million. The Credit Facility allows us to increase commitments thereunder up to an additional \$ million. In addition, on January 18, 2011 we issued \$158 million of Senior Secured Notes with an interest rate of 6.50% and a maturity date of January 18, 2016 and \$17 million of Senior Secured Notes with an interest rate of 6.60% and a maturity date of January 18, 2018. As a result, our interest payments on borrowed funds as a percentage of net assets attributable to common shares may increase.

¹ (2) Include this section if warrants are for the purchase of common stock.

- (8) "Other Expenses" includes our overhead expenses, including expenses of the Advisor reimbursable under the investment management agreement and of the Administrator reimbursable under the administration agreement. Such expenses are based on actual other expenses for the _____ months ended _____, 20____ [annualized for a full year].
- (9) "Total Annual Expenses" as a percentage of net assets attributable to common stock are higher than the total annual expenses percentage would be for a company that is not leveraged. We borrow money to leverage our net assets and increase our total assets. The SEC requires that the "Total Annual Expenses" percentage be calculated as a percentage of net assets (defined as total assets less indebtedness), rather than total assets, including assets that have been funded with borrowed monies. If the "Total Annual Expenses" percentage were calculated instead as a percentage of total assets, as of _____, 20____ plus anticipated net proceeds from this offering, our "Total Annual Expenses" would be _____% of total assets. For a presentation and calculation of total annual expenses based on total assets see page S-____ of this prospectus supplement.

Example

The following example illustrates the projected dollar amount of total cumulative expenses that you would pay on a \$1,000 hypothetical investment in common shares, assuming (1) a _____% sales load (underwriting discounts and commissions) and offering expenses totaling _____%, (2) total net annual expenses of _____% of net assets attributable to common shares as set forth in the table above (other than Incentive Fees), and (3) a 5% annual return:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Total Expenses Incurred	\$ _____	\$ _____	\$ _____	\$ _____

This example and the expenses in the table above should not be considered a representation of our future expenses. Actual expenses may be greater or less than those assumed. The foregoing table is to assist you in understanding the various costs and expenses that an investor in our common stock will bear directly or indirectly. While the example assumes, as required by the SEC, a 5% annual return, our performance will vary and may result in a return greater or less than 5%. Assuming a 5% annual return, the Incentive Fee under the investment management agreement would not be earned or payable and is not included in the example. If we achieve sufficient returns on our investments, including through the realization of capital gains, to trigger an Incentive Fee of a material amount, our expenses, and returns to our investors, would be higher. In addition, while the example assumes reinvestment of all dividends and distributions at net asset value, participants in our dividend reinvestment plan will receive a number of shares of our common stock, determined by dividing the total dollar amount of the dividend payable to a participant by 95% of the market price per share of our common stock at the close of trading on the valuation date for the dividend. See "Dividend Reinvestment Plan" in the accompanying prospectus for additional information regarding our dividend reinvestment plan.]

SELECTED FINANCIAL DATA

The Statement of Operations Data, Per Share Data and Balance Sheet Data for each of the five years in the period ended December 31, 20 are derived from our financial statements which have been audited by Deloitte & Touche LLP, our independent registered public accounting firm. [Quarterly financial information is derived from unaudited financial data, but in the opinion of management, reflects all adjustments (consisting only of normal recurring adjustments) that are necessary to present fairly the results of such interim periods. Interim results at and for the and months ended , 20 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 20 .]

This selected financial data should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” set forth in this prospectus supplement and our financial statements and related notes thereto included elsewhere in this prospectus supplement, as well as “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Senior Securities” and our financial statements and the related notes thereto included in the accompanying prospectus.

(1) The base management fee waiver terminated on June 30, 2007.

(2) Our common stock commenced trading on The NASDAQ Global Select Market on June 27, 2007. There was no established public trading market for the stock prior to that date.

(3) For the and months ended , 20 and , 20 and the years ended December 31, 20 and , total return is based on the change in market price during the respective

periods. For the years ended prior to December 31, 20 , total return is based on the change in net asset value per common share during the respective year. The total return for the period June 26, 2007 through December 31, 2007 based on the change in market price per common share during such period was 1.2%. Total return calculations take into account dividends and distributions, if any, reinvested in accordance with our dividend reinvestment plan and do not reflect brokerage commissions. Total return is not annualized.

- (4) Yield on investments at period end represents the weighted average yield on the debt and income producing equity securities in our portfolio at their current cost basis. Yields are computed using interest rates and dividend yields as of the balance sheet date and include amortization of loan origination and commitment fees, original issue discount and market premium or discount based on the expected cash flows of the respective portfolio investment. Yields exclude common equity investments, preferred equity investments with no stated dividend rate, short-term investments, cash and cash equivalents.

RISK FACTORS

[If you exercise your warrants, you may be unable to sell any [type of security] you purchase at a profit.]

The public trading market price of our [type of security] may decline after you elect to exercise your warrants. If that occurs, you will have committed to buy [type of security] at a price above the prevailing market price and you will have an immediate unrealized loss. Moreover, we cannot assure you that following the exercise of warrants you will be able to sell your [type of security] at a price equal to or greater than the exercise price.

The exercise price is not necessarily an indication of our value.

The exercise price of the warrants does not necessarily bear any relationship to any established criteria for valuation of business development companies. You should not consider the exercise price an indication of our value or any assurance of future value. After the date of this prospectus supplement, our [type of security] may trade at prices above or below the subscription price.]

[Insert any additional relevant risk factors not included in the base prospectus to the extent required to be disclosed by applicable law or regulation.]

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement, and other statements that we may make, may contain forward-looking statements with respect to future financial or business performance, strategies or expectations. Forward-looking statements are typically identified by words or phrases such as “trend,” “opportunity,” “pipeline,” “believe,” “comfortable,” “expect,” “anticipate,” “current,” “intention,” “estimate,” “position,” “assume,” “potential,” “outlook,” “continue,” “remain,” “maintain,” “sustain,” “seek,” “achieve” and similar expressions, or future or conditional verbs such as “will,” “would,” “should,” “could,” “may” or similar expressions.

Forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made, and we assume no duty to and do not undertake to update forward-looking statements. Actual results could differ materially from those anticipated in forward-looking statements and future results could differ materially from historical performance.

In addition to factors previously identified elsewhere in this prospectus supplement, including the “Risks” section of the accompanying prospectus, the following factors, among others, could cause actual results to differ materially from forward-looking statements or historical performance:

- our future operating results;
- our business prospects and the prospects of our portfolio companies;
- the impact of investments that we expect to make;
- our contractual arrangements and relationships with third parties;
- the dependence of our future success on the general economy and its impact on the industries in which we invest;
- the ability of our portfolio companies to achieve their objectives;
- our expected financings and investments;
- the adequacy of our cash resources and working capital, including our ability to obtain continued financing on favorable terms;
- the timing of cash flows, if any, from the operations of our portfolio companies;
- the impact of increased competition;
- the ability of the Advisor to locate suitable investments for us and to monitor and administer our investments;
- potential conflicts of interest in the allocation of opportunities between us and other investment funds managed by the Advisor or its affiliates;
- the ability of the Advisor to attract and retain highly talented professionals;
- fluctuations in foreign currency exchange rates;
- regulatory changes and other changes in law; and
- the impact of changes to tax legislation and, generally, our tax position.

The forward-looking statements in this prospectus supplement are excluded from the safe harbor protection provided by Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934.

USE OF PROCEEDS

We estimate that the net proceeds from the sale of _____ warrants that we are offering, after deducting estimated expenses of this offering payable by us, will be approximately \$ _____ million [(or \$ _____ million, if the over-allotment is exercised in full)] based on a public offering price of \$ _____ per warrant.

[Describe use of proceeds and include any other relevant information to the extent required to be disclosed by applicable law or regulation.]

DESCRIPTION OF OUR WARRANTS

This prospectus supplement sets forth certain terms of our warrants that we are offering pursuant to this prospectus supplement and the accompanying prospectus. This section outlines the specific legal and financial terms of our warrants. You should read this section together with the more general description of our warrants in the accompanying prospectus under the heading “Description of Our Warrants” before investing in our warrants. This summary is not necessarily complete and is subject to and entirely qualified by reference to [insert relevant documents].

[Insert material terms of our warrants to the extent required to be disclosed by applicable law or regulation.]

[PRICE RANGE OF COMMON STOCK²

Our common stock has been quoted on The NASDAQ Global Select Market under the symbol “BKCC” since June 27, 2007. The following table lists the high and low closing bid price for our common stock, the closing bid price as a percentage of NAV, and quarterly dividends per share for the last two completed fiscal years and the current fiscal year through ,20 . On , 20 , the last reported closing price of our common stock was \$ per share.

	NAV(1)	Closing Sales Price		Premium/ Discount of High Sales Price to NAV(2)	Premium/ Discount of Low Sales Price to NAV(2)	Declared Dividends
		High	Low			
Year Ending December 31, 20						
First Quarter	\$	\$	\$	%	%	\$
Second Quarter	\$	\$	\$	%	%	\$
Third Quarter	\$	\$	\$	%	%	\$
Fourth Quarter (through)	\$	\$	\$	%	%	\$
Year Ending December 31, 20						
First Quarter	\$	\$	\$	%	%	\$
Second Quarter	\$	\$	\$	%	%	\$
Third Quarter	\$	\$	\$	%	%	\$
Fourth Quarter	\$	\$	\$	%	%	\$
Year Ending December 31, 20

Second Quarter	\$	\$	\$	%	%	\$
Third Quarter	\$	\$	\$	%	%	\$
Fourth Quarter	\$	\$	\$	%	%	\$

(1) NAV per share is determined as of the last day in the relevant quarter and therefore may not reflect the NAV per share on the date of the high and low sales prices. The NAVs shown are based on outstanding shares at the end of each period.

(2) Calculated as of the respective high or low closing sales price divided by the quarter end NAV.

* Net asset value has not yet been calculated for this period.

** Dividend has not yet been declared for this quarter.

Our common stock recently has traded at prices both above and below our most recently calculated net asset value. There can be no assurance, however, that our shares will trade above, below or at our net asset value.

In August 2008, our Board of Directors approved a share repurchase plan under which we may repurchase up to 2.5 percent of our outstanding shares of common stock from time to time in open market or privately negotiated transactions. In May 2009, our Board of Directors approved an extension and increase to the plan which authorized us to repurchase up to an additional 2.5 percent of our outstanding shares of common stock. In May 2011, our Board of Directors approved an extension of our share repurchase plan to June 30, 2012. During the year ended , 20 , we purchased a total of shares of our common stock on the open market for \$, including brokerage commissions. During the year ended , 20 , we purchased a total of shares of our common stock on the open market for \$, including brokerage commissions. At , 20 , the total number of remaining shares authorized for repurchase was . We currently hold the shares we repurchased in treasury. Notice is hereby given in accordance with Section 23 of the 1940 Act that from time to time we may purchase shares of our common stock in the open market at prevailing market prices.

² Include this section if warrants are for the purchase of common stock.

We intend to pay quarterly dividends to our common stockholders. The amount of our quarterly dividend is determined by our board of directors. On _____, 20____, our Board of Directors declared a dividend of \$ _____ per share, payable on _____ to stockholders of record at the close of business on _____.

There can be no assurance that we will achieve investment results or maintain a tax status that will permit any particular level of dividend payment. Our Credit Facility may limit our ability to declare dividends if we default under certain provisions. For a description of the Credit Facility, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in this prospectus supplement and Note 7 to our financial statements included elsewhere in this prospectus supplement.]

CAPITALIZATION³

The following table sets forth our cash and capitalization as of _____, 20____ (1) on an actual basis and (2) as adjusted to reflect the effects of the sale of _____ warrants in this offering at an offering price of \$ _____ per warrant. You should read this table together with “Use of Proceeds” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” set forth in this prospectus supplement and our financial statements and notes thereto, as well as “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our financial statements and notes thereto included in the accompanying prospectus.

	As of _____, 20____	As Adjusted for this Offering(1)(4) _____, 20____

- (1) Does not include the underwriters’ over-allotment option.
- (2) Figures do not include _____ and _____ shares issued under our Dividend Reinvestment Plan on _____, 20____ and _____, 20____, respectively.
- (3) Includes cumulative net investment income or loss, cumulative amounts of gains and losses realized from investment and foreign currency transactions and net unrealized appreciation or depreciation of investments and foreign currencies, and distributions paid to stockholders other than tax return of capital distributions. Distributable earnings is not intended to represent amounts we may or will distribute to our stockholders.
- (4) As described under “Use of Proceeds,” we intend to use a part of the net proceeds from this offering initially to repay a portion of the borrowings outstanding under our Credit Facility. We have not yet determined how much of the net proceeds of this offering will be used for this purpose and, as a result, we have not reflected the consequences of such repayment in this table.

³ If necessary, add to Capitalization table securities underlying our warrants.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS**

The information contained in this section should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this prospectus supplement.

Overview

[Insert Management's Discussion and Analysis of Financial Condition and Results of Operations from most recently filed Quarterly Report on Form 10-Q prior to the offering.]

SUPPLEMENT TO MATERIAL U.S. FEDERAL TAX MATTERS

[Insert disclosure regarding federal income tax consequences of an investment in the warrants to the extent required to be disclosed by applicable law or regulation.]

The following table shows the underwriting discounts and commissions that we are to pay to the underwriters in connection with this offering. [These amounts are shown assuming both no exercise and full exercise of the underwriters' over-allotment option.]

	<u>No Exercise</u>	<u>Full Exercise</u>
Per warrant	\$	\$
Total	\$	\$

We estimate that our portion of the total expenses of this offering will be \$.

Until the distribution of the warrants is completed, SEC rules may limit underwriters and selling group members from bidding for and purchasing our warrants or [type of security]. However, the representatives may engage in transactions that stabilize the price of the warrants, such as bids or purchases to peg, fix or maintain that price.

In connection with the offering, the underwriters may purchase and sell our warrants in the open market. These transactions may include short sales, purchases on the open market to cover positions created by short sales and stabilizing transactions. Short sales involve the sale by the underwriters of a greater number of warrants than they are required to purchase in the offering. "Covered" short sales are sales made in an amount not greater than the underwriters' over-allotment option described above. The underwriters may close out any covered short position by either exercising their over-allotment option or purchasing warrants in the open market. In determining the source of warrants to close out the covered short position, the underwriters will consider, among other things, the price of warrants available for purchase in the open market as compared to the price at which they may purchase warrants through the over-allotment option. "Naked" short sales are sales in excess of the over-allotment option. The underwriters must close out any naked short position by purchasing warrants in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our warrants in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of warrants made by the underwriters in the open market prior to the completion of the offering.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our warrants or preventing or retarding a decline in the market price of our warrants. As a result, the price of our warrants may be higher than the price that might otherwise exist in the open market. The underwriters may conduct these transactions on , in the over-the-counter market or otherwise.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our warrants. In addition, neither we nor any of the underwriters make any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

In connection with this offering, underwriters and selling group members may engage in passive market making transactions in the warrants on in accordance with Rule 103 of Regulation M under the Exchange Act during a period before the commencement of offers or sales of warrants and extending through the completion of distribution. A passive market maker must display its bid at a price not in excess of the highest independent bid of that security. However, if all independent bids are lowered below the passive market maker's bid, that bid must then be lowered when specified purchase limits are exceeded. Passive market making may cause the price of our warrants to be higher than the price that otherwise would exist in the open market in the absence of those transactions. The underwriters and dealers are not required to engage in passive market making and may end passive market making activities at any time.

The underwriters have performed commercial banking, investment banking and advisory services for us, BlackRock Kelso Capital Advisors, and our affiliates from time to time for which they have received customary

fees and reimbursement of expenses. The underwriters may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business for which they may receive customary fees and reimbursement of expenses. [In addition, affiliates of the underwriters are lenders under our Credit Facility.]

At _____, 20____, Bank of America Corporation, an affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated, owned approximately ____% of the outstanding preferred and common stock of BlackRock, Inc. and had a ____% voting interest therein.

A prospectus supplement and prospectus in electronic format may be made available on the websites maintained by one or more of the underwriters. Other than the prospectus supplement and prospectus in electronic format, the information on any such underwriter's website is not part of this prospectus supplement and prospectus. The representatives may agree to allocate shares to underwriters that may make Internet distributions on the same basis as other allocations. In addition, shares may be sold by the underwriters to securities dealers who resell shares to online brokerage account holders.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

[Describe any other specific transactions and compensation related thereto to the extent required to be disclosed by applicable law or regulation.]

[Describe if underwriters receiving proceeds of offering, if required by FINRA.]

[Insert principal business addresses of underwriters.]

[Insert applicable legends for jurisdictions in which offers and sales may be made.]

LEGAL MATTERS

Certain legal matters in connection with the securities offered by this prospectus supplement and accompanying prospectus will be passed upon for us by Skadden, Arps, Slate, Meagher & Flom LLP, New York, New York. Attorneys at Skadden, Arps, Slate, Meagher & Flom LLP involved in the representation of the Company beneficially own less than percent of our common stock outstanding at . Certain legal matters will be passed upon for the underwriters by Sutherland Asbill & Brennan LLP, Washington, D.C.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Deloitte & Touche LLP is our independent registered public accounting firm.

ADDITIONAL INFORMATION

We have filed a registration statement with the SEC on Form N-2, including amendments, relating to the securities we are offering. This prospectus supplement does not contain all of the information set forth in the registration statement, including any exhibits and schedules it may contain. For further information concerning us or the securities we are offering, please refer to the registration statement. Statements contained in this prospectus supplement as to the contents of any contract or other document referred to are not necessarily complete and in each instance reference is made to the copy of any contract or other document filed as an exhibit to the registration statement. Each statement is qualified in all respects by this reference.

We file with or submit to the SEC annual, quarterly and current periodic reports, proxy statements and other information meeting the informational requirements of the Securities Exchange Act of 1934. This information and the information specifically regarding how we voted proxies relating to portfolio securities for the period ended , 20 , are available free of charge by contacting us at 40 East 52nd Street, New York, NY 10022 or by telephone at toll-free (212) 810-5800. You may inspect and copy these reports, proxy statements and other information, as well as the registration statement of which this prospectus forms a part and the related exhibits and schedules, at the Public Reference Room of the SEC at 100 F Street, N.E., Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Copies of these reports, proxy and information statements and other information may be obtained, after paying a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov, or by writing the SEC's Public Reference Section, Washington D.C. 20549-0102. In addition, the SEC maintains an Internet website that contains reports, proxy and information statements and other information filed electronically by us with the SEC at <http://www.sec.gov>.

No dealer, salesperson or other individual has been authorized to give any information or to make any representation other than those contained in this prospectus supplement and, if given or made, such information or representations must not be relied upon as having been authorized by us or the underwriters. This prospectus supplement does not constitute an offer to sell or a solicitation of an offer to buy any securities in any jurisdiction in which such an offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so, or to any person to whom it is unlawful to make such offer or solicitation. Neither the delivery of this prospectus supplement nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in our affairs or that information contained herein is correct as of any time subsequent to the date hereof.

SUBJECT TO COMPLETION, DATED _____, 20____
**[FORM OF PRELIMINARY PROSPECTUS SUPPLEMENT TO BE USED IN
CONJUNCTION WITH FUTURE RIGHTS OFFERINGS](1)**

PRELIMINARY PROSPECTUS SUPPLEMENT

To the Prospectus dated _____, 20____

BLACKROCK KELSO CAPITAL CORPORATION

Up to _____ Shares of
**Common Stock
Issuable Upon
Exercise of Rights**

BlackRock Kelso Capital Corporation is an externally-managed, non-diversified closed-end management investment company. We have elected to be regulated as a business development company under the Investment Company Act of 1940. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in middle-market companies in the form of senior and junior secured, unsecured and subordinated debt securities and loans, each of which may include an equity component, and by making direct preferred, common and other equity investments in such companies.

We are issuing [transferable/non-transferable] rights to our stockholders of record, or record date stockholders, as of 5:00 p.m., New York City time, on _____, 20____, or the record date. The rights entitle holders of rights, or rights holders, to subscribe for an aggregate of up to _____ shares of our common stock. Record date stockholders will receive one right for each _____ shares of common stock owned on the record date. The rights entitle the holder to purchase one new share of common stock for every right held, which we refer to as the basic subscription right[, and record date stockholders who fully exercise their rights will be entitled to subscribe, subject to certain limitations and pro rata allocation, for additional shares that remain unsubscribed as a result of any unexercised rights.][In addition, any non-record date stockholder who exercises rights will be entitled to subscribe, subject to certain limitations and pro rata allocation, for any remaining shares that are not otherwise subscribed for by record date stockholders.]

Our common stock is traded on The NASDAQ Global Select Market under the symbol "BKCC." [The rights are transferable and will be listed on _____ under the symbol "____."] The last reported closing price for our common stock on _____ was \$ _____ per share. The net asset value per share of our common stock at _____ (the last date prior to the date of this prospectus supplement on which we determined net asset value) was _____.

The subscription price per share will be [describe means of computing subscription price]. Because the subscription price will be determined on the expiration date, stockholders who elect to exercise their rights will not know the subscription price per share at the time they exercise such rights. The rights will expire if they are not exercised by 5:00 p.m., New York City time, on _____, 20____, the expiration date of this offering, unless extended. We, in our sole discretion, may extend the period for exercising the rights. You will have no right to rescind your subscription after receipt of your payment of the estimated subscription price or a notice of guaranteed delivery except as described in this prospectus supplement or accompanying prospectus.

This offering will dilute the ownership interest and voting power of the common stock owned by stockholders who do not fully exercise their subscription rights. Stockholders who do not fully exercise their subscription rights should expect, upon completion of the offering, to own a smaller proportional interest in us than before the offering. Further, if the net proceeds per share from the offering are at a discount to our net asset value per share, this offering will reduce our net asset value per share.

This prospectus supplement and the accompanying prospectus set forth important information you should know before investing in our securities. Please read it before you invest and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information about us with the Securities and Exchange Commission, or the SEC. This information is available free of charge by contacting us at 40 East 52nd Street, New York, New York 10022, or by telephone at (212) 810-5800 or on our website at www.blackrockkelso.com/InvestorRelations. The SEC also maintains a website at www.sec.gov that contains such information free of charge.

Investing in our common stock involves a high degree of risk, including the risk of the use of leverage. Before investing in our securities, you should read the discussion of the material risks of investing in the Company in "Risks" beginning on page S-_____ of this prospectus supplement and page _____ of the accompanying prospectus.

Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

(2) In connection with this offering, _____, the dealer managers for this offering, will receive a fee for financial advisory, marketing and soliciting services equal to _____ % of the estimated subscription price per share for each share issued pursuant to the exercise of rights. We have also agreed to reimburse the dealer managers an aggregate of up to \$ _____ for their expenses incurred in connection with the offering.

Prospectus Supplement dated _____, 20____

(1) In addition to the sections outlined in this form of prospectus supplement, each prospectus supplement actually used in connection with an offering conducted pursuant to the registration statement to which this form of prospectus supplement is attached will be updated to include such other information as may then be required to be disclosed therein pursuant to applicable law or regulation as in effect as of the date of each such prospectus supplement, including, without limitation, information particular to the terms of each security offered thereby and any related risk factors or tax considerations pertaining thereto. This form of prospectus supplement is intended only to provide a rough approximation of the nature and type of disclosure that may appear in any actual prospectus supplement used for the purposes of offering securities pursuant to the registration statement to which this form of prospectus supplement is attached, and is not intended to and does not contain all of the information that would appear in any such actual prospectus supplement, and should not be used or relied upon in connection with any offer or sale of securities.

You should rely only on the information contained in this prospectus supplement and the accompanying prospectus, which we sometimes refer to collectively as the “prospectus.” We have not, and the underwriters have not, authorized anyone to provide you with additional information, or information different from that contained in this prospectus supplement and the accompanying prospectus. If anyone provides you with different or additional information, you should not rely on it. We are offering to sell, and seeking offers to buy, securities only in jurisdictions where offers and sales are permitted. The information contained in or incorporated by reference in this prospectus supplement and the accompanying prospectus is accurate only as of the date of this prospectus supplement or such prospectus, respectively. Our business, financial condition, results of operations and prospects may have changed since then. This prospectus supplement supersedes the accompanying prospectus to the extent it contains information that is different from or in addition to the information in the accompanying prospectus.

PROSPECTUS

TABLE OF CONTENTS

[Insert table of contents from base prospectus]

THE COMPANY

This summary highlights some of the information in this prospectus supplement. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under “Risks” in this prospectus supplement and the accompanying prospectus and the other information included in this prospectus supplement and the accompanying prospectus. Throughout this prospectus supplement and the accompanying prospectus, except where the context suggests otherwise, we refer to BlackRock Kelso Capital Corporation as the “Company,” “BlackRock Kelso,” “we,” “us” or “our.”

General

We provide middle-market companies with flexible financing solutions, including senior and junior secured, unsecured and subordinated debt securities and loans, and equity securities. Our strategy is to provide capital to meet our clients’ current and future needs across this spectrum, creating long-term partnerships with growing middle-market companies.

We are organized as an externally-managed, non-diversified, closed-end management investment company. We have elected to be regulated as a business development company, or BDC, under the Investment Company Act of 1940, which we refer to as the 1940 Act. In addition, for tax purposes we intend to continue to qualify as a regulated investment company, or RIC, under the Internal Revenue Code of 1986, which we refer to as the Code.

Our investment objective is to generate both current income and capital appreciation through our debt and equity investments. We invest primarily in middle-market companies and target investments throughout the capital structure that we believe provide an attractive risk-adjusted return. The term “middle-market” refers to companies with annual revenues typically between \$50 million and \$1 billion. Our targeted investment typically ranges between \$10 million and \$50 million, although the investment sizes may be more or less than the targeted range and the size of our investments may grow with our capital availability. We generally seek to invest in companies that operate in a broad variety of industries and that generate positive cash flows.

Although most of our investments are in senior and junior secured, unsecured and subordinated loans to U.S. private and certain public middle-market companies, we invest throughout the capital structure, which may include common and preferred equity, options and warrants, credit derivatives, high-yield bonds, distressed debt and other structured securities. We may from time-to-time invest up to 30% of our assets opportunistically in other types of investments, including securities of other public companies and foreign securities.

The senior and junior secured loans in which we invest generally have stated terms of three to ten years and the subordinated debt investments we make generally have stated terms of up to ten years, but the expected average life of such senior and junior secured loans and subordinated debt is generally between three and seven years. However, we may invest in securities of any maturity or duration. The debt that we invest in typically is not initially rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade (rated lower than “Baa3” by Moody’s Investors Service, lower than “BBB-” by Fitch Ratings or lower than “BBB-” by Standard & Poor’s). We may invest without limit in debt of any rating, as well as debt that has not been rated by any nationally recognized statistical rating organization.

We were incorporated on April 13, 2005, commenced operations with private funding on July 25, 2005, and completed our initial public offering on July 2, 2007. Since the commencement of our operations, the team of investment professionals of BlackRock Kelso Capital Advisors LLC (the “Advisor” or “BlackRock Kelso Capital Advisors”), including our senior management, has evaluated more than investment opportunities and completed investments, aggregating approximately \$ billion in capital provided to middle-market companies through , 20 .

During the ended , 20 , we invested \$ million across new and existing portfolio companies. This compares to investing \$ million across new and existing portfolio companies for the ended , 20 . Sales, repayments and other exits of investment principal totaled \$ million during the ended , 20 , versus \$ million during the ended , 20 .

At , 20 , our net portfolio consisted of portfolio companies and was invested % in senior secured loans, % in unsecured or subordinated debt securities, % in equity investments, % in senior secured notes and % in cash and cash equivalents. This compares to our portfolio of companies that was invested % in senior secured loans, % in unsecured or subordinated debt securities, % in senior secured notes, % in equity investments and less than % in cash and cash equivalents at , 20 . Our average portfolio company investment at amortized cost was approximately \$ million at , 20 , versus \$ million at , 20 .

The weighted average yields of the debt and income producing equity securities in our portfolio at fair value were % at , 20 and % at , 20 . The weighted average yields on our senior secured loans and other debt securities at fair value were % and %, respectively, at , 20 , versus % and % at , 20 . The weighted average yields of the debt and income producing equity securities in our portfolio at their current cost basis were % at , 20 and % at , 20 . The weighted average yields on our senior secured loans and other debt securities at their current cost basis were % and %, respectively, at , 20 , versus % and % at , 20 .

BlackRock Kelso Capital Advisors

Our investment activities are managed by the Advisor. The Advisor is responsible for sourcing potential investments, conducting research on prospective investments, analyzing investment opportunities, structuring our investments, and monitoring our investments and portfolio companies on an ongoing basis. The Advisor is led by James R. Maher, Chairman and Chief Executive Officer of the Company and the Advisor, and Michael B. Lazar, Chief Operating Officer of the Company and the Advisor. They are supported by the Advisor’s team of employees, including investment professionals who have extensive experience in commercial lending, investment banking, accounting, corporate law and private equity investing.

The Advisor has an investment committee comprised of members, including Messrs. Maher and Lazar and several executives of BlackRock, Inc. (“BlackRock”) and several of the principals of Kelso & Company, L.P. (the “Kelso Principals”). We benefit from the extensive and varied relevant experience of the BlackRock executives and the Kelso Principals serving on the Advisor’s investment committee.

BlackRock is a leader in investment management, risk management and advisory services for institutional and retail clients worldwide. At , 20 , BlackRock’s assets under management were \$ trillion.

The Kelso Principals have an average tenure of at least years at Kelso & Company, L.P. (“Kelso”). Kelso is a leading private equity firm and since 1980 has raised over \$ billion of committed private equity capital, investing primarily in middle-market companies across a broad range of industries and through different economic and interest rate environments. Through our relationship with the Kelso Principals, we have access to these management teams who can provide unique insight into the industries in which they operate. Although the Kelso Principals who serve on the investment committee bring the benefit of the expertise they have gained at Kelso and elsewhere, Kelso as an organization does not participate in the activities of the Advisor or advise us.

Our executive officers and directors and the employees of the Advisor and members of its investment committee serve or may serve as investment advisors, officers, directors or principals of entities or investment funds that operate in the same or a related line of business as we do and/or investment funds managed by our

affiliates. We note that any affiliated investment vehicle currently formed or formed in the future and managed by the Advisor or its affiliates may have overlapping investment objectives with our own and, accordingly, may invest in asset classes similar to those targeted by us. As a result, the Advisor and/or its affiliates may face conflicts in allocating investment opportunities between us and such other entities. Accordingly, we may not be given the opportunity to participate in certain investments made by investment funds managed by advisors affiliated with the Advisor. However, the Advisor and its affiliates will endeavor to allocate investment opportunities in a fair and equitable manner and consistent with applicable allocation procedures. In any such case, if the Advisor forms other affiliates in the future, we may co-invest on a concurrent basis with such other affiliates, subject to compliance with applicable regulations and regulatory guidance, as well as applicable allocation procedures. In certain circumstances, negotiated co-investments may be made only if we receive an order from the SEC permitting us to do so.

Administration

BlackRock, through its subsidiary, BlackRock Financial Management, Inc. (the “Administrator”), serves as our administrator and provides us with office space, equipment and office services. The Administrator processes our financial records, assists in the preparation of reports to our stockholders and reports filed with the SEC and generally monitors the payment of our expenses.

Company Information

Our administrative and executive offices are located at 40 East 52nd Street, New York, NY 10022, and our telephone number is (212) 810-5800.

RECENT DEVELOPMENTS

[Insert description at time of offering.]

FEES AND EXPENSES

The following table will assist you in understanding the various costs and expenses that an investor in shares of our common stock will bear directly or indirectly. However, we caution you that some of the percentages indicated in the table below are estimates and may vary. The following table should not be considered a representation of our future expenses. Actual expenses may be greater or less than shown. Except where the context suggests otherwise, whenever this prospectus supplement contains a reference to fees or expenses paid by “you” or “us” or that “we” will pay fees or expenses, stockholders will indirectly bear such fees or expenses as investors in the Company.

Stockholder Transaction Expenses (as a Percentage of Offering Price)

Sales Load	%(1)
Offering Expenses	%(2)
Total Common Stockholder Expenses	%(3)

Estimated Annual Expenses (as Percentage of Net Assets Attributable to Common Shares)(4)

Management Fees	%(5)
Incentive Fees Payable Under the Investment Management Agreement	%(6)
Interest Payments on Borrowed Funds	%(7)
Other Expenses	%(8)
Total Annual Expenses	%(9)

- (1) Represents the estimated dealer manager fee with respect to the rights to be sold by us in this offering.
- (2) Amount reflects estimated offering expenses of approximately \$ and based on the rights offered in this offering at the public offering price of \$ per right.
- (3) The expenses of our dividend reinvestment plan are included in “Other Expenses.”
- (4) “Net Assets Attributable to Common Shares” equals our net assets at , 20 , plus the anticipated net proceeds from this offering.
- (5) Our management fee is 2.0% of our total assets, payable quarterly in arrears based on our total assets at the beginning of the quarter. See “The Advisor—Investment management agreement” in the accompanying prospectus for additional information regarding our investment management agreement.
- (6) These Incentive Fees are based on actual amounts incurred during the year ended , 20 , as our Incentive Fees are currently expected to be concentrated in the fourth quarter of each year. However, the Incentive Fee is based on our performance, will vary from year to year and will not be paid unless our performance exceeds certain thresholds. As we cannot predict whether we will meet these thresholds, the Incentive Fee paid in future years, if any, may be substantially different than the fee incurred during the year ended , 20 . For more detailed information about the Incentive Fee, please see the section of the accompanying prospectus captioned “The Advisor—Investment management agreement” and Note 3 to our financial statements included elsewhere in this prospectus supplement.
- (7) “Interest Payments on Borrowed Funds” represents interest and credit facility fees incurred and amortization of debt issuance costs during the months ended , 20 [annualized for a full year]. Our average outstanding debt balance during the months ended , 20 was approximately \$ million. The Credit Facility allows us to increase commitments thereunder up to an additional \$ million. In addition, on January 18, 2011 we issued \$158 million of Senior Secured Notes with an interest rate of 6.50% and a maturity date of January 18, 2016 and \$17 million of Senior Secured Notes with an interest rate of 6.60% and a maturity date of January 18, 2018. As a result, our interest payments on borrowed funds as a percentage of net assets attributable to common shares may increase.
- (8) “Other Expenses” includes our overhead expenses, including expenses of the Advisor reimbursable under the investment management agreement and of the Administrator reimbursable under the administration agreement. Such expenses are based on actual other expenses for the months ended , 20 [annualized for a full year].

(9) “Total Annual Expenses” as a percentage of net assets attributable to common stock are higher than the total annual expenses percentage would be for a company that is not leveraged. We borrow money to leverage our net assets and increase our total assets. The SEC requires that the “Total Annual Expenses” percentage be calculated as a percentage of net assets (defined as total assets less indebtedness), rather than total assets, including assets that have been funded with borrowed monies. If the “Total Annual Expenses” percentage were calculated instead as a percentage of total assets, as of [redacted], 20 [redacted] plus anticipated net proceeds from this offering, our “Total Annual Expenses” would be [redacted] % of total assets. For a presentation and calculation of total annual expenses based on total assets see page S- [redacted] of this prospectus supplement.

Example

The following example illustrates the projected dollar amount of total cumulative expenses that you would pay on a \$1,000 hypothetical investment in common shares, assuming (1) a [redacted] % sales load (underwriting discounts and commissions) and offering expenses totaling [redacted] %, (2) total net annual expenses of [redacted] % of net assets attributable to common shares as set forth in the table above (other than Incentive Fees), and (3) a 5% annual return:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Total Expenses Incurred	\$ [redacted]	\$ [redacted]	\$ [redacted]	\$ [redacted]

This example and the expenses in the table above should not be considered a representation of our future expenses. Actual expenses may be greater or less than those assumed. The foregoing table is to assist you in understanding the various costs and expenses that an investor in our common stock will bear directly or indirectly. While the example assumes, as required by the SEC, a 5% annual return, our performance will vary and may result in a return greater or less than 5%. Assuming a 5% annual return, the Incentive Fee under the investment management agreement would not be earned or payable and is not included in the example. If we achieve sufficient returns on our investments, including through the realization of capital gains, to trigger an Incentive Fee of a material amount, our expenses, and returns to our investors, would be higher. In addition, while the example assumes reinvestment of all dividends and distributions at net asset value, participants in our dividend reinvestment plan will receive a number of shares of our common stock, determined by dividing the total dollar amount of the dividend payable to a participant by 95% of the market price per share of our common stock at the close of trading on the valuation date for the dividend. See “Dividend Reinvestment Plan” in the accompanying prospectus for additional information regarding our dividend reinvestment plan.

SELECTED FINANCIAL DATA

The Statement of Operations Data, Per Share Data and Balance Sheet Data for each of the five years in the period ended December 31, 20 are derived from our financial statements which have been audited by Deloitte & Touche LLP, our independent registered public accounting firm. [Quarterly financial information is derived from unaudited financial data, but in the opinion of management, reflects all adjustments (consisting only of normal recurring adjustments) that are necessary to present fairly the results of such interim periods. Interim results at and for the and months ended , 20 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 20 .]

This selected financial data should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” set forth in this prospectus supplement and our financial statements and related notes thereto included elsewhere in this prospectus supplement, as well as “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Senior Securities” and our financial statements and the related notes thereto included in the accompanying prospectus.

(1) The base management fee waiver terminated on June 30, 2007.

(2) Our common stock commenced trading on The NASDAQ Global Select Market on June 27, 2007. There was no established public trading market for the stock prior to that date.

(3) For the and months ended , 20 and , 20 and the years ended December 31, 20 and , total return is based on the change in market price during the respective periods. For the years ended prior to December 31, 20 , total return is based on the change in net asset value per common share during the respective year. The total return for the period June 26, 2007 through December 31, 2007 based on the change in market price per common share during such period was 1.2%. Total return calculations take into account dividends and distributions, if any, reinvested in accordance with our dividend reinvestment plan and do not reflect brokerage commissions. Total return is not annualized.

(4) Yield on investments at period end represents the weighted average yield on the debt and income producing equity securities in our portfolio at their current cost basis. Yields are computed using interest rates and dividend yields as of the balance sheet date and include amortization of loan origination and commitment fees, original issue discount and market premium or discount based on the expected cash flows of the respective portfolio investment. Yields exclude common equity investments, preferred equity investments with no stated dividend rate, short-term investments, cash and cash equivalents.

RISK FACTORS

RISKS RELATING TO THE OFFERING

The market price of our common stock may decline following the offering and our shares of common stock may trade at discounts from net asset value.

Shares of closed-end investment companies frequently trade at a market price that is less than the net asset value that is attributable to those shares. This characteristic of closed-end investment companies is separate and distinct from the risk that our net asset value per share may decline. It is not possible to predict whether any shares of common stock or rights will trade at, above, or below net asset value. The risk of loss associated with this characteristic of closed-end investment companies may be greater for investors expecting to sell shares of common stock purchased in the offering soon after the offering.

There is no established trading market for the rights, which could make it more difficult for you to sell rights and could adversely affect their price.

There can be no assurances that an active public market for the rights will develop as a result of the offering of the rights by any selling holder or that, if such a market develops, it will be maintained. [The rights will be listed on _____ under the symbol “_____.”] Future trading prices of the rights will depend on many factors, including our operating results, the market for similar securities, the performance of our common stock (including the requirement that we suspend the offering under certain circumstances) and our ability to terminate the offering of the rights if the subscription price is less than _____ % of the net asset value attributable to a share of common stock disclosed in the most recent periodic report we filed with the SEC.

We may terminate the rights offering at any time prior to delivery of the shares of our common stock offered hereby, and neither we nor the subscription agent will have any obligation to you except to return your subscription payments, without interest.

We may, in our sole discretion, terminate the rights offering at any time prior to delivery of the shares of our common stock offered hereby, if the subscription price is less than _____ % of the net asset value attributable to a share of common stock disclosed in the most recent periodic report we filed with the SEC. If the rights offering is terminated, all rights will expire without value and the subscription agent will return as soon as practicable all exercise payments, without interest. [No amounts paid to acquire rights on [insert name of any applicable exchange on which rights are listed] or otherwise will be returned.]

Your interest in us may be diluted if you do not fully exercise your subscription rights. In addition, if the subscription price is less than our net asset value per share, then you would experience an immediate dilution of the aggregate net asset value of your shares.

Stockholders who do not fully exercise their subscription rights should expect that they will, at the completion of the offering, own a smaller proportional interest in us than would otherwise be the case if they fully exercised their rights. We cannot state precisely the amount of any such dilution in share ownership because we do not know at this time what proportion of the shares will be purchased as a result of the offering.

In addition, if the subscription price is less than our net asset value per share, then our stockholders would experience an immediate dilution of the aggregate net asset value of their shares as a result of the offering. The amount of any decrease in net asset value is not predictable because it is not known at this time what the subscription price and net asset value per share will be on the expiration date of the offering or what proportion of the shares will be purchased as a result of the offering. Such dilution could be substantial.

The fact that the rights are transferable may reduce the effects of any dilution as a result of the offering. Rights holders can transfer or sell their rights. The cash received from the sale of rights is partial compensation for any possible dilution. There can be no assurances, however, that a market for the rights will develop or the rights will have any value in that market.

[Insert any other risk factors applicable to the rights and any additional relevant risk factors not included in the base prospectus to the extent required to be disclosed by applicable law or regulation.]

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement, and other statements that we may make, may contain forward-looking statements with respect to future financial or business performance, strategies or expectations. Forward-looking statements are typically identified by words or phrases such as “trend,” “opportunity,” “pipeline,” “believe,” “comfortable,” “expect,” “anticipate,” “current,” “intention,” “estimate,” “position,” “assume,” “potential,” “outlook,” “continue,” “remain,” “maintain,” “sustain,” “seek,” “achieve” and similar expressions, or future or conditional verbs such as “will,” “would,” “should,” “could,” “may” or similar expressions.

Forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made, and we assume no duty to and do not undertake to update forward-looking statements. Actual results could differ materially from those anticipated in forward-looking statements and future results could differ materially from historical performance.

In addition to factors previously identified elsewhere in this prospectus supplement, including the “Risks” section of the accompanying prospectus, the following factors, among others, could cause actual results to differ materially from forward-looking statements or historical performance:

- our future operating results;
- our business prospects and the prospects of our portfolio companies;
- the impact of investments that we expect to make;
- our contractual arrangements and relationships with third parties;
- the dependence of our future success on the general economy and its impact on the industries in which we invest;
- the ability of our portfolio companies to achieve their objectives;
- our expected financings and investments;
- the adequacy of our cash resources and working capital, including our ability to obtain continued financing on favorable terms;
- the timing of cash flows, if any, from the operations of our portfolio companies;
- the impact of increased competition;
- the ability of the Advisor to locate suitable investments for us and to monitor and administer our investments;
- potential conflicts of interest in the allocation of opportunities between us and other investment funds managed by the Advisor or its affiliates;
- the ability of the Advisor to attract and retain highly talented professionals;
- fluctuations in foreign currency exchange rates;
- regulatory changes and other changes in law; and
- the impact of changes to tax legislation and, generally, our tax position.

The forward-looking statements in this prospectus supplement are excluded from the safe harbor protection provided by Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934.

THE RIGHTS OFFERING

PURPOSE OF THE OFFERING

Our board of directors has determined in good faith that the offering would result in a net benefit to the existing stockholders because [describe reasons]. The offering gives existing stockholders the right to purchase additional shares at a price that is expected to be below the then-current trading price without paying any commission or sales charges (although, if you exercise your rights through a financial institution, you will be responsible for paying any fees that such institution may charge). In connection with the approval of the offering, our board of directors considered, among other things, the following factors:

[Describe factors]

TERMS OF THE OFFERING

We are issuing to record date stockholders transferable rights to subscribe for an aggregate of up to _____ shares of our common stock. Each record date stockholder is being issued one transferable right for each _____ shares of our common stock owned on the record date. The rights entitle each holder to acquire at the subscription price one share of our common stock for every right held, which we refer to as the basic subscription. Rights may be exercised at any time during the subscription period, which commences on _____, 20____, the record date, and ends at 5:00 p.m., New York City time, on _____, 20____, the expiration date, which may be extended by us in our sole discretion.

The rights will be evidenced by subscription certificates that will be mailed to stockholders, except as discussed below under “—Foreign Stockholders.” We will not issue fractional rights.

[The rights are transferable and will be listed on _____ under the symbol “_____.”] Rights holders who are not record date stockholders may purchase shares as described above, which we refer to as the basic subscription[, and may be entitled to subscribe for shares pursuant to the over-subscription privilege (as described below)]. Non-record date rights holders who purchase shares in the basic subscription[or pursuant to the over-subscription privilege], together with record date stockholders who purchase shares, are hereinafter referred to as participating rights holders.

[Shares for which there is no subscription during the basic subscription will be offered, by means of the over-subscription privilege, first to record date stockholders who fully exercise the rights issued to them pursuant to the offering and who wish to acquire more than the number of shares they are entitled to purchase pursuant to the exercise of their rights. In addition, any non-record date rights holder who exercises rights is entitled to subscribe for remaining shares that are not otherwise subscribed for by record date stockholders. Shares acquired pursuant to the over-subscription privilege are subject to certain limitations and pro rata allocations. See “—Over-Subscription Privilege” below.]

For purposes of determining the number of shares a record date stockholder may acquire pursuant to the offering, broker-dealers, trust companies, banks or others whose shares are held of record by Cede & Co. (“Cede”) or by any other depository or nominee will be deemed to be the holders of the rights that are issued to Cede or the other depository or nominee on their behalf.

There is no minimum number of rights that must be exercised in order for the offering to close.

[OVER-SUBSCRIPTION PRIVILEGE

Shares not subscribed for by rights holders, which we refer to as remaining shares, will be offered, by means of the over-subscription privilege, first to record date stockholders who have fully exercised the rights issued to them and who wish to acquire more than the number of shares they are entitled to purchase pursuant to the basic

subscription. Rights holders should indicate on the subscription certificate that they submit with respect to the exercise of the rights issued to them how many additional shares they are willing to acquire pursuant to the over-subscription privilege. If there are sufficient remaining shares, all record date stockholders' over-subscription requests will be honored in full. If record date stockholder requests for shares pursuant to the over-subscription privilege exceed the remaining shares available, the available remaining shares will be allocated pro-rata among record date stockholders who over-subscribe based on the number of shares held on the record date. The percentage of remaining shares each over-subscribing stockholder may acquire will be rounded down to result in delivery of whole shares. The allocation process may involve a series of allocations to assure that the total number of remaining shares available for over-subscriptions is distributed on a pro-rata basis. The formula to be used in allocating the remaining shares is as follows:

$$\frac{\text{Stockholder's Record Date Position}}{\text{Total Record Date Position of All Over-Subscribers}} \times \text{Remaining Shares}$$

Any rights holder other than a record date stockholder who exercises rights is entitled to subscribe for remaining shares that are not otherwise over-subscribed for by record date stockholders. These non-record date rights holders should indicate, in the subscription certificate submitted with respect to the exercise of any rights, how many shares they are willing to acquire pursuant to the over-subscription privilege. There can be no assurance that non-record date rights holders will receive shares pursuant to the over-subscription privilege.

If sufficient remaining shares are available after the over-subscription privileges for the record date stockholders have been allotted, then all over-subscriptions by non-record date rights holders will be honored in full. If the remaining shares are insufficient to permit such allocation, the remaining shares will be allocated pro-rata among the non-record date rights holders who wish to exercise their over-subscription privilege, based on the number of rights held by such rights holders on the expiration date; provided, however, that if this pro-rata allocation results in any holder being allocated a greater number of shares than the holder subscribed for pursuant to the exercise of the over-subscription privilege, then such holder will be allocated only such number of shares pursuant to the over-subscription privilege as such holder subscribed for. The formula to be used in allocating the shares available to non-record date rights holders exercising their over-subscription privilege is as follows:

$$\frac{\text{Non-Record Date Rights Holder's Rights Ownership as of the Expiration Date}}{\text{Total Rights Ownership as of the Expiration Date of Non-Record Date Rights Holders Exercising Their Over-Subscription Privilege}} \times \frac{\text{Shares Available for Non-Record Date Rights Holders Exercising Their Over-Subscription Privilege}}{\text{Exercising Their Over-Subscription Privilege}}$$

Banks, brokers, trustees and other nominee holders of rights will be required to certify to the subscription agent, before any over-subscription privilege may be exercised with respect to any particular beneficial owner, as to the aggregate number of rights exercised pursuant to the basic subscription and the number of shares subscribed for pursuant to the over-subscription privilege by such beneficial owner.

We will not offer or sell in connection with the offering any shares that are not subscribed for pursuant to the basic subscription or the over-subscription privilege.]

THE SUBSCRIPTION PRICE

The subscription price for the shares to be issued pursuant to the offering will be [describe means of computing subscription price]. Because the subscription price will be determined on the expiration date, rights holders will not know the subscription price at the time of exercise and will be required initially to pay for both the shares subscribed for pursuant to their basic subscription rights[and, if eligible, any additional shares subscribed for pursuant to the over-subscription privilege,] at the estimated subscription price of \$ per share. Rights holders who exercise their rights will have no right to rescind a purchase after receipt of their completed subscription certificates together with payment for shares or a notice of guaranteed delivery by the subscription agent.

EXPIRATION OF THE OFFERING

The offering will expire at 5:00 p.m., New York City time, on _____, 20____, unless extended by us in our sole discretion. The rights will expire on the expiration date of the offering and may not be exercised thereafter.

Any extension of the offering will be followed as promptly as practicable by announcement thereof, and in no event later than 9:00 a.m., New York City time, on the next business day following the previously scheduled expiration date. Without limiting the manner in which we may choose to make such announcement, we will not, unless otherwise required by law, have any obligation to publish, advertise or otherwise communicate any such announcement other than by issuing a press release or such other means of announcement as we deem appropriate.

AMENDMENTS AND WAIVERS; TERMINATION

We reserve the right to amend the terms and conditions of the offering, whether the amended terms are more or less favorable to you. We will comply with all applicable laws, including the federal securities laws, in connection with any such amendment.

We will decide all questions as to the validity, form and eligibility (including times of receipt, beneficial ownership and compliance with other procedural matters) in our sole discretion, and our determination shall be final and binding. The acceptance of subscription certificates and the subscription price also will be determined by us. Alternative, conditional or contingent subscriptions will not be accepted. We reserve the right to reject any exercise if such exercise is not in accordance with the terms of the offering or not in proper form or if the acceptance thereof or the issuance of shares of our common stock thereto could be deemed unlawful. We, in our sole discretion, may waive any defect or irregularity, or permit a defect or irregularity to be corrected within such time as we may determine, or reject the purported exercise of any right. Subscriptions will not be deemed to have been received or accepted until all irregularities have been waived or cured within such time as we determine in our sole discretion. We will not be under any duty to give notification of any defect or irregularity in connection with the submission of subscription certificates or incur any liability for failure to give such notification.

We may, in our sole discretion, terminate the rights offering at any time prior to delivery of the shares of our common stock offered hereby if the subscription price is less than _____% of the net asset value attributable to a share of common stock disclosed in the most recent periodic report we filed with the SEC by giving oral or written notice thereof to the subscription agent and making a public announcement thereof. If the offering is terminated, all rights will expire without value and we will promptly arrange for the refund, without interest, of all funds received from holders of rights. All monies received by the subscription agent in connection with the offering will be held by the subscription agent, on our behalf, in a segregated interest-bearing account at a negotiated rate. All such interest shall be payable to us even if we determine to terminate the offering and return your subscription payment. [In addition, no amounts paid to acquire rights on [insert name of any applicable exchange on which rights are listed] or otherwise will be returned.]

DILUTIVE EFFECTS

Any stockholder who chooses not to participate in the offering should expect to own a smaller interest in us upon completion of the offering. The offering will dilute the ownership interest and voting power of stockholders who do not fully exercise their basic subscription rights. The amount of dilution that a stockholder will experience could be substantial. Further, because the net proceeds per share from the offering may be lower than our net asset value per share, the offering may reduce our net asset value per share. The amount of dilution that a stockholder will experience could be substantial.

Shares of closed-end investment companies have in the past frequently traded at discounts to their net asset values. This characteristic of closed-end investment companies is separate and distinct from the risk that our net asset value per share may decline. We cannot predict whether our shares will trade above, at or below our net asset value.

[The transferable feature of the rights will afford non-participating stockholders the potential of receiving cash payment upon the sale of rights, receipt of which may be viewed as partial compensation for the dilution of their interests.]

NOTICE OF NET ASSET VALUE DECLINE

[If, subsequent to the effective date of this prospectus, our net asset value declines more than 10% from our net asset value as of that date, as required by the SEC's registration form, we will suspend the offering until we amend this prospectus. In such event, the expiration date would be extended and we would notify record date stockholders of the decline and permit participating rights holders to cancel their exercise of rights.]

INFORMATION AGENT

_____ will act as the information agent in connection with the offering. The information agent will receive for its services a fee estimated to be approximately \$ _____ plus reimbursement of all out-of-pocket expenses related to the offering. _____ can be contacted at the below address:

[Information Agent Address]

SUBSCRIPTION AGENT

_____ will act as the subscription agent in connection with the offering. The subscription agent will receive for its administrative, processing, invoicing and other services a fee estimated to be approximately \$ _____, plus reimbursement of all out-of-pocket expenses related to the offering.

Completed subscription certificates must be sent together with full payment of the subscription price for all shares subscribed for in the basic subscription [and pursuant to the over-subscription privilege] to the subscription agent by one of the methods described below. Alternatively, an Eligible Guarantor Institution may send notices of guaranteed delivery by facsimile to _____ which must be received by the subscription agent at or prior to 5:00 p.m., New York City time, on the expiration date of the offering. Facsimiles should be confirmed by telephone at _____. We will accept only properly completed and duly executed subscription certificates actually received at any of the addresses listed below, at or prior to 5:00 p.m., New York City time, on the expiration date of the offering or by the close of business on the third business day after the expiration date of the offering following timely receipt of a notice of guaranteed delivery. See "— Payment for Shares" below. In this prospectus supplement and the accompanying prospectus, close of business means 5:00 p.m., New York City time, on the relevant date.

Subscription Certificate Delivery Method

Stockholders may also contact their broker-dealers or nominees for information with respect to the offering.

METHODS FOR EXERCISING RIGHTS

Rights are evidenced by subscription certificates that, except as described below under “—Foreign Stockholders,” will be mailed to record date stockholders or, if a record date stockholder’s shares are held by Cede or any other depository or nominee on their behalf, to Cede or such depository or nominee. Rights may be exercised by completing and signing the subscription certificate that accompanies this prospectus and mailing it in the envelope provided, or otherwise delivering the completed and duly executed subscription certificate to the subscription agent, together with payment in full for all shares subscribed for in the basic subscription and pursuant to the over-subscription privilege at the estimated subscription price by the expiration date of the offering. Rights may also be exercised by contacting your broker, trustee or other nominee, who can arrange, on your behalf, to guarantee delivery of payment and delivery of a properly completed and duly executed subscription certificate pursuant to a notice of guaranteed delivery by the close of business on the third business day after the expiration date. A fee may be charged for this service. Completed subscription certificates and related payments must be received by the subscription agent prior to 5:00 p.m., New York City time, on or before the expiration date (unless payment is effected by means of a notice of guaranteed delivery as described below under “—Payment for Shares”) at the offices of the subscription agent at one of the addresses set forth above.

[Exercise of the Over-Subscription Privilege

Record date stockholders who fully exercise all rights issued to them and rights holders other than record date stockholders, may both participate in the over-subscription privilege by indicating on their subscription certificate the number of shares they are willing to acquire. If sufficient remaining shares are available after the initial subscription, all over-subscriptions will be honored in full; otherwise remaining shares will be allocated first to record date stockholders and then (if any remaining shares are still available) to non-record date rights holders, and the number of remaining shares issued to some or all exercising rights holders participating in the over-subscription privilege may be reduced as described under “—Over-Subscription Privilege” above.]

Record Date Stockholders Whose Shares are Held by a Nominee

Record date stockholders whose shares are held by a nominee, such as a bank, broker-dealer or trustee, must contact that nominee to exercise their rights. In that case, the nominee will complete the subscription certificate on behalf of the record date stockholder and arrange for proper payment by one of the methods set forth under “—Payment for Shares” below.

Nominees

Nominees, such as brokers, trustees or depositories for securities, who hold shares for the account of others should notify the respective beneficial owners of the shares as soon as possible to ascertain the beneficial owners’ intentions and to obtain instructions with respect to the rights. If the beneficial owner so instructs, the nominee should complete the subscription certificate and submit it to the subscription agent with the proper payment as described under “—Payment for Shares” below.

All questions as to the validity, form, eligibility (including times of receipt and matters pertaining to beneficial ownership) and the acceptance of subscription forms and the subscription price will be determined by us, which determinations will be final and binding. No alternative, conditional or contingent subscriptions will be accepted. We reserve the right to reject any exercise if such exercise is not in accordance with the terms of the offering or not in proper form or if the acceptance thereof or the issuance of shares of our common stock thereto could be deemed unlawful.

FOREIGN STOCKHOLDERS

Stockholders whose record addresses are outside the United States (for these purposes, the United States includes its territories and possessions and the District of Columbia) will receive written notice of the rights offering; however, subscription certificates will not be mailed to such stockholders. The subscription agent will hold the rights to which those subscription certificates relate for these stockholders' accounts until instructions are received to exercise the rights and such stockholders establish to the satisfaction of the subscription agent that they are permitted to exercise their subscription rights under applicable law. In addition, such stockholders must take all other steps that are necessary to exercise their subscription rights on or prior to the date required for participation in the rights offering. If no instructions have been received by 5:00 p.m., New York City time, on _____, 20____, three business days prior to the expiration date (or, if the offering is extended, on or before three business days prior to the extended expiration date), the subscription agent will transfer the rights of these stockholders to the dealer managers, who will either purchase the rights or use their best efforts to sell them. The net proceeds, if any, from the sale of those rights will be remitted to these stockholders. If those rights are not purchased or sold prior to the expiration of the rights offering, they will expire.

PAYMENT FOR SHARES

Participating rights holders may choose between the following methods of payment:

(1) A participating rights holder may send the subscription certificate together with payment for the shares acquired in the basic subscription[and any additional shares subscribed for pursuant to the over-subscription privilege] to the subscription agent based on the estimated subscription price of \$ _____. To be accepted, the payment, together with a properly completed and executed subscription certificate, must be received by the subscription agent at one of the subscription agent's offices set forth above, at or prior to 5:00 p.m., New York City time, on the expiration date.

(2) A participating rights holder may request an Eligible Guarantor Institution as that term is defined in Rule 17Ad-15 under the Securities Exchange Act of 1934, as amended, to send a notice of guaranteed delivery by facsimile or otherwise guaranteeing delivery of (i) payment of the full estimated subscription price of \$ _____ per share for the shares subscribed for in the basic subscription[and any additional shares subscribed for pursuant to the over-subscription privilege] and (ii) a properly completed and duly executed subscription certificate. The subscription agent will not honor a notice of guaranteed delivery unless a properly completed and duly executed subscription certificate and full payment for the shares is received by the subscription agent at or prior to 5:00 p.m., New York City time, on _____, 20____ (or, if the offering is extended, by the close of business three business days after the extended expiration date).

Participating rights holders will have no right to rescind their subscription after receipt of their payment for shares or a notice of guaranteed delivery by the subscription agent, except as provided above under "—Notice of Net Asset Value Decline."

All payments by a participating rights holder must be in U.S. dollars by money order or check or bank draft drawn on a bank or branch located in the United States and payable to _____. The subscription agent will hold all funds received by it pending distribution to us after consummation of the rights offering. If the offering is terminated, we will promptly arrange for the refund, without interest, of all funds received from holders of rights.

The method of delivery of subscription certificates and payment of the subscription price to us will be at the election and risk of the participating rights holders, but if sent by mail it is recommended that such certificates and payments be sent by registered mail, properly insured, with return receipt requested, and that a sufficient number of days be allowed to ensure delivery to the subscription agent and clearance of payment prior to 5:00 p.m., New York City time, on the expiration date or the date guaranteed payments are due under a notice of guaranteed delivery (as applicable). Because uncertified personal checks may take at least five business days to clear, you are strongly urged to pay, or arrange for payment, by means of certified or cashier's check or money order.

On a date within _____ business days following the expiration date, the subscription agent will send to each participating rights holder (or, if rights are held by Cede or any other depository or nominee, to Cede or such other depository or nominee) a confirmation showing (i) the number of shares purchased pursuant to the basic _____ subscription; [(ii) the number of shares, if any, acquired pursuant to the over-subscription privilege;](iii) the per share and total purchase price for such shares; and (iv) any additional amount payable to us by the participating rights holder or any excess to be refunded by us to the participating rights holder, in each case based on the subscription price as determined on the expiration date. If any participating rights holder, if eligible, exercises his or her right to acquire shares pursuant to the over-subscription privilege, any excess payment which would otherwise be refunded to him or her will be applied by us toward payment for shares acquired pursuant to the exercise of the over-subscription privilege. Any additional payment required from a participating rights holder must be received by the subscription agent within ten business days after the confirmation date. Any excess payment to be refunded by us to a participating rights holder will be mailed by the subscription agent to the rights holder as promptly as practicable. No interest will be paid on any amounts refunded.

Whichever of the two methods described above is used, issuance of the shares purchased is subject to collection of checks and actual payment. If a participating rights holder who subscribes for shares pursuant to the basic subscription or over-subscription privilege does not make payment of any amounts due by the expiration date, the date guaranteed payments are due under a notice of guaranteed delivery or within ten business days of the confirmation date, as applicable, the subscription agent reserves the right to take any or all of the following actions: (i) find other participating rights holders who wish to subscribe for such subscribed and unpaid for shares; (ii) apply any payment actually received by it from the participating rights holder toward the purchase of the greatest whole number of shares which could be acquired by such participating rights holder upon exercise of the basic subscription and/or the over-subscription privilege; and/or (iii) exercise any and all other rights or remedies to which it may be entitled, including, without limitation, the right to set off against payments actually received by it with respect to such subscribed for shares.

We will decide all questions as to the validity, form and eligibility (including times of receipt, beneficial ownership and compliance with other procedural matters) in our sole discretion, and our determination shall be final and binding. We, in our sole discretion, may waive any defect or irregularity, or permit a defect or irregularity to be corrected within such time as we may determine, or reject the purported exercise of any right. Subscriptions will not be deemed to have been received or accepted until all irregularities have been waived or cured within such time as we determine in our sole discretion. We will not be under any duty to give notification of any defect or irregularity in connection with the submission of subscription certificates or incur any liability for failure to give such notification.

[SALE OF RIGHTS

The Rights are Transferable until the Trading Day Immediately Preceding the Expiration Date

[The rights will be listed on _____ under the symbol “_____.” While we and the dealer managers will use our and their best efforts to ensure that an adequate trading market for the rights will exist, no assurance can be given that a market for the rights will develop. Trading in the rights on _____ is expected to be conducted beginning on or about _____, 20____. The rights are transferable and are expected to continue

trading until and including _____, 20____ (or if the offering is extended, until the trading day immediately prior to the extended expiration date). Rights holders are encouraged to contact their broker-dealer, bank, trustee or other nominees for more information about trading of the rights.]

Sales through the Subscription Agent and the Dealer Managers

Stockholders who do not wish to exercise any or all of their rights may instruct the subscription agent to sell any rights they do not intend to exercise themselves through or to a dealer manager. Subscription certificates representing the rights to be sold through or to a dealer manager must be received by the subscription agent on or before _____, 20____ (or if the offering is extended, until two business days prior to the extended expiration date). Upon the timely receipt by the subscription agent of appropriate instructions to sell rights, the subscription agent will ask the dealer managers either to purchase or to use their best efforts to complete the sale and the subscription agent will remit the proceeds of the sale to the selling stockholders. If the rights can be sold, sales of such rights will be deemed to have been effected at the weighted-average price received by the selling dealer manager on the day such rights are sold. The sale price of any rights sold to the dealer managers will be based upon the then current market price for the rights. The dealer managers will also attempt to sell all rights which remain unclaimed as a result of subscription certificates being returned by the postal authorities to the subscription agent as undeliverable as of the _____ business day prior to the expiration date of the offering. The subscription agent will hold the proceeds from those sales for the benefit of such non-claiming stockholders until such proceeds are either claimed or revert to the state pursuant to applicable state law. There can be no assurance that the dealer managers will purchase or be able to complete the sale of any such rights, and neither we nor the dealer managers have guaranteed any minimum sales price for the rights. If a stockholder does not utilize the services of the subscription agent and chooses to use another broker-dealer or other financial institution to sell rights, then the other broker-dealer or financial institution may charge a fee to sell the rights.

Other Transfers

The rights evidenced by a subscription certificate may be transferred in whole by endorsing the subscription certificate for transfer in accordance with the accompanying instructions. A portion of the rights evidenced by a single subscription certificate may be transferred by delivering to the subscription agent a subscription certificate properly endorsed for transfer, with instructions to register such portion of the rights evidenced thereby in the name of the transferee and to issue a new subscription certificate to the transferee evidencing such transferred rights. In such event, a new subscription certificate evidencing the balance of the rights, if any, will be issued to the stockholder or, if the stockholder so instructs, to an additional transferee. The signature on the subscription certificate must correspond to the name as written upon the face of the subscription certificate, without alteration or enlargement, or any change. A signature guarantee must be provided by an Eligible Guarantor Institution as that term is defined in Rule 17Ad-15 under the Exchange Act, subject to the standards and procedures adopted by us.

Stockholders wishing to transfer all or a portion of their rights should allow at least five business days prior to the expiration date of the offering for (i) the transfer instructions to be received and processed by the subscription agent; (ii) a new subscription certificate to be issued and transmitted to the transferee or transferees with respect to transferred rights, and to the transferor with respect to retained rights, if any; and (iii) the rights evidenced by such new subscription certificate to be exercised or sold by the recipients thereof. Neither we nor the subscription agent nor the dealer managers shall have any liability to a transferee or transferor of rights if subscription certificates are not received in time for exercise prior to the expiration date of the offering or sale prior to the day immediately preceding the expiration date of the offering (or, if the offering is extended, the extended expiration date).

Except for the fees charged by the subscription agent, information agent and dealer managers, which will be paid by us, all commissions, fees and other expenses (including brokerage commissions and transfer taxes) incurred or charged in connection with the purchase, sale or exercise of rights will be for the account of the transferor of the rights, and none of those commissions, fees or expenses will be paid by us, the subscription agent, information agent or the dealer managers.

We anticipate that the rights will be eligible for transfer through, and that the exercise of the basic subscription and the over-subscription privilege may be effected through, the facilities of the Depository Trust Company or DTC.]

DELIVERY OF STOCK CERTIFICATES

Stock certificates will not be issued for shares of our common stock offered in the offering. Stockholders who are record owners will have the shares they acquire credited to their account with our transfer agent. All future dividends paid on such shares will be reinvested into additional shares or paid in cash if you have made such an election in connection with our dividend reinvestment plan. Stockholders whose common stock are held by a nominee will have the shares they acquire credited to the account of such nominee holder.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS OF THE OFFERING

[Insert disclosure regarding material U.S. federal income tax considerations of the offering to the extent required to be disclosed by applicable law or regulation.]

ERISA CONSIDERATIONS

Stockholders who are employee benefit plans subject to the Employee Retirement Income Security Act of 1974, which we refer to as ERISA (including corporate savings and 401(k) plans), Keogh or H.R. 10 plans of self-employed individuals and individual retirement accounts should be aware that additional contributions of cash to a retirement plan (other than rollover contributions or trustee-to-trustee transfers from other retirement plans) in order to exercise rights would be treated as contributions to the retirement plan and, when taken together with contributions previously made, may result in, among other things, excise taxes for excess or nondeductible contributions. In the case of retirement plans qualified under Section 401(a) of the Code and certain other retirement plans, additional cash contributions could cause the maximum contribution limitations of Section 415 of the Code or other qualification rules to be violated. It may also be a reportable distribution and there may be other adverse tax and ERISA consequences if rights are sold or transferred by a retirement plan.

Retirement plans and other tax exempt entities, including governmental plans, should also be aware that if they borrow in order to finance their exercise of rights, they may become subject to the tax on unrelated business taxable income under Section 511 of the Code. If any portion of an individual retirement account is used as security for a loan, the portion so used is also treated as distributed to the IRA depositor.

ERISA contains fiduciary responsibility requirements, and ERISA and the Code contain prohibited transaction rules that may impact the exercise of rights. Due to the complexity of these rules and the penalties for noncompliance, retirement plans should consult with their counsel and other advisers regarding the consequences of their exercise of rights under ERISA and the Code.

DISTRIBUTION ARRANGEMENTS

, each a broker-dealer and member of FINRA, will act as dealer managers for the offering. Under the terms and subject to the conditions contained in the dealer manager agreement, the dealer managers will provide financial advisory and marketing services in connection with the offering and will solicit the acquisition and/or exercise of rights by stockholders and others[and participation in the over-subscription privilege]. The dealer managers may use this prospectus for any or all of such activities. The offering is not contingent upon any number of rights being exercised. We have agreed to pay the dealer managers a fee for their financial advisory, marketing and soliciting services equal to % of the aggregate subscription price for shares issued pursuant to the offering. The dealer managers will reallocate to other broker-dealers that have executed and delivered a soliciting dealer agreement and have solicited the exercise of rights, solicitation fees equal to % of the subscription price per share for each share issued pursuant to the exercise of rights[and the over-subscription privilege] as a result of their soliciting efforts.

In addition, we have agreed to reimburse the dealer managers an aggregate amount up to \$ _____ for their expenses incurred in connection with the offering. We have agreed to indemnify the dealer managers and the soliciting dealers for, or contribute to losses arising out of, certain liabilities, including liabilities under the Securities Act. The dealer manager agreement also provides that the dealer managers will not be subject to any liability to us in rendering the services contemplated by the dealer manager agreement except for any act of bad faith, willful misfeasance or gross negligence of such dealer manager or reckless disregard by such dealer manager of its obligations and duties under the dealer manager agreement.

[Insert principal business addresses of dealer managers.]

We have agreed, with certain exceptions, with the dealer managers that, for a period of _____ days following the date of this prospectus, we will not offer, pledge, sell, contract to sell or otherwise dispose of, directly or indirectly, any shares of our common stock or any securities convertible into or exchangeable for shares of our common stock, or file any registration statement with respect thereto without the prior written consent of _____. In addition, our executive officers, directors, members of our investment committee, BlackRock Kelso Capital Advisors and certain of its affiliates have agreed, with certain exceptions, with the dealer managers that, for a period of _____ days following the date of this prospectus, that they will not offer, pledge, sell, contract to sell or otherwise dispose of, directly or indirectly, any shares of our common stock or any securities convertible into or exchangeable for shares of our common stock without the prior written consent of _____. However, those dealer managers may, in their sole discretion and at any time without notice, release all or any portion of the securities subject to these agreements.

The dealer managers and their affiliates have provided in the past and may provide from time to time in the future in the ordinary course of their business certain commercial banking, financial advisory, investment banking and other services to BlackRock Kelso Capital Advisors and its affiliates and BlackRock Kelso or our portfolio companies for which they have received or will be entitled to receive separate fees. In particular, the dealer managers or their affiliates may execute transactions with BlackRock Kelso or on behalf of BlackRock Kelso, BlackRock Kelso Capital Advisors or any of our or their portfolio companies, affiliates and/or managed funds. In addition, the dealer managers or their affiliates may act as arrangers, underwriters or placement agents for companies whose securities are sold to or whose loans are syndicated to BlackRock Kelso Capital Advisors or BlackRock Kelso and their affiliates and managed funds.

The dealer managers or their affiliates may also trade in our securities, securities of our portfolio companies or other financial instruments related thereto for their own accounts or for the account of others and may extend loans or financing directly or through derivative transactions to BlackRock Kelso Capital Advisors or BlackRock Kelso or any of the portfolio companies.

We may purchase securities of third parties from the dealer managers or their affiliates after the offering. However, we have not entered into any agreement or arrangement regarding the acquisition of any such securities, and we may not purchase any such securities. We would only purchase any such securities if—among other things—we identified securities that satisfied our investment needs and completed our due diligence review of such securities.

After the date of this prospectus supplement, the dealer managers and their affiliates may from time to time obtain information regarding specific portfolio companies or us that may not be available to the general public. Any such information is obtained by the dealer managers and their affiliates in the ordinary course of its business and not in connection with the offering. In addition, after the expiration of the offering, the dealer managers or their affiliates may develop analyses or opinions related to BlackRock Kelso Capital Advisors or BlackRock Kelso or our portfolio companies and buy or sell interests in one or more of our portfolio companies on behalf of their proprietary or client accounts and may engage in competitive activities. There is no obligation on behalf of these parties to disclose their respective analyses, opinions or purchase and sale activities regarding any portfolio company or regarding BlackRock Kelso to our rightsholders or any other persons.

Prior to the expiration of the offering, the dealer managers may independently offer for sale shares, including shares acquired through purchasing and exercising the rights, at prices they set. The dealer managers may realize profits or losses independent of any fees described in this prospectus supplement and accompanying prospectus.

[Describe any other specific transactions and compensation related thereto to the extent required to be disclosed by applicable law or regulation.]

[Describe if dealer managers receiving proceeds of offering, if required by FINRA.]

USE OF PROCEEDS

Assuming _____ shares of our common stock are sold at an estimated subscription price of \$ _____, the net proceeds from this offering will be approximately \$ _____ million, after deducting dealer manager fees and other expenses related to the offering payable by us. There can be no assurance that all of the rights will be exercised in full, and the subscription price will not be determined until the close of business on the expiration date.

[Describe use of proceeds and include any other relevant information to the extent required to be disclosed by applicable law or regulation.]

PRICE RANGE OF COMMON STOCK

Our common stock has been quoted on The NASDAQ Global Select Market under the symbol “BKCC” since June 27, 2007. The following table lists the high and low closing bid price for our common stock, the closing bid price as a percentage of NAV, and quarterly dividends per share for the last two completed fiscal years and the current fiscal year through _____, 20____. On _____, 20____, the last reported closing price of our common stock was \$ _____ per share.

	NAV(1)	Closing Sales Price		Premium/ Discount of High Sales Price to NAV(2)	Premium/ Discount of Low Sales Price to NAV(2)	Declared Dividends
		High	Low			
Year Ending December 31, 20____						
First Quarter	\$ _____	\$ _____	\$ _____	%	%	\$ _____
Second Quarter	\$ _____	\$ _____	\$ _____	%	%	\$ _____
Third Quarter	\$ _____	\$ _____	\$ _____	%	%	\$ _____
Fourth Quarter (through _____)	\$ _____	\$ _____	\$ _____	%	%	\$ _____
Year Ending December 31, 20____						
First Quarter	\$ _____	\$ _____	\$ _____	%	%	\$ _____
Second Quarter	\$ _____	\$ _____	\$ _____	%	%	\$ _____
Third Quarter	\$ _____	\$ _____	\$ _____	%	%	\$ _____
Fourth Quarter	\$ _____	\$ _____	\$ _____	%	%	\$ _____
Year Ending December 31, 20____						
First Quarter	\$ _____	\$ _____	\$ _____	%	%	\$ _____
Second Quarter	\$ _____	\$ _____	\$ _____	%	%	\$ _____
Third Quarter	\$ _____	\$ _____	\$ _____	%	%	\$ _____
Fourth Quarter	\$ _____	\$ _____	\$ _____	%	%	\$ _____

(1) NAV per share is determined as of the last day in the relevant quarter and therefore may not reflect the NAV per share on the date of the high and low sales prices. The NAVs shown are based on outstanding shares at the end of each period.

(2) Calculated as of the respective high or low closing sales price divided by the quarter end NAV.

* Net asset value has not yet been calculated for this period.

** Dividend has not yet been declared for this quarter.

Our common stock recently has traded at prices both above and below our most recently calculated net asset value. There can be no assurance, however, that our shares will trade above, below or at our net asset value.

In August 2008, our Board of Directors approved a share repurchase plan under which we may repurchase up to 2.5 percent of our outstanding shares of common stock from time to time in open market or privately negotiated transactions. In May 2009, our Board of Directors approved an extension and increase to the plan which authorized us to repurchase up to an additional 2.5 percent of our outstanding shares of common stock. In May 2011, our Board of Directors approved an extension of our share repurchase plan to June 30, 2012. During the year ended _____, 20____, we purchased a total of _____ shares of our common stock on the open market for \$ _____, including brokerage commissions. During the year ended _____, 20____, we purchased a total of _____ shares of our common stock on the open market for \$ _____, including brokerage commissions. At _____, 20____, the total number of remaining shares authorized for repurchase was _____. We currently hold the shares we repurchased in treasury. Notice is hereby given in accordance with Section 23 of the 1940 Act that from time to time we may purchase shares of our common stock in the open market at prevailing market prices.

We intend to pay quarterly dividends to our common stockholders. The amount of our quarterly dividend is determined by our board of directors. On _____, 20____, our Board of Directors declared a dividend of \$ _____ per share, payable on _____ to stockholders of record at the close of business on _____.

There can be no assurance that we will achieve investment results or maintain a tax status that will permit any particular level of dividend payment. Our Credit Facility may limit our ability to declare dividends if we default under certain provisions. For a description of the Credit Facility, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in this prospectus supplement and Note 7 to our financial statements included elsewhere in this prospectus supplement.

CAPITALIZATION

The following table sets forth our cash and capitalization as of _____, 20____ (1) on an actual basis and (2) as adjusted to reflect the effects of the sale of _____ shares of our common stock in this offering, assuming all rights are exercised at the estimated subscription price of \$____, after deducting dealer manager fees and other expenses related to this offering payable by us. You should read this table together with “Use of Proceeds” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” set forth in this prospectus supplement and our financial statements and notes thereto, as well as “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our financial statements and notes thereto included in the accompanying prospectus.

	As of _____, 20____	As Adjusted for this Offering(3)
	Actual	As Adjusted for this Offering(3)
	(Dollars in thousands, except per share data)	
Cash and cash equivalents	\$ _____	\$ _____
Total assets	\$ _____	\$ _____
Borrowings under Credit Facility	\$ _____	\$ _____
Common stock, par value \$0.001 per share; _____ shares authorized, issued and outstanding, _____ shares issued and outstanding, as adjusted, respectively(1)	\$ _____	\$ _____
Capital in excess of par value	\$ _____	\$ _____
Distributable earnings(2)	\$ _____	\$ _____
Treasury stock	\$ _____	\$ _____
Total stockholders’ equity	\$ _____	\$ _____
Total capitalization	\$ _____	\$ _____

- (1) Figures do not include _____ and _____ shares issued under our Dividend Reinvestment Plan on _____, 20____ and _____, 20____, respectively.
- (2) Includes cumulative net investment income or loss, cumulative amounts of gains and losses realized from investment and foreign currency transactions and net unrealized appreciation or depreciation of investments and foreign currencies, and distributions paid to stockholders other than tax return of capital distributions. Distributable earnings is not intended to represent amounts we may or will distribute to our stockholders.
- (3) As described under “Use of Proceeds,” we intend to use a part of the net proceeds from this offering initially to repay a portion of the borrowings outstanding under our Credit Facility. We have not yet determined how much of the net proceeds of this offering will be used for this purpose and, as a result, we have not reflected the consequences of such repayment in this table.

DILUTION

As of _____, 20____, our net asset value was \$ _____ million, or approximately \$ _____ per share. After giving effect to the sale of _____ shares of our common stock in this offering, assuming all rights are exercised at the estimated subscription price of \$ _____ per share, after deducting dealer manager fees and other expenses related to this offering payable by us, our pro forma net asset value would have been approximately \$ _____ million, or approximately \$ _____ per share, representing an immediate dilution of approximately \$ _____ per share to our existing stockholders.

The following table illustrates the dilutive effects of this offering on a per share basis, assuming all rights are exercised at the estimated subscription price of \$ _____ per share, after deducting dealer manager fees and other expenses related to this offering payable by us:

	As of		, 20	
	Actual		Pro Forma	
Net asset value per common share	\$		\$	

	Months Ended		, 20	
	Actual		Pro Forma	
Net increase in assets resulting from net investment income per common share	\$	(1)	\$	(2)
Net decrease in net assets resulting from operations per common share	\$	(1)	\$	(2)
Distributions per common share	\$		\$	(3)

- (1) Basic and diluted, weighted average number of shares outstanding is _____.
- (2) Assumes that on _____, 20____, the beginning of the indicated period, (i) all rights were exercised at the estimated subscription price of \$ _____ per share and (ii) _____ shares of our common stock were issued upon the exercise of such rights.
- (3) Assumes actual cash distributions divided by adjusted shares, including _____ shares issued upon exercise of rights.

MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information contained in this section should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this prospectus supplement.

Overview

BLACKROCK KELSO CAPITAL CORPORATION

**PRELIMINARY PROSPECTUS SUPPLEMENT
, 20**

[Dealer Managers]

The information in this preliminary prospectus supplement is not complete and may be changed. A registration statement relating to these securities has been filed with the Securities and Exchange Commission. This preliminary prospectus supplement is not an offer to sell nor does it seek an offer to buy these securities in any jurisdiction where the offer or sale is not permitted.

Exhibit 99.5

SUBJECT TO COMPLETION, DATED _____, 20____

[FORM OF PRELIMINARY PROSPECTUS SUPPLEMENT TO BE USED IN CONJUNCTION WITH FUTURE DEBT SECURITIES OFFERINGS]
(1)

PRELIMINARY PROSPECTUS SUPPLEMENT
To the Prospectus dated _____, 20____

BLACKROCK KELSO CAPITAL CORPORATION
% [Insert ranking/conversion information] Notes due

BlackRock Kelso Capital Corporation is an externally-managed, non-diversified closed-end management investment company. We have elected to be regulated as a business development company under the Investment Company Act of 1940. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in middle-market companies in the form of senior and junior secured, unsecured and subordinated debt securities and loans, each of which may include an equity component, and by making direct preferred, common and other equity investments in such companies.

We are offering \$ _____ in aggregate principal amount of % [Insert ranking/conversion information] notes due _____, which we refer to as the Notes. [Insert relevant information regarding interest payments, redemption, etc.] [The underwriters may also purchase up to an additional \$ _____ total aggregate principal amount of Notes offered hereby, to cover overallotments, if any, within _____ days of the date of this prospectus supplement. If the underwriters exercise this option in full, the total public offering price will be \$ _____, the total underwriting discount (sales load) paid by us will be \$ _____, and total proceeds, before expenses, will be \$ _____.]

This prospectus supplement and the accompanying prospectus set forth important information you should know before investing in our securities. Please read it before you invest and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information about us with the Securities and Exchange Commission, or the SEC. This information is available free of charge by contacting us at 40 East 52nd Street, New York, New York 10022, or by telephone at (212) 810-5800 or on our website at www.blackrockkelso.com/InvestorRelations. The SEC also maintains a website at www.sec.gov that contains such information free of charge.

Investing in our securities involves a high degree of risk, including the risk of the use of leverage. Before investing in our securities, you should read the discussion of the material risks of investing in the Company in "Risks" beginning on page S-_____ of this prospectus supplement and page _____ of the accompanying prospectus.

Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	Per Note	Total
Public Offering Price	%	\$
Underwriting Discount	%	\$
Proceeds to BlackRock Kelso Capital Corporation (before estimated expenses of \$ _____)	%	\$

THE NOTES ARE NOT DEPOSITS OR OTHER OBLIGATIONS OF A BANK AND ARE NOT INSURED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION OR ANY OTHER GOVERNMENT AGENCY.

Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

Delivery of the Notes in book-entry form only through The Depository Trust Company will be made on or about _____, 20____.

Prospectus Supplement dated _____, 20____

(1) In addition to the sections outlined in this form of prospectus supplement, each prospectus supplement actually used in connection with an offering conducted pursuant to the registration statement to which this form of prospectus supplement is attached will be updated to include such other information as may then be required to be disclosed therein pursuant to applicable law or regulation as in effect as of the date of each such prospectus supplement, including, without limitation, information particular to the terms of each security offered thereby and any related risk factors or tax considerations pertaining thereto. This form of prospectus supplement is intended only to provide a rough approximation of the nature and type of disclosure that may appear in any actual prospectus supplement used for the purposes of offering securities pursuant to the registration statement to which this form of prospectus supplement is attached, and is not intended to and does not contain all of the information that would appear in any such actual prospectus supplement, and should not be used or relied upon in connection with any offer or sale of securities.

You should rely only on the information contained in this prospectus supplement and the accompanying prospectus, which we sometimes refer to collectively as the “prospectus.” We have not, and the underwriters have not, authorized anyone to provide you with additional information, or information different from that contained in this prospectus supplement and the accompanying prospectus. If anyone provides you with different or additional information, you should not rely on it. We are offering to sell, and seeking offers to buy, securities only in jurisdictions where offers and sales are permitted. The information contained in or incorporated by reference in this prospectus supplement and the accompanying prospectus is accurate only as of the date of this prospectus supplement or such prospectus, respectively. Our business, financial condition, results of operations and prospects may have changed since then. This prospectus supplement supersedes the accompanying prospectus to the extent it contains information that is different from or in addition to the information in the accompanying prospectus.

PROSPECTUS

TABLE OF CONTENTS

[Insert table of contents from base prospectus]

THE COMPANY

This summary highlights some of the information in this prospectus supplement. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under “Risks” in this prospectus supplement and the accompanying prospectus and the other information included in this prospectus supplement and the accompanying prospectus. Throughout this prospectus supplement and the accompanying prospectus, except where the context suggests otherwise, we refer to BlackRock Kelso Capital Corporation as the “Company,” “BlackRock Kelso,” “we,” “us” or “our.”

General

We provide middle-market companies with flexible financing solutions, including senior and junior secured, unsecured and subordinated debt securities and loans, and equity securities. Our strategy is to provide capital to meet our clients’ current and future needs across this spectrum, creating long-term partnerships with growing middle-market companies.

We are organized as an externally-managed, non-diversified, closed-end management investment company. We have elected to be regulated as a business development company, or BDC, under the Investment Company Act of 1940, which we refer to as the 1940 Act. In addition, for tax purposes we intend to continue to qualify as a regulated investment company, or RIC, under the Internal Revenue Code of 1986, which we refer to as the Code.

Our investment objective is to generate both current income and capital appreciation through our debt and equity investments. We invest primarily in middle-market companies and target investments throughout the capital structure that we believe provide an attractive risk-adjusted return. The term “middle-market” refers to companies with annual revenues typically between \$50 million and \$1 billion. Our targeted investment typically ranges between \$10 million and \$50 million, although the investment sizes may be more or less than the targeted range and the size of our investments may grow with our capital availability. We generally seek to invest in companies that operate in a broad variety of industries and that generate positive cash flows.

Although most of our investments are in senior and junior secured, unsecured and subordinated loans to U.S. private and certain public middle-market companies, we invest throughout the capital structure, which may include common and preferred equity, options and warrants, credit derivatives, high-yield bonds, distressed debt and other structured securities. We may from time-to-time invest up to 30% of our assets opportunistically in other types of investments, including securities of other public companies and foreign securities.

The senior and junior secured loans in which we invest generally have stated terms of three to ten years and the subordinated debt investments we make generally have stated terms of up to ten years, but the expected average life of such senior and junior secured loans and subordinated debt is generally between three and seven years. However, we may invest in securities of any maturity or duration. The debt that we invest in typically is not initially rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade (rated lower than “Baa3” by Moody’s Investors Service, lower than “BBB-” by Fitch Ratings or lower than “BBB-” by Standard & Poor’s). We may invest without limit in debt of any rating, as well as debt that has not been rated by any nationally recognized statistical rating organization.

We were incorporated on April 13, 2005, commenced operations with private funding on July 25, 2005, and completed our initial public offering on July 2, 2007. Since the commencement of our operations, the team of investment professionals of BlackRock Kelso Capital Advisors LLC (the “Advisor” or “BlackRock Kelso Capital Advisors”), including our senior management, has evaluated more than investment opportunities and completed investments, aggregating approximately \$ billion in capital provided to middle-market companies through , 20 .

During the ended , 20 , we invested \$ million across new and existing portfolio companies. This compares to investing \$ million across new and existing portfolio companies for the ended , 20 . Sales, repayments and other exits of investment principal totaled \$ million during the ended , 20 , versus \$ million during the ended , 20 .

At , 20 , our net portfolio consisted of portfolio companies and was invested % in senior secured loans, % in unsecured or subordinated debt securities, % in equity investments, % in senior secured notes and % in cash and cash equivalents. This compares to our portfolio of companies that was invested % in senior secured loans, % in unsecured or subordinated debt securities, % in senior secured notes, % in equity investments and less than % in cash and cash equivalents at , 20 . Our average portfolio company investment at amortized cost was approximately \$ million at , 20 , versus \$ million at , 20 .

The weighted average yields of the debt and income producing equity securities in our portfolio at fair value were % at , 20 and % at , 20 . The weighted average yields on our senior secured loans and other debt securities at fair value were % and %, respectively, at , 20 , versus % and % at , 20 . The weighted average yields of the debt and income producing equity securities in our portfolio at their current cost basis were % at , 20 and % at , 20 . The weighted average yields on our senior secured loans and other debt securities at their current cost basis were % and %, respectively, at , 20 , versus % and % at , 20 .

BlackRock Kelso Capital Advisors

Our investment activities are managed by the Advisor. The Advisor is responsible for sourcing potential investments, conducting research on prospective investments, analyzing investment opportunities, structuring our investments, and monitoring our investments and portfolio companies on an ongoing basis. The Advisor is led by James R. Maher, Chairman and Chief Executive Officer of the Company and the Advisor, and Michael B. Lazar, Chief Operating Officer of the Company and the Advisor. They are supported by the Advisor’s team of employees, including investment professionals who have extensive experience in commercial lending, investment banking, accounting, corporate law and private equity investing.

The Advisor has an investment committee comprised of members, including Messrs. Maher and Lazar and several executives of BlackRock, Inc. (“BlackRock”) and several of the principals of Kelso & Company, L.P. (the “Kelso Principals”). We benefit from the extensive and varied relevant experience of the BlackRock executives and the Kelso Principals serving on the Advisor’s investment committee.

BlackRock is a leader in investment management, risk management and advisory services for institutional and retail clients worldwide. At , 20 , BlackRock’s assets under management were \$ trillion.

The Kelso Principals have an average tenure of at least years at Kelso & Company, L.P. (“Kelso”). Kelso is a leading private equity firm and since 1980 has raised over \$ billion of committed private equity capital, investing primarily in middle-market companies across a broad range of industries and through different economic and interest rate environments. Through our relationship with the Kelso Principals, we have access to these management teams who can provide unique insight into the industries in which they operate. Although the Kelso Principals who serve on the investment committee bring the benefit of the expertise they have gained at Kelso and elsewhere, Kelso as an organization does not participate in the activities of the Advisor or advise us.

Our executive officers and directors and the employees of the Advisor and members of its investment committee serve or may serve as investment advisors, officers, directors or principals of entities or investment funds that operate in the same or a related line of business as we do and/or investment funds managed by our

affiliates. We note that any affiliated investment vehicle currently formed or formed in the future and managed by the Advisor or its affiliates may have overlapping investment objectives with our own and, accordingly, may invest in asset classes similar to those targeted by us. As a result, the Advisor and/or its affiliates may face conflicts in allocating investment opportunities between us and such other entities. Accordingly, we may not be given the opportunity to participate in certain investments made by investment funds managed by advisors affiliated with the Advisor. However, the Advisor and its affiliates will endeavor to allocate investment opportunities in a fair and equitable manner and consistent with applicable allocation procedures. In any such case, if the Advisor forms other affiliates in the future, we may co-invest on a concurrent basis with such other affiliates, subject to compliance with applicable regulations and regulatory guidance, as well as applicable allocation procedures. In certain circumstances, negotiated co-investments may be made only if we receive an order from the SEC permitting us to do so.

Administration

BlackRock, through its subsidiary, BlackRock Financial Management, Inc. (the “Administrator”), serves as our administrator and provides us with office space, equipment and office services. The Administrator processes our financial records, assists in the preparation of reports to our stockholders and reports filed with the SEC and generally monitors the payment of our expenses.

Company Information

Our administrative and executive offices are located at 40 East 52nd Street, New York, NY 10022, and our telephone number is (212) 810-5800.

RECENT DEVELOPMENTS

[Insert description at time of offering.]

SPECIFIC TERMS OF THE NOTES AND THE OFFERING

This prospectus supplement sets forth certain terms of the Notes that we are offering pursuant to this prospectus supplement and supplements the accompanying prospectus that is attached to the back of this prospectus supplement. This section outlines the specific legal and financial terms of the Notes. You should read this section together with the more general description of the Notes in the accompanying prospectus under the heading “Description of Our Debt Securities” before investing in the Notes. Capitalized terms used in this prospectus supplement and not otherwise defined shall have the meanings ascribed to them in the accompanying prospectus.

[Insert material terms of the Notes in tabular form to the extent required to be disclosed by applicable law or regulation.]

SELECTED FINANCIAL DATA

The Statement of Operations Data, Per Share Data and Balance Sheet Data for each of the five years in the period ended December 31, 20 are derived from our financial statements which have been audited by Deloitte & Touche LLP, our independent registered public accounting firm. [Quarterly financial information is derived from unaudited financial data, but in the opinion of management, reflects all adjustments (consisting only of normal recurring adjustments) that are necessary to present fairly the results of such interim periods. Interim results at and for the and months ended , 20 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 20 .]

This selected financial data should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” set forth in this prospectus supplement and our financial statements and related notes thereto included elsewhere in this prospectus supplement, as well as “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Senior Securities” and our financial statements and the related notes thereto included in the accompanying prospectus.

(1) The base management fee waiver terminated on June 30, 2007.

(2) Our common stock commenced trading on The NASDAQ Global Select Market on June 27, 2007. There was no established public trading market for the stock prior to that date.

(3) For the and months ended , 20 and , 20 and the years ended December 31, 20 and , total return is based on the change in market price during the respective periods. For the years ended prior to December 31, 20 , total return is based on the change in net asset value per common share during the respective year. The total return for the period June 26, 2007 through December 31, 2007 based on the change in market price per common share during such period was 1.2%. Total return calculations take into account dividends and distributions, if any, reinvested in accordance with our dividend reinvestment plan and do not reflect brokerage commissions. Total return is not annualized.

(4) Yield on investments at period end represents the weighted average yield on the debt and income producing equity securities in our portfolio at their current cost basis. Yields are computed using interest rates and dividend yields as of the balance sheet date and include amortization of loan origination and commitment fees, original issue discount and market premium or discount based on the expected cash flows of the respective portfolio investment. Yields exclude common equity investments, preferred equity investments with no stated dividend rate, short-term investments, cash and cash equivalents.

RISK FACTORS

[Insert risk factors applicable to the Notes and any additional relevant risk factors not included in the base prospectus to the extent required to be disclosed by applicable law or regulation.]

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement, and other statements that we may make, may contain forward-looking statements with respect to future financial or business performance, strategies or expectations. Forward-looking statements are typically identified by words or phrases such as “trend,” “opportunity,” “pipeline,” “believe,” “comfortable,” “expect,” “anticipate,” “current,” “intention,” “estimate,” “position,” “assume,” “potential,” “outlook,” “continue,” “remain,” “maintain,” “sustain,” “seek,” “achieve” and similar expressions, or future or conditional verbs such as “will,” “would,” “should,” “could,” “may” or similar expressions.

Forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made, and we assume no duty to and do not undertake to update forward-looking statements. Actual results could differ materially from those anticipated in forward-looking statements and future results could differ materially from historical performance.

In addition to factors previously identified elsewhere in this prospectus supplement, including the “Risks” section of the accompanying prospectus, the following factors, among others, could cause actual results to differ materially from forward-looking statements or historical performance:

- our future operating results;
- our business prospects and the prospects of our portfolio companies;
- the impact of investments that we expect to make;
- our contractual arrangements and relationships with third parties;
- the dependence of our future success on the general economy and its impact on the industries in which we invest;
- the ability of our portfolio companies to achieve their objectives;
- our expected financings and investments;
- the adequacy of our cash resources and working capital, including our ability to obtain continued financing on favorable terms;
- the timing of cash flows, if any, from the operations of our portfolio companies;
- the impact of increased competition;
- the ability of the Advisor to locate suitable investments for us and to monitor and administer our investments;
- potential conflicts of interest in the allocation of opportunities between us and other investment funds managed by the Advisor or its affiliates;
- the ability of the Advisor to attract and retain highly talented professionals;
- fluctuations in foreign currency exchange rates;
- regulatory changes and other changes in law; and
- the impact of changes to tax legislation and, generally, our tax position.

The forward-looking statements in this prospectus supplement are excluded from the safe harbor protection provided by Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934.

USE OF PROCEEDS

We estimate that the net proceeds from the sale of the \$ million aggregate principal amount of Notes in this offering, after deducting estimated expenses of this offering payable by us, will be approximately \$ million [(or \$ million, if the over-allotment is exercised in full)] based on a public offering price of 100% of par.

[Describe use of proceeds and include any other relevant information to the extent required to be disclosed by applicable law or regulation.]

RATIO OF EARNINGS TO FIXED CHARGES AND PREFERRED DIVIDENDS

[Insert information required by Item 503(d) of Regulation S-K at time of offering.]

CAPITALIZATION

The following table sets forth our cash and capitalization as of _____, 20____ (1) on an actual basis and (2) as adjusted to reflect the effects of the sale of \$ _____ aggregate principal amount of Notes in this offering at an assumed offering price of 100% of par. You should read this table together with “Use of Proceeds” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” set forth in this prospectus supplement and our financial statements and notes thereto, as well as “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our financial statements and notes thereto included in the accompanying prospectus.

- (1) Does not include the underwriters’ over-allotment option.
- (2) Figures do not include _____ and _____ shares issued under our Dividend Reinvestment Plan on _____, 20____ and _____, 20____, respectively.
- (3) Includes cumulative net investment income or loss, cumulative amounts of gains and losses realized from investment and foreign currency transactions and net unrealized appreciation or depreciation of investments and foreign currencies, and distributions paid to stockholders other than tax return of capital distributions. Distributable earnings is not intended to represent amounts we may or will distribute to our stockholders.
- (4) As described under “Use of Proceeds,” we intend to use a part of the net proceeds from this offering initially to repay a portion of the borrowings outstanding under our Credit Facility. We have not yet determined how much of the net proceeds of this offering will be used for this purpose and, as a result, we have not reflected the consequences of such repayment in this table.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information contained in this section should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this prospectus supplement.

Overview

[Insert Management's Discussion and Analysis of Financial Condition and Results of Operations from most recently filed Quarterly Report on Form 10-Q prior to the offering.]

SUPPLEMENT TO MATERIAL U.S. FEDERAL TAX MATTERS

[Insert disclosure regarding federal income tax consequences of an investment in the Notes to the extent required to be disclosed by applicable law or regulation.]

An underwriting discount of % per Note will be paid by us. [This underwriting discount will also apply to any Notes purchased pursuant to the overallotment option.] The following table shows the underwriting discounts and commissions that we are to pay to the underwriters in connection with this offering. [These amounts are shown assuming both no exercise and full exercise of the underwriters' over-allotment option.]

	<u>Per Note</u>	<u>[Without Option]</u>	<u>[With Option]</u>
Public offering price	\$	\$	\$
Underwriting discount	\$	\$	\$
Proceeds, before expenses, to us	\$	\$	\$

[The underwriters propose to offer some of the Notes to the public at the public offering price set forth on the cover page of this prospectus supplement and some of the Notes to certain other Financial Industry Regulatory Authority (FINRA) members at the public offering price less a concession not in excess of % of the aggregate principal amount of the Notes. The underwriters may allow, and the dealers may reallocate, a discount not in excess of % of the aggregate principal amount of the Notes. After the initial offering of the Notes to the public, the public offering price and such concessions may be changed. No such change shall change the amount of proceeds to be received by us as set forth on the cover page of this prospectus supplement.]

We estimate that our portion of the total expenses of this offering will be \$.

In connection with the offering, the underwriters may purchase and sell Notes in the open market. These transactions may include overallotment, covering transactions and stabilizing transactions. Overallotment involves sales of securities in excess of the aggregate principal amount of securities to be purchased by the underwriters in the offering, which creates a short position for the underwriters. Covering transactions involve purchases of the securities in the open market after the distribution has been completed in order to cover short positions. Stabilizing transactions consist of certain bids or purchases of securities made for the purpose of preventing or retarding a decline in the market price of the securities while the offering is in progress.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased Notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

Any of these activities may cause the price of the Notes to be higher than the price that otherwise would exist in the open market in the absence of such transactions. These transactions may be effected in the over-the-counter market or otherwise and, if commenced, may be discontinued at any time without any notice relating thereto.

The underwriters have performed commercial banking, investment banking and advisory services for us, BlackRock Kelso Capital Advisors, and our affiliates from time to time for which they have received customary fees and reimbursement of expenses. The underwriters may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business for which they may receive customary fees and reimbursement of expenses. [In addition, affiliates of the underwriters are lenders under our Credit Facility.]

At , 20 , Bank of America Corporation, an affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated, owned approximately % of the outstanding preferred and common stock of BlackRock, Inc. and had a % voting interest therein.

A prospectus supplement and prospectus in electronic format may be made available on the websites maintained by one or more of the underwriters. Other than the prospectus supplement and prospectus in electronic format, the information on any such underwriter's website is not part of this prospectus supplement and prospectus. The representatives may agree to allocate shares to underwriters that may make Internet distributions on the same basis as other allocations. In addition, shares may be sold by the underwriters to securities dealers who resell shares to online brokerage account holders.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

[Describe any other specific transactions and compensation related thereto to the extent required to be disclosed by applicable law or regulation.]

[Describe if underwriters receiving proceeds of offering, if required by FINRA.]

[Insert principal business addresses of underwriters.]

[Insert applicable legends for jurisdictions in which offers and sales may be made.]

LEGAL MATTERS

Certain legal matters in connection with the securities offered by this prospectus supplement and accompanying prospectus will be passed upon for us by Skadden, Arps, Slate, Meagher & Flom LLP, New York, New York. Attorneys at Skadden, Arps, Slate, Meagher & Flom LLP involved in the representation of the Company beneficially own less than percent of our common stock outstanding at . Certain legal matters will be passed upon for the underwriters by Sutherland Asbill & Brennan LLP, Washington, D.C.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Deloitte & Touche LLP is our independent registered public accounting firm.

ADDITIONAL INFORMATION

We have filed a registration statement with the SEC on Form N-2, including amendments, relating to the securities we are offering. This prospectus supplement does not contain all of the information set forth in the registration statement, including any exhibits and schedules it may contain. For further information concerning us or the securities we are offering, please refer to the registration statement. Statements contained in this prospectus supplement as to the contents of any contract or other document referred to are not necessarily complete and in each instance reference is made to the copy of any contract or other document filed as an exhibit to the registration statement. Each statement is qualified in all respects by this reference.

We file with or submit to the SEC annual, quarterly and current periodic reports, proxy statements and other information meeting the informational requirements of the Securities Exchange Act of 1934. This information and the information specifically regarding how we voted proxies relating to portfolio securities for the period ended , 20 , are available free of charge by contacting us at 40 East 52nd Street, New York, NY 10022 or by telephone at toll-free (212) 810-5800. You may inspect and copy these reports, proxy statements and other information, as well as the registration statement of which this prospectus forms a part and the related exhibits and schedules, at the Public Reference Room of the SEC at 100 F Street, N.E., Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Copies of these reports, proxy and information statements and other information may be obtained, after paying a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov, or by writing the SEC's Public Reference Section, Washington D.C. 20549-0102. In addition, the SEC maintains an Internet website that contains reports, proxy and information statements and other information filed electronically by us with the SEC at <http://www.sec.gov>.

No dealer, salesperson or other individual has been authorized to give any information or to make any representation other than those contained in this prospectus supplement and, if given or made, such information or representations must not be relied upon as having been authorized by us or the underwriters. This prospectus supplement does not constitute an offer to sell or a solicitation of an offer to buy any securities in any jurisdiction in which such an offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so, or to any person to whom it is unlawful to make such offer or solicitation. Neither the delivery of this prospectus supplement nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in our affairs or that information contained herein is correct as of any time subsequent to the date hereof.

PRELIMINARY PROSPECTUS SUPPLEMENT
To the Prospectus dated _____, 20____

BLACKROCK KELSO CAPITAL CORPORATION

% [Title to be specified] Units

BlackRock Kelso Capital Corporation is an externally-managed, non-diversified closed-end management investment company. We have elected to be regulated as a business development company under the Investment Company Act of 1940. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in middle-market companies in the form of senior and junior secured, unsecured and subordinated debt securities and loans, each of which may include an equity component, and by making direct preferred, common and other equity investments in such companies.

We are offering for sale _____ our % [title to be specified] units (the “Units”). Each Unit has a stated amount of \$ _____. [Insert information regarding securities comprising unit to the extent required to be disclosed by applicable law or regulation]. [The underwriters may also purchase up to an additional Units from us at the public offering price, less the underwriting discount, within _____ days of the date of this prospectus supplement to cover overallocments. If the underwriters exercise this option in full, the total public offering price will be \$ _____, the total underwriting discount (sales load) paid by us will be \$ _____, and total proceeds, before expenses, will be \$ _____.]

This prospectus supplement and the accompanying prospectus set forth important information you should know before investing in our securities. Please read it before you invest and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information about us with the Securities and Exchange Commission, or the SEC. This information is available free of charge by contacting us at 40 East 52nd Street, New York, New York 10022, or by telephone at (212) 810-5800 or on our website at www.blackrockkelso.com/InvestorRelations. The SEC also maintains a website at www.sec.gov that contains such information free of charge.

Investing in our securities involves a high degree of risk, including the risk of the use of leverage. Before investing in our securities, you should read the discussion of the material risks of investing in the Company in “Risks” beginning on page S-_____ of this prospectus supplement and page _____ of the accompanying prospectus.

Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

Prospectus Supplement dated _____, 20____

(1) In addition to the sections outlined in this form of prospectus supplement, each prospectus supplement actually used in connection with an offering conducted pursuant to the registration statement to which this form of prospectus supplement is attached will be updated to include such other information as may then be required to be disclosed therein pursuant to applicable law or regulation as in effect as of the date of each such prospectus supplement, including, without limitation, information particular to the terms of each security offered thereby and any related risk factors or tax considerations pertaining thereto. This form of prospectus supplement is intended only to provide a rough approximation of the nature and type of disclosure that may appear in any actual prospectus supplement used for the purposes of offering securities pursuant to the registration statement to which this form of prospectus supplement is attached, and is not intended to and does not contain all of the information that would appear in any such actual prospectus supplement, and should not be used or relied upon in connection with any offer or sale of securities.

You should rely only on the information contained in this prospectus supplement and the accompanying prospectus, which we sometimes refer to collectively as the “prospectus.” We have not, and the underwriters have not, authorized anyone to provide you with additional information, or information different from that contained in this prospectus supplement and the accompanying prospectus. If anyone provides you with different or additional information, you should not rely on it. We are offering to sell, and seeking offers to buy, securities only in jurisdictions where offers and sales are permitted. The information contained in or incorporated by reference in this prospectus supplement and the accompanying prospectus is accurate only as of the date of this prospectus supplement or such prospectus, respectively. Our business, financial condition, results of operations and prospects may have changed since then. This prospectus supplement supersedes the accompanying prospectus to the extent it contains information that is different from or in addition to the information in the accompanying prospectus.

PROSPECTUS

TABLE OF CONTENTS

[Insert table of contents from base prospectus]

THE COMPANY

This summary highlights some of the information in this prospectus supplement. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under “Risks” in the accompanying prospectus and the other information included in this prospectus supplement and the accompanying prospectus. Throughout this prospectus supplement and the accompanying prospectus, except where the context suggests otherwise, we refer to BlackRock Kelso Capital Corporation as the “Company,” “BlackRock Kelso,” “we,” “us” or “our.”

General

We provide middle-market companies with flexible financing solutions, including senior and junior secured, unsecured and subordinated debt securities and loans, and equity securities. Our strategy is to provide capital to meet our clients’ current and future needs across this spectrum, creating long-term partnerships with growing middle-market companies.

We are organized as an externally-managed, non-diversified, closed-end management investment company. We have elected to be regulated as a business development company, or BDC, under the Investment Company Act of 1940, which we refer to as the 1940 Act. In addition, for tax purposes we intend to continue to qualify as a regulated investment company, or RIC, under the Internal Revenue Code of 1986, which we refer to as the Code.

Our investment objective is to generate both current income and capital appreciation through our debt and equity investments. We invest primarily in middle-market companies and target investments throughout the capital structure that we believe provide an attractive risk-adjusted return. The term “middle-market” refers to companies with annual revenues typically between \$50 million and \$1 billion. Our targeted investment typically ranges between \$10 million and \$50 million, although the investment sizes may be more or less than the targeted range and the size of our investments may grow with our capital availability. We generally seek to invest in companies that operate in a broad variety of industries and that generate positive cash flows.

Although most of our investments are in senior and junior secured, unsecured and subordinated loans to U.S. private and certain public middle-market companies, we invest throughout the capital structure, which may include common and preferred equity, options and warrants, credit derivatives, high-yield bonds, distressed debt and other structured securities. We may from time-to-time invest up to 30% of our assets opportunistically in other types of investments, including securities of other public companies and foreign securities.

The senior and junior secured loans in which we invest generally have stated terms of three to ten years and the subordinated debt investments we make generally have stated terms of up to ten years, but the expected average life of such senior and junior secured loans and subordinated debt is generally between three and seven years. However, we may invest in securities of any maturity or duration. The debt that we invest in typically is not initially rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade (rated lower than “Baa3” by Moody’s Investors Service, lower than “BBB-” by Fitch Ratings or lower than “BBB-” by Standard & Poor’s). We may invest without limit in debt of any rating, as well as debt that has not been rated by any nationally recognized statistical rating organization.

We were incorporated on April 13, 2005, commenced operations with private funding on July 25, 2005, and completed our initial public offering on July 2, 2007. Since the commencement of our operations, the team of investment professionals of BlackRock Kelso Capital Advisors LLC (the “Advisor” or “BlackRock Kelso Capital Advisors”), including our senior management, has evaluated more than investment opportunities and completed investments, aggregating approximately \$ billion in capital provided to middle-market companies through , 20 .

During the ended , 20 , we invested \$ million across new and existing portfolio companies. This compares to investing \$ million across new and existing portfolio companies for the ended , 20 . Sales, repayments and other exits of investment principal totaled \$ million during the ended , 20 , versus \$ million during the ended , 20 .

At , 20 , our net portfolio consisted of portfolio companies and was invested % in senior secured loans, % in unsecured or subordinated debt securities, % in equity investments, % in senior secured notes and % in cash and cash equivalents. This compares to our portfolio of companies that was invested % in senior secured loans, % in unsecured or subordinated debt securities, % in senior secured notes, % in equity investments and less than % in cash and cash equivalents at , 20 . Our average portfolio company investment at amortized cost was approximately \$ million at , 20 , versus \$ million at , 20 .

The weighted average yields of the debt and income producing equity securities in our portfolio at fair value were % at , 20 and % at , 20 . The weighted average yields on our senior secured loans and other debt securities at fair value were % and %, respectively, at , 20 , versus % and % at , 20 . The weighted average yields of the debt and income producing equity securities in our portfolio at their current cost basis were % at , 20 and % at , 20 . The weighted average yields on our senior secured loans and other debt securities at their current cost basis were % and %, respectively, at , 20 , versus % and % at , 20 .

BlackRock Kelso Capital Advisors

Our investment activities are managed by the Advisor. The Advisor is responsible for sourcing potential investments, conducting research on prospective investments, analyzing investment opportunities, structuring our investments, and monitoring our investments and portfolio companies on an ongoing basis. The Advisor is led by James R. Maher, Chairman and Chief Executive Officer of the Company and the Advisor, and Michael B. Lazar, Chief Operating Officer of the Company and the Advisor. They are supported by the Advisor's team of employees, including investment professionals who have extensive experience in commercial lending, investment banking, accounting, corporate law and private equity investing.

The Advisor has an investment committee comprised of members, including Messrs. Maher and Lazar and several executives of BlackRock, Inc. ("BlackRock") and several of the principals of Kelso & Company, L.P. (the "Kelso Principals"). We benefit from the extensive and varied relevant experience of the BlackRock executives and the Kelso Principals serving on the Advisor's investment committee.

BlackRock is a leader in investment management, risk management and advisory services for institutional and retail clients worldwide. At , 20 , BlackRock's assets under management were \$ trillion.

The Kelso Principals have an average tenure of at least years at Kelso & Company, L.P. ("Kelso"). Kelso is a leading private equity firm and since 1980 has raised over \$ billion of committed private equity capital, investing primarily in middle-market companies across a broad range of industries and through different economic and interest rate environments. Through our relationship with the Kelso Principals, we have access to these management teams who can provide unique insight into the industries in which they operate. Although the Kelso Principals who serve on the investment committee bring the benefit of the expertise they have gained at Kelso and elsewhere, Kelso as an organization does not participate in the activities of the Advisor or advise us.

Our executive officers and directors and the employees of the Advisor and members of its investment committee serve or may serve as investment advisors, officers, directors or principals of entities or investment funds that operate in the same or a related line of business as we do and/or investment funds managed by our

affiliates. We note that any affiliated investment vehicle currently formed or formed in the future and managed by the Advisor or its affiliates may have overlapping investment objectives with our own and, accordingly, may invest in asset classes similar to those targeted by us. As a result, the Advisor and/or its affiliates may face conflicts in allocating investment opportunities between us and such other entities. Accordingly, we may not be given the opportunity to participate in certain investments made by investment funds managed by advisors affiliated with the Advisor. However, the Advisor and its affiliates will endeavor to allocate investment opportunities in a fair and equitable manner and consistent with applicable allocation procedures. In any such case, if the Advisor forms other affiliates in the future, we may co-invest on a concurrent basis with such other affiliates, subject to compliance with applicable regulations and regulatory guidance, as well as applicable allocation procedures. In certain circumstances, negotiated co-investments may be made only if we receive an order from the SEC permitting us to do so.

Administration

BlackRock, through its subsidiary, BlackRock Financial Management, Inc. (the “Administrator”), serves as our administrator and provides us with office space, equipment and office services. The Administrator processes our financial records, assists in the preparation of reports to our stockholders and reports filed with the SEC and generally monitors the payment of our expenses.

Company Information

Our administrative and executive offices are located at 40 East 52nd Street, New York, NY 10022, and our telephone number is (212) 810-5800.

RECENT DEVELOPMENTS

[Insert description at time of offering.]

SPECIFIC TERMS OF THE UNITS AND THE OFFERING

This prospectus supplement sets forth certain terms of the Units that we are offering pursuant to this prospectus supplement and supplements the accompanying prospectus that is attached to the back of this prospectus supplement. This section outlines the specific legal and financial terms of the Units. You should read this section together with the more general description of the Units in this prospectus supplement under the heading “Description of Our Units” and in the accompanying prospectus under the heading “Description of Our Units” before investing in the Units. Capitalized terms used in this prospectus supplement and not otherwise defined shall have the meanings ascribed to them in the accompanying prospectus.

[Insert material terms of the Units in tabular form to the extent required to be disclosed by applicable law or regulation.]

SELECTED FINANCIAL DATA

The Statement of Operations Data, Per Share Data and Balance Sheet Data for each of the five years in the period ended December 31, 20 are derived from our financial statements which have been audited by Deloitte & Touche LLP, our independent registered public accounting firm. [Quarterly financial information is derived from unaudited financial data, but in the opinion of management, reflects all adjustments (consisting only of normal recurring adjustments) that are necessary to present fairly the results of such interim periods. Interim results at and for the and months ended , 20 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 20 .]

This selected financial data should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” set forth in this prospectus supplement and our financial statements and related notes thereto included elsewhere in this prospectus supplement, as well as “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Senior Securities” and our financial statements and the related notes thereto included in the accompanying prospectus.

(1) The base management fee waiver terminated on June 30, 2007.

(2) Our common stock commenced trading on The NASDAQ Global Select Market on June 27, 2007. There was no established public trading market for the stock prior to that date.

(3) For the and months ended , 20 and , 20 and the years ended December 31, 20 and , total return is based on the change in market price during the respective periods. For the years ended prior to December 31, 20 , total return is based on the change in net asset value per common share during the respective year. The total return for the period June 26, 2007 through December 31, 2007 based on the change in market price per common share during such period was 1.2%. Total return calculations take into account dividends and distributions, if any, reinvested in accordance with our dividend reinvestment plan and do not reflect brokerage commissions. Total return is not annualized.

(4) Yield on investments at period end represents the weighted average yield on the debt and income producing equity securities in our portfolio at their current cost basis. Yields are computed using interest rates and dividend yields as of the balance sheet date and include amortization of loan origination and commitment fees, original issue discount and market premium or discount based on the expected cash flows of the respective portfolio investment. Yields exclude common equity investments, preferred equity investments with no stated dividend rate, short-term investments, cash and cash equivalents.

RISK FACTORS

[Insert risk factors applicable to the Units and any additional relevant risk factors not included in the base prospectus to the extent required to be disclosed by applicable law or regulation.]

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement, and other statements that we may make, may contain forward-looking statements with respect to future financial or business performance, strategies or expectations. Forward-looking statements are typically identified by words or phrases such as “trend,” “opportunity,” “pipeline,” “believe,” “comfortable,” “expect,” “anticipate,” “current,” “intention,” “estimate,” “position,” “assume,” “potential,” “outlook,” “continue,” “remain,” “maintain,” “sustain,” “seek,” “achieve” and similar expressions, or future or conditional verbs such as “will,” “would,” “should,” “could,” “may” or similar expressions.

Forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made, and we assume no duty to and do not undertake to update forward-looking statements. Actual results could differ materially from those anticipated in forward-looking statements and future results could differ materially from historical performance.

In addition to factors previously identified elsewhere in this prospectus supplement, including the “Risks” section of the accompanying prospectus, the following factors, among others, could cause actual results to differ materially from forward-looking statements or historical performance:

- our future operating results;
- our business prospects and the prospects of our portfolio companies;
- the impact of investments that we expect to make;
- our contractual arrangements and relationships with third parties;
- the dependence of our future success on the general economy and its impact on the industries in which we invest;
- the ability of our portfolio companies to achieve their objectives;
- our expected financings and investments;
- the adequacy of our cash resources and working capital, including our ability to obtain continued financing on favorable terms;
- the timing of cash flows, if any, from the operations of our portfolio companies;
- the impact of increased competition;
- the ability of the Advisor to locate suitable investments for us and to monitor and administer our investments;
- potential conflicts of interest in the allocation of opportunities between us and other investment funds managed by the Advisor or its affiliates;
- the ability of the Advisor to attract and retain highly talented professionals;
- fluctuations in foreign currency exchange rates;
- regulatory changes and other changes in law; and
- the impact of changes to tax legislation and, generally, our tax position.

The forward-looking statements in this prospectus supplement are excluded from the safe harbor protection provided by Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934.

USE OF PROCEEDS

We estimate that the net proceeds from the sale of Units that we are offering, after deducting estimated expenses of this offering payable by us, will be approximately \$ million [(or \$ million, if the over-allotment is exercised in full)] based on a public offering price of \$ per Unit.

[Describe use of proceeds and include any other relevant information to the extent required to be disclosed by applicable law or regulation.]

DESCRIPTION OF THE UNITS

This prospectus supplement sets forth certain terms of the Units that we are offering pursuant to this prospectus supplement and the accompanying prospectus. This section outlines the specific legal and financial terms of the Units. You should read this section together with the more general description of the Units in the accompanying prospectus under the heading “Description of Our Units” before investing in the Units. This summary is not necessarily complete and is subject to and entirely qualified by reference to [insert relevant documents].

[Insert material terms of the Units to the extent required to be disclosed by applicable law or regulation.]

CAPITALIZATION⁴

The following table sets forth our cash and capitalization as of _____, 20____ (1) on an actual basis and (2) as adjusted to reflect the effects of the sale of _____ Units in this offering at an offering price of \$ _____ per Unit. You should read this table together with “Use of Proceeds” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” set forth in this prospectus supplement and our financial statements and notes thereto, as well as “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our financial statements and notes thereto included in the accompanying prospectus.

	As of	, 20
	Actual	As Adjusted for this Offering(1)(4)
	(Dollars in thousands, except per share data)	
Cash and cash equivalents	\$	\$
Total assets	\$	\$
Borrowings under Credit Facility	\$	\$
Common stock, par value \$0.001 per share; _____ shares authorized, issued and outstanding, _____ shares issued and outstanding, as adjusted, respectively(2)	\$	\$
Capital in excess of par value	\$	\$
Distributable earnings(3)	\$	\$
Treasury stock	\$	\$
Total stockholders’ equity	\$	\$
Total capitalization	\$	\$

- (1) Does not include the underwriters’ over-allotment option.
- (2) Figures do not include _____ and _____ shares issued under our Dividend Reinvestment Plan on _____, 20____ and _____, 20____, respectively.
- (3) Includes cumulative net investment income or loss, cumulative amounts of gains and losses realized from investment and foreign currency transactions and net unrealized appreciation or depreciation of investments and foreign currencies, and distributions paid to stockholders other than tax return of capital distributions. Distributable earnings is not intended to represent amounts we may or will distribute to our stockholders.
- (4) As described under “Use of Proceeds,” we intend to use a part of the net proceeds from this offering initially to repay a portion of the borrowings outstanding under our Credit Facility. We have not yet determined how much of the net proceeds of this offering will be used for this purpose and, as a result, we have not reflected the consequences of such repayment in this table.

⁴ Add to Capitalization table securities comprising the Units.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS**

The information contained in this section should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this prospectus supplement.

Overview

[Insert Management's Discussion and Analysis of Financial Condition and Results of Operations from most recently filed Quarterly Report on Form 10-Q prior to the offering.]

SUPPLEMENT TO MATERIAL U.S. FEDERAL TAX MATTERS

[Insert disclosure regarding federal income tax consequences of an investment in the Units to the extent required to be disclosed by applicable law or regulation.]

The following table shows the underwriting discounts and commissions that we are to pay to the underwriters in connection with this offering. [These amounts are shown assuming both no exercise and full exercise of the underwriters' over-allotment option.]

	<u>No Exercise</u>	<u>Full Exercise</u>
Per Unit	\$	\$
Total	\$	\$

We estimate that our portion of the total expenses of this offering will be \$.

Until the distribution of the Units is completed, SEC rules may limit underwriters and selling group members from bidding for and purchasing the Units or [type of security]. However, the representatives may engage in transactions that stabilize the price of the Units, such as bids or purchases to peg, fix or maintain that price.

In connection with the offering, the underwriters may purchase and sell the Units in the open market. These transactions may include short sales, purchases on the open market to cover positions created by short sales and stabilizing transactions. Short sales involve the sale by the underwriters of a greater number of Units than they are required to purchase in the offering. "Covered" short sales are sales made in an amount not greater than the underwriters' over-allotment option described above. The underwriters may close out any covered short position by either exercising their over-allotment option or purchasing Units in the open market. In determining the source of Units to close out the covered short position, the underwriters will consider, among other things, the price of Units available for purchase in the open market as compared to the price at which they may purchase Units through the over-allotment option. "Naked" short sales are sales in excess of the over-allotment option. The underwriters must close out any naked short position by purchasing Units in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the Units in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of Units made by the underwriters in the open market prior to the completion of the offering.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of the Units or preventing or retarding a decline in the market price of the Units. As a result, the price of the Units may be higher than the price that might otherwise exist in the open market. The underwriters may conduct these transactions on , in the over-the-counter market or otherwise.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the Units. In addition, neither we nor any of the underwriters make any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

In connection with this offering, underwriters and selling group members may engage in passive market making transactions in the Units on in accordance with Rule 103 of Regulation M under the Exchange Act during a period before the commencement of offers or sales of Units and extending through the completion of distribution. A passive market maker must display its bid at a price not in excess of the highest independent bid of that security. However, if all independent bids are lowered below the passive market maker's bid, that bid must then be lowered when specified purchase limits are exceeded. Passive market making may cause the price of the Units to be higher than the price that otherwise would exist in the open market in the absence of those transactions. The underwriters and dealers are not required to engage in passive market making and may end passive market making activities at any time.

The underwriters have performed commercial banking, investment banking and advisory services for us, BlackRock Kelso Capital Advisors, and our affiliates from time to time for which they have received customary

fees and reimbursement of expenses. The underwriters may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business for which they may receive customary fees and reimbursement of expenses. [In addition, affiliates of the underwriters are lenders under our Credit Facility.]

At _____, 20____, Bank of America Corporation, an affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated, owned approximately ____% of the outstanding preferred and common stock of BlackRock, Inc. and had a ____% voting interest therein.

A prospectus supplement and prospectus in electronic format may be made available on the websites maintained by one or more of the underwriters. Other than the prospectus supplement and prospectus in electronic format, the information on any such underwriter's website is not part of this prospectus supplement and prospectus. The representatives may agree to allocate shares to underwriters that may make Internet distributions on the same basis as other allocations. In addition, shares may be sold by the underwriters to securities dealers who resell shares to online brokerage account holders.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

[Describe any other specific transactions and compensation related thereto to the extent required to be disclosed by applicable law or regulation.]

[Describe if underwriters receiving proceeds of offering, if required by FINRA.]

[Insert principal business addresses of underwriters.]

[Insert applicable legends for jurisdictions in which offers and sales may be made.]

LEGAL MATTERS

Certain legal matters in connection with the securities offered by this prospectus supplement and accompanying prospectus will be passed upon for us by Skadden, Arps, Slate, Meagher & Flom LLP, New York, New York. Attorneys at Skadden, Arps, Slate, Meagher & Flom LLP involved in the representation of the Company beneficially own less than percent of our common stock outstanding at . Certain legal matters will be passed upon for the underwriters by Sutherland Asbill & Brennan LLP, Washington, D.C.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Deloitte & Touche LLP is our independent registered public accounting firm.

ADDITIONAL INFORMATION

We have filed a registration statement with the SEC on Form N-2, including amendments, relating to the securities we are offering. This prospectus supplement does not contain all of the information set forth in the registration statement, including any exhibits and schedules it may contain. For further information concerning us or the securities we are offering, please refer to the registration statement. Statements contained in this prospectus supplement as to the contents of any contract or other document referred to are not necessarily complete and in each instance reference is made to the copy of any contract or other document filed as an exhibit to the registration statement. Each statement is qualified in all respects by this reference.

We file with or submit to the SEC annual, quarterly and current periodic reports, proxy statements and other information meeting the informational requirements of the Securities Exchange Act of 1934. This information and the information specifically regarding how we voted proxies relating to portfolio securities for the period ended , 20 , are available free of charge by contacting us at 40 East 52nd Street, New York, NY 10022 or by telephone at toll-free (212) 810-5800. You may inspect and copy these reports, proxy statements and other information, as well as the registration statement of which this prospectus forms a part and the related exhibits and schedules, at the Public Reference Room of the SEC at 100 F Street, N.E., Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Copies of these reports, proxy and information statements and other information may be obtained, after paying a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov, or by writing the SEC's Public Reference Section, Washington D.C. 20549-0102. In addition, the SEC maintains an Internet website that contains reports, proxy and information statements and other information filed electronically by us with the SEC at <http://www.sec.gov>.

No dealer, salesperson or other individual has been authorized to give any information or to make any representation other than those contained in this prospectus supplement and, if given or made, such information or representations must not be relied upon as having been authorized by us or the underwriters. This prospectus supplement does not constitute an offer to sell or a solicitation of an offer to buy any securities in any jurisdiction in which such an offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so, or to any person to whom it is unlawful to make such offer or solicitation. Neither the delivery of this prospectus supplement nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in our affairs or that information contained herein is correct as of any time subsequent to the date hereof.

Re: BlackRock Kelso Capital Corporation
File No. 333-176875 & 814-712

Dear Mr. Ganley:

We received your written comments on October 14, 2011 to the registration statement for BlackRock Kelso Capital Corporation (the "Fund") filed on Form N-2 on September 16, 2011 (the "Registration Statement"), in connection with the shelf registration of common stock, preferred stock, subscription rights, warrants, debt securities and units.

The Fund has considered your comments and has authorized us to make on its behalf the responses and amendments to the Registration Statement discussed below. For ease of reference, we have included your comments below followed by our responses. The captions and page numbers we use below generally correspond to those the Fund uses in its Registration Statement.

COMMENTS

FACING PAGE

Comment 1: Footnote (7) to the Calculation of Registration Fee table states that the Fund is registering an indeterminate principal amount of units and that each unit may consist of a combination of any of the securities being registered, and may include securities issued by third

parties, including the U.S. Treasury. Please provide us with an example of a “unit” and how it will be offered and priced. Please also provide an analysis explaining the basis for offering securities issued by third parties, including the U.S. Treasury. In your response please address the following:

- Should the Fund be deemed to be either a distributor or a co-issuer of securities issued by third parties?
- Would a registration statement be filed for securities issued by third parties?
- Would third party securities, including U.S. Treasuries, be purchased directly from the third party or in the secondary market?

In addition, please include in Part C of the registration statement an undertaking to file a post-effective amendment to the registration statement with respect to any offering of units.

Response: The Fund has included in Part C of the registration statement an undertaking to file a post-effective amendment to the registration statement with respect to any offering of units. Some types of units are in fact expressly referred to in the 1940 Act, such as units consisting of debt, preferred stock or common stock and warrants (see Section 61(a)(3)(A)). Other types of units have not yet been devised. The undertaking provided above will give the Staff the opportunity to review any new type of unit and the Fund believes that further discussion at this time would be unproductive speculation. To the Company’s knowledge, no other business development company has offered similar units; however, Ares Capital Corporation has included similar units in its recent registration statement. Inasmuch as specific types of units have not yet been identified and will be subject to further review, the Registrant believes it is not possible to discuss particular types of units.

PROSPECTUS

Cover Page

Comment 2: The fourth paragraph states that the securities registered in this registration statement may be offered at prices and on terms to be described in one or more supplements to the prospectus. Please include in the registration statement a form of prospectus supplement for each type of security registered. In addition, please include in Part C of the registration statement an undertaking to file a post-effective amendment to the registration statement with respect to any rights offering.

Response: The Fund has included in the registration statement a form of prospectus supplement for common stock, preferred stock, warrants, subscription rights, debt securities, and units. The Fund has included in Part C of the registration statement an undertaking to file a post-effective amendment to the registration statement with respect to any rights offering.

Special Note Regarding Forward-Looking Statements (Page 32)

Comment 3: Please state in this section that under Section 27A(b)(2)(B) of the Securities Act of 1933 and Section 21E(b)(2)(B) of the Securities Exchange Act of 1934, the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 do not apply to statements made in connection with any offering of securities pursuant to this prospectus or in periodic reports filed by the Fund.

Response: The Fund has added the requested disclosure.

Sales of Common Stock Below Net Asset Value (Page 51)

Comment 4: The third paragraph of this section states that the Fund will not sell shares of common stock (or any warrants, options, rights, or units to purchase share of common stock) under a prospectus supplement to the registration statement if the cumulative dilution to NAV per share from offerings under the current registration statement exceeds 15%. The last sentence of the paragraph states that if the Fund files a new post-effective amendment, the threshold would reset. Please explain to us what is meant by the last sentence. We may have additional comments after reviewing your response.

Response: The Fund has amended the first sentence of the section to clarify that the Fund will not sell shares of its common stock (or any warrants, options, rights or units to purchase shares of our common stock) under a prospectus supplement to the current registration statement without first filing a new post-effective amendment to the current registration statement if the cumulative dilution to the Fund's NAV per share from offerings under the current registration statement exceeds 15%.

Legal Matters (Page 148)

Comment 5: This section states that certain legal matters in connection with the securities offered will be passed upon by Skadden, Arps, Slate, Meagher & Flom LLP, New York, New York. Please include in Part C to the registration statement an undertaking that the Fund will file, at the time of each offering of securities, appropriate legality opinions by post-effective amendment to the registration statement.

Response: The Fund has included in Part C to the registration statement an undertaking that the Fund will file, at the time of each offering of securities, appropriate legality opinions by post-effective amendment to the registration statement.

GENERAL COMMENTS:

Comment 6: Where a comment is made in one location, it is applicable to all similar disclosure appearing elsewhere in the registration statement.

Response: The Fund acknowledges that where a comment is made in one location, it is applicable to all similar disclosure appearing elsewhere in the Registration Statement.

Comment 7: We note that portions of the filing are incomplete. We may have additional comments on such portions when you complete them in a pre-effective amendment, on disclosures made in response to this letter, on information supplied supplementally, or on exhibits added in any pre-effective amendments.

Response: The Fund acknowledges that the Staff may have additional comments on the disclosures made in response to Staff comments, on information supplied in this letter or otherwise supplementally or on any exhibits added in pre-effective amendments.

Comment 8: If you intend to omit certain information from the form of prospectus included with the registration statement that is declared effective in reliance on Rule 430A under the Securities Act, please identify the omitted information to us supplementally, preferably before filing the final pre-effective amendment.

Response: The Fund intends to omit information with respect to the following items from the form of prospectus included with the registration statement that is declared effective in reliance on Rule 430A under the Securities Act: public offering price, underwriting syndicate (including any material relationships between the registrant and underwriters not named therein), underwriting discounts or commissions, discounts or commissions to dealers, amount of proceeds, conversion rates, call prices and other items dependent upon the offering price, delivery dates and terms of securities covered under the registration statement that are dependent upon the offering date.

Comment 9: Please advise us if you have submitted or expect to submit an exemptive application or no-action request in connection with your registration statement.

Response: The Fund has not submitted, and does not expect to submit, an exemptive application or no-action request in connection with its Registration Statement.

Comment 10: Response to this letter should be in the form of a pre-effective amendment filed pursuant to Rule 472 under the Securities Act. Where no change will be made in the filing in response to a comment, please indicate this fact in a supplemental letter and briefly state the basis for your position.

Response: The Fund notes that Pre-Effective Amendment No. 1 to its Registration Statement filed on Form N-2 today and this letter dated March 22, 2012 set forth the Fund's responses to the Staff's comments.

Comment 11: We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filings reviewed by the staff to be certain that they have provided all information investors require for an informed decision. Since the Fund and its management are in possession of all facts relating to the Fund's disclosure, they are responsible for the accuracy and adequacy of the disclosures they have made.

Response: The Fund understands that:

- (a) the Fund is responsible for the adequacy and accuracy of the disclosure in the filings;
- (b) Staff comments or changes to disclosure in response to Staff comments in the filings reviewed by the Staff do not foreclose the Commission from taking any action with respect to the filings; and
- (c) the Fund may not assert Staff comments as a defense in any proceeding initiated by the Commission or any person under the federal securities laws of the United States.
